LISTE XL - COMMUNAUTE ECONOMIQUE EUROPEENNE [1]

NOTES GENERALES

I - Remarques:

- La concession de l'exemption représente dans certains cas l'élargissement à l'ensemble de la position tarifaire de la franchise consolidée antérieurement sur des extraits de cette position.

- Lorsqu'un taux d'imposition est fixé en fonction de la valeur de la marchandise sans autre précision, cette valeur est déterminée selon les règles découlant de la Convention de Bruxelles sur la valeur en douane des marchandises.

II - Explication des abréviations et signes:

Paragraphe 1.- Le signe (x) en regard de certaines lignes tarifaires signifie que l'admission dans cette position ou sous-position est subordonnée aux conditions à déterminer par les autorités compétentes.

Paragraphe 2.- L'abréviation (dc) signifie que la ligne tarifaire est déjà consolidée et ne constitue pas une nouvelle concession au titre du présent Protocole. Elle est reprise pour des raisons de présentation.

Paragraphe 3.- L'abréviation (das 1) en regard de certains taux signifie que la Communauté se réserve le droit de percevoir, en sus du droit consolidé, un droit additionnel sur le sucre, correspondant à la charge supportée à l'importation par le sucre, et applicable à la quantité de sucres divers (calculée en saccharose), contenue dans ce produit.

¹ For English translation see p. 3264. [Footnote added by the Department of State.]

Paragraphe 4.- L'abréviation (das 2) en regard de certains taux signifie que la Communauté se réserve le droit de percevoir, en sus du droit consolidé, un droit additionnel sur le sucre, correspondant à la charge supportée à l'importation par le sucre, et applicable à la quantité de sucres divers (calculée en saccharose), contenue dans ce produit, au-delà d'une teneur de X% en poids.

Ces teneurs limites, variables selon les produits, sont fixées comme suit :

Paragraphe 5.- L'abréviation (daf) en regard de certains taux signifie que la Communauté se réserve le droit de percevoir, en sus du droit consolidé, un droit additionnel sur la farine, correspondant à la charge supportée à l'importation par la farine, et applicable à la quantité de farine, contenue dans ces produits.

Paragraphe 6.- L'abréviation (em), figurant en regard de certains concessions, signifie que la Communauté se réserve le droit de percevoir, en sus du droit fixe ad valorem indiqué, un droit complémentaire dit "élément mobile" destiné à couvrir, pour les quantités de produits de base considérées comme étant entrées dans les marchandises en cause, l'incidence de la différence entre les prix desdits produits dans la Communauté d'une part, et ceux à l'importation en provenance des pays tiers d'autre part, lorsque le coût total desdites quantités de produits de base est plus élevé dans la C.E.E.

Paragraphe 7.- Le signe (C₁) signifie que la réalisation du taux final figurant en regard de certaines concessions est conditionnée par la suppression de la législation des Etats-Unis d'Amérique du Nord sur la valeur en douane dite "American Selling Price".

La non-suppression de cette législation a pour effet de suspendre la mise en oeuvre de la concession au niveau du taux de base réduit à concurrence des quatre dixièmes de l'écart entre le taux de base et le taux final.

Paragraphe 10.— Le signe (C₄) signifie que la consolidation de l'exemption est conditionnée par la suppression de la législation des Etats-Unis d'Amérique du Nord sur la valeur en douane dite "American Selling Price".

Paragraphe 11.— Le signe (cl) figurant en regard de certaines concessions signifie que leur mise en vigueur est subordonnée à l'acceptation de la prorogation de l'Accord à long terme sur les textiles de coton, par ses signataires actuels, et leur durée de validité est liée à la durée de l'Accord. .

Les réductions tarifaires prévues seront effectuées en trois tranches égales qui entreront en vigueur aux mêmes dates que celles retenues pour les trois premières tranches de réductions stipulées dans le Protocole .

SCHEDULE XL - EUROPEAN ECONOMIC COMMUNITY

GENERAL NOTES

I. Remarks

(i) In certain cases the granting of duty-free entry represents the extension to the whole of the tariff heading of the exemption previously bound on extracts from that heading.

(ii) When a rate of duty is fixed in terms of the value of the goods without further detail, this value is determined according to the rules of the Brussels Convention on the Valuation of Goods for Customs Purposes.^[1]

II. Explanation of abbreviations and signs

1. The sign (x) against certain tariff lines indicates that classification in that heading or subheading is subject to conditions to be determined by the competent authorities.

2. The abbreviation (ab) indicates that the tariff line is already bound and does not constitute a new concession for the purposes of this Protocol, being included for reasons of presentation.

3. The abbreviation (ads 1) against certain rates indicates that the Community reserves the right to charge, over and above the bound duty, an additional duty on sugar, corresponding to the duty payable on imported sugar and applicable to the quantity of different sugars (calculated in sucrose) contained in this product.

4. The abbreviation (ads 2) against certain rates indicates that the Community reserves the right to charge, over and above the bound duty, an additional duty on sugar, corresponding to the duty payable on imported sugar and applicable to the quantity of different sugars (calculated in sucrose) contained in this product in excess of X% by weight.

¹ 171 UNTS 305.

These minimum percentages, which vary according to product, are as follows:

Tariff Item Number	Description of Products	Percentages (by weight) representing natural sugar content
20.03	Fruit preserved by freezing, containing added sugar	13%
20.04	Fruit, fruit-peel and parts of plants, preserved by sugar (drained, glacé or crystallized)	13%
20.05	Jams, fruit jellies, marmalades, fruit purée and fruit pastes, being cooked preparations, whether or not containing added sugar	13%
20.06	Fruit otherwise prepared or preserved, whether or not containing added sugar or spirit: By Other: II. Not containing added spirit but containing added sugar, in immediate packings of a net capacity: (a) Of more than 1 kg: Pineapples, grapes, Other, including fruit mixtures	13% (a) 9% (a)
	(b) Of 1 kg or less: Pineapples, grapes, Other, including fruit mixtures	13% (a) 9% (a)

.../...

(a) For preserved pineapples, peaches, pears and apricots, however, the quantity of sugars (calculated in sucrose) in excess of the appropriate minimum percentages is not subject to the additional duty on sugar if it does not exceed 4% by weight of the preparation.

1	2	3
20.07 B	Fruit juices (including grape must) and vegetable juices, whether or not containing added sugar, but unfermented and not containing spirit, of a density of 1.33 or less at 15°C: I. Of grapes ex II. Of lemons ex IV. Of apples V. Of tomatoes All other fruit juices and vegetable juices of subheading No. 20.07 B, including mixtures	15% 3% 11% 3% 13%

5. The abbreviation (adf) against certain rates indicates that the Community reserves the right to charge, over and above the bound duty, an additional duty on flour, corresponding to the duty payable on imported flour and applicable to the quantity of flour contained in these products.

6. The abbreviation (vc) against certain concessions indicates that the Community reserves the right to charge, over and above the fixed ad valorem duty specified, a further duty, known as the "variable component", which is designed to cover, for the quantities of basic products deemed to be present in the goods concerned, the incidence of the difference between the prices of the said products in the Community and the prices of imports from non-member countries, where the total cost of the said quantities of basic products is higher in the EEC.

7. The sign (C₁) indicates that the final rate of certain concessions will be put into effect only if the United States abolishes the American Selling Price system of valuation.

If it is not abolished, the concession rate will be equivalent to the base rate less four tenths of the difference between the base rate and the final rate.

8. The sign (C_2) indicates that the final rate of certain concessions will be put into effect only if the United States abolishes the American Selling Price system of valuation.

If it is not abolished, the concession rate will be equivalent to the base rate less six tenths of the difference between the base rate and the final rate.

9. The sign (C_3) indicates that the final rate of certain concessions will be put into effect only if the United States abolishes the American Selling Price system of valuation.

If it is not abolished, the concession rate will be equivalent to the base rate less seven tenths of the difference between the base rate and the final rate.

10. The sign (C_4) indicates that duty-free entry will be bound only if the United States abolishes the American Selling Price system of valuation.

11. The sign (cl) against certain concessions indicates that they will be put into effect only if the extension of the long-term Arrangement on Cotton Textiles is accepted by its present signatories, and these concessions will remain in effect for a period linked to the duration of the Arrangement.

The tariff reductions envisaged will be made in three equal instalments to take effect on the same dates as those specified for the first three instalments of reductions mentioned in the Protocol.

SCHEDULE XL BIS

Member States of the

European Coal and Steel Community

This schedule is authentic only in the French language.

PART I

Most-Favoured-Nation Tariff

The concessions listed below include the contribution of the European Coal and Steel Community both to the 1964-67 multilateral trade negotiations, and to the negotiations held between the Governments of the Member States of the European Coal and Steel Community and other Contracting Parties, in accordance with Article XXIV, paragraph 6, of the General Agreement.

The differences existing between duties actually levied in each of the ECSC member States and the final offers of the Community will be gradually eliminated, on the basis of duties actually levied in each of the Member States on June 30, 1967, in accordance with the provisions of paragraph 2 of the Geneva Protocol (1967).

[Exchange of letters between the United States of America and Spain relating to olives] [¹]

JUNE 14, 1967

DEAR MR. COLMEIRO:

The United States concessions of direct benefit to Spain include concessions on the olives covered by TSUS 148.44 and 148.50. In our negotiations, your Delegation expressed concern over any change in United States customs treatment that would decrease the benefits of these concessions that the Government of Spain anticipates for olives in retail-sized containers in contrast to olives packed in bulk containers. Both Delegations gave special attention to the possibility that United States legislation would be enacted to alter the tariff treatment of olives in retail-sized containers in contrast to the tariff treatment of olives in bulk, either by an increase in the duties on the former, or by a decrease in the duties on the latter, or by a combination of both.

In the event of a change in United States tariff treatment which would deprive the Government of Spain of benefits that it would reasonably expect to accrue with regard to the olives packed for retail sale, the United States Government would accept a request by the Government of Spain to consult or to negotiate, as envisaged by GATT Article XXVIII, with a view to reestablishing the balance of concessions. If the United States Government is not able to satisfy the Government of Spain with compensatory United States concessions, the United States Government will accept the withdrawal, in whole or in part, by the Government of Spain, of concessions granted to the United States in a value equivalent to the loss of the anticipated benefits of the United States concessions with respect to olives in retail-sized containers.

JUNE 14, 1967

DEAR MR. LEWIS:

I have received your letter of June 14, 1967, which reads as follows:

"The United States concessions of direct benefit to Spain include concessions on the olives covered by TSUS 148.44 and 148.50. In our negotiations, your Delegation expressed concern over any change in United States customs treatment that would decrease the benefits of these concessions that the Government of Spain anticipates for olives in retail-sized containers in contrast to olives packed in bulk containers. Both Delegations gave special attention to the possibility that United States legislation would be enacted to alter the tariff treatment of olives in retail-sized containers in contrast to the tariff treatment of olives in bulk, either by an increase in the duties on the former, or by a decrease in the duties on the latter, or by a combination of both.

"In the event of a change in United States tariff treatment which would deprive the Government of Spain of benefits that it would reasonably expect to accrue with regard to the olives packed for retail sale, the United States Government would accept a request by the Government of Spain to consult or to negotiate, as envisaged by GATT Article XXVIII, with a view to reestablishing the balance of concessions. If the United States Government is not able to satisfy the Government of Spain with compensatory United States concessions, the United States Government will accept the withdrawal, in whole or in part, by the Government of Spain, of concessions granted to the United States in a value equivalent to the loss of the anticipated benefits of the United States concessions with respect to olives in retail-sized containers."

I wish to inform you that the terms of your letter are acceptable to my Government. I wish at the same time to reiterate that the great importance attached by my Government to obtaining the reduction or at least the binding of the present duties on tariff items No. 148.44 and No. 148.50 aims at avoiding a future differentiation in the customs treatment of olives in retail-sized containers and olives in bulk. In substance, the Spanish Government wishes to ensure the maintenance of the present conditions of access to the United States market of Spanish exports of olives in retail-sized containers.

Sincerely yours,

J COLMEIRO

José C. Colmeiro
