**AGREEMENT BETWEEN
THE GOVERNMENT OF THE UNITED STATES OF AMERICA
AND
THE GOVERNMENT OF THE DEMOCRATIC REPUBLIC OF THE SUDAN
FOR SALES OF AGRICULTURAL COMMODITIES**

The Government of the United States of America and the Government of the Democratic Republic of the Sudan:

Recognizing the desirability of expanding trade in agricultural commodities between the United States of America (hereinafter referred to as the exporting country) and the Democratic Republic of the Sudan (hereinafter referred to as the importing country) and with other friendly countries in a manner that will not displace usual marketings of the exporting country in these commodities or unduly disrupt world prices of agricultural commodities or normal patterns of commercial trade with friendly countries;

Taking into account the importance to developing countries of their efforts to help themselves toward a greater degree of self-reliance, including efforts to meet their problems of food production and population growth;

Recognizing the policy of the exporting country to use its agricultural productivity to combat hunger and malnutrition in the developing countries, to encourage these countries to improve their own agricultural production, and to assist them in their economic development;

Recognizing the determination of the importing country to improve its own production, storage, and distribution of agricultural food products, including the reduction of waste in all stages of food handling;

Desiring to set forth the understandings that will govern the sales of agricultural commodities to the importing country pursuant to Title I of the Agricultural Trade Development and Assistance Act, as amended^[1] (hereinafter referred to as the Act), and the measures that the two Governments will take individually and collectively in furthering the above-mentioned policies;

Have agreed as follows:

¹ 80 Stat. 1526; 7 U.S.C. 1701 *et seq.*

PART I - GENERAL PROVISIONS**ARTICLE I**

A. The Government of the exporting country undertakes to finance the sale of agricultural commodities to purchasers authorized by the Government of the importing country in accordance with the terms and conditions set forth in this agreement.

B. The financing of the agricultural commodities listed in Part II of this agreement will be subject to

- 1.** the issuance by the Government of the exporting country of purchase authorizations and their acceptance by the Government of the importing country; and
- 2.** the availability of the specified commodities at the time of exportation.

C. Application for purchase authorizations will be made within 90 days after the effective date of this agreement, and, with respect to any additional commodities or amounts of commodities provided for in any supplementary agreement, within 90 days after the effective date of such supplementary agreement. Purchase authorizations shall include provisions relating to the sole and delivery of such commodities, and other relevant matters.

D. Except as may be authorized by the Government of the exporting country, all deliveries of commodities sold under this agreement shall be made within the supply periods specified in the commodity table in Part II.

E. The value of the total quantity of each commodity covered by the purchase authorizations for a specified type of financing authorized under this agreement shall not exceed the maximum export market value specified for that commodity and type of financing in Part II. The Government of the exporting country may limit the total value of each commodity to be covered by purchase authorizations for a specified type of financing as price declines or other marketing factors may require, so that the quantities of such commodity sold under a specified type of financing will not substantially exceed the applicable approximate maximum quantity specified in Part II.

F. The Government of the exporting country shall bear the ocean freight differential for commodities the Government of the exporting country requires to be transported in United States flag vessels (approximately 50 percent by weight of the commodities sold under the agreement). The ocean freight differential is deemed to be the amount, as determined by the Government of the exporting country, by which the cost of ocean transportation is higher (than would otherwise be the case) by reason of the requirement that the commodities be transported in United States flag vessels. The Government of the importing country shall have no obligation to reimburse the Government of the exporting country for the ocean freight differential borne by the Government of the exporting country.

G. Promptly after contracting for United States flag shipping space to be used for commodities required to be transported in United States flag vessels, and in any event not later than presentation of vessel for loading, the Government of the importing country or the purchasers authorized by it shall open a letter of credit, in United States dollars, for the estimated cost of ocean transportation for such commodities.

H. The financing, sale, and delivery of commodities under this agreement may be terminated by either Government if that Government determines that because of changed conditions the continuation of such financing, sale, or delivery is unnecessary or undesirable.

ARTICLE II

A. Initial Payment

The Government of the importing country shall pay, or cause to be paid, such initial payment as may be specified in Part II of this agreement. The amount of this payment shall be that portion of the purchase price (excluding any ocean transportation costs that may be included therein) equal to the percentage specified for initial payment in Part II and payment shall be made in United States dollars in accordance with the applicable purchase authorization.

B. Currency Use Payment

The Government of the importing country shall pay, or cause to be paid, upon demand by the Government of the exporting country in amounts as it may determine, but in any event no later than one year after the final disbursement by the Commodity Credit Corporation under this agreement, or the end of the supply period, whichever is later, such payment as may be specified in Part II of this agreement pursuant to Section 103(b) of the Act (hereinafter referred to

as the Currency Use Payment). The currency use payment shall be that portion of the amount financed by the exporting country equal to the percentage specified for currency use payment in Part II. Payment shall be made in accordance with paragraph H and for purposes specified in Subsection 104(a), (b), (e) and (h) of the act, as set forth in Part II of this agreement. Such payment shall be credited against (a) the amount of each year's interest payment due during the period prior to the due date of the first installment payment, starting with the first year, plus (b) the combined payments of principal and interest starting with the first installment payment, until the value of the currency use payment has been offset. Unless otherwise specified in Part II, no requests for payment will be made by the Government of the exporting country prior to the first disbursement by the Commodity Credit Corporation of the exporting country under this agreement.

C. Type of Financing

Sales of the commodities specified in Part II shall be financed in accordance with the type of financing indicated therein. Special provisions relating to the sale are also set forth in Part II.

D. Credit Provisions

1. With respect to commodities delivered in each calendar year under this agreement, the principal of the credit (hereinafter referred to as principal) will consist of the dollar amount disbursed by the Government of the exporting country for the commodities (not including any ocean transportation costs) less any portion of the initial payment payable to the Government of the exporting country.

The principal shall be paid in accordance with the payment schedule in Part II of this agreement. The first installment payment shall be due and payable on the date specified in Part II of this agreement. Subsequent installment payments shall be due and payable at intervals of one year thereafter. Any payment of principal may be made prior to its due date.

2. Interest on the unpaid balance of the principal due the Government of the exporting country for the commodities delivered in each calendar year shall be paid as follows:

- a. In the case of Dollar credit, interest shall begin to accrue on the date of last delivery of these commodities in each calendar year. Interest shall be paid not later than the due date of each installment payment of principal, except that if the date of the first installment is more than a year after such date of last delivery, the first payment of interest shall be made not later than the anniversary date of such

date of last delivery and thereafter payment of interest shall be made annually and not later than the due date of each installment payment of principal.

- b. In the case of Convertible Local Currency Credit, interest shall begin to accrue on the date of dollar disbursement by the Government of the exporting country. Such interest shall be paid annually beginning one year after the date of last delivery of commodities in each calendar year, except that if the installment payments for these commodities are not due on some anniversary of such date of last delivery, any such interest accrued on the due date of the first installment payment shall be due on the same date as the first installment and thereafter such interest shall be paid on the due dates of the subsequent installment payments.
3. For the period of time from the date the interest begins to the due date for the first installment payment, the interest shall be computed at the initial interest rate specified in Part II of this agreement. Thereafter, the interest shall be computed at the continuing interest rate specified in Part II of this agreement.

E. Deposit of Payments

The Government of the importing country shall make, or cause to be made, payments to the Government of the exporting country in the currencies, amounts, and at the exchange rates provided for in this agreement as follows:

1. Dollar payments shall be remitted to the Treasurer, Commodity Credit Corporation, United States Department of Agriculture, Washington, D.C. 20520, unless another method of payment is agreed upon by the two Governments.
2. Payments in the local currency of the importing country (hereinafter referred to as local currency), shall be deposited to the account of the Government of the United States of America in interest bearing accounts in banks selected by the Government of the United States of America in the importing country.

F. Sales Proceeds

The total amount of the proceeds accruing to the importing country from the sale of commodities financed under this agreement, to be applied to the economic development purposes set forth in Part II of this agreement, shall be not less than the local currency equivalent of the dollar disbursement by the Government of the exporting country in connection with the financing of the commodities

(other than the ocean freight differential), provided, however, that the sales proceeds to be so applied shall be reduced by the currency use payment, if any, made by the Government of the importing country. The exchange rate to be used in calculating this local currency equivalent shall be the rate at which the central monetary authority of the importing country, or its authorized agent, sells foreign exchange for local currency in connection with the commercial import of the same commodities. Any such accrued proceeds that are loaned by the government of the importing country to private or non-governmental organizations shall be loaned at rates of interest approximately equivalent to those charged for comparable loans in the importing country. The Government of the importing country shall furnish, in accordance with its fiscal year budget reporting procedure, at such times as may be requested by the Government of the exporting country but not less often than annually, a report of the receipt and expenditure of the proceeds, certified by the appropriate audit authority of the Government of the importing country, and in case of expenditures the budget sector in which they were used.

G. Computations

The computation of the initial payment, currency use payment and all payments of principal and interest under this agreement shall be made in United States dollars.

H. Payments

All payments shall be in United States dollars or, if the Government of the exporting country so elects,

1. The payments shall be made in readily convertible currencies of third countries at a mutually agreed rate of exchange and shall be used by the Government of the exporting country for payment of its obligations or, in the case of currency use payments, used for the purposes set forth in Part II of this agreement; or
2. The payments shall be made in local currency at the applicable exchange rate specified in Part I, Article III, G of this agreement in effect on the date of payment and shall, at the option of the Government of the exporting country, be converted to United States dollars at the same rate, or used by the Government of the exporting country for payment of its obligations or, in the case of currency use payments, used for the purposes set forth in Part II of this agreement in the importing country.

ARTICLE III

A. World Trade

The two Governments shall take maximum precautions to assure that sales of agricultural commodities pursuant to this agreement will not displace usual marketings of the importing country in these commodities or unduly disrupt world prices of agricultural commodities or normal patterns of commercial trade with countries the Government of the exporting country considers to be friendly to it (referred to in this agreement as friendly countries). In implementing this provision the Government of the importing country shall:

1. insure that total imports from the exporting country and other friendly countries into the importing country paid for with the resources of the importing country will equal at least the quantities of agricultural commodities as may be specified in the usual marketing table set forth in Part II during each import period specified in the table and during each subsequent comparable period in which commodities financed under this agreement are being delivered. The imports of commodities to satisfy these usual marketing requirements for each import period shall be in addition to purchases financed under this agreement.
2. take steps to assure that the exporting country obtains a fair share of any increase in commercial purchases of agricultural commodities by the importing country.
3. take all possible measures to prevent the resale, diversion in transit, or transhipment to other countries or the use for other than domestic purposes of the agricultural commodities purchased pursuant to this agreement (except where such resale, diversion in transit, transhipment or use is specifically approved by the Government of the United States of America); and
4. take all possible measures to prevent the export of any commodity of either domestic or foreign origin, which is defined in Part II of this agreement, during the export limitation period specified in the export limitation table in Part II (except as may be specified in Part II or where such export is otherwise specifically approved by the Government of the United States of America).

B. Private Trade

In carrying out the provisions of this agreement, the two Governments shall seek to assure conditions of commerce permitting private traders to function effectively.

C. Self-Help

Part II describes the program the Government of the importing country is undertaking to improve its production, storage, and distribution of agricultural commodities. The Government of the importing country shall furnish in such form and at such time as may be requested by the Government of the exporting country, a statement of the progress the Government of the importing country is making in carrying out such self-help measures.

D. Reporting

In addition to any other reports agreed upon by the two governments, the Government of the importing country shall furnish at least quarterly for the supply period specified in Part II, Item I of this agreement and any subsequent comparable period during which commodities purchased under this agreement are being imported or utilized:

1. the following information in connection with each shipment of commodities under the agreement: the name of each vessel; the date of arrival; the port of arrival; the commodity and quantity received; and the condition in which received.
2. a statement by it showing the progress made toward fulfilling the usual marketing requirements;
3. a statement of the measures it has taken to implement the provisions of Sections A.2. and 3. of this Article; and
4. statistical data on imports by country of origin and exports by country of destination, of commodities which are the same as or like those imported under the agreement.

E. Procedures for Reconciliation and Adjustment of Accounts

The two Governments shall each establish appropriate procedures to facilitate the reconciliation of their respective records on the amounts financed with respect to the commodities delivered during each calendar year. The Commodity Credit Corporation of the exporting country and the Government of the importing country may make such adjustments in the credit accounts as they mutually decide are appropriate.

F. Definitions

For the purposes of this agreement:

1. delivery shall be deemed to have occurred as of the on-board date shown in the ocean bill of lading which has been signed or initialed on behalf of the carrier.
2. import shall be deemed to have occurred when the commodity has entered the country, and passed through customs, if any, of the importing country; and
3. utilization shall be deemed to have occurred when the commodity is sold to the trade within the importing country without restriction on its use within the country or otherwise distributed to the consumer within the country.

G. Applicable Exchange Rate

Contribute program support funds to the Provincial Development Fund to be used to finance eligible projects at the local level which will be self-help in nature and designed to increase agricultural production, improve health education and social services, conserve limited natural resources, and improve credit availability for small-scale farmers.
 - c. Expand training programs and opportunities for mid-level management and technical personnel throughout those government agencies responsible for development planning and programs.
6. Expand and improve social services provided by the Ministry of Health (MOH) and other related agencies to the rural poor population of Sudan. Among the activities and programs to be undertaken should be construction of primary health care warehouses for drugs and medical supplies, construction of primary health care units and dispensaries, construction of safe water wells, and the administration of training programs for Ministry of Health personnel.
7. In cooperation with appropriate national/international organizations and the Government of the United States of America, namely the United States Department of Agriculture/United States Agency for International Development, conduct an official review of the current supply, distribution and trade data in the agricultural sector to determine completeness and validity for its utilization for economic development and related research analysis and projection and for Public Law 480-type programming. ANNEX A

PL 480 TITLE I AGREEMENT PROVIDING FOR A TITLE III
FOOD FOR DEVELOPMENT PROGRAM

The Government of the United States of America (USG), the exporting country, and the Government of the Democratic Republic of the Sudan (GOS), the importing country:

Recognizing the policy of the USG to use its agricultural productivity in a manner which will establish a strong relationship between food assistance and efforts by the GOS to increase the availability of food for the poor, and to improve in other ways the quality of their lives; and

Having agreed upon a proposal for the intended use of commodities or funds generated from the sale of such commodities to increase the access of the poor in Sudan to a growing and improving food supply through activities designed to improve the production, protection and utilization of food, and to increase the well-being of the poor in the rural sector of Sudan; and

Desiring to set forth the understanding that will govern the sale of agricultural commodities in Sudan in order to carry out the above-mentioned proposal pursuant to the authority of the Agricultural Trade Development and Assistance Act of 1954, as amended (hereinafter referred to as the Act), and the measures the two governments will undertake to further the above-mentioned policies;

Agree as follows:

Item I. Responsibilities of the USG:

A. Subject to the availability of funds and commodities, the USG agrees to furnish credit under authority of Title I of the Act to the GOS for the purchase of agricultural commodities and to carry out the provisions of the Food for Development Program as set forth in Annex B of this agreement.

B. On receipt of satisfactory evidence of disbursements from the special account for eligible uses by the GOS described below for the activities and/or programs described in Annex B, the USG will apply such disbursements against the Title I payment obligation incurred under this agreement as set forth in Items II and III below.

Item II. Responsibilities of the GOS:

- A. The GOS agrees to carry out the program detailed in Annex B. In carrying out such program, the GOS agrees that it will :
1. Use the proceeds generated from the sale of agricultural commodities financed under this agreement to finance the development activities specified in Annex B.
 2. Submit an or before November 1 of each year during the period of this agreement a comprehensive report to the USG on the activities and progress achieved under the Food for Development Program, for the United States fiscal year ending September 30 including, but not limited to, a comparison of results with program targets, a specific accounting for commodities and funds generated, their uses, the outstanding balances at the end of the most recent fiscal year, and any recommendations of the GOS for modification and improvement of the Food for Development Program.
 3. Maintain adequate records for not less than three years after completion of the program to permit review and audit by the USG of measures taken to implement the Food for Development Program.

B. The Government of Sudan agrees to establish a special account in which it will deposit the proceeds and to maintain this account subject to the following conditions

1. The local currency equivalent of each dollar disbursement by CCC will be deposited not later than six calendar months after the date of disbursement by CCC, using the exchange rates specified in Part I, Article III G, as of the date of disbursement by CCC.
2. Local currency deposited will be disbursed for the program set forth in Annex B of this agreement.

Item III. Credit for Title I Loan Indebtedness:

The USG and the GOS agree that :

- A. The dollar equivalent of local currency disbursed for eligible uses identified in Annex B shall be calculated at the exchange rate specified in Part I, Article III G of the agreement, applicable on the date of disbursement from the special account. Disbursements of funds from the special account for

purposes specified in Annex B and in accordance with the provisions of this agreement, in an amount equivalent to the dollar value of the credit furnished by the Government of the exporting country under this agreement, shall be deemed to be payment of all installments of principal and interest payable thereon for the commodities financed under this agreement except as hereinafter provided with respect to the election by the Government of the importing country to apply excess disbursements to repayment of obligations under other PL 480 financing agreements. The dollar equivalent value of local currency disbursements in excess of the amount of the annual repayment obligations of the Government of the importing country in any fiscal year may, at the election of such country, be credited as payment of its annual repayment obligations for that fiscal year under other PL 480 financing agreements at the rate of exchange applicable on date of disbursement. The Government of the importing country agrees to notify the Government of the exporting country of its election to credit excess disbursements against designated obligations under other PL 480 financing agreements not less than 30 days prior to the due date(s) of the payment(s) against which the equivalent dollar value of the excess disbursement is to be applied, for purposes of the aforementioned repayment provisions the "fiscal year" shall begin on October 1 and end on September 30 for the term of this agreement.

B. For the period during which disbursements are made in accordance with Paragraph A above, the GOSwill furnish the USG a quarterly report of the deposits and disbursements made, certified by the appropriate audit authority of the GOS and a description of the activities for which the disbursements were made.

C. Not less than 60 days before the first Title I loan installment becomes due under the terms of Part II, Item II of this agreement, the Government of the exporting country will furnish a repayment schedule, a schedule of amounts disbursed from the special account showing applications to Title I payment obligations will also be furnished. Revised currency use offset schedules showing additional disbursements and applications will be furnished as appropriate.

D. The Government of the exporting country reserves the right to review use of disbursements and to determine eligibility for application against Title I payment obligations under this Agreement. If the Government of the exporting country determines that a disbursement was made for an ineligible use, notice of such ineligibility shall be given by the Government of the exporting country to the Government of the importing country, and the two Governments shall, upon the request of either, consult regarding such ineligibility. If the notice of ineligibility is not rescinded by the Government of the exporting country within 90 days of receipt of such notice by the Government of the importing country, disbursements for ineligible uses shall not be eligible for application to any indebtedness, and, at the option of the Government of the exporting country, the equivalent amount shall be restored to the special account. To the extent that any disbursements for ineligible uses were previously applied by the Government

of the exporting country against the Title I payment obligation such application will be cancelled.

E. The Government of the exporting country shall have the right at reasonable times to inspect projects and inspect and audit records, procedures, and methods pertaining to the disbursements made from the special account.

F. If currencies remain in the special account after completion of the program set forth in Annex B, the Government of the importing country shall use the remaining currencies for the self-help measures specified in Item V of Part II of the Agreement and/or for such economic development purposes set forth in Item VI of Part II of the Agreement as the two Governments may agree.

G. Annually at such times as the two Governments may agree, representatives of the parties will meet in a place mutually agreed upon to discuss and review the progress of the Food for Development Program, to consider modification and improvements, and to determine the amounts and kinds of commodities to be financed under this agreement during that year of the Food for Development Program.

Item IV. Implementation of the Food for Development Program :

A. The Food for Development Program, which is further described in Annex B, will consist of activities of the Government of the importing country designed to meet the country's foodgrain requirements, to redirect food production and pricing policies within the context of the Government's national food security strategy, and to mobilize local currency resources for uninterrupted development of the Sudanese traditional sector. Annex B amplifies the above description of the Food for Development Program.

B. From time to time, the parties may use jointly agreed-upon implementation letters to confirm and record their mutual understanding on aspects of the implementation of this Agreement. Implementation letters will not be used to amend the text of this Agreement but can be used to record revisions or exceptions which are permitted by the Agreement.

C. For the purpose of negotiating and executing implementation letters, the Government of the importing country will be represented by the individual holding or acting in the Office of the Minister of Cooperation, Commerce and Supply and the exporting country will be represented by the individual holding or acting in the office of the U.S. Ambassador, each of whom, by written notice may designate additional representatives. Each party will provide the other party with

the names of its representatives and their specimen signatures, and may accept, as duly authorized, any implementation letters signed by any one of such representatives of the other party prior to receipt of written notice of revocation of their authority.

D. That during the period of execution of the Food for Development Program the GOS will assure that public sector expenditure, apart from those made available under the Food for Development Program, for those GOS agencies involved will not decrease in real terms, i.e., adjusted for inflation.

Item V. Suspension of the Agreement :

The Government of the exporting country shall annually review the performance and implementation of this Agreement by the Government of the importing country. If the Government of the exporting country finds that the provisions of this Agreement are not being substantially met, no further financing under this Agreement shall be extended until the end of the following United States fiscal year or until the situation is remedied, whichever occurs first, unless the failure to meet the provisions is due to unusual circumstances beyond the control of the Government of the importing country.

Item VI. Program Description :

The PL 480 Title III, Food for Development Program calls for :

A. A five-year program with an approximate value of U.S. \$100,000,000 in Sudanese pounds to carry out the program described in Annex A, IV above and as further delineated in Annex B.

During the first year, the GOS will concentrate on Title III activities described in Annex B of this Agreement. Based on experience earned and comparative evaluation criteria developed during that year, improvement will be made for programming in subsequent years.

ANNEX BPROGRAM DESCRIPTIONITEM I: OVERALL GOAL

The goal of this Food for Development Program is to assist the Government of the Democratic Republic of the Sudan (GOS) with its severe economic burden brought on by the stringent Sudan Stabilization Reform Program and to enhance Sudanese commitment to basic human needs by assuring that budget allocations to the needy rural traditional sector are not disproportionately reduced as a result of the Sudan Stabilization Reform Program. This will be achieved by :

- A. Reducing the foreign exchange demands placed on Sudan as a result of its efforts to meet increased food needs while efforts are underway to increase local production by providing a long-term U.S. credit of \$100 million over the next five years to finance commercial wheat imports.
- B. Providing local currency for activities designed to assist the poor in the rural sector through activities in agriculture, transportation, health and rural planning.
- C. Supporting the Sudan Stabilization Reform Program, in which the GOS has adopted the basic policies of improving the contribution of agriculture to increase local production, export earnings and rural incomes by adjusting export taxes, land and water taxes, and providing other incentives.

ITEM II: PROGRAM OBJECTIVES

The approval for this five-year Title III program in Sudan is based on the analyses and justification presented in "The Government of the Democratic Republic of Sudan (GOS), Food for Development Program P. L. 480 Title III FY 1979-FY 1983" and supplement dated April 1979.

The Title III program will provide the Sudan with approximately \$100 million over a five-year period (FY 1980-1984). Hard currency that otherwise would have to be borrowed to finance commercial wheat imports will be invested in export earning and import substitution projects.

The Government of Sudan agrees that local currencies generated by the sales of Title III wheat will be used to cover local costs of ongoing and

specifically approved new development projects in the rural areas that otherwise would suffer delay or elimination due to the austere development budget recently promulgated as part of the Sudan Stabilization Reform Program.

The following food/agricultural policy measures, which are part of the current GOS Stabilization Reform Program, provide an important framework within which project activities can have their greatest impact:

1. Elimination of the export taxes on cotton.
2. Implementation of land and water charges on the production of wheat, groundnuts, rice and vegetables in the Gezira area.
3. Execution of institutional and organizational changes in the agricultural sector which increases the incentives to individual tenant farmers.
4. Phasing out of sorghum cultivation in the irrigated agricultural areas.

ITEM III: PROGRAM DESCRIPTION

A. Policy Activities :

In addition to continuing the aforementioned agricultural policy reforms noted in Item II, various policy analyses will be completed during the life of the Title III program.

Given the amount of research supported under Title III and the desirability of analyzing in greater detail food production and marketing issues, the following schedule of activities and benchmarks, subject to annual evaluations, will be undertaken during this agreement by the GOS :

Study #1 : Compare real costs of growing wheat in Sudan with imported wheat including transportation costs to Khartoum.

Study #2 : Examine the impact on wheat and cotton production of rationalizing water and other charges between these crops in the Gezira.

Study #3: Assess the effects from the removal of wheat subsidies on the consumption of wheat and sorghum.

Study #4: Assess effectiveness and any changes needed in the wheat research and production program of the GOS.

| <u>Year</u> | <u>ACTIVITIES</u> |
|-------------|---|
| 1 | <ul style="list-style-type: none"> (a) Establish priorities and scopes of work for policy study requirements with special attention given to the policy areas outlined in above and policy objectives in Item II. (b) Initiate at least two studies of the policy areas identified above. |
| 2 | <ul style="list-style-type: none"> (a) Complete policy studies prioritized and not completed in year No. 1. (b) Start an overall assessment of GOS food production/marketing goals and policies, with particular emphasis on wheat and sorghum. |
| 3-5 | <ul style="list-style-type: none"> (a) Agricultural policy recommendations will be determined as a result of the analyses and associated conclusions drawn in years 1 and 2. |

B. Summary Project Descriptions and Evaluation Benchmarks :

The Government of Sudan agrees that local currencies generated by the sale of Title III wheat will be used to cover local costs of ongoing and specifically agreed upon new development projects that otherwise would suffer delays or diminution due to the austere development budget recently promulgated as part of the GOS Stabilization Reform Program. All of the proposed projects are designed, and two are already under implementation. The projects which will be carried out by line institutions in Sudan over a five-year period (U.S. FY's 1980-84) are as follows:

| | <u>Total U.S. \$ Millions</u> |
|---|-------------------------------|
| 1. Railway Rehabilitation | 27,500 |
| 2. Agricultural Sector Projects | 17,331 |
| 3. Health Sector Projects | 7,429 |
| 4. Rural Planning | 38,940 |
| 5. River Transport Rehabilitation | 5,000 |
| 6. University of Gezira Outreach Program | 0,800 |
| 7. Desert Encroachment Control and Rehabilitation | <u>3,000</u> |
| Total (U.S. \$ Rounded) | 100,000 |

U.S. FY 1980 through FY 1984 activities have tentative disbursement and implementation schedules outlined in Tables B:1-7.¹ The Title III program will provide resources for projects outlined in the program proposal. These projects were identified, analyzed and selected by the GOS and USG on the basis of their expected impact on the traditional sector in the West and South.

1. Railway Rehabilitation Project:

FY 1980 Activities:

Sudan Railway Corporation (SRC) will install half of the Babanousa to Wau ground cable (225 kms) necessary for scheduling of trains, commodity deliveries and operating safety. The remainder of the cable will be installed in FY 1981. The SRC will also drill and establish 27 bore hole water stations along its western route in FY 1980 so that maintenance crews and station personnel will have drinking water. The rail wagons that now have to carry water to these distant points will be available for carrying fuel and other necessary goods. The original proposal and supplement dated April 1979, which are integral parts of this agreement, provide detailed description of these projects.

The cost budgeted for laying the ground cable in FY 1980 is \$2.4 million. The whole station watering budget (\$2.8 million) would be disbursed in forward purchasing of local materials for the stations and fuel. The sleepers (wood ties) and other local materials required for the Aradeiba/Abu Zabab Rehabilitation Works (\$2.5 million) and Western Sudan Stations and Quarters Construction (\$2.2 million) would be ordered in FY 1980.

Depending on progress made in FY 1980 and FY 1981, activities for FY 1982 through FY 1984 will be based on the tentative implementation plan presented in Table B: 3.

¹ Not printed. Available from the Office of Treaty Affairs, Department of State.

2. Agricultural Sector Support Projects :

The Ministry of Agriculture, Food and Natural Resources will begin implementation of a program in FY 1980/81: (a) conduct area frame sampling in the four western provinces; and (b) increase the productivity and overall capability of the Agricultural Economics and Livestock Departments.

The Rural Water Corporation will construct 20 bore wells and shallow wells along the approved livestock route. It will also construct up to 81 aquifers, bore wells and shallow wells in small farmer agricultural settlements in the four western provinces. The Southern Rural Water Department will carry out a similar effort in the South, with an expected target of 53 water catchments and shallow wells. The total local currency costs of these activities would be approximately \$3.81 million.

With respect to adaptive research, the staff of the Agricultural Research Corporation (ARC) will conduct research to improve the production, marketing and storage of small grains such as wheat, sorghum and millet. The research will include investigation of the incentive structure for the supply and demand of grains. The total local currency funding for this activity is expected to be approximately U.S. \$800,000 over the five-year period.

A tentative schedule of implementation targets of the Agricultural Sector Support are presented for FY 1981-84 in Table B: 4.

Prior to any disbursements from the Special Account for the above agricultural activities, the GOS will submit, in terms and substance satisfactory to the USAID, evidence that any required foreign exchange and technical experts are available.

3. Health Sector Support :

The Ministry of Health in the North will contract in FY 1981 for the construction of four medical supply warehouses, 94 bore wells and 200 water station protection works. This will represent disbursements from the Special Account totaling \$500,000 in FY 1981. The Southern Ministry of Health will also contract for the construction of 31 primary health care units, 60 shallow wells and 200 water station protection works at an approximate total local currency cost of \$527,000.

A tentative schedule of implementation targets for FY 1981-84 is presented in Table B: 5. Revisions will be made to reflect previous year's progress and evaluation.

Prior to any disbursements from the Special Accounts for the above health activities, the GOS will submit, in terms and substance satisfactory to the USAID, evidence that any required foreign exchange and technical expertise are available.

4. Rural Planning :

- a. In FY 1980 both the Ministries of National Planning and the Southern Regional Ministry of Planning will contract with their respective Ministries of Public Works or through private contractors for the construction of provincial planning offices -- six in the North and 6 in the South. The local currency cost of constructing these facilities from locally available materials is \$2.16 million. Approximately \$300,000 will be disbursed also for planning support and in-country training. An additional \$1.0 million will be allocated to the Southern Regional Development Fund to meet the needs of provincial grassroot development projects in the traditional sector

This project is presented in detail in the AID/GOS Agreement, Rural Planning Project (650-0012) and is an integral part of this agreement.

- b. Under the Provincial Development Fund, project selection criteria must be established and completed by GOS planning staff in Khartoum and regional staff in Juba, before any projects are approved. These criteria will then be transmitted to Provincial Planning Offices for use in identifying and designing provincial and district level projects. Project proposals may then be submitted to the central planning offices (Khartoum for 12 northern provinces and Juba for six southern provinces) for review by GOS planning staff. Both offices will have one resident USG-sponsored expert in provincial planning, area development and related topics. Financed under the Rural Development Project (No. 650-0012), part of the responsibility of these technicians will be to train GOS planning staff in project evaluation from the point of technical feasibility, cost-benefit, benchmarks and development impact.
- c. The disbursement of funds from the Title III special account for approved projects from Provincial Development Fund (PDF) will be carried out by the Ministry of Finance. Periodic audits of the PDF will be conducted by the GOS Auditor General's Office. Provincial

TIAS 10727

planners will be required to maintain project records. Annual summary reports will be prepared in each province listing project categories implemented, stage of implementation and funding disbursements by category. Summary reports from all 18 provinces will be sent to Central Planning Offices and USG at the end of the U.S. fiscal year. The GOS/USG rural planning project staff will conduct project evaluations in four provinces. In addition, independent Sudanese evaluation specialists, financed under contract using Title III resources, will conduct periodic and annual surveys of sample projects.

5. River Transport Rehabilitation :

The River Transport Corporation (RTC) will carry out a feasibility study of communication and navigational aids and improvements along Sudan's southern waterways. Such a study will permit the RTC to program the utilization of new vessels and barges provided by the Government of Norway. The objective of improvements in the river transport system is to increase the flow of capital and consumer goods to the South and facilitate the access of goods produced in the South to the northern markets. Specific FY 1981-84 activities will be determined after a thorough review of the progress made in implementing FY 1980 activities.

6. Gezira Outreach Program :
FY 1980 Activities :

- a. The University of Gezira will undertake outreach activities cutting across all major departments of the University. These activities will be aimed at extension work to improve the life of Sudan rural poor and to increase food production and distribution.
- b. The submission of agreed upon benchmarks for FY 1981-1984 activities, which will be designed and implemented in paragraph 6a above, will be a "condition precedent" to disbursement of funds for these activities from the Special Account under this agreement.
- c. FY 1981 activities will be determined after a review of the progress made in implementing FY 1980 activities. During FY 1980, a tentative schedule of FY 1981-84 activities will be developed by the GOS in consultation with the USG.

7. Desert Encroachment Control and Rehabilitation Program (DECARP):

FY 1980 Activities:

- a. Specific implementation targets are to be established and will include all projects presented in Table B 7.
- b. Joint approval by GOS and USG of the benchmarks for these projects will be a "condition precedent" to disbursement of funds from the Special Account of this agreement.

A tentative schedule of activities and funding levels of FY 1981 through FY 1984 will be agreed upon on the basis of the evaluation of progress on activities in FY 1980.

C. Title III Additionality:

The projects, which will be undertaken, will be in addition to and will not replace any development activities being undertaken by the GOS itself or in conjunction with other bilateral and/or multilateral aid. The projects described herein would not be implemented without the resources provided under this agreement.

More specifically the GOS's developmental and financial difficulties reflect problems of project implementation. Due to the lack of staff, funds facilities and transportation, few development projects are being completed at desired levels of productivity or social benefits. The constraints to GOS project implementation have been compounded by increased donors' interest in and assistance for targeted capital formation projects. In the past international donors provided funds to the GOS for budget support and modern capital-intensive projects. The GOS has not been able to mobilize sufficient domestic revenue to support the operation and growing burden of new and ongoing projects. Cuts in the development budget and GOS resource allocations have hindered disproportionately the development of transport, agriculture and health in the west and south regions where Sudan's poorest live.

Donors have been unwilling to finance all governmental overhead costs. As a result, the staff, buildings and vehicles needed to support donor-financed projects are often under-financed and occasionally absent. Projects that are otherwise well designed and supplied with imported components often cannot be implemented or operated as planned. Under these circumstances, the distinction blurs between recurring cost and developmental costs, between

administrative staff and developmental officers, between physical infrastructures and fuel needed to run a government and the same overhead needed to construct a project. The latter forms of government activity cannot assume that the former are in place. If the staff is not paid and vehicles do not have fuel, the projected benefits of additional projects will be nonexistent.

D. Equivalency :

1. For the purpose of this agreement, it is required that the local currency generations be equal to the value of the food commodities shipped under this agreement. The GOS will deposit in a special account the local currency equivalent of the U.S. dollar value of the Title III wheat.
2. If the value of commodities sold for local currency is less than the F.O.B. U.S. port-value of commodities shipped, the GOS will make up the difference. Local currencies required to make up the difference shall not result in reduction or displacement of any development funds, either in the GOS' own development budget or under programs of bilateral or multilateral aid.

E. Commodity Schedule :

This multiyear Title III program calls for Sudan to import wheat (and/or wheat flour) valued at U.S. \$20 million per year, or U.S. \$100 million over five years (FY 1980-84).

No. 499

The Embassy of the United States of America presents its compliments to the Ministry of Cooperation, Commerce and Supply of the Democratic Republic of the Sudan and has the honor to refer to the agricultural commodity agreement signed by representatives of our governments on December 22, 1979 and as amended on August 7, 1980, February 14, 1981, April 29, 1982 and June 13, 1983 and to propose that Part I, GENERAL PROVISIONS, and Part II, PARTICULAR PROVISIONS, of that agreement be amended as follows:

In Part I, Article III, Section F, Item 3, change the definition of "utilization" to read: "Utilization shall be deemed to have occurred when the commodity clears customs and enters normal distribution channels within the importing country, including: transported to mills, bakeries, refineries or other facilities for further processing; transported to local, regional or central storage for subsequent distribution; or transported directly to commercial or government wholesale, retail, or ration center outlets."

In Part I, Article III, Section D, delete entire text of Section D after caption, "Reporting", and insert the following:

"In addition to any other reports agreed upon by the two governments, the government of the importing country shall furnish, in such form and at such time as may be requested by the government of the exporting country:

1. A report on the arrival of each shipment of commodities purchased under the agreement which shall include: the name of each vessel; the commodity and quantity received; the discharge port; the date discharge was completed; the

TIAS 10727

condition of the commodity on arrival; any significant loss or damage in transit, and advice of any claim for, or recovery of, or reduction of freight charges due to loss or damage in transit on U.S. flag ships;

2. A report covering the supply period specified in Part II, Item I of the agreement and containing: statistical data on imports by country of origin to meet usual marketing requirements specified in Part II, Item III of the agreement; a statement of the measures taken to implement the provisions of Section A, Items 3 and 4 of this article; statistical data on exports by country of destination of commodities the same as or like those imported under the agreement, as specified in Part II, Item IV of the agreement; a statement on utilization of commodities imported under the agreement; and a statement of measures taken to implement the publicity provisions of Section I of this Article."

In Part II, Item I, Commodity table under the appropriate headings, add new lines as follows: "wheat and/or wheat flour (grain equivalent basis), 1984, 127,000, 20.0". After last entry in Item I revise the line item "totals" to reflect totals for 1980, 1981, 1982, 1983 and 1984 as follows: "601,300" US Dollars "105.0".

In Part II, Item IV A, delete first sentence and insert: "The export limitation period shall be U.S. Fiscal Year 1984 or any subsequent U.S. Fiscal Year during which commodities financed under this agreement are being imported or utilized".

In Item III - Usual Marketing Table, under the appropriate headings add the following new line item: "wheat and/or wheat flour (grain equivalent

basis) - 1984 - 180,000".

In Item V, add the following language:

1. The GOS agrees to contract with the Gezira Trading Company for receiving, clearing through customs and storing the wheat and wheat flour financed under this agreement at Port Sudan. The GOS also agrees that the millers will be allowed to contract with private sector transporters for inland transportation of the wheat and wheat flour from Port Sudan under this agreement. A firm decision will be made by the millers by July 25, 1984. If the millers are unable to perform this function, then the GOS will contract with private sector transporters for inland transportation of the wheat and wheat flour.
2. The GOS agrees that the public sector will not sell wheat, wheat flour or bread at a price (by weight) less than that of private sector bakers, wholesalers or retailers, nor have access to foreign exchange for the purchase of wheat and wheat flour at a rate less than that obtainable by the private sector.
3. The GOS agrees to maintain a flexible wheat, wheat flour and retail pricing policy. The full impact of the policy will be reflected in the retail price and no explicit or implicit subsidy will be allowed to emerge. Accordingly, the GOS agrees to adjust the price of wheat and wheat flour to millers and bakers and the price of bread at wholesale and retail in a timely manner if real CIF prices (in LS or \$) and inland costs (transport, handling, storage and milling) change by more than ten percent in the aggregate.

The GOS further agrees to maintain milling and baking margins at not less than present levels. USAID agrees to continue to assist the Ministry of Commerce, Cooperation and Supply with the establishment of an effective supply and cost/price monitoring system.

4. With the objective of maintaining attractive financial returns to domestic wheat producers, the GOS will continue a policy of setting a floor price for domestically produced wheat at import parity with inland transport, finance, storage and handling costs computed at commercial rates; the producer floor price is to be announced annually not later than October 1st and shall be based on the August world market U.S. \$ CIF (Port Sudan) price for the prevailing grade of PL 480 wheat.
5. The MCCS agrees to recommend an increase in the floor price for groundnuts in regional auction markets by not less than LS 16 per kantar for the purpose of stimulating a major supply response to increase export earnings during the 1984/1985 production season. The new price shall be announced not later than July 30, 1984.
6. The GOS will increase the floor price for gum arabic in regional auction markets by not less than 25 percent. However, if a good rainfall pattern is experienced during the coming growing season, the GOS agrees to increase the auction market price by not less than 30 percent. The new price shall be announced not later than October 31, 1984.
7. The GOS agrees to collaborate with USAID on a comprehensive study of the current policy of administered prices for

domestically produced agricultural commodities and industrial goods. The study will estimate the costs and benefits of this policy and determine the impact on producer incentives, marketing margins and consumer welfare. This report is to be completed by December 15, 1984.

8. The GOS agrees that the private sector will be allowed to purchase, ship, clear through customs and internally transport, store and distribute all wheat and wheat flour purchased under future PL 480 Agreements. The government further agrees that it will allow the private sector equal access to all facilities under public sector control to expedite international procurement and shipping and the domestic handling, storage and transport of the commodities by the private sector. A study will be undertaken over the next six months which will establish and detail procedures for such private sector participation in the PL 480 Programs. In order for the private sector to gain experience with the international procurement, shipping and domestic handling of wheat and wheat flour for future PL 480 programs, the Government of Sudan will allow the private sector to participate in these functions under this Agreement.

In addition to the above changes, Annex B is hereby amended in accordance with the revised Annex B attached to this note.¹] All other terms and conditions of the December 22, 1979 sales agreement, as amended, remain the same.

¹ Not printed. Available from the Office of Treaty Affairs, Department of State.

If the foregoing is acceptable to your government, I propose that this note, together with your reply thereto, constitute agreement between our two governments, effective on the date of your note in reply.

In the case of dependents of employees of the Government of Colombia assigned to official duty in the United States of America and who hold an offer of employment in the United States, an official request will be made by the Embassy of Colombia in Washington to the Office of the Chief of Protocol in the Department of State. NEGOTIATORS OF THE UNITED STATES AND PERU
June 28, 1979

1. The Memorandum of Understanding between the Multilateral Trade Negotiators of the United States and Peru signed in Geneva, Switzerland on March 8, 1979 is amended as follows:

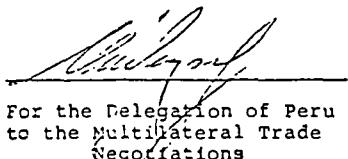

- A. Peru withdraws its offer to bind the tariff on 39.02.41.21 - insulating tape - but will maintain its licensing assurances commitment in paragraph 3A of the Memorandum on this product.
- B. To replace this withdrawal, Peru will:
 1. Bind in the GATT the tariff on 39.02.29.00 - other resins - at 30 percent and assure automatic licensing on this product in accordance with paragraph 3A of the Memorandum. This concession will enter into-force on July 1, 1983.
- 2. Reduce the level of tariff bindings on the following products in the Memorandum:

| Tariff Number | Product Description | New Bound Offer Rate |
|---------------|--|----------------------|
| 39.02.01.00 | Polyethylene | 30 percent |
| 39.02.05.03 | Polyvinyl chloride copolymers | 30 percent |
| 39.02.08.00 | Polyacrylic and Poly-methacrylic derivatives | 30 percent |
| 39.02.09.00 | Polypropylene | 30 percent |

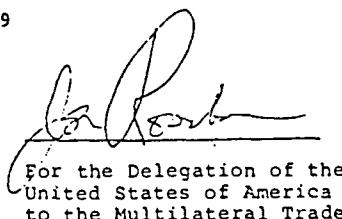

2. The Government of Peru will accept or reject this addendum Memorandum and its Addendum by August 15, 1979, or they will become null and void. The Government of the United States has approved the Memorandum and will notify the Government of Peru of its acceptance or rejection of this Addendum by August 15, 1979. The Government of the United States recognizes that the Government of Peru must obtain the approval of the other members of the Andean Pact for the tariff bindings in this Memorandum and Addendum.

3. The Government of the United States recognizes Peru's current development status and trade liberalization policy and promises to consider making additional tariff reductions on products of interest to Peru, within the authority provided by the United States Congress. Peru is willing to make contributions to obtain these reductions and to that effect has delivered a list of tentative offers of products in which it would make substantial tariff reductions in return for a counter-offer in which the United States would include those products on a list which has also been delivered and which are of special interest to Peru. The United States Government will notify the Government of Peru by August 15, 1979 if it will be able to entertain additional negotiations in this regard.

**Extradition treaty between the United States of America and the
Kingdom of the Netherlands**

The Government of the United States of America and the Government of the Kingdom of the Netherlands;

Desiring to provide for more effective cooperation between the two States in the repression of crime; and

Desiring to make a new Treaty for the reciprocal extradition of offenders;

Have agreed as follows:

Article 1*Obligation to Extradite*

The Contracting Parties agree to extradite to each other, subject to the provisions described in this Treaty, persons found in the territory of one of the Contracting Parties who have been charged with an offense, found guilty of committing an offense, or are wanted for the enforcement of a judicially pronounced penalty involving a deprivation of liberty or detention order.

Article 2*Extraditable Offenses and Jurisdiction*

1. Extraditable offenses under this Treaty are:

a. Offenses referred to in the Appendix to this Treaty which are punishable under the laws of both Contracting Parties;

b. Offenses, whether listed in the Appendix to this Treaty or not, provided they are punishable under the Federal laws of the United States of America and the laws of the Kingdom of the Netherlands.

In this connection it shall not matter whether or not the laws of the Contracting Parties place the offense within the same category of offenses or denominate an offense by the same terminology.

2. Extradition shall be granted in respect of an extraditable offense:

a. For prosecution, if the offense is punishable under the laws of both Contracting Parties by deprivation of liberty for a period exceeding one year;

b. For the imposition of a penalty or detention order, if the offense is punishable under the laws of both Contracting Parties by deprivation of liberty for a period exceeding one year; or

c. For the enforcement of a penalty or detention order for such an offense, if the duration of the penalty or detention order still to be served amounts to at least four months.

3. Extradition shall be granted in respect of an extraditable offense committed outside the territory of the Requesting State if:

- a. The courts of the Requested State would be competent to exercise jurisdiction in similar circumstances, or
- b. The person sought is a national of the Requesting State.
4. Subject to the conditions set out in paragraphs 1, 2 and 3, extradition shall also be granted:
 - a. For attempts to commit or participation in an extraditable offense, including participation in an association of persons whose intention it is to commit the offense;
 - b. For any extraditable offense when, for the purpose of granting jurisdiction to the United States Government, transportation of persons or property, the use of the mails or other means of carrying out interstate or foreign commerce is also an element of the specific offense.
5. When extradition has been granted in respect of an extraditable offense, it may also be granted in respect of any other extraditable offense which would otherwise not be extraditable only by reason of the operation of paragraph 2.

Article 3

Territorial Application

For the purpose of this Treaty the territory of a Contracting Party shall include all territory under the jurisdiction of that Contracting Party, including airspace and territorial waters.

Article 4

Political and Military Offenses

1. Extradition shall not be granted when in the view of the Requested State the offense for which extradition is requested is of a political character, is connected with an offense of a political character, or it is established that extradition is requested for political purposes.
2. For the purpose of this Treaty a murder or wilful crime against the life or physical integrity of a Head of State or Head of Government of one of the Contracting Parties or of a member of that person's family, including attempts to commit such offenses, shall not be deemed to be offenses within the meaning of paragraph 1.
3. Extradition shall not be granted when the offense for which extradition is requested is a purely military offense.
4. It shall be the responsibility of the Executive Authority of the Requested State to decide on any question raised under this Article, except to the extent that the national laws of that State expressly grant such powers to its courts.

Article 5*Prior Jeopardy for the Same Offense*

Extradition shall not be granted when:

- a. The person sought is being proceeded against, has been prosecuted, or has been tried and convicted or acquitted by the Requested State for the offense for which extradition is requested; or,
- b. The person sought is otherwise immune from prosecution for the offense for which extradition is requested by reason of the law in the Requested State relating to prior jeopardy.

Article 6*Lapse of Time*

Extradition shall not be granted when the prosecution or the enforcement of the penalty for the offense for which extradition has been sought has become barred by lapse of time according to the law of the Requested State.

Article 7*Capital Punishment and Special Circumstances*

1. When the offense for which extradition is requested is punishable by death under the laws of the Requesting State and the laws of the Requested State do not permit such punishment for that offense, extradition may be refused unless the Requesting State furnishes such assurances as the Requested State considers sufficient that the death penalty shall not be imposed, or, if imposed, shall not be executed.

2. In special circumstances, having particular regard to the age, health or other personal condition of the person sought, the Executive Authority of the Requested State may refuse extradition if it has reason to believe that extradition will be incompatible with humanitarian considerations.

Article 8*Extradition of Nationals*

1. In the event there is a treaty in force between the Contracting Parties on the execution of foreign penal sanctions, neither Contracting Party may refuse to extradite its own nationals solely on the basis of their nationality.

2. As long as there is no treaty in force between the Contracting Parties on the execution of foreign penal sanctions, neither Contracting Party shall be bound to extradite its own nationals, but the Executive Authority of the Requested State shall, if not prevented by the law of that State, have the power to extradite them if, in its discretion, it be deemed proper to do so.

3. If extradition is not granted solely on the basis of the nationality of the person sought, the Requested State shall, at the request of the Requesting State, submit the case to its competent authorities for the purpose of prosecution, provided that the offense constitutes a criminal offense under the law of that State and that State has jurisdiction over the offense.

Article 9

Extradition Procedures and Required Documents

1. The request for extradition shall be made through the diplomatic channel.

2. The request for extradition shall be accompanied by:

a. All available information concerning the identity, nationality, and probable location of the person sought;

b. A statement of the facts of the case including, if possible, the time and location of the crime;

c. The provisions of the law describing the essential elements and the designation of the offense for which extradition is requested;

d. The provisions of the law describing the punishment for the offense;

e. The provisions of the law providing for jurisdiction when the offense was committed outside of the territory of the Requesting State.

3. A request for extradition relating to a person sought for the purpose of prosecution shall be accompanied by:

a. The original or a certified copy of the warrant of arrest issued by a judge or other competent judicial officer of the Requesting State; and

b. Such evidence as, according to the law of the Requested State, would justify that person's arrest and committal for trial if the offense had been committed there, including evidence establishing that the person sought is the person to whom the warrant of arrest refers.

4. A request for extradition relating to a convicted person shall be accompanied by:

a. The original or certified copy of the judgment of conviction pronounced by a court of the Requesting State;

b. Evidence establishing that the person sought is the person to whom the conviction refers.

If the person was found guilty but not sentenced, the request for extradition shall be accompanied by a statement to that effect by the appropriate court and by the original or certified copy of the warrant of arrest.

If the convicted person was sentenced, the request for extradition shall be accompanied by the original or certified copy of the sentence imposed, a statement that the sentence has final and binding effect and is enforceable and a statement showing to what extent the sentence has not been carried out.

5. The documents to be submitted in support of the request for extradition, in accordance with this Article and Article 10, shall be translated into the language of the Requested State.

6. The documents which, according to this Article, shall accompany the extradition request, shall be admitted in evidence when:

a. In the case of a request emanating from the United States, they are signed by a judge or other competent officer;

b. in the case of a request emanating from the Kingdom of the Netherlands, they are signed by a judge or other judicial authority and are certified by the principal diplomatic or consular officer of the United States in the Kingdom of the Netherlands.

Article 10

Additional Evidence

1. If the competent authority of the Requested State considers that the evidence furnished in support of the request for the extradition of a person sought is not sufficient to fulfil the requirements of this Treaty, that State shall request the submission of necessary additional evidence. The Requested State may set a time limit for the submission of such evidence and, upon the Requesting State's application, may grant a reasonable extension of such time limit.

2. If the person sought has been taken into custody and the additional evidence or information submitted is not sufficient, or if such evidence or information is not received within the period specified by the Requested State, that person may be discharged from custody. However, such discharge shall not bar either the continued consideration of the request on the basis of supplemented documents, or, if a final decision has already been taken, the submission of a subsequent request for the same offense. In such a case it shall be sufficient if reference is made in the subsequent request to the supporting documents already submitted, provided these documents will be available at the extradition proceedings.

Article 11

Provisional Arrest

1. In case of urgency, either Contracting Party may request the provisional arrest of any accused or convicted person. Application for provisional arrest may be made either through the diplomatic channel or directly between the United States Department of Justice and the Ministry of Justice in the Netherlands, or the Ministry of Justice in the Netherlands Antilles, as the case may be.

2. The application shall contain: a description of the person sought, including, if available, the person's nationality; a brief statement of the facts of the case including, if possible, the time and location of the offense; a statement of the existence of a warrant of arrest or a judgment of conviction against that person; and a statement that a request for extradition of the person sought will follow.

3. On receipt of such an application the Requested State shall take the appropriate steps to secure the arrest of the person sought. The Requesting State shall be promptly notified of the result of its application.

4. Provisional arrest shall be terminated if, within a period of 60 days after the apprehension of the person sought, the Requested State has not received the formal request for extradition and the supporting documents mentioned in Article 9.

5. The termination of provisional arrest pursuant to paragraph (4) shall not prejudice the extradition of the person sought if the extradition request and the supporting documents mentioned in Article 9 are delivered at a later date.

Article 12

Decision and Surrender

1. The Requested State shall promptly communicate through the diplomatic channel to the Requesting State the decision on the request for extradition.

2. The Requested State shall give the reasons for any complete or partial rejection of the request for extradition.

3. If the extradition has been granted, surrender of the person sought shall take place within such time as may be prescribed by the law of the Requested State. The competent authorities of the Contracting Parties shall agree on the time and place of the surrender of the person sought. If, however, that person is not removed from the territory of the Requested State within such time as may be agreed, that person may be set at liberty and the Requested State may subsequently refuse extradition for the same offense.

Article 13

Delayed Decision and Temporary Surrender

After a decision on a request for extradition has been rendered in the case of a person who is being proceeded against or is serving a sentence in the territory of the Requested State for a different offense, the Requested State may:

a. Defer the surrender of the person sought until the conclusion of the proceedings against that person, or the full execution of any punishment that may be or may have been imposed; or

b. Temporarily surrender the person sought to the Requesting State solely for the purpose of prosecution. The person so surrendered shall be kept in custody while in the Requesting State and returned at the conclusion of the proceedings against that person in accordance with conditions to be determined by mutual agreement of the Contracting Parties.

Article 14

Requests for Extradition made by Third States

The Executive Authority of the Requested State, upon receiving requests from the other Contracting Party and from one or more third States for the extradition of the same person, either for the same offense or for different offenses, shall determine to which State it will extradite that person.

Article 15

Rule of Speciality

1. A person extradited under this Treaty shall not be detained, tried or punished in the territory of the Requesting State for an offense other than that for which extradition has been granted, nor be extradited by that State to a third State, unless:

- a. That person has left the territory of the Requesting State after extradition and has voluntarily returned to it;
- b. That person has not left the territory of the Requesting State within 30 days after being free to do so; or
- c. The Executive Authority of the Requested State has consented to detention, trial, or punishment of that person for an offense other than that for which extradition was granted, or to extradition to a third State. For this purpose, the Requested State may require the submission of any document or statement mentioned in Article 9, including any statement made by the extradited person with respect to the offense concerned.

These stipulations shall not apply to offenses committed after extradition.

2. If the charge for which the person was extradited is legally altered in the course of proceedings, that person may be prosecuted or sentenced provided the offense under its new legal description is:

- a. Based on the same set of facts contained in the extradition request and its supporting documents; and
- b. Punishable by the same maximum penalty as, or a lesser maximum penalty than, the offense for which that person was extradited.

Article 16*Simplified Extradition*

If the extradition of a person sought is not obviously precluded by the law of the Requested State and provided the person sought irrevocably agrees in writing to extradition after personally being advised by a judge or competent magistrate of other rights granted in formal extradition proceedings and the protection afforded by them that this person would lose, the Requested State may grant extradition without a formal extradition proceeding having taken place. In this case Article 15 shall not be applicable.

Article 17*Surrender of Property*

1. To the extent permitted under the law of the Requested State and subject to the rights of third parties, which shall be duly respected, all articles, instruments, objects of value or documents relating to the offense, whether or not used for its execution, or which in any other manner may be evidence for the prosecution, shall at the request of the Requesting State be seized and surrendered upon the granting of the extradition. The property mentioned in this Article shall be handed over even if the extradition cannot be effected due to the death, escape or disappearance of the person sought.

2. The Requested State may condition the surrender of property upon a satisfactory assurance from the Requesting State that the property will be returned to the Requested State as soon as possible.

Article 18*Transit*

1. Either Contracting Party may authorize the other transit through its territory of a person surrendered by a third State. The Contracting Party requesting transit shall provide the information mentioned in Article 11, paragraph 2, through channels provided in that Article. No such authorization is required where air transportation is used and no landing is scheduled on the territory of the other Contracting Party.

2. If an unscheduled landing on the territory of the other Contracting Party occurs, transit shall be subject to the provisions of paragraph 1. That Contracting Party may detain the person to be transited for a period of 96 hours while awaiting the request for transit.

Article 19***Expenses***

1. The Requested State shall review for legal sufficiency documentation in support of an extradition request prior to submission to its judicial authorities and shall present the request of the Requesting State to such authorities.

2. Expenses related to the translation of documents supporting the request for extradition and to the transportation of the person sought shall be borne by the Requesting State. All other expenses related to the extradition request and proceedings shall be borne by the Requested State. No pecuniary claim, arising out of the arrest, detention, examination and surrender of persons sought under the terms of this Treaty, shall be made by the Requested State against the Requesting State.

Article 20***Scope of Application***

This Treaty shall apply to offenses encompassed by Article 2 committed before as well as after the date this Treaty enters into force.

Article 21***Ratification and Entry into Force***

1. This Treaty shall be subject to ratification; the instruments of ratification shall be exchanged in Washington... as soon as possible.

2. This Treaty shall enter into force 30 days after the exchange of the instruments of ratification. [1]

3. On entry into force of this Treaty, the Convention for the Extradiation of Criminals of June 2, 1887 [2] and the Treaty Extending the Extradiation Convention of January 18, 1904, [3] Between the United States of America and the Kingdom of the Netherlands shall cease to have effect, provided that any extradition proceedings pending in the Requested State at the time this Treaty enters into force shall remain effective thereafter.

4. If the instrument of ratification for the Kingdom of the Netherlands does not provide for simultaneous entry into force of the present Treaty for both of its constituent parts, [4] the Agreements mentioned in paragraph 3 above will remain in force between the United States of America and that part of the Kingdom of the Netherlands not yet bound to the present Treaty.

**Uitleveringsverdrag tussen de Verenigde Staten van Amerika en het
Koninkrijk der Nederlanden**

De Regering van de Verenigde Staten van Amerika en de Regering
van het Koninkrijk der Nederlanden;

Verlangend een regeling te treffen met het oog op een doeltreffender
samenwerking tussen de beide Staten bij de bestrijding van de misdaad;
en

Verlangend een nieuw verdrag te sluiten inzake de wederzijdse uitlevering
van delinquenten;

Zijn overeengekomen als volgt:

Artikel 1

Verplichting tot uitlevering

De Verdragsluitende Partijen komen overeen, met inachtneming van
de in dit Verdrag opgenomen bepalingen personen aan elkaar uit te le-
veren die worden aangetroffen op het grondgebied van een van de Ver-
dragsluitende Partijen en tegen wie een strafvervolging is ingesteld, die
schuldig zijn bevonden aan het plegen van een strafbaar feit of die wor-
den gezocht met het oog op de tenuitvoerlegging van een door de rech-
ter opgelegde straf of maatregel, welke vrijheidsbeneming met zich me-
de brengt.

Artikel 2

Feiten die tot uitlevering kunnen leiden en rechtsmacht

1. Feiten die tot uitlevering kunnen leiden krachtens dit verdrag zijn:
 - a. feiten, vermeld in de Bijlage bij dit Verdrag, die strafbaar zijn
krachtens de wetten van beide Verdragsluitende Partijen;
 - b. feiten, al dan niet in de Bijlage bij dit Verdrag opgenomen, mits zij
strafbaar zijn krachtens de federale wetten van de Verenigde Staten
van Amerika en de wetgeving van het Koninkrijk der Nederlanden.

In dit verband is het niet van belang of de wetten van de Verdragslui-
tende Partijen het feit onder dezelfde categorie strafbare feiten rang-
schikken dan wel een feit met dezelfde termen aanduiden.

2. Uitlevering wordt toegestaan voor feiten die tot uitlevering kun-
nen leiden:

- a. met het oog op vervolging, indien het feit krachtens het recht van
beide Verdragsluitende Partijen strafbaar is gesteld met een vrijheids-
straf van meer dan een jaar;
- b. met het oog op de oplegging van een straf of maatregel, indien het
feit krachtens het recht van beide Verdragsluitende Partijen strafbaar is
gesteld met een vrijheidsstraf van meer dan een jaar; of
- c. met het oog op de tenuitvoerlegging van een straf of maatregel we-
gens een zodanig feit, indien het gedeelte van de straf of maatregel,
dat nog niet is ondergaan, de duur van ten minste vier maanden heeft.

3. Uitlevering wordt toegestaan voor feiten die tot uitlevering kunnen leiden en die zijn gepleegd buiten het grondgebied van de verzoekende Staat indien:

- a. de rechters van de aangezochte Staat in gelijksortige omstandigheden bevoegd zouden zijn daarover rechtsmacht uit te oefenen, of
- b. de opgeëiste persoon onderdaan is van de verzoekende Staat.

4. Met inachtneming van de in het eerste tot en met het derde lid vermelde voorwaarden wordt uitlevering eveneens toegestaan:

- a. voor poging tot of deelneming aan strafbare feiten die tot uitlevering kunnen leiden, daarbij inbegrepen deelneming aan een vereniging van personen wier oogmerk het is het strafbare feit te plegen;
- b. voor ieder feit dat tot uitlevering kan leiden wanneer, met het oog op verlening van rechtsmacht aan de Regering van de Verenigde Staten, het vervoer van personen of goederen, of het gebruik van de postrijnen of andere middelen voor de handel tussen de Staten of met het buitenland mede een element van het desbetreffende strafbare feit vormt.

5. Wanneer uitlevering is toegestaan voor een feit dat tot uitlevering kan leiden, kan zij tevens worden toegestaan voor andere feiten die anders, uitsluitend ten gevolge van de werking van het tweede lid, niet tot uitlevering zouden kunnen leiden.

Artikel 3

Territoriale toepasselijkheid

Voor de toepassing van dit Verdrag omvat het grondgebied van een Verdragsluitende Partij het gehele grondgebied onder de rechtsmacht van die Verdragsluitende Partij, met inbegrip van het luchtruim en de territoriale wateren.

Artikel 4

Politieke en militaire delicten

1. Uitlevering wordt niet toegestaan wanneer het strafbare feit waarvoor zij wordt verzocht volgens de aangezochte Staat van politieke aard is of samenhangt niet met een strafbaar feit van politieke aard, dan wel wanneer wordt aangetoond dat het verzoek tot uitlevering met een politiek oogmerk is gedaan.

2. Voor de toepassing van dit Verdrag wordt moord of een opzettelijk gepleegd misdrijf gericht tegen het leven of de lichamelijke integriteit van een Staatshoofd of Regeringsleider van een van de Verdragsluitende Partijen of van een lid van het gezin van een zodanige persoon, daaronder begrepen pogingen om een dergelijk feit te plegen, niet geacht een strafbaar feit in de zin van het eerste lid te zijn.

3. Uitlevering wordt niet toegestaan wanneer het strafbare feit waarvoor zij wordt verzocht een zuiver militair delict is.

4. Het is de verantwoordelijkheid van de uitvoerende autoriteit van de aangezochte Staat een beslissing te nemen over kwesties die uit hoofde van dit artikel worden opgeworpen, behalve voor zover de nationale wetten van die Staat die bevoegdheid uitdrukkelijk aan diens rechters toekennen.

Artikel 5

Voorafgaande strafvervolging ter zake van hetzelfde feit

Uitlevering wordt niet toegestaan wanneer:

- a. de opgeëiste persoon door de aangezochte Staat ter zake van het feit waarvoor uitlevering wordt verzocht wordt vervolgd, vervolgd is geweest, of is berecht en veroordeeld of vrijgesproken; of
- b. uit anderen hoofde tegen de opgeëiste persoon geen vervolging kan worden ingesteld ter zake van het feit waarvoor uitlevering wordt verzocht, krachtens het recht in de aangezochte Staat met betrekking tot het effect van een voorafgaande strafvervolging.

Artikel 6

Verjaring

Uitlevering wordt niet toegestaan wanneer volgens het recht van de aangezochte Staat het recht tot vervolging of tenuitvoerlegging van straf ter zake van het feit waarvoor uitlevering werd verlangd, is vervallen door verjaring.

Artikel 7

Doodstraf en bijzondere omstandigheden

1. Wanneer op het feit waarvoor uitlevering wordt verzocht naar het recht van de verzoekende Staat de doodstraf is gesteld en het recht van de aangezochte Staat voor dat feit niet een zodanige straf toestaat, kan uitlevering worden geweigerd tenzij de verzoekende Staat naar het oordeel van de aangezochte Staat voldoende waarborgen biedt dat de doodstraf niet zal worden opgelegd of, indien zij wordt opgelegd, niet ten uitvoer zal worden gelegd.

2. De uitvoerende autoriteit van de aangezochte Staat kan in bijzondere situaties, met name gezien de leeftijd of gezondheid van de opgeëiste persoon, of andere persoonlijke omstandigheden, uitlevering weigeren, indien zij redenen heeft om van oordeel te zijn dat uitlevering onverenigbaar is met humanitaire overwegingen.

Artikel 8

Uitlevering van onderdanen

1. Ingeval er tussen de Verdragsluitende Partijen een verdrag van kracht is betreffende de tenuitvoerlegging van buitenlandse strafrechte-

lijke sancties, kan geen van beide Verdragsluitende Partijen weigeren haar eigen onderdanen uit te leveren uitsluitend op grond van hun nationaliteit.

2. Zo lang er tussen de Verdragsluitende Partijen geen verdrag van kracht is betreffende de tenuitvoerlegging van buitenlandse strafrechte-lijke sancties, is geen van beide Verdragsluitende Partijen verplicht haar eigen onderdanen uit te leveren, maar de uitvoerende autoriteit van de aangezochte Staat heeft, indien de wet van die Staat zich daartegen niet verzet, de bevoegdheid hen uit te leveren indien dat, naar het oordeel van de genoemde autoriteit, aangewezen wordt geacht.

3. Indien uitlevering niet wordt toegestaan uitsluitend op grond van de nationaliteit van de opgeëiste persoon, draagt de aangezochte Staat, op verzoek van de verzoekende Staat, de zaak voor vervolging aan zijn bevoegde autoriteiten over, mits het feit een strafbaar feit oplevert naar het recht van die Staat en die Staat rechtsmacht over het feit heeft.

Artikel 9

Procedure met betrekking tot uitlevering en vereiste stukken

1. Het verzoek tot uitlevering wordt langs diplomatische weg gedaan.

2. Bij het verzoek tot uitlevering dienen te worden gevoegd:

- a. alle beschikbare gegevens betreffende de identiteit, de nationaliteit, en de vermoedelijke verblijfplaats van de opgeëiste persoon;
- b. een uiteenzetting van de desbetreffende feiten, met inbegrip, indien mogelijk, van het tijdstip waarop en de plaats waar het misdrijf werd gepleegd;
- c. de wetsbepalingen houdende de wezenlijke elementen en de benaming van het strafbare feit waarvoor uitlevering wordt verzocht;
- d. de wetsbepalingen houdende de straf die op het delict is gesteld;
- e. de wetsbepalingen houdende toekenning van rechtsmacht ingeval het strafbare feit buiten het grondgebied van de verzoekende Staat werd gepleegd.

3. Bij een verzoek tot uitlevering met betrekking tot een persoon die wordt gezocht met het oog op vervolging dienen te worden gevoegd:

- a. het origineel of een gewaarmerkt afschrift van het bevel tot aanhouding, opgemaakt door een rechter of andere bevoegde rechterlijke autoriteit van de verzoekende Staat; en

b. het bewijsmateriaal dat, volgens het recht van de aangezochte Staat, de aanhouding en dagvaarding van die persoon zou rechtvaardigen indien het feit in die Staat zou zijn gepleegd, met inbegrip van bewijsmateriaal waaruit blijkt dat de persoon wiens uitlevering wordt verzocht degene is op wie het bevel tot aanhouding betrekking heeft.

4. Bij een verzoek tot uitlevering met betrekking tot een veroordeelde persoon dienen te worden gevoegd:

- a. het origineel of een gewaarmerkt afschrift van het veroordelend vonnis, uitgesproken door een rechter van de verzoekende Staat;
- b. bewijsmateriaal waaruit blijkt dat de opgeëiste persoon degene is op wie de veroordeling betrekking heeft.

Indien de desbetreffende persoon schuldig werd verklaard maar hem geen straf werd opgelegd, dienen bij het verzoek tot uitlevering te worden gevoegd een verklaring dienaangaande van de desbevoegde rechter en het origineel of een gewaarmerkt afschrift van het bevel tot aanhouding.

Indien de desbetreffende persoon werd veroordeeld, dienen bij het verzoek tot uitlevering te worden gevoegd het origineel of een gewaarmerkt afschrift van het uitgesproken vonnis, een verklaring dat het vonnis kracht van gewijsde heeft en vatbaar voor tenquittuering is, en een verklaring waaruit blijkt in hoeverre het vonnis niet ten uitvoer is gelegd.

5. De stukken die overeenkomstig dit artikel en artikel 10 ter ondersteuning van het verzoek tot uitlevering moeten worden overgelegd, dienen in de taal van de aangezochte Staat te worden vertaald.

6. De stukken die overeenkomstig dit artikel bij het verzoek tot uitlevering dienen te worden gevoegd, worden als bewijs toegelaten wanneer zij:

a. in het geval van een verzoek dat van de Verenigde Staten uitgaat, zijn ondertekend door een rechter of andere bevoegde functionaris;

b. in het geval van een verzoek dat van het Koninkrijk der Nederlanden uitgaat, zijn ondertekend door een rechter of andere rechterlijke autoriteit, en zijn gewaarmerkt door het hoofd van de diplomatische zending of van een consulaire post van de Verenigde Staten in het Koninkrijk der Nederlanden.

Artikel 10

Aanvullend bewijsmateriaal

1. Indien de bevoegde autoriteit van de aangezochte Staat van oordeel is dat het bewijsmateriaal, verschaft ter ondersteuning van het verzoek tot uitlevering van een opgeëiste persoon, niet toereikend is om te voldoen aan de vereisten van dit Verdrag, verzoekt die Staat om overlegging van het nodige aanvullende bewijsmateriaal. De aangezochte Staat kan een termijn stellen voor de overlegging van zodanig bewijsmateriaal en, op verzoek van de verzoekende Staat, een redelijke verlenging van die termijn toestaan.

2. Indien de opgeëiste persoon zich in detentie bevindt en het aanvullend bewijsmateriaal of de aanvullende gegevens, die zijn overgelegd, niet toereikend zijn of indien zodanig bewijsmateriaal of zodanige gegevens niet binnen de door de aangezochte Staat aangegeven termijn zijn ontvangen, kan hij uit het voorarrest worden ontslagen. Een dergelijk ontslag verhindert evenwel noch de verdere behandeling van het verzoek op basis van alsnog overgelegde stukken, noch, indien reeds een onherroepelijke beslissing is genomen, de indiening van een nieuw verzoek voor hetzelfde feit. In dat geval is het voldoende indien in het nieuwe verzoek wordt verwezen naar de overgelegde stukken ter ondersteuning van het eerdere verzoek, mits die stukken voor de uitleveringsprocedure vorhanden zijn.

Artikel 11

Voorlopige aanhouding

1. In geval van spoed kan elke Verdragsluitende Partij de voorlopige aanhouding verzoeken van ieder die wordt vervolgd of is veroordeeld. Het verzoek tot voorlopige aanhouding kan worden gedaan hetzij langs diplomatische weg, hetzij in rechtstreeks contact tussen het „Department of Justice” van de Verenigde Staten en het Ministerie van Justitie in Nederland of het Ministerie van Justitie in de Nederlandse Antillen, naar gelang het geval.

2. Het verzoek dient te bevatten: een beschrijving van de gezochte persoon, met inbegrip, indien beschikbaar, van zijn nationaliteit; een kort overzicht van de desbetreffende feiten, met inbegrip, indien mogelijk, van het tijdstip waarop en de plaats waar het feit werd gepleegd; een verklaring betreffende het bestaan van een bevel tot aanhouding van of een veroordelend vonnis tegen die persoon, en een verklaring dat een verzoek tot uitlevering van de gezochte persoon zal volgen.

3. Na ontvangst van een zodanig verzoek neemt de aangezochte Staat de nodige maatregelen met het oog op de aanhouding van de gezochte persoon. Aan de verzoekende Staat wordt onverwijld kennis gegeven van het gevolg dat aan zijn verzoek is gegeven.

4. De voorlopige aanhouding wordt beëindigd indien de aangezochte Staat niet binnen 60 dagen na de inhechtenisneming van de gezochte persoon het officiële verzoek tot uitlevering en de in artikel 9 vermelde stukken ter ondersteuning daarvan heeft ontvangen.

5. De beëindiging van de voorlopige aanhouding volgens het vierde lid vormt geen beletsel voor de uitlevering van de opgeëiste persoon indien het verzoek tot uitlevering en de in artikel 9 vermelde documenten ter ondersteuning daarvan op een latere datum worden overgelegd.

Artikel 12

Beslissing en overlevering

1. De aangezochte Staat deelt de verzoekende Staat onverwijld langs diplomatische weg zijn beslissing omtrent het verzoek tot uitlevering mede.

2. De aangezochte Staat geeft de redenen voor een gehele of gedeeltelijke afwijzing van het verzoek tot uitlevering op.

3. Indien uitlevering is toegestaan, vindt overlevering van de opgeëiste persoon plaats binnen de termijn die is voorgeschreven door de wet van de aangezochte Staat. De bevoegde autoriteiten van de Verdragsluitende Partijen bepalen in onderling overleg tijdstip en plaats van de overlevering van de opgeëiste persoon. Indien die persoon echter niet binnen de overeengekomen termijn uit het grondgebied van de aangezochte Staat is verwijderd, kan hij in vrijheid worden gesteld en kan de aangezochte Staat daarna zijn uitlevering voor hetzelfde feit weigeren.

Artikel 13

Uitgestelde beslissing en tijdelijke overlevering

Wanneer een beslissing op een verzoek tot uitlevering is genomen ten aanzien van iemand die wordt vervolgd of die een straf ondergaat op het grondgebied van de aangezochte Staat wegens een ander strafbaar feit, kan de aangezochte Staat:

- a. de overlevering van de opgeëiste persoon uitstellen totdat de strafrechtelijke procedure tegen hem is beëindigd of de eventueel op te leggen of opgelegde straf volledig ten uitvoer is gelegd; of
- b. de opgeëiste persoon tijdelijk aan de verzoekende Staat overleven uitsluitend ten behoeve van de instelling van een vervolging. De aldus overgeleverde persoon dient tijdens zijn verblijf in de verzoekende Staat in hechtenis te worden gehouden en dient na afloop van de gerechtelijke behandeling van zijn zaak te worden teruggezonden overeenkomstig in onderling overleg tussen de Verdragsluitende Partijen vast te stellen voorwaarden.

Artikel 14

Verzoeken tot uitlevering, gedaan door derde Staten

Wanneer de uitvoerende autoriteit van de aangezochte Staat een verzoek ontvangt zowel van de andere Verdragsluitende Partij als van één of meer derde Staten tot uitlevering van dezelfde persoon, hetzij voor hetzelfde feit, hetzij voor verschillende feiten, bepaalt zij aan welke Staat zij die persoon zal uitleveren.

Artikel 15

Specialiteitsbeginsel

1. De krachtens dit Verdrag uitgeleverde persoon wordt niet in hechtenis gesteld, berecht of gestraft op het grondgebied van de verzoekende Staat ter zake van een ander feit dan datgene waarvoor uitlevering werd toegestaan, noch wordt hij door die Staat aan een derde Staat uitgeleverd, tenzij:

- a. die persoon na zijn uitlevering het grondgebied van de verzoekende Staat heeft verlaten en vrijwillig daarheen is teruggekeerd;
- b. die persoon het grondgebied van de verzoekende Staat niet heeft verlaten binnen 30 dagen na daartoe de vrijheid te hebben gehad; of
- c. de uitvoerende autoriteit van de aangezochte Staat heeft ingestemd met zijn hechtenis, berechting of bestraffing ter zake van een ander feit dan datgene waarvoor uitlevering werd toegestaan, of met uitlevering aan een derde Staat. Met het oog hierop kan de aangezochte Staat de overlegging verlangen van in artikel 9 vermelde stukken of verklaringen, met inbegrip van door de uitgeleverde persoon afgelegde verklaringen met betrekking tot het desbetreffende feit.

Deze bepalingen zijn niet van toepassing op na uitlevering gepleegde feiten.

2. Indien de tenlastelegging op grond waarvan de persoon was uitgeleverd in de loop van de procedure op wettelijke wijze wordt gewijzigd, kan die persoon worden vervolgd of berecht, mits het strafbare feit volgens zijn nieuwe wettelijke omschrijving:

- a. is gebaseerd op hetzelfde samenstel van feiten dat is vervat in het verzoek tot uitlevering en de stukken ter ondersteuning daarvan; en
- b. op dat feit volgens zijn nieuwe wettelijke omschrijving een zelfde maximumstraf is gesteld als of een lagere maximumstraf is gesteld dan op het feit waarvoor die persoon was uitgeleverd.

Artikel 16

Vereenvoudigde uitlevering

Indien de uitlevering van een opgeëiste persoon niet kennelijk naar het recht van de aangezochte Staat is uitgesloten, en mits de opgeëiste persoon onherroepelijk schriftelijk instemt met uitlevering na in persoon door een rechter of bevoegde rechterlijke autoriteit op de hoogte te zijn gesteld van andere, in formele uitleveringsprocedures toegekende rechten en van de waarborgen waarmee deze zijn omkleed en die hem zouden ontvallen, kan de aangezochte Staat uitlevering toestaan zonder dat een formele uitleveringsprocedure plaatsvindt. In dat geval is artikel 15 niet van toepassing.

Artikel 17

Overdracht van voorwerpen

1. Op verzoek van de verzoekende Partij worden, voor zover dat naar het recht van de aangezochte Staat is toegestaan en behoudens de rechten van derden, die naar behoren dienen te worden geëerbiedigd, alle voorwerpen, werktuigen, zaken van waarde of stukken, die verband houden met het strafbare feit, ongeacht of zij voor het plegen daarvan zijn gebruikt, of die op enige andere wijze bewijsmateriaal voor het openbaar ministerie kunnen vormen, in beslag genomen en overgedragen nadat de uitlevering is toegestaan. De in dit artikel vermelde voorwerpen worden overgedragen zelfs wanneer de uitlevering niet kan plaatsvinden ten gevolge van het overlijden, de ontvluchting of de verdwijning van de opgeëiste persoon.

2. De aangezochte Staat kan als voorwaarde voor de overdracht van voorwerpen verlangen dat de verzoekende Staat een genoegzame verzekering geeft dat de voorwerpen zo spoedig mogelijk aan de aangezochte Staat zullen worden teruggegeven.

Artikel 18***Doortocht***

1. Elk van beide Verdragsluitende Partijen kan aan de andere Verdragsluitende Partij de doortocht door zijn grondgebied toestaan van een door een derde Staat overgeleverde persoon. De Verdragsluitende Partij die de doortocht verzoekt, dient de in artikel 11, tweede lid, vermelde gegevens te verstrekken langs de in dat artikel voorziene wegen. Een zodanige toestemming is niet vereist in geval van vervoer door de lucht, waarbij geen landing op het grondgebied van de andere Verdragsluitende Partij is voorzien.

2. Indien een onvoorzien landing op het grondgebied van de andere Verdragsluitende Partij plaatsvindt, is op de doortocht het bepaalde in het eerste lid van toepassing. Die Verdragsluitende Partij kan de over te leveren persoon gedurende 96 uur in hechtenis stellen in afwachting van het verzoek tot doortocht.

Artikel 19***Kosten***

1. De aangezochte Staat controleert of de documentatie ter ondersteuning van een verzoek tot uitlevering aan de wettelijke vereisten voldoet alvorens deze aan zijn gerechtelijke autoriteiten voor te leggen, en stelt het verzoek van de verzoekende Staat die autoriteiten in handen.

2. De kosten van de vertaling van stukken ter ondersteuning van het verzoek tot uitlevering en van het vervoer van de opgeëiste persoon worden gedragen door de verzoekende Staat. Alle andere kosten gemaakt uit hoofde van het verzoek tot uitlevering en de uitleveringsprocedure worden gedragen door de aangezochte Staat. De aangezochte Staat kan financiële vorderingen, ingesteld naar aanleiding van de aanhouding en de inhechtenisneming van, het onderzoek met betrekking tot en de overlevering van opgeëiste personen krachtens de bepalingen van dit Verdrag, niet op de verzoekende Staat verhalen.

Artikel 20***Werkingsssfeer***

Dit Verdrag is van toepassing op de in artikel 2 bedoelde feiten, ongeacht of deze vóór dan wel na de datum van inwerkingtreding van dit Verdrag zijn gepleegd.

Artikel 21***Bekrachtiging en inwerkingtreding***

1. Dit Verdrag dient te worden bekrachtigd; de akten van bekrachtiging worden zo spoedig mogelijk te Washington uitgewisseld.

2. Dit Verdrag treedt in werking 30 dagen na de uitwisseling van de akten van bekrachtiging.

3. Bij de inwerkingtreding van dit Verdrag vervallen de Overeenkomst tot regeling der wederkerige uitlevering van misdadiigers van 2 juni 1887 en de Overeenkomst tot uitbreiding van die Overeenkomst van 18 januari 1904, tussen de Verenigde Staten van Amerika en het Koninkrijk der Nederlanden, met dien verstande dat alle uitleveringsprocedures die op het tijdstip van de inwerkingtreding van dit Verdrag in de aangezochte Staat aanhangig zijn ook daarna hun geldigheid behouden.

4. Indien de akte van bekrachtiging voor het Koninkrijk der Nederlanden niet voorziet in gelijktijdige inwerkingtreding van het onderhavige Verdrag voor beide samenstellende delen van het Koninkrijk, blijven de in het derde lid van dit artikel genoemde Overeenkomsten van kracht tussen de Verenigde Staten van Amerika en het deel van het Koninkrijk der Nederlanden, dat nog niet aan het onderhavige Verdrag is gebonden.

Artikel 22

Grondgebied van het Koninkrijk der Nederlanden

Wat het Koninkrijk der Nederlanden betreft, is dit Verdrag van toepassing op het grondgebied van het Koninkrijk in Europa en op de Nederlandse Antillen, tenzij de akte van bekrachtiging van de Regering van het Koninkrijk der Nederlanden, bedoeld in artikel 21, anders bepaalt.

Artikel 23

Opzegging

1. Elk van beide Verdragsluitende Partijen kan dit Verdrag te allen tijde beëindigen door daarvan aan de andere Partij kennis te geven, en de beëindiging wordt van kracht zes maanden na de datum van ontvangst van die kennisgeving.

2. De beëindiging van dit Verdrag door de Regering van het Koninkrijk der Nederlanden kan worden beperkt tot één van de samenstellende delen van het Koninkrijk.

Treaty between the United States of America and the Kingdom of the Netherlands on mutual assistance in criminal matters

The Government of the United States of America and the Government of the Kingdom of the Netherlands, desiring to conclude a Treaty on mutual assistance in criminal matters, have agreed as follows:

Article 1

Obligation to Render Assistance

1. The Contracting Parties undertake to afford each other, upon request and in accordance with the provisions of this Treaty, mutual assistance in criminal investigations and proceedings.
2. Assistance shall include, but not be limited to:
 - a. locating persons;
 - b. serving documents;
 - c. providing records;
 - d. taking the testimony or statements of persons;
 - e. producing documents;
 - f. executing requests for search and seizure; and
 - g. transferring persons in custody for testimonial purposes.

Article 2

Locating Persons

The Requested State shall make thorough efforts to ascertain the location of persons specified in the request and believed to be within the Requested State.

Article 3

Serving Documents

1. The Requested State shall cause service of any legal document transmitted for this purpose by the Requesting State.
2. Any request for the service of a document requiring the appearance of a person before an authority in the Requesting State shall be transmitted a reasonable time before the scheduled appearance.
3. The Requested State shall return as proof of service a dated receipt signed by the person served or a declaration signed by the officer making service, specifying the form and date of service.

Article 4*Providing Records of Government Offices or Agencies*

1. The Requested State shall provide a copy of a publicly available record of a government office or agency, duly authenticated by an appropriate official.
2. The Requested State may provide any record or information in the possession of a government office or agency, but not publicly available, to the same extent and under the same conditions as it would be available to its own law enforcement or judicial authorities. The Requested State in its discretion may deny the request entirely or in part.

Article 5*Taking Testimony and Producing Documents in the Requested State*

1. A person from whom evidence is sought shall, if necessary, be compelled by subpoena to appear and testify or produce documents, records and articles to the same extent as in investigations or proceedings in the Requested State. Testimonial privileges under the laws of the Requesting State shall not apply in the execution of requests under this Article.
2. On request, the Requested State shall state the date and place of the taking of testimony.
3. At the execution of a request, the Requested State shall permit the presence of an accused, counsel for the accused, and any other interested person specified in the request.
4. The executing authority shall provide any person permitted to be present the opportunity to pose questions for the person whose testimony is sought.

Article 6*Executing Requests for Search and Seizure*

1. The Requested State shall execute requests for search and seizure in accordance with its laws and practices if the subject offense is punishable under the laws of both Contracting Parties by deprivation of liberty for a period exceeding one year, or, if less, is specified in the Annex of this Treaty.

The competent Authorities referred to in Article 14 may agree in writing upon any modifications of the Annex. Such modifications shall take effect on a date to be determined in an exchange of diplomatic notes.

2. An offense shall be deemed punishable under the laws of the Requested State if the acts or omissions alleged, occurring in similar circumstances in the Requested State, would constitute a criminal offense under the laws of that State. For purposes of this paragraph, purely jurisdictional elements of United States Federal offenses, such as the use of the mails or interstate commerce, shall not be considered as essential elements of these offenses.

3. A request to the Kingdom of the Netherlands for the production of documents from private persons shall comply with this Article.

4. A request to the United States for a search and seizure shall be accompanied by a statement made under oath before, or by a judge in the Kingdom of the Netherlands, which shall establish good cause to believe that an offense has taken place or is about to take place and that evidence of the offense is to be found on the persons or the premises to be searched, and shall provide a precise description of the person or premises to be searched. Such a statement shall be considered in the United States in lieu of an affidavit sworn before a United States judicial officer.

5. Documents produced under this Article shall be duly authenticated as specified in the request, and a record shall be made of every transfer of other articles or evidence seized. Such records of transfer shall be admitted as evidence of the truth of the facts they assert.

Article 7

Transferring Persons in Custody to the Requesting State

1. A person in custody needed as a witness or for purposes of confrontation before an authority in the Requesting State shall be transported to the Requesting State if:

- a. the person in custody consents;
- b. no substantial extension of that person's custody is anticipated; and
- c. the Requested State has no reason to deny the transfer.

2. The Requested State may postpone execution of the request for as long as the presence of the person is necessary for an investigation or proceeding in the Requested State.

3. The Requesting State shall have authority and be obligated to keep the person in custody unless the Requested State has ordered release.

4. The Requesting State shall return a person not released under paragraph 3 to the custody of the Requested State as soon as circumstances permit or as otherwise agreed. The Requesting State shall not decline to return a person transferred because such person is a national of that State.

Article 8

Transferring Persons in Custody to the Requested State

1. When the Requesting State requires the transfer to the other State of a person in custody for purposes of confrontation, the request shall so state.

2. The Requested State shall hold the person in custody, unless the Requesting State has ordered release.

3. The Requested State shall return a person not released under paragraph 2 to the custody of the Requesting State as soon as circumstances permit or as otherwise agreed. The Requested State shall not decline to return the person transferred because such person is a national of that State.

Article 9

Safe Conduct

1. A person appearing before an authority in either State pursuant to this Treaty shall not be subject to suit, or be detained or subjected to any other restriction of personal liberty, with respect to any act or conviction which preceded departure, except as provided in Articles 7 and 8 and in the following paragraph.

2. A person, of whatever nationality, summoned before the judicial authorities of the Requesting State as an accused, shall not be prosecuted or subjected to any restriction of personal liberty for acts or convictions prior to departure from the Requested State and not specified in the summons.

3. Safe conduct provided in this Article shall cease if, ten days after the person appearing has been notified that his or her presence is no longer required, that person has not left the Requesting State or, having left, has returned.

4. A person appearing as a witness in the Requesting State may refuse to testify when that person, because of occupation, has an obligation or right to do so under the laws of the Requested State and the testimony required relates to protected information. The Requesting State shall respect the obligation or right when the Competent Authority of the Requested State verifies that such obligation or right exists.

Article 10

Limitations on Compliance

1. The Requested State may deny a request to the extent that:
 - a. execution of the request would prejudice the security or other essential public interests of the Requested State;
 - b. the request relates to a matter considered a political offense by the Requested State;
 - c. the request relates to the prosecution of a person who is immune from prosecution for the offense for which assistance is requested, by reason of the laws of the Requested State relating to prior jeopardy; or
 - d. the request does not comply with the provisions of this Treaty.
2. The Requested State may postpone execution of a request or grant it subject to conditions, if execution would interfere with an ongoing investigation or legal proceeding in the Requested State.
3. The Requested State shall immediately inform the Requesting State of the reason for denying or postponing the execution of a request.

Article 11

Protecting Confidentiality and Restricting Use

1. When necessary, the Requested State may require that evidence and information provided under this Treaty and information derived therefrom be kept confidential in accordance with stated conditions, except to the extent that disclosure is necessary as evidence in a public proceeding.

Article 12

Executing Requests

1. The Competent Authority of the Requested State shall promptly comply with the request or, when appropriate, transmit it for execution to the authority having jurisdiction.
2. Requests shall be executed according to the domestic law and procedures of the Requested State except to the extent that this Treaty provides otherwise. Procedures specified in the request, even if unfamiliar to the Requested State, shall be followed except to the extent specifically prohibited by the laws of the Requested State.

Article 13*Contents of Requests*

Article 14*Competent Authorities*

All requests for assistance shall be made and executed through a Competent Authority for each Contracting Party. The Competent Authorities of the two States shall communicate directly with each other for the purpose of carrying out the provisions of this Treaty. For the United States of America, the Competent Authority shall be the Attorney General or that person's designee. For the Kingdom of the Netherlands, the Competent Authority shall be the Minister of Justice in the Netherlands or the Minister of Justice in the Netherlands Antilles or their designees.

Return of Completed Requests

1. Upon completion of a request the Requested State shall, unless otherwise agreed, return the original request together with all information and evidence obtained, indicating place and time of execution, to the Requesting State.
2. To the extent possible, all documents and records to be furnished pursuant to a request under this Treaty shall be complete and in unedited form. Upon application of the Requesting State, the Requested State shall make every effort to furnish original documents and records.

Article 16*Return of Documents, Records or Articles of Evidence*

The Requesting State shall return any documents, records or articles of evidence furnished in execution of requests as soon as possible unless the Requested State waives their return.

Article 17*Costs and Translations*

2. The Requesting State shall bear all expenses related to the transfer under Articles 7 and 8 of a person in custody.
3. Requests shall be provided in both Dutch and English. Translation of documents provided pursuant to requests is incumbent on the Requesting State.

Article 18*Other Treaties and Domestic Laws*

1. Assistance and procedures provided by this Treaty shall be without prejudice to, and shall not prevent or restrict, any assistance or procedure available under other international conventions or arrangements or under the domestic laws of the Contracting Parties.
2. Except where this Treaty specifically sets forth rules for the admissibility of evidence, the provisions of this Treaty shall not give rise to a right on the part of any person to take any action in a criminal proceeding to suppress or exclude any evidence. This Treaty does not expand or limit rights to judicial review otherwise available under domestic law.

3. No provision governing extradition of persons, whether of domestic law or treaty, shall apply to the transfer of persons under Articles 7 and 8 or to appearance under paragraph 2 of Article 9.

Verdrag tussen de Verenigde Staten van Amerika en het Koninkrijk der Nederlanden aangaande wederzijdse rechtshulp in strafzaken

De Regering van de Verenigde Staten van Amerika en de Regering van het Koninkrijk der Nederlanden, geleid door de wens een verdrag te sluiten aangaande de wederzijdse rechtshulp in strafzaken, zijn het volgende overeengekomen:

Artikel 1

Verplichting tot hulpverlening

1. De Verdragsluitende Partijen verbinden zich om, op verzoek en in overeenstemming met de bepalingen van dit Verdrag, elkaar wederzijds hulp te verlenen bij strafrechtelijk onderzoek en strafrechtelijke procedures.
2. Deze rechtshulp omvat onder meer:
 - a. opsporing van personen;
 - b. betekening van stukken;
 - c. het verstrekken van documenten;
 - d. het horen van personen als getuige of anderszins;
 - e. overlegging van stukken;
 - f. uitvoering van verzoeken tot huiszoeking en inbeslagneming; en
 - g. overdracht van personen die zich in detentie bevinden, met het oog op het afleggen van een getuigenverklaring.

Artikel 2

Opsporing van personen

De aangezochte Staat doet al het mogelijke om de verblijfplaats vast te stellen van personen, die in het verzoek zijn opgegeven en van wie wordt vermoed dat zij zich in de aangezochte Staat bevinden.

Artikel 3

Betekening van stukken

1. De aangezochte Staat zorgt voor de betekening van alle gerechte stukken die hem met dat doel door de verzoekende Staat worden toegezonden.
2. Ieder verzoek tot betekening van een stuk waarin de verschijning van een persoon wordt gelast voor een autoriteit in de verzoekende Staat dient een redelijke tijd vóór het vastgestelde tijdstip van de verschijning te worden toegezonden.
3. De aangezochte Staat zendt als bewijs van de betekening een gedagtekende, door degene aan wie de betekening is verricht, ondertekende ontvangstbevestiging terug, dan wel een door de ambtenaar die de betekening heeft verricht, ondertekende verklaring waarin de vorm en de datum van de betekening nauwkeurig worden vermeld.

Artikel 4

Het verstrekken van documenten van overheidsinstanties of -instellingen

1. De aangezochte Staat verstrekkt afschriften van voor een ieder toegankelijke gegevens uit de administratie van overheidsinstanties of -instellingen, die naar behoren dienen te worden gewaarmerkt door een bevoegde functionaris.

2. De aangezochte Staat kan in de administratie voorkomende of andere gegevens, in het bezit van overheidsinstanties of -instellingen, die niet voor een ieder toegankelijk zijn, verstrekken in dezelfde mate en onder dezelfde voorwaarden als deze ter beschikking zouden kunnen worden gesteld van zijn eigen opsporings- of gerechtelijke autoriteiten. De aangezochte Staat mag het verzoek naar eigen inzicht geheel of gedeeltelijk afwijzen.

Artikel 5

Het horen van getuigen en de overlegging van stukken in de aangezochte Staat

1. Een persoon van wie bewijsmateriaal wordt verlangd kan, indien nodig, worden gedagvaard ten einde te getuigen of worden gedwongen stukken, documenten en zaken over te leggen in dezelfde mate als in geval van een vooronderzoek of onderzoek ter terechting in de aangezochte Staat. Rechten tot verschoning van het afleggen van getuigenverklaringen krachtens de wetten van de verzoekende Staat zijn niet van toepassing bij de uitvoering van verzoeken krachtens dit artikel.

2. De aangezochte Staat vermeldt op verzoek de datum en plaats van het getuigenverhoor.

3. De aangezochte Staat stemt, bij de uitvoering van een verzoek, toe in de aanwezigheid van de verdachte, de raadsman van de verdachte en van iedere andere, in het verzoek opgegeven belanghebbende.

4. De autoriteit die het verzoek uitvoert verschafft een ieder wiens aanwezigheid is toegestaan gelegenheid tot het stellen van vragen te richten tot degene van wie verklaringen worden verlangd.

Artikel 6

Uitvoering van verzoeken tot huiszoeking en inbeslagneming

1. De aangezochte Staat geeft gevolg aan verzoeken tot huiszoeking en inbeslagneming overeenkomstig zijn wetten en gebruiken, indien op het desbetreffende feit krachtens de wetten van beide Verdragsluitende Partijen een vrijheidsstraf is gesteld van meer dan een jaar, of, indien daarop een kortere vrijheidsstraf is gesteld, dat feit is vermeld in de Bijlage bij dit Verdrag.

De Bevoegde Autoriteiten bedoeld in artikel 14 kunnen schriftelijk wijzigingen van de Bijlage overeenkomen. Dergelijke wijzigingen treden in werking op een in een diplomatische notawisseling vast te stellen datum.

2. Een feit wordt geacht krachtens de wetten van de aangezochte Staat strafbaar te zijn gesteld indien het beweerde handelen of nalaten, wanneer het onder gelijksoortige omstandigheden in de aangezochte Staat zou hebben plaatsgevonden, een strafbaar feit zou hebben opgeleverd krachtens de wetten van die Staat. Voor de toepassing van dit lid worden rechtsmachtbepalende elementen van strafbare feiten, opgenomen in federale wetten van de Verenigde Staten, zoals het gebruik van de posterijen of de handel tussen de staten, niet beschouwd als wezenlijke elementen van die strafbare feiten.

3. Een verzoek aan het Koninkrijk der Nederlanden tot overlegging van stukken, afkomstig van particulieren, dient aan het bepaalde in dit artikel te voldoen.

4. Een verzoek tot huiszoeking en inbeslagneming gericht tot de Verenigde Staten dient vergezeld te gaan van een voor of door een rechter in het Koninkrijk der Nederlanden op ede afgelegde verklaring, waaruit blijkt dat er gegronde redenen bestaan om aan te nemen dat een strafbaar feit is gepleegd of zal worden gepleegd en dat bewijsmateriaal ter zake bij de te onderzoeken personen of percelen zal worden gevonden, en waarin een nauwkeurige aanduiding van de te onderzoeken personen of percelen wordt gegeven. Een dergelijke verklaring geldt in de Verenigde Staten als een voor een Amerikaanse rechterlijke autoriteit onder ede afgelegde verklaring (affidavit).

5. Krachtens dit artikel overgelegde stukken worden naar behoren gewaarmerkt, als aangegeven in het verzoek, en van iedere overdracht van andere in beslag genomen zaken of van ander in beslag genomen bewijsmateriaal wordt een proces-verbaal opgesteld. Dergelijke verballen betreffende overdracht worden erkend als bewijs van de daarin vermelde feiten.

Artikel 7

Overdracht van personen die zich in detentie bevinden naar de verzoekende Staat

1. Een persoon die zich in detentie bevindt en wiens verschijning als getuige of tot confrontatie voor een autoriteit in de verzoekende Staat noodzakelijk is, wordt naar de verzoekende Staat overgebracht indien:

- a. degene die zich in detentie bevindt daarmee instemt;
- b. geen belangrijke verlenging van zijn detentie wordt verwacht; en
- c. de aangezochte Staat geen redenen heeft de overbrenging te weigeren.

2. De aangezochte Staat kan de uitvoering van het verzoek uitstellen zolang de aanwezigheid van de persoon noodzakelijk is in verband met een vooronderzoek of onderzoek ter terechtzitting in de aangezochte Staat.

3. De verzoekende Staat heeft de bevoegdheid en is verplicht de persoon in detentie te houden, tenzij de aangezochte Staat de vrijlating heeft bevolen.

4. De verzoekende Staat draagt een persoon die niet krachtens het derde lid is vrijgelaten wederom in detentie over aan de aangezochte Staat, zodra de omstandigheden dat toelaten of zoals anderszins wordt overeengekomen. De verzoekende Staat weigert niet een overgebrachte persoon wederom over te dragen omdat deze onderdaan van die Staat is.

Artikel 8

Overdracht van personen die zich in detentie bevinden naar de aangezochte Staat

1. Wanneer de verzoekende Staat de overdracht van een zich in detentie bevindende persoon naar de andere Staat tot confrontatie verlangt, maakt het verzoek daarvan melding.

2. De aangezochte Staat houdt de persoon in detentie, tenzij de verzoekende Staat de vrijlating heeft bevolen.

3. De aangezochte Staat draagt een persoon die niet krachtens het tweede lid is vrijgelaten wederom in detentie over aan de verzoekende Staat, zodra de omstandigheden dat toelaten of zoals anderszins wordt overeengekomen. De aangezochte Staat weigert niet de overgebrachte persoon wederom over te dragen omdat deze onderdaan van die Staat is.

Artikel 9

Vrijgeleide

1. Een persoon die ingevolge dit Verdrag voor een autoriteit in de andere Staat verschijnt, kan niet voor de rechter worden gebracht, noch in hechtenis genomen of onderworpen aan enige andere beperking van zijn persoonlijke vrijheid, met betrekking tot een feit of veroordeling vóór zijn vertrek, behalve als voorzien in de artikelen 7 en 8 en in het volgende lid.

2. Een persoon, ongeacht van welke nationaliteit, die is gedagvaard om als verdachte te verschijnen voor de gerechtelijke autoriteiten van de verzoekende Staat wordt niet vervolgd of onderworpen aan enige beperking van zijn persoonlijke vrijheid, wegens feiten of veroordelingen vóór zijn vertrek uit de aangezochte Staat die niet in de dagvaarding zijn omschreven.

3. Het in dit artikel verschafte vrijgeleide eindigt, indien de verschijnende persoon tien dagen nadat hij ervan in kennis is gesteld dat zijn aanwezigheid niet langer is vereist, de verzoekende Staat niet heeft verlaten of, na die Staat te hebben verlaten, daar is teruggekeerd.

4. Een persoon die als getuige verschijnt in de verzoekende Staat kan weigeren een getuigenverklaring af te leggen wanneer hij daartoe krachtens de wetten van de aangezochte Staat uit hoofde van zijn beroep een verplichting of een recht heeft, en de verlangde getuigenverklaring betrekking heeft op beschermd gegevens. De verzoekende Staat eerbiedigt de verplichting of het recht wanneer de bevoegde autoriteit van de aangezochte Staat bevestigt dat een zodanige verplichting of een zodanig recht bestaat.

Artikel 10

Beperkingen op de inwilliging

1. De aangezochte Staat kan een verzoek afwijzen in zoverre:

- a. de uitvoering van het verzoek zou kunnen leiden tot een aantasting van de veiligheid of van andere, wezenlijke algemene belangen van die Staat;
 - b. het verzoek betrekking heeft op een zaak die door de aangezochte Staat als een politiek delict wordt beschouwd;
 - c. het verzoek betrekking heeft op de vervolging van een persoon die uit hoofde van de wetten van de aangezochte Staat betreffende een voorafgaande vervolging niet kan worden vervolgd ter zake van het strafbare feit waarvoor de rechtshulp wordt gevraagd;
 - d. het verzoek niet voldoet aan de bepalingen van dit Verdrag.
2. De aangezochte Staat kan de uitvoering van een verzoek uitstellen of dit inwilligen onder bepaalde voorwaarden, indien de uitvoering een vooronderzoek of een onderzoek ter terechtzitting in de aangezochte Staat, zou doorkruisen.
3. De aangezochte Staat stelt de verzoekende Staat onmiddellijk in kennis van de reden van een weigering of uitstel van de uitvoering van een verzoek.

Artikel 11

Bescherming van vertrouwelijke gegevens en beperking van hun gebruik

1. [EXCHANGE OF NOTES]

EMBASSY OF THE
UNITED STATES OF AMERICA

The Hague

June 12, 1981

No. 55

Excellency,

I have the honor to refer to the Treaty between the United States of America and the Kingdom of the Netherlands on Mutual Assistance in Criminal Matters signed today, and in particular to Articles 4, 6, 11 and 14 thereof, and express the understanding of the United States with respect to those Articles.

Article 4

Paragraph 2 of Article 4 permits each Party to provide to the other records in the possession of the government, other than those publicly available, and information derived therefrom. It also allows each Party the option of refusing to provide, or placing conditions on the disclosure of, such records and information. The Parties intend to furnish such records and information, to the extent permitted by domestic law, except where disclosure would cause harm to individuals cooperating in criminal investigations, compromise voluntary sources of information crucial to government operations, or otherwise adversely affect the operations of government or the administration of justice.

The Parties recognize that disclosure of tax records and information is strictly limited under their respective domestic tax laws because the proper operation of those laws depends upon taxpayer cooperation. Accordingly, tax records and information will be provided under the Treaty with respect to criminal investigations and proceedings only to the extent, and under the same conditions, that they would be available in criminal investigations and proceedings in the Requested State.

Article 6

The Parties understand that Article 6 establishes a far-reaching mutual obligation to comply with requests for search and seizure. Since this kind of assistance entails compulsory measures which may seriously intrude into the private life and affairs of the individual, the Parties agree that requests for search and seizure will be granted only where the criminal acts or omissions are punishable under the laws of both States and the request is executed according to the domestic laws and administrative practices of the Requested State.

In the Kingdom of the Netherlands, the established administrative practice is that with respect to offenses called "fiscal offenses," which relate to duties, taxes, customs and exchange, compulsory measures of this kind are judiciously invoked. Accordingly, the Government

of the Kingdom of the Netherlands takes the view that in executing requests for search and seizure under international agreements, it will not depart from its policy of restraint. The Government of the Kingdom understands Article 6 to allow it to retain its customary discretion in the execution of requests relating to fiscal offenses.

Certain Federal laws of the United States, such as those governing drugs, poisonous chemicals, substances injurious to health, firearms and other weapons, explosive and incendiary devices, are based on constitutional powers as the power to tax and promote public health and, consequently, are couched in terms of tax, health, and other laws. In executing requests by the United States with respect to such laws, the Kingdom of the Netherlands does not intend to retain the discretion ordinarily exercised with respect to fiscal offenses under the laws of the Kingdom of the Netherlands. This discretion will be retained only when the subject offenses relate to duties, taxes, customs or exchange according to the laws of both Parties.

Under the laws and practices of the United States, the requirements for search and seizure in fiscal cases are no stricter than in other kinds of cases. An application for a warrant for search and seizure in the United States must establish good cause to believe that an offense has taken place and that evidence of the

offense is to be found on the person or premises to be searched. The description of the person or premises to be searched and the objects to be seized must be precise. Accordingly, a request by the Kingdom of the Netherlands to the United States for search and seizure should ordinarily be accompanied by a statement, made by or before a judge of the Kingdom of the Netherlands, of the facts establishing the basis for the issuance of the warrant.

Article 11

Although paragraph 1 of Article 11 allows either Party to impose restrictions on evidence and information provided, both Parties recognize that where judicial procedures require evidence to be presented in a public proceeding, such evidence and information may be so used to the extent the Requesting State deems necessary.

With respect to paragraph 2 of Article 11, both Parties agree that consent to use tax records and information for a purpose other than that stated in the initial request can be given. However, such consent will be limited to those instances where the subsequent use is consistent with the domestic laws and practices of the Requested State.

Article 14

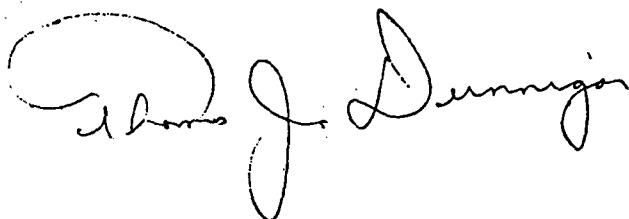

Requests made by the Competent Authorities specified in Article 14 are to be honored in the Requested State in a way which harmonizes with domestic law. It is understood that whereas requests under this Treaty and all subsequent communications are exchanged between the Competent Authorities designated, such requests will originate from prosecutors, investigating authorities or courts.

The Competent Authorities of the Kingdom of the Netherlands will convey requests from public prosecutors, examining magistrates and courts. The Competent Authority of the United States will make requests on behalf of prosecutors and law enforcement agencies and will convey requests from courts.

Certain domestic*laws of the Parties provide for assistance to foreign authorities only when the originator of the request is a judicial authority. Although prosecutors and law enforcement agencies are not considered judicial authorities under the laws of the United States, requests made on their behalf by the Attorney General of the United States, for purposes of applying the laws of the Kingdom of the Netherlands, shall be considered requests of a judicial authority. Requests made on behalf of public prosecutors in the Kingdom of the Netherlands, for purposes of applying the laws of the United States, shall be considered requests of a judicial authority.

I would appreciate from your Excellency confirming
that the understanding described above is also the
understanding of the Kingdom of the Netherlands.

Accept, Excellency, assurances of my highest
consideration.

1983.*

¹ Signed Dec. 1, 1959. TIAS 4780; 12 UST 794.

[CERTAIN RECOMMENDATIONS^[1] OF THE NINTH
ANTARCTIC TREATY CONSULTATIVE MEETING]^[2]

RECOMMENDATION IX-1

Antarctic Mineral Resources

The Representatives,

Recalling the provisions of the Antarctic Treaty, which establishes a regime for international co-operation in Antarctica, with the objective of ensuring that Antarctica should continue forever to be used exclusively for peaceful purposes and should not become the scene or object of international discord;

Bearing in mind the provisions of Article IV of the Treaty;

Convinced that the framework established by the Antarctic Treaty has proved effective in promoting international harmony in furtherance of the purposes and principles of the United Nations Charter,^[3] in ensuring the protection of the Antarctic environment, and on promoting freedom of scientific research in Antarctica;

Noting with thanks the Report of the Scientific Committee on Antarctic Research (SCAR) Group of Specialists entitled Preliminary Assessment of the Environmental Impact of Mineral Exploration/Exploitation in Antarctica (EAMREA);

Recognizing nevertheless that adequate scientific data concerning the harmful environmental effects of activities related to the exploration and exploitation of Antarctic mineral resources, should they occur, are not yet available;

¹ Recommendations IX-1 through IX-6 having been approved by the requisite Contracting Parties became effective in accordance with article IX(4) of the Antarctic Treaty.

² The English language text printed herein is an extract from the Report of the Ninth Antarctic Treaty Consultative Meeting. The original documents relating to the Meeting are held in the archives of the British Government, London.

³ Signed June 26, 1945. TS 993; 59 Stat. 1031; 3 Bevans 1153.

Concerned that unregulated activities related to exploration and exploitation of mineral resources could adversely affect the unique environment of the Antarctic and other ecosystems dependent on the Antarctic environment;

Conscious that the Consultative Parties to the Antarctic Treaty in carrying out scientific research in the area have accumulated valuable experience and can substantially contribute to the protection of the environment and the rational use of Antarctic mineral resources, should exploration or exploitation thereof occur;

Aware of the special responsibilities of Consultative Parties to ensure that any activities in Antarctica, including commercial exploration and exploitation in the future, should they occur, should not become the cause of international discord, of danger to the unique Antarctic environment, of disruption to scientific investigation, or be otherwise contrary to the principles or purposes of the Antarctic Treaty;

Recommend to their Governments that:

1. They reaffirm the basic principles set forth in Recommendation VIII-1-4^[1] of the Eighth Antarctic Treaty Consultative Meeting;
2. They take note with appreciation of the Report of the Group of Experts on Mineral Exploration and Exploitation annexed to the Report of the Ninth Consultative Meeting and make the best possible use of its conclusions and guidelines;
3. They continue to study the environmental implications of mineral resource activities in the Antarctic Treaty Area and hold at a time and place to be arranged through diplomatic channels a meeting of ecological, technological and other related experts, in accordance with Recommendation IV-24,^[2] with a view to developing scientific programmes aimed at:
 - (i) improving predictions of the impact of possible technologies for mineral exploration and exploitation in the Antarctic, as outlined in Section IIB of the Report of the Group of Experts, and in Section 5 of the SCAR/EAMREA Group Report;
 - (ii) developing measures for the prevention of damage to the environment or for its rehabilitation, in accordance with Section IIC of the Report of the Group of Experts;
4. They endorse the following principles elaborated at the Special Preparatory Meeting held in Paris from 28 June to 10 July 1976:—
 - (i) the Consultative Parties will continue to play an active and responsible role in dealing with the question of the mineral resources of Antarctica;
 - (ii) the Antarctic Treaty must be maintained in its entirety;
 - (iii) protection of the unique Antarctic environment and of its dependent ecosystems should be a basic consideration;
 - (iv) the Consultative Parties, in dealing with the question of mineral resources in Antarctica, should not prejudice the interests of all mankind in Antarctica;

¹TIAS 10486; 34 UST 2227.

²TIAS 6668; 20 UST 617.

5. They note that the provisions of Article IV of the Antarctic Treaty shall not be affected by the regime. It should ensure that the principles embodied in Article IV of the Antarctic Treaty are safeguarded in application to the area covered by the Antarctic Treaty;
6. They study the content of a future regime based on the principles contained in paragraphs 4 and 5 and on such further principles, rules and arrangements as may be agreed, taking full account of all proposals submitted to the IXth Consultative Meeting;
7. The subject "Antarctic Resources - The Question of Mineral Exploration and Exploitation" be the subject of intensified consultation among them and they urge the host Government of the Tenth Consultative Meeting to convene a meeting to consider legal and political aspects of mineral resource issues; this meeting to report to the Tenth Consultative Meeting on the results of its work;
8. They urge their nationals and other States to refrain from all exploration and exploitation of Antarctic mineral resources while making progress towards the timely adoption of an agreed regime concerning Antarctic mineral resource activities. They will thus endeavour to ensure that, pending the timely adoption of agreed solutions pertaining to exploration and exploitation of mineral resources, no activity shall be conducted to explore or exploit such resources. They will keep these matters under continuing examination;
9. The subject "Antarctic Resources - The Question of Mineral Exploration and Exploitation" be placed on the Agenda of the Tenth Antarctic Treaty Consultative Meeting.

RECOMMENDATION IX-2

Antarctic Marine Living Resources

The Representatives,

Recalling the special responsibilities conferred upon the Consultative Parties in respect of the preservation and conservation of living resources in the Antarctic by virtue of Article IX paragraph 1(f) of the Antarctic Treaty;

Recalling further the history of action taken by Consultative Parties concerning conservation and protection of the Antarctic ecosystem including, in particular, Recommendations III-VIII,^[1] VIII-10,^[2] VIII-13^[2] and IX-5;^[3]

Noting that concentrations of marine living resources are found in the Antarctic Treaty area and adjacent waters;

Aware of the need to compile more information with a view to developing a good scientific foundation for appropriate conservation measures and rational management policies for all Antarctic marine living resources;

Recognising the urgency of ensuring that these resources are protected by the establishment of sound conservation measures which will prevent overfishing and protect the integrity of the Antarctic ecosystem;

¹Not yet in force.

²TIAS 10486; 34 UST 2227.

³See p. 1400.

Concerned that interim guidelines for the protection and conservation of Antarctic marine living resources are desirable until such time as a definitive regime enters into force;

Convinced that provision for effective measures to conserve Antarctic marine living resources as well as for collection and analysis of the data necessary to develop such measures will require the early conclusion of a definitive conservation regime;

Recommend to their Governments that:

To the greatest extent feasible, they cooperate broadly and comprehensively in scientific investigations, and in the exchange of information thereon, relating to the Antarctic marine environment and that they intensify as far as possible scientific research related to Antarctic marine living resources;
2. In planning their marine activities in the Antarctic, they have regard to the advantages that will accrue from coordination by them of their scientific investigations contributing to the BIOMASS programme;
3. They give sympathetic consideration to the provision of practical measures (such as ships, ship time, personnel and finance) in support of the implementation of the BIOMASS programme or other similar programmes;
4. They examine the possibility of integrating, in so far as is practicable, research vessel programmes with the activities of other vessels, and make available on vessels operating in the Antarctic, other than research vessels contributing directly to the BIOMASS programme, time and facilities for routine observations aimed at extending the data base for the programme.

II

Interim Guidelines for the Conservation of Antarctic Marine Living Resources

1. They observe the following interim guidelines pending entry into force of the definitive regime for Antarctic Marine Living Resources:
 - (a) they cooperate as broadly and comprehensively as possible in the mutual exchange of statistics relating to catch of Antarctic Marine Living Resources;
 - (b) they should show the greatest possible concern and care in the harvesting of Antarctic Marine Living Resources so that it does not result in the depletion of stocks of Antarctic marine species or jeopardizing the Antarctic marine ecosystem as a whole;

- (c) they urge those Governments which are not parties to the Antarctic Treaty and which engage in activities involving the use of the marine living resources of Antarctica to take account of these guidelines;
- 2. They review these interim guidelines as and when necessary and in any event following the conclusion of the definitive regime with a view to their future elaboration in the light of the provisions of the definitive regime.

III

Establishment of a Definitive Conservation Regime

- 1. A definitive regime for the Conservation of Antarctic Marine Living Resources should be concluded before the end of 1978. [¹]
- 2. A Special Consultative Meeting be convened in order to elaborate a draft definitive regime, and in particular:
 - (a) to determine the form of the definitive regime, including the question as to whether an international instrument such as a convention is necessary;
 - (b) to prepare, if necessary, draft rules of procedure for a subsequent decisive meeting for the establishment of the definitive regime;
 - (c) to decide on participation in such a meeting by States other than Consultative Parties which are actively engaged in research and exploitation of Antarctic Marine Living Resources and the participation, on an observer basis, of appropriate international organisations;
 - (d) to finalise the date and place of the decisive meeting;
 - (e) to take any other steps in order to facilitate the work of the decisive meeting referred to above.
- 3. The Special Consultative Meeting shall base its work on this recommendation and take account of the discussions at the Ninth Consultative Meeting, its report and the documents presented to it, and, in the elaboration of a draft definitive regime, shall take into account *inter alia* the following elements:
 - (a) the regime should explicitly recognise the prime responsibilities of the Consultative Parties in relation to the protection and conservation of the environment in the Antarctic Treaty area and the importance of the measures recommended by the Consultative Parties to this end;
 - (b) The provisions of Article IV of the Antarctic Treaty shall not be affected by the regime. It should ensure that the principles embodied in Article IV are safeguarded in application to the marine areas south of 60° South latitude;

¹ See Convention on the Conservation of Antarctic Marine Living Resources. Done at Canberra May 20, 1980. TIAS 10240; 33 UST 3476.

- (c) the regime should provide for the effective conservation of the marine living resources of the Antarctic ecosystem as a whole;
- (d) the regime should cover the area of specific competence of the Antarctic Treaty;
- (e) the regime should, however, extend north of 60° South latitude where that is necessary for the effective conservation of species of the Antarctic ecosystem, without prejudice to coastal state jurisdiction in that area;
- (f) the regime should not apply to species already regulated pursuant to existing international agreements but should take into account the relationship of such species to those species covered by the regime.

RECOMMENDATION IX-3

Improvement of Telecommunications in the Antarctic

The Representatives,

Considering that requirements in the field of telecommunications as regards collection and dissemination of meteorological data, and the need for scientific, administrative and operational traffic have developed substantially since the second telecommunications meeting of experts of the Consultative Parties held in Buenos Aires in 1969;

Considering that the implementation of Recommendation VI-1^[1] and VII-7,^[2] and participation in the programmes of the World Meteorological Organisation, particularly the World Weather Watch, require a thorough review and improvement of the network operating in the Antarctic;

Recommend to their Governments that they:

1. Compile comprehensive data, each for its own part, on the types of traffic, modes of transmission, timing, frequencies of their telecommunications schedules and current equipment of their telecommunications programmes in the Antarctic, as well as on projects in the process of implementation and proposed improvements, in particular by designating, where appropriate, stations capable of replacing others in the event of breakdown;
2. Forward all such data to each of the other Consultative Parties via diplomatic channels on the one hand and on the other by direct despatch to the departments concerned;
3. Arrange for a meeting of telecommunications experts to be held, on the initiative of the Government of the host country, before the Tenth Consultative Meeting, to analyse the data thus compiled, suggest desirable measures of harmonisation and put forward recommendations on improvements to be made in the operation of the telecommunications network in the Antarctic;

¹ TIAS 7796; 25 UST 267.

² TIAS 8500; 28 UST 1141.

4. Request SCAR through their National Antarctic Committees to undertake, at the earliest opportunity, a study of the most recent applications of science and technology to the specific problems of the Antarctic in the field of propagation of radio waves, and to pass on its conclusions to the Consultative Parties prior to their Tenth Meeting or if necessary to the next Consultative Meetings.

RECOMMENDATION IX-4

Co-operation in Transport

The Representatives,

Recalling the appropriate provisions of the Treaty as well as Recommendation VIII-7; [¹]

Acknowledging the comprehensive report on transport resources and potential requirements delivered to the Fourteenth Meeting of the Scientific Committee on Antarctic Research (SCAR);

Concurring that the most effective use of aviation assets will be in co-ordinated air support projects (as circumstances permit) without major additional construction or investment;

Noting that new types of aircraft, equipment, and facilities are either being developed or likely to be introduced, and the continuing need for standardization of facilities and procedures to ensure effective co-ordination;

Recommend to their Governments that:

1. They request SCAR, through their National Antarctic Committees, to continue the work of the Sub-committee on Co-operative Air Transport System for Antarctica (CATSA) of the Working Group on Logistics;
2. They request their offices responsible for the administration of Antarctic expeditions to adopt, to the extent practicable, such measures for improved compatibility of facilities and procedures as SCAR might be able to suggest.

RECOMMENDATION IX-5

Man's Impact on the Antarctic Environment

The Representatives,

Recommend to their Governments that they approve the following declaration on the Protection of the Antarctic Environment:

The Governments participating in the Ninth Antarctic Treaty Consultative Meeting,

Deeply aware that the Antarctic environment is unique and vulnerable to contamination and disturbance;

¹TIAS 10486; 34 UST 2227.

Determined to protect the Antarctic environment from harmful interference;

Having particular regard to the conservation principles developed by the Scientific Committee on Antarctic Research (SCAR) of the International Council of Scientific Unions;

Recalling their obligation to exert appropriate efforts, consistent with the Charter of the United Nations, to the end that no one engages in any activity in Antarctica contrary to the principles or purposes of the Antarctic Treaty;

Declare as follows:

1. The Consultative Parties recognise their prime responsibility for the protection of the Antarctic environment from all forms of harmful human interference;

2. They will ensure in planning future activities that the question of environmental effects and of the possible impact of such activities on the relevant ecosystems are duly considered;

3. They will refrain from activities having an inherent tendency to modify the Antarctic environment unless appropriate steps have been taken to foresee the probable modifications and to exercise appropriate controls with respect to harmful environmental effects;

4. They will continue to monitor the Antarctic environment and to exercise their responsibility for informing the world community of any significant changes in the Antarctic Treaty Area caused by man's activities.

RECOMMENDATION IX-6

Oil Contamination of the Antarctic Marine Environment

The Representatives,

Recommend to their Governments that:

1. They consider the possibility of preparing reports concerning the pathways by which oil may reach the Antarctic marine environment as a result of man's maritime activities in the Antarctic;

2. They include in these reports proposals relating to practicable means, if any, by which such oil contamination might be reduced;

3. They consider the possibility of instituting, in association with appropriate organisations, a programme for the determination of baseline levels of contamination of the Antarctic marine environment by oil;

4. They provide such reports as they may have prepared to, and further consider this matter at, the Meeting of Experts recommended in paragraph 3 of Recommendation IX-1, with a view to making proposals concerning these matters for consideration at the next Consultative Meeting.

[EXCHANGE OF NOTES]

Ankara, February 21, 1983

No. 81

Excellency:

I have the honor to refer to the Agreement on Scientific and Technological Cooperation between the Government of the United States of America and the Government of the Republic of Turkey, signed at Ankara on this date.

It is worthwhile to clarify the United States Government's understanding of certain points contained in Article III of the agreement on Science and Technology cooperation. In implementing similar agreements with other governments it has been the experience of the United States Government that the periodic program review referred to does not normally require high level meetings. Generally it has been found that members of the Embassy staff with appropriate guidance from Washington can ably represent the positions of the involved USG agencies. This procedure, of course, would not preclude meetings between representatives of technical agencies such as the National Science Foundation, and their Turkish counterparts, as warranted. During these periodic consultations, the role of the U.S. representatives would be to reflect the views of U.S. agencies with an expressed interest in cooperative programs and to seek to match these with interests expressed by the Turkish side. It is understood that the U.S. representative acting on behalf of a given agency would not have the authority to commit that agency to activities not permitted by law or its budget or research limitations.

His Excellency

Ilter Turkmen,

Minister of Foreign Affairs,

Ankara.

U.S. agency participation is limited not only by research interests but also by funding constraints. Most U.S. agencies have little or no funding designated for international cooperation. A key problem for developing mutually beneficial relationships has often been that of establishing contact between researchers with parallel interests. Especially in the early stages of joint research, funding of invitational travel and conferences necessary to initiate interchange requires the expenditure of limited amounts of available foreign currency reserves.

Accept, Excellency, the renewed assurances of my highest consideration.

Excellency,

I have the honour to refer to the Agreement on Scientific and Technological Cooperation between the Government of the Republic of Turkey and the Government of the United States signed at Ankara on this date and to the Side Letter concerning that Agreement contained in your Note No.81 also of this date.

The contents of the United States Government's Side Letter concerning the agreement on Science and Technology cooperation are deemed generally acceptable. In this connection, the Ministry of Foreign Affairs of Turkey will act as the coordinating authority for the Turkish side in developing relevant annual programs and undertaking program reviews. Other contacts within the same framework between the participating agencies will also be conducted under the aegis of the same authority.

Accept, Excellency, the renewed assurances of my highest consideration.

This Memorandum may be terminated at any time by either Party upon ninety (90) days written notice to the other Party. Subject to Article II, the termination of this Memorandum shall not affect the validity or

Atomic Energy: Fast Breeder Reactor Safety Research

*Arrangement signed at Paris and Washington June 7 and 21,
1983;*

Entered into force June 21, 1983.

TECHNICAL EXCHANGE AND COOPERATION ARRANGEMENT
BETWEEN
THE UNITED STATES NUCLEAR REGULATORY COMMISSION
AND
THE COMMISSARIAT A L'ENERGIE ATOMIQUE
OF FRANCE
IN THE FIELD OF FAST BREEDER REACTOR SAFETY RESEARCH

The United States Nuclear Regulatory Commission (USNRC) and
the Commissariat à l'Energie Atomique (CEA) of France,
considering that

- (a) they have a mutual interest in cooperation in the field of fast breeder reactor (FBR) safety research, with the objective of improving and thus ensuring the safety of FBRs on an international basis ; and that
- (b) they already cooperate in the field of FBR safety research, under the terms of an Agreement between the CABRI Project and the USNRC on exchange of information concerning the in-pile CABRI and ACPR program (signed in June 1978), [¹]

HEREBY AGREE AS FOLLOWS :

EFFECTIVE DATES JUN 21 1983

¹ Signed May 2 and June 7 and 22, 1978. TIAS 9603; 30 UST 7545. [Footnote added by the Department of State.]

ARTICLE 1 - OBJECTIVE

The USNRC and the CEA will continue their cooperation in the field of FBR safety research in accordance with the provisions of this Arrangement and on the basis of a reasonably balanced exchange. For NRC, it is understood that only information from NRC funded and sponsored programs will be exchanged. Nothing contained in this Arrangement shall require either party to take any action which would be inconsistent with its laws, regulations and national policy. Should any conflict arise between the terms of this Arrangement and those laws, regulations, or national policy, the parties agree to consult before any action is taken.

ARTICLE 2 - FORMS OF COOPERATION

Cooperation between the parties may take the following forms :

- 2.1. - The exchange of information in the form of technical reports, experimental data, correspondence, newsletters, visits, joint experts meetings, and such other means as the parties agree.
- 2.2. - The temporary assignment of personnel of one party or of its contractors to the laboratory or facilities owned by the other party or in which it sponsors research ; each such assignment to be considered on a case-by-case basis and be the subject of a separate attachment-of-staff agreement between appropriate representatives of the recipient and assigning organizations.
- 2.3. - The execution of joint programs and projects, including those involving a division of activities between the parties ; each such joint program and project shall be considered on a case-by-case basis and the subject of a separate agreement between the parties.
- 2.4. - The use by one party of facilities which are owned by the other party or in which research is being sponsored by the other party ; such use of facilities shall be the subject of separate agreements between the relevant entities and may be the subject to commercial terms and conditions.
- 2.5. - If either party wishes to visit, assign personnel, or use the facilities owned or operated by entities other than the parties to this Arrangement, the parties recognize that the prior approval of such entities will be

required in respect to the terms upon which such visit, assignment or use shall be made.

2.6. - Any additional form of cooperation upon which the parties may subsequently agree.

ARTICLE 3 - SCOPE OF INFORMATION EXCHANGE

3.1. - Each party will make available to the other information, (either in its possession or available to it), in the field of FBR safety research which it has the right to disclose concerning the technical areas listed in the Appendix A, in which the parties are sponsoring FBR safety research.

3.2. - Each party will promptly transmit and call to the other party's attention any information on its research results appearing to have significant safety implications. If the transmitting party notes such information to be of a proprietary nature, the recipient party shall control the further dissemination of the information in accordance with the provisions of Article 5.

3.3. - As agreed upon, the parties may also exchange information on any other topic related to FBR safety that is within the scope of CEA and NRC sponsored research.

ARTICLE 4 - ADMINISTRATION OF THE ARRANGEMENT

Each party will designate as Administrator a senior representative to coordinate its participation in the overall exchange. The Administrators will establish agreed upon procedures for implementing this Arrangement. Approximately annually, the Administrators will meet to review and define specific Reactor Safety Research Areas of Appendix A within which, during a fixed period of time, forms of cooperation (see Article 2) beyond the exchange of published information will be implemented. Appproximately annually, the Administrators will meet to review the status of exchange and cooperation established under this Arrangement, to recommend revisions for improving and developing the cooperation, and to discuss topics within the scope of the cooperation. The time, place and agenda for such meetings shall be agreed upon in advance.

ARTICLE 5 - EXCHANGE AND USE OF INFORMATION

5.1. - The parties support the widest possible dissemination of information provided or exchanged under this Arrangement, subject to the need to protect privileged information exchanged hereunder, as defined in paragraph 5.2., and to the provisions of Article 6.

5.2. - It is recognized by the parties that in the process of exchanging information, or in the process of other cooperation, the parties may provide to each other privileged information of a proprietary nature. Such information, including trade secrets, inventions, patent information, and know-how, made available hereunder and which bears a restrictive designation shall not be used for commercial purposes or made public without the consent of the transmitting party. Such information is defined as follows :

- a - held in confidence by the owner ;
- b - of a type customarily held in confidence by the owner ;
- c - not generally known or publicly available from other sources ;
- d - not having been made available previously by the transmitting party or others without an agreement concerning its confidentiality, and
- e - not already in the possession on the receiving party or its contractors.

5.3. - If the parties agree to transmit such privileged information, they shall first agree, prior to the transmission of the information (during the meetings of the Administrators referred to in Article 4 and mention of such agreement being in the minutes of the meeting) upon the privileged or proprietary nature of such information and upon the conditions of transmission. If the parties are unable to agree upon the privileged nature of the information or the conditions of transmission, said information shall not be transmitted under this Arrangement.

5.4. - The party receiving privileged information pursuant to this Arrangement shall respect the nature thereof, provided such information is clearly marked with the appropriate legend of the transmitting party and with the following (or substantially similar) restrictive legend :

"Except as set forth in the Agreement between USNRC and CEA dated
or except as agreed during the meeting of the Administrators held on
....., this document containing privileged information shall not
be disseminated outside the recipient's organization without prior approval
of (name of transmitting party)".

5.5. - Privileged information, as defined above, provided by one party to the other under this Arrangement shall be used only in the furtherance of nuclear safety programs in the receiving country. Its dissemination will, unless otherwise mutually agreed upon, be limited as follows

- 1 - persons within the receiving party,
- 2 - other concerned governmental agencies of the receiving party,
- 3 - subject to an agreement of the Administrators as mentioned in paragraph 5.3., persons employed by the receiving party, prime and subcontractors of the receiving party for use only within the framework of their contract(s) with the respective party engaged in work related to the subject matter of the privileged information so disseminated, and entities associated with the receiving party. *

5.6. - Non documentary privileged information provided in the seminars and other meetings organized under this Arrangement, or information arising from the attachment of staff, use of facilities or joint projects shall be treated by the parties in accordance with the principles specified in this Article, provided, however, that the party communicating such privileged information places the recipient on notice as to the character of the information communicated.

5.7. - The application or use of any information exchanged or transferred between the parties under the Arrangement shall be the responsibility of the party receiving the information, and the transmitting party does not warrant the suitability of the information for any particular use or application.

* Currently the two associated entities of the CEA are EDF and NOVATOME ; the NRC has none at this time.

5.8 - Each party shall exercise its best efforts to ensure that privileged information received by it under this Arrangement is controlled as provided herein. If one of the parties becomes aware that it will be, or may reasonably be expected to become, unable to meet the non-dissemination provisions of this Article, it shall immediately inform the other party. The parties shall thereafter consult to define an appropriate course of action.

5.9 - Nothing contained in this Arrangement shall be construed as requiring either party to transmit to the other party information that it considers as privileged or of a proprietary nature and which has been acquired or developed prior to or outside the course of cooperative activities under this Arrangement.

5.10- Nothing contained in this Arrangement shall preclude the use or dissemination of information received by a party from sources outside this Arrangement.

5.11- The provisions on non-dissemination of privileged information given in this Article shall continue notwithstanding the termination of this Arrangement or any extension thereof, until release is authorized by the transmitting party.

ARTICLE 6 - PATENTS

6.1 - With respect to any invention or discovery conceived or first actually reduced to practice in the implementation of this Arrangement :

6.1.1. - If conceived or first actually reduced to practice by personnel of a party (the assigning party) or its contractors while assigned to the other party (the recipient party) or its contractors, in connection with an exchange of scientists and other specialists :

6.1.1.1. - The Recipient Party shall acquire all right, title and interest in and to such invention or discovery, and any patent application or patent that may result, in its own country and in third countries ; and

6.1.1.2. - The Assigning Party shall acquire all right, title and interest in and to such invention, discovery, patent application or patent in its own country.

6.1.2. - If conceived by or first actually reduced to practice by a party or its contractors as a direct result of employing information which has been communicated to it under this Arrangement by the other party or its contractors, but not otherwise agreed to under a cooperative effort covered by paragraph 6.1.3.

6.1.2.1. - The party so conceiving or first actually reducing to practice such invention or discovery shall acquire all right, title and interest in and to such invention or discovery, and any patent application or patent that may result, in its own country and in third countries ; and

6.1.2.2. - The other party shall acquire all right, title and interest in and to such invention, discovery, patent application or patent in its own country.

6.1.3. - For other specific forms of cooperation, including exchange of samples, materials, instruments and components for special joint research projects, the parties shall provide for appropriate distribution of rights to inventions. In general, however, each party should normally determine the rights to such inventions in its own country, and the rights to such inventions in other countries should be agreed by the parties on an equitable basis.

6.1.4. - Notwithstanding the allocation of rights covered under paragraphs 6.1.1. and 6.1.2, in any case where one party first actually reduces to practice (after the execution of this Arrangement) an invention, either conceived or actually reduced to practice by the other party prior to execution of this Arrangement, or conceived or actually reduced to practice by the other party outside of the cooperative activities implementing this Arrangement, then the parties shall provide for an appropriate distribution of rights, taking into account existing commitments with third parties ; provided, however, that each party shall determine the rights to such invention in its own country.

6.2. - The party owning a patent covering any invention referred to in paragraph 6.1. above shall license the patents to nationals and licensees of the other party, upon request of the other party on nondiscriminatory terms and conditions under similar circumstances. At the time of such a request, the other party will be informed of all licenses already granted under such patent.

6.3. - Each party shall take all necessary steps to provide the cooperation from its inventors required to carry out the provisions of this Article. Each party shall assume the responsibility to pay awards or compensation required to be paid to its employees according to the laws of its country.

6.4. - It is understood that after the Community Patent Convention has come into force, the parties shall consult together to adapt the geographical allocation of the patent rights in order to allow a possible implementation of the said Convention.

ARTICLE 7 - COSTS

Except when otherwise specifically agreed upon by the parties, all costs arising in the implementation of this Arrangement shall be borne by the party that incurs them. It is understood that the ability of the parties to carry out their obligations is subject to the availability of appropriate funds.

ACCORD D'ECHANGE TECHNIQUE ET DE COOPERATION
ENTRE
LA COMMISSION DE REGLEMENTATION NUCLEAIRE DES ETATS-UNIS
ET
LE COMMISSARIAT A L'ENERGIE ATOMIQUE FRANCAIS
DANS LE DOMAINE DES ETUDES SUR LA SURETE DES
REACTEURS SURGENERATEURS A NEUTRONS RAPIDES

Considérant :

- a/ qu'elles ont un avantage réciproque à coopérer dans le domaine de la recherche concernant la sûreté des réacteurs surgénérateurs à neutrons rapides (RNR), en vue d'améliorer et d'établir la sûreté des RNR sur une base internationale ;
- b/ qu'elles coopèrent déjà dans le domaine des études sur la sûreté des RNR, dans le cadre d'un Accord signé en Juin 1978 entre les membres du programme CABRI et l'USNRC, qui prévoit un échange de connaissances concernant le programme d'expérimentation en pile CABRI et le programme ACPR,

les Parties Signataires, soit :

la Commission de Réglementation Nucléaire des Etats-Unis (USNRC) et
le Commissariat à l'Energie Atomique Français (CEA),

sont convenues de ce qui suit :

Dates d'entrée en vigueur : JUN 21 1983

ARTICLE 1 - OBJECTIF

L'USNRC et le CEA poursuivront leur coopération dans le domaine des études sur la sûreté des RNR conformément aux dispositions du présent Accord et sur la base d'un échange raisonnablement équilibré. En ce qui concerne la NRC, il est entendu que seules les informations issues de programmes financés et patronnés par la NRC seront échangées. Aucune disposition du présent Accord n'obligerait l'une des Parties à entreprendre des actions qui seraient en contradiction avec les lois, les réglementations ou la politique de son pays. Si un quelconque conflit surgissait entre les dispositions du présent Accord et ces lois, réglementations ou politique nationale, les Parties conviennent de se consulter avant toute action.

ARTICLE 2 - FORMES DE COOPERATION

La coopération entre les Parties pourra se faire selon les modalités suivantes :

- 2.1. - Echange de connaissances sous forme de rapports techniques, données d'expérience, correspondance, bulletins d'information, visites, réunions d'experts et de toute autre manière convenue entre les Parties.
- 2.2. - Détachement temporaire de personnel d'une Partie ou de ses contractants dans les laboratoires ou les installations de l'autre Partie ou dans des laboratoires ou installations dans lesquels cette autre Partie finance des études ; chaque détachement sera étudié cas par cas et fera l'objet d'un accord particulier de détachement de personnel entre les représentants qualifiés de l'organisme d'accueil et ceux de l'organisme de détachement.
- 2.3. - Exécution de programmes et de projets en commun, y compris ceux entraînant une répartition des actions entre les Parties ; chaque programme ou projet en commun sera étudié cas par cas et fera l'objet d'un accord particulier entre les Parties.
- 2.4. - Utilisation par une Partie d'installations de l'autre Partie ou d'installations dans lesquelles cette autre Partie finance des travaux de recherche ; une telle utilisation fera l'objet d'accords séparés entre les organismes concernés et pourra être soumise à des conditions commerciales.
- 2.5. - Si l'une des Parties désire visiter ou utiliser des installations possédées ou exploitées par d'autres organismes que les Parties au présent Accord, ou y détacher du personnel, les Parties reconnaissent que l'approbation

préalable desdits organismes devra être obtenue sur les conditions de ces visites, détachements ou utilisations.

2.6. - Toute forme de coopération supplémentaire dont les Parties peuvent convenir ultérieurement.

ARTICLE 3 - DOMAINE DE L'ECHANGE DE CONNAISSANCES

3.1. - Chaque Partie mettra à la disposition de l'autre Partie les connaissances concernant les études sur la sûreté des RNR (dont elle est propriétaire ou dont elle peut disposer) qu'elle a le droit de divulguer, connaissances relevant des domaines techniques qui figurent à l'annexe A et qui font l'objet d'études sur la sûreté des RNR financées par les Parties.

3.2. - Chaque Partie informera l'autre Partie et lui transmettra rapidement les connaissances sur ses résultats d'études susceptibles d'avoir des implications significatives en matière de sûreté. Si la Partie émettrice indique que ces informations sont susceptibles d'appropriation, la Partie réceptrice contrôlera la dissémination ultérieure des connaissances conformément aux dispositions de l'Article 5.

3.3. - Comme convenu, les Parties pourront également échanger des connaissances sur tout autre sujet portant sur la sûreté des RNR pour autant qu'elles se situent dans le cadre des études patronnées par le CEA et la NRC.

ARTICLE 4 - ADMINISTRATION DE L'ACCORD

Chaque Partie désignera comme Administrateur un représentant de haut niveau pour coordonner sa participation à l'échange général. Les Administrateurs établiront d'un commun accord des procédures de mise en oeuvre du présent Accord. Les Administrateurs se réuniront environ une fois par an pour passer en revue et définir les domaines spécifiques d'études sur la sûreté des réacteurs visés à l'Annexe A, domaines parmi lesquels, pendant une période de temps donnée, la coopération sera mise en oeuvre sous diverses formes (cf. Article 2), au delà de l'échange de connaissances déjà publiées. Les Administrateurs se réuniront environ une fois par an pour apprécier le point des échanges et de la collaboration réalisés dans le cadre de cet Accord, pour proposer des modifications éventuelles nécessaires à l'amélioration et au développement de la coopération entre les Parties et pour discuter des sujets faisant l'objet de cette coopération. La date, le lieu et l'ordre du jour de telles réunions devront recevoir l'accord préalable des Parties.

ARTICLE 5 - ÉCHANGE ET USAGE DES CONNAISSANCES

5.1 - Les Parties favoriseront la dissémination la plus large possible des connaissances fournies ou échangées dans le cadre du présent Accord, sous réserve de la nécessité de protéger les connaissances privilégiées échangées dans le cadre des présentes, telles que définies au § 5.2, et sous réserve des dispositions de l'article 6.

5.2 - Les Parties reconnaissent que, à l'occasion de l'échange de connaissances, ou, au cours d'autres formes de coopération, les Parties peuvent se fournir l'une à l'autre des connaissances privilégiées susceptibles d'appropriation. Ces connaissances, y compris les secrets de fabrique, les inventions, les connaissances sur les brevets, le savoir-faire, mises à disposition dans le cadre des présentes et qui portent des marques restrictives, ne seront pas utilisées à des fins commerciales ou rendues publiques sans l'accord de la Partie qui les transmet. Ces connaissances sont définies comme :

- a/ Celles qui sont gardées secrètes par leur propriétaire.
- b/ Celles qui sont d'un type habituellement tenu secret par leur propriétaire.
- c/ Celles qui ne sont généralement pas connues ou qui ne sont pas mises à disposition du public à partir d'autres sources.
- d/ Celles qui n'ont pas été mises à disposition antérieurement par la Partie émettrice sans un accord de secret.
- e/ Celles qui ne sont pas déjà en possession de la Partie qui les reçoit ou de ses contractants.

5.3 - Si les Parties sont d'accord pour transmettre de telles connaissances privilégiées, elles devront, préalablement à la transmission, s'entendre sur leur nature privilégiée ou sur le fait qu'elles sont susceptibles d'appropriation, et sur les conditions de leur transmission, au cours des réunions des Administrateurs mentionnées à l'article 4, mention d'un tel accord devant figurer aux minutes de la réunion. Si les Parties ne peuvent se mettre d'accord sur la nature privilégiée des connaissances ou sur les conditions de leur transmission, lesdites connaissances ne seront pas transmises dans le cadre du présent Accord.

5.4 - La Partie qui reçoit des connaissances privilégiées dans le cadre du présent Accord devra en respecter le caractère privilégié, à condition que les connaissances concernées portent clairement le sigle approprié

de la Partie émettrice ainsi que la formule restrictive suivante (ou une formule similaire) :

"Sous réserve des dispositions de l'Accord entre l'USNRC et le CEA, du ou des dispositions convenues au cours de la réunion des Administrateurs du, ce document qui contient des connaissances privilégiées ne devra pas être divulgué hors de l'organisme qui le reçoit sans l'accord préalable de (nom de la Partie émettrice)".

5.5 - Les connaissances privilégiées, telles que définies ci-dessus, fournies par une Partie à l'autre dans le cadre du présent Accord devront être utilisées uniquement pour la poursuite des programmes de sûreté nucléaire du pays destinataire. A moins qu'il n'en soit convenu autrement, leur dissémination sera limitée comme suit :

- 1/ aux personnes employées par la Partie destinataire ;
- 2/ aux autres agences gouvernementales concernées de la Partie destinataire ;
- 3/ sous réserve d'un accord entre les Administrateurs, comme prévu au § 5.3, aux personnes employées par la Partie destinataire, aux sous-traitants directs et indirects de cette dernière, en vue d'utiliser lesdites connaissances uniquement dans le cadre de leur(s) contrat(s) avec cette Partie qui poursuit des travaux en rapport avec l'objet des connaissances privilégiées ainsi communiquées, et aux entités qui collaborent avec la Partie destinataire.*

5.6 - Les connaissances privilégiées non écrites fournies au cours des séminaires et autres réunions organisées dans le cadre du présent Accord, ou les connaissances communiquées au cours du détachement de personnel, de l'utilisation d'installations ou provenant de programmes communs seront traitées par les Parties conformément aux principes spécifiés dans le présent article, à condition cependant que la Partie qui communique ces connaissances privilégiées informe la Partie destinataire de la nature des connaissances communiquées.

5.7 - L'application ou l'usage des connaissances échangées ou transférées entre les parties dans le cadre du présent Accord se fera sous la responsabilité de la Partie qui les reçoit, et la Partie émettrice ne garantit pas que les connaissances conviennent à tel ou tel usage ou telle ou telle application.

* Les deux entités qui collaborent actuellement avec le CEA sont EDF et NOVATOME.
La NRC ne collabore avec aucune en ce moment.

5.8 - Chaque Partie fera son possible pour que les connaissances privilégiées qu'elle reçoit dans le cadre du présent Accord soient traitées comme stipulé aux présentes. Si l'une des Parties se rendait compte qu'elle sera, ou qu'elle peut s'attendre à être, dans l'incapacité de satisfaire les clauses de non-dissémination du présent article, elle devra en informer l'autre Partie immédiatement. Les Parties se consulteront par la suite pour définir les actions appropriées à entreprendre.

5.9 - Aucune disposition du présent Accord ne sera interprétée comme obligeant une des Parties à transmettre à l'autre Partie des connaissances qu'elle considère comme privilégiées ou comme susceptibles d'appropriation et qui ont été acquises ou développées antérieurement aux activités coopératives exécutées dans le cadre du présent Accord ou indépendamment de celles-ci.

5.10 - Aucune disposition du présent Accord n'empêchera l'usage ou la divulgation de connaissances qu'une Partie reçoit de tiers en dehors du présent Accord.

5.11 - Les dispositions sur la non-dissémination des connaissances privilégiées prévues au présent article resteront en vigueur après la résiliation du présent Accord ou celle de tout prolongement de celui-ci, jusqu'à ce que la communication en soit autorisée par la Partie émettrice.

ARTICLE 6 - BREVETS

6.1 - En ce qui concerne toute invention ou découverte conçue ou mise effectivement en pratique pour la première fois à l'occasion de la mise en oeuvre du présent Accord ;

6.1.1 - Si elle est conçue ou mise effectivement en pratique pour la première fois par le personnel d'une Partie (la Partie qui envoie le personnel) ou ses sous-traitants tandis qu'il est détaché auprès de l'autre Partie (la Partie qui reçoit le personnel) ou auprès de ses sous-traitants dans le cadre d'un échange de scientifiques ou d'autres spécialistes :

6.1.3 - Dans le cas de coopération spécifique sous des formes différentes, incluant l'échange d'échantillons, de matériaux, de matériels ou de composants en vue de programmes spéciaux de recherche en commun, les Parties prévoiront une dévolution appropriée des droits sur les inventions. Cependant, d'une façon générale, chaque Partie déterminera en principe les droits sur ces inventions dans son propre pays, et les droits dans les autres pays devant être convenus entre les Parties sur une base équitable.

6.1.4 - Nonobstant la dévolution des droits prévus aux §§ 6.1.1 et 6.1.2, au cas où une partie (après la signature du présent Accord) met pour la première fois effectivement en pratique une invention, invention qui a été, ou est conçue, ou effectivement mise en pratique par l'autre Partie, soit avant la signature du présent Accord, soit en dehors des activités coopératives mettant en oeuvre le présent Accord, les Parties prévoiront une dévolution appropriée des droits, en tenant compte des engagements existant avec des tiers et, étant entendu toutefois, que chaque Partie déterminera les droits sur cette invention dans son propre pays.

6.2 - La Partie possédant un brevet couvrant une invention quelconque visée au § 6.1 concèdera une licence sur ce brevet aux ressortissants du pays de l'autre Partie ou aux licenciés de celle-ci, sur demande de cette dernière, à des conditions non discriminatoires dans des circonstances similaires. Au moment de cette demande, l'autre Partie sera informée de toutes les licences de ce brevet déjà concédées.

Chaque Partie assumera la responsabilité de payer à ses employés les récompenses ou indemnités dues en application des lois de son pays.

6.4 - Il est entendu qu'après l'entrée en vigueur de la Convention sur le Brevet Communautaire, les Parties se concerteront en vue d'aménager la répartition géographique des droits sur les brevets pour permettre une éventuelle application de ladite Convention.

ARTICLE 7 - COUTS

Sauf si les Parties en décident autrement, tous les coûts résultant de la mise en oeuvre du présent Accord seront supportés par la Partie qui les encourt. Il est entendu que la capacité des Parties d'exécuter leurs obligations dépend de la mise à disposition des ressources financières appropriées.

ARTICLE 8 - CLAUSES FINALES

8.1 - Le présent Accord entrera en vigueur à la date de la dernière signature et, sous réserve de l'application du § 8.2, il restera en vigueur pendant cinq (5) ans, sauf accord des Parties pour le prolonger pour une période supplémentaire.

8.2 - L'une ou l'autre des Parties pourra se retirer du présent Accord après l'avoir notifié par écrit à l'autre Partie six (6) mois avant la date prévue de son retrait.

Fait en double exemplaire, en Anglais et en
Français, chaque version faisant également foi,

En foi de quoi, cet Accord est conclu à la date de la dernière signature ci-dessous.

These measures will be implemented to as to contribute directly to the development progress in rural areas and to enable the rural poor to participate in increased agricultural production.

B. In order to implement the program envisioned in the March 1981 PL 480 Title I^[1] Program Paper, the Government of Tunisia has decided, in accordance with the objectives of the Sixth Plan, to undertake the following self-help activities to enable the poor, smaller farmers to participate in increasing agricultural production. The Government of Tunisia agrees to provide adequate financial, technical, and managerial resources for the implementation of these measures:

1. Expand the supply and improve the scheduling of nitrogenous fertilizer imports.

(a) Maintain and provide financing for the Sixth Plan target for nitrogen consumption equivalent of 116,000 MT of ammonium nitrate in 1982-83 (from an actual level of 79,000 MT in 1980-81) and 130,000 MT in 1983-84.

(b) Arrange importations so that the total needs for 1983-84 (May 1 - April 30) plus an additional amount for a strategic reserve of at least 15,000 MT (145,000 MT total) are available in Tunisia before the end of February, 1984. The scheduling between May 1983 and February 1984, should be such as to insure adequate supplies at all times.

^[1]68 Stat. 455; 7 U.S.C. § 1701 *et seq.*

A new ammonium nitrate plant is expected to come on stream during the 1983-84 period, imports will be scheduled based on conservative estimates of plant start up and monthly review of the status by the Ministry of Agriculture. The plant is expected to go on stream by August producing 1,000 MT per day; 130,000 MT will be reserved for 1983-84 consumption.

2. Maintain an adequate supply of triple super phosphate (TSP) in the distribution system to permit at least a seven (7) percent increase in annual growth rate in the consumption of TSP equivalent during the 1983-84 crop period (15% above 1981-82).

3. Improve the distribution system for fertilizer. (a) In 1982, margins for cooperative and private dealers were increased from 1D500 to 6D600 per metric ton for ammonium nitrate and 4D750 for TSP. During 1983-84, information will be supplied dealers on proper use of fertilizer and other agricultural chemicals.

(b) Plans have been prepared for construction of 40 new fertilizer wholesale-retail storage entities to be used also for grain. Construction of 22 with 14,000 MT of capacity for which contracting is underway are to be completed by January 1984. Schedules and contracts for the other 18 sites will be completed during April-October 1983.

4. Improve collection, handling and storage capacity for cereals. In addition to the dual purpose storage noted above, contracting procedures are in final stages for 100,000 MT of new grain storage and rehabilitation of 54,000 MT as follows with the last units to be completed within 30 months of contracting:

| | |
|---------------|-----------------------------------|
| Bizerte | 10,000 MT new (+ 20,000 improved) |
| Beja | 10,000 MT new |
| Kalaa Sghrina | 20,000 MT new |

| | |
|---------|-------------------------|
| Sfax | 20,000 MT new |
| Gafsa | 10,000 MT new |
| Gabès | 30,000 MT new |
| Manouba | 54,000 MT rehabilitated |

5. Conduct essential fertilizer-research and disseminate information via public and private channels.

(a) Physical research on alternative lower-cost forms of fertilizer such as diammonium phosphate (DAP), urea and direct application of ammonia (NH_3) or aqueous solutions of ammonia will be further expanded from 1982-83.

(b) Study the comparative costs per nutrient-kilogram of these and presently used fertilizers in relation to yield-response from the points of view of both the farmer and the national economy.

(c) Information material on fertilizer use will be disseminated through the new private and cooperative dealer network by October 1983.

(d) Expand fertilizer response - soil analysis correlation research.

6. The 1982 study of constraints on use of production increasing inputs identified credit as a major constraint. Major emphasis will be placed on accelerating expansion of supply and improving efficiency of distribution of short and medium term credit including allocation of some of the sales proceeds of PL 480 financed grain for credit.

7. Continue programs to expand and improve extension, and soil testing services to serve small and medium-size farmers.

Two laboratories have been completed, ESAK (Le Kef), DPV (Cap Bon), and a third is near completion at INRAT (Tunis). Needed equipment will be installed, trained personnel assigned and farmer soil analysis services initiated at each before the end of 1983.

8. Support research to develop superior varieties of forage legumes (*Medicago spp.*) and cereal grains adapted to local conditions and resistant to major plant diseases in Tunisia.

Item VI - Economic Development Purpose for Which Proceeds Accruing to Recipient Country Are to be Used:

A. The Government of Tunisia allots the proceeds accruing from the sale of the commodities financed under this Agreement to help finance the self-help measures set forth in the Agreement and for the development sectors of agricultural and rural development, in a manner designed to increase the access of the most disadvantaged population to an adequate, nutritious and stable food supply.

B. In the use of proceeds for these purposes, the Government of Tunisia intends to pay particular attention to improving the lives of the most disadvantaged population and its capacity to participate in the development of Tunisia.

IN WITNESS WHEREOF, the respective representatives, duly authorized for the purpose, have signed the present Agreement.

Aux fins de l'Article III. A. 4. de la Partie I de cet Accord, les produits non exportables sont: le blé, la farine de blé, les flocons de blé, la semoule, la farine et le bulgur (ou les mêmes produits différemment nommés).

Article V. Mesures d'Auto-Assistance:

A. Le Gouvernement Tunisien a établi l'augmentation de la production agricole et des revenus ruraux ainsi que l'amélioration de la répartition de ces revenus ses principaux objectifs à long terme aussi bien que les objectifs spécifiques de son 6e Plan de Développement. Les objectifs à long terme, qui continuent de se voir accorder la plus grande priorité dans le plan de développement agricole de la Tunisie (6ème) comprennent:

1. Une croissance de la production de 5% par an contre 0.1% pendant le 5ème Plan.
2. Un déficit de la balance commerciale agricole de 50 millions de dinars en 1986 contre 100 millions en 1981.
3. La création d'environ 30.000 emplois dans l'agriculture irriguée et l'offre de 13 millions de journées de travail dans l'arboriculture en sec et l'élevage.

4. L'investissement de 1.550 millions de dinars (18.9%) contre 584 millions de dinars (12.9%) pendant le 5ème Plan.

Des investissements importants continueront d'être effectués pour le développement des ressources hydrauliques et s'élèveront à 39% du budget total pour l'agriculture. Tenant compte du soutien financier apporté par le Gouvernement des Etats-Unis dans le cadre de cet Accord, le Gouvernement Tunisien convient de donner la priorité aux mesures spécifiques décrites ci-dessous pour augmenter la production agricole et les revenus et pour améliorer la répartition de ces derniers. Ces mesures seront mises en oeuvre de manière à contribuer directement à promouvoir le développement dans les zones rurales et à permettre aux populations rurales désavantagées de participer au développement de la production agricole.

B. Afin d'exécuter le programme envisagé dans le Document du Programme du Titre I de la Loi Publique 480 de mars 1981, le Gouvernement Tunisien a décidé, conformément aux objectifs du 6e Plan, d'entreprendre les activités d'auto-assistance suivantes en vue de permettre aux petits exploitants agricoles désavantagés de participer à l'accroissement de la production agricole. Le Gouvernement Tunisien convient de fournir les moyens financiers, techniques et administratifs adéquats pour l'exécution de ces mesures:

1. Augmenter le volume et améliorer le calendrier des importations d'engrais azotés.

(a) Maintenir et assurer un financement en vue de permettre d'atteindre l'objectif du 6e Plan en matière de consommation d'engrais azotés qui est fixé à l'équivalent de 116.000 tonnes métriques de nitrate d'ammonium pour l'année 1982-83 (contre 79.000 tonnes métriques en 1980-81) et 130.000 tonnes métriques pour l'année 1983-84.

(b) Accélérer l'importation de manière à ce que les besoins totaux nécessaires pour 1983-84 (1er mai 1983 - 30 avril 1984) plus une quantité supplémentaire de réserve stratégique d'au moins 15.000 tonnes métriques (soit au total 145.000 tonnes métriques) soient disponibles dans le pays avant la fin de février 1984. La programmation des approvisionnements entre mai 1983 et février 1984 devrait être telle qu'un approvisionnement convenable soit assuré en tous points, en toutes périodes.

Une nouvelle usine de nitrate d'ammonium doit entrer en service durant la période 1983-84, les importations seront programmées sur la base d'estimations prudentes de la date prévue pour le démarrage de l'usine et de l'examen mensuel de la situation par le Ministère de l'Agriculture. L'usine doit, selon les prévisions, entrer en service vers le mois d'août avec une production journalière de 1000 tonnes. 130.000 tonnes seront réservées pour la consommation au titre de la campagne 1983-84.

2. Maintenir un approvisionnement convenable en phosphate super triple (PST) au niveau du réseau de distribution pour permettre une croissance annuelle d'au moins sept (7) pour cent dans la consommation d'équivalent de PST pendant la campagne 1983-84 (15% de plus que 1981-82).

3. Améliorer le réseau de distribution d'engrais.

(a) En 1982, les marges de rétrocession aux coopératives et aux revendeurs privés ont été portées de 1D500 à 6D600 par tonne métrique pour le nitrate d'ammonium et à 4D750 pour le PST. Beaucoup de nouveaux revendeurs ont commencé à vendre les engrais. Des renseignements seront fournis aux revendeurs sur l'utilisation appropriée des engrais et autres produits chimiques.

(b) Des plans ont été préparés pour la construction de 40 nouveaux hangars de stockage des engrains destinés à la vente en gros et en détail. Ces installations seront utilisées également pour le stockage des céréales. La construction de 22 hangars d'une capacité de 14.000 tonnes métriques est en cours d'adjudication, et sera achevée d'ici Janvier 1984. Les calendriers et les contrats pour les 18 autres hangars seront achevés au cours de la période avril-octobre.

4. Améliorer la collecte, la manutention et la capacité de stockage pour les céréales. Outre les installations de stockage à double fin mentionnées plus haut, les procédures d'adjudication sont dans leurs phases finales pour la construction de nouveaux silos à céréales d'une capacité totale de 100.000 tonnes et la réhabilitation d'autres silos d'une capacité totale de 54.000 tonnes, répartis comme suit; les dernières unités devant être terminées dans un délai de 30 mois à dater de la passation des marchés:

| | |
|---------------|--|
| Bizerte | Nouveau silo 10.000 T (silos améliorés 20.000 T) |
| Beja | Nouveau silo 10.000 T |
| Kalaa Sghrina | Nouveau silo 20.000 T |
| Sfax | Nouveau silo 20.000 T |
| Gafsa | 10.000 T |
| Gabès | 30.000 T |
| Manouba | Silo réhabilité 54.000 T |

5. Entreprendre des recherches fondamentales portant sur les engrais et diffuser les informations obtenues par voie des circuits publics et privés.

(a) Commencer des recherches sur l'utilisation d'autres types d'engrais plus économiques tels que le diammonium de phosphate (DAP), l'urée, et l'application directe d'ammoniaque (NH_3) ou solutions aqueuses d'ammoniaque. Le programme sera plus étendu qu'en 1982-83.

(b) Etudier le coût comparatif par kilogramme nutritif de ces engrais et des engrais actuellement utilisés, du point de vue effets sur la production d'une part, et sur l'économie nationale d'autre part.

(c) Des bulletins d'information sur l'utilisation des engrais seront diffusés d'ici octobre 1983 par le biais des nouveaux revendeurs privés et coopératives de vente d'engrais.

(d) Etendre la recherche sur la corrélation des effets de l'apport en engrais en fonction de l'analyse des sols.

6. L'étude réalisée en 1982 des contraintes qui entravent l'utilisation des facteurs susceptibles d'augmenter la production a révélé le crédit comme étant une contrainte majeure. Le principal accent sera mis sur la nécessité d'accélérer la croissance des ressources et d'améliorer l'efficacité de la répartition des crédits à court et moyen termes, y compris l'allocation, pour ces crédits, d'une partie des produits de la vente des céréales financée dans le cadre de la Loi Publique 480.

7. Poursuivre les programmes destinés à développer et à améliorer les services de vulgarisation et d'analyse des sols pour servir les petits et moyens agriculteurs.

Deux laboratoires ont été terminés: celui de l'ESAK (Le Kef) et celui de la DPV (Cap Bon), et un troisième est sur le point d'être achevé à l'INRAT (Tunisie). L'équipement requis sera installé; un personnel qualifié sera mis en place et les services d'analyse des sols pour les agriculteurs débuteront dans chacun de ces laboratoires avant la fin de 1983.

8. Appuyer la recherche destinée à développer des variétés supérieures de luzerne (*medicago spp.*) et de céréales adaptées aux conditions locales et résistantes aux principales maladies des plantes en Tunisie.

Article VI. Buts de Développement Economique auxquels doit être affecté le Produit des Ventes revenant au pays importateur

A. Le Gouvernement Tunisien destine le montant des sommes tirées de la vente des produits agricoles au titre de cet Accord à aider au financement des mesures d'auto-assistance énoncées dans l'Accord et aux secteurs de développement rural et agricole conçu de manière à permettre aux populations déshéritées un accès accru à un approvisionnement alimentaire adéquat, nutritif et stable.

B. A cet effet, en utilisant le produit des ventes, le Gouvernement Tunisien entend s'attacher à améliorer directement, d'une part, les conditions de vie des populations déshéritées et, d'autre part, leur capacité de participer au développement de la Tunisie.

EN FOIR DE QUOI, les représentants respectifs, dûment autorisés à cet effet, ont signé le présent Accord.

Fait à Tunis, le 4 juin 1983 en deux exemplaires originaux, en langue anglaise et en langue française, les deux textes faisant également foi.

OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE
REPUBLIC OF TUNISIA FOR THE SALE OF AGRICULTURAL COMMODITIES

WHEREAS the Government of the United States of America and the
Government of the Republic of Tunisia agree to amend the June
4, 1983 Title I PL 480 Agreement, Part II, Particular
Provisions of that Agreement are amended as follows:

A. In Item I, Commodity Table, make the following changes
under appropriate headings: (a) Insert new commodity line as
follows:

"Edible vegetable oil - 1983 - 6,000 - 3.0"

(b) Under column headed "Maximum export market value", insert
new cumulative program line as follows:

"Total 13.0."

B. In Item III, Usual Marketing Table, make the following
changes under appropriate headings: Insert new commodity line
as follows:

"Vegetable oil - 1983 - 66,000 metric tons".

C. In Item IV. 3., Commodities to which export limitations
apply, following the words "(or the same products under a
different name)" change the period to a semicolon and add "and

for edible vegetable oil - All edible vegetable oils except olive oil but including peanut oil, soybean oil, cottonseed oil, rapeseed oil, sunflower oil, sesame oil, and other edible vegetable oils or oil bearing seeds from which these oils are produced".

D. In Item V. Self-Help Measures, insert the following section:

"C. The Government of Tunisia agrees to provide adequate financial, technical and managerial resources for the implementation of these measures:

(1) Expand the geographic area covered by the small farmer supervised credit project, APMANE, to include farmers requiring credit in the governorates of Ariana, Ben Arous, and Tunis.

(2) Increase the percentage of farmers served by supervised credit in those areas where the APMANE project is already operating. Under the Sixth Five-Year Development Plan for Agriculture, the Government intends to provide supervised credit for 200,000 hectares of the 500,000 hectares farmed by small and medium sized farmers as compared to the provision of supervised credit for only 100,000 hectares in 1981, the year before the plan period. The following targets have been established for the APMANE project: (These targets do not

include the farms to be covered by the expansion of the project
into new geographic areas referred to in paragraph 1 above)

| | <u>1982/83</u> | <u>1983/84</u> | <u>1984/85</u> |
|----------|----------------|----------------|----------------|
| Farmers | 7,300 | 8,662 | 10,109 |
| Hectares | 115,300 | 143,000 | 167,000 |

(3) Increase the variety of loan activities which the APMANE supervised credit project may finance for participating farmers including, but not limited to the following: soil and water conservation works, fruit tree planting, well construction and development, and rabbit raising, bee keeping and other such small animal production activities.

(4) Increase the administrative support to the Ministry of Agriculture Directorate for Assistance to Small and Medium Farmers to enable it to augment the number of project APMANE credit agents, provide training, adequate office space and transportation to them so that they can effectively carry out their work.

(5) Continue and improve the APMANE evaluation process to identify measures necessary for supervised credit programs in Tunisia to have a maximum impact on agricultural production and farmers income. In order to accomplish this, the independent annual evaluation of the APMANE project for the 1982/83 crop year will emphasize: (1) factors limiting the number of small

and medium size farmers who have access to and are participating in the supervised credit project; (2) causes of the project's low repayment rates, especially for medium term loans; and (3) identification of procedures to improve reimbursement rates. The program of annual evaluation of the project will be continued by the Government of Tunisia beyond the period of AID assistance to the project.

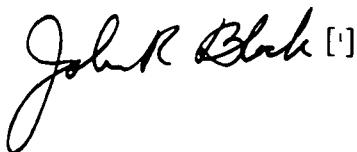

A joint United States-Tunisian evaluation of the APMANE project will be conducted to determine the extent to which supervised credit has contributed to agriculture development goals in the project area and the measures necessary to improve the effectiveness and efficiency of the project."

E. All other terms and conditions of June 4, 1983 Agreement remain the same.

IN WITNESS WHEREOF, the respective representatives, duly authorized for the purpose, have signed the present Agreement.

D. A l'Article V, Mesures d'Auto-Assistance, insérer la section suivante: "C. Le Gouvernement Tunisien convient de fournir les moyens financiers, techniques et de gestion adéquats en vue de l'exécution de ces mesures:

(1) Elargir la zone géographique couverte par le Projet de Crédit Supervisé pour les Petits Exploitants Agricoles, APMANE, afin d'inclure les agriculteurs qui ont besoin de crédit dans les Gouvernorats de l'Ariana, Ben Arous et Tunis.

(2) Augmenter le pourcentage des agriculteurs bénéficiant de crédits supervisés dans les régions où le Projet APMANE est déjà en activité. Dans le cadre du sixième Plan Quinquennal de Développement de l'Agriculture, le Gouvernement projette de fournir des crédits supervisés pour 200.000 hectares sur les 500.000 hectares exploités par des petits et moyens agriculteurs, contre seulement 100.000 hectares en 1981, l'année précédant la période du plan. Les objectifs suivants ont été arrêtés pour le Projet APMANE. (Ces objectifs n'incluent pas les exploitations agricoles devant être couvertes par l'extension du projet aux nouvelles zones géographiques citées au paragraphe 1 ci-dessus).

| | <u>1982/83</u> | <u>1983/84</u> | <u>1984/85</u> |

(4) Accroître le soutien administratif apporté à la Direction d'Assistance aux Petits et Moyens Agriculteurs au sein du Ministère de l'Agriculture en vue d'augmenter le nombre des agents de crédit du Projet APMANE, de leur dispenser une formation appropriée et de mettre à leur disposition des bureaux et des moyens de transport adéquats et à même de leur permettre d'exécuter leur mission efficacement.

(5) Poursuivre et améliorer le processus d'évaluation du Projet APMANE afin d'identifier les mesures nécessaires devant être entreprises pour que les programmes de crédit supervisé en Tunisie aient un impact maximal sur la production agricole et le revenu des agriculteurs. A cette fin, l'évaluation annuelle indépendante du Projet APMANE mettra l'accent dans son étude de la saison agricole 1982/83: (1) sur les facteurs limitant le nombre des petits et moyens agriculteurs qui ont accès et participent au projet de crédit supervisé; (2) les causes des faibles taux de remboursement du projet, en particulier pour les crédits à moyen terme, et (3) l'identification des procédures visant à améliorer les taux de remboursement. Et le programme d'évaluation annuelle du projet sera poursuivi par le Gouvernement Tunisien après la période d'assistance de l'AID au projet.

Une évaluation Americano-Tunisienne du Projet APMANE sera menée afin de déterminer dans quelle mesure le crédit supervisé

a contribué aux objectifs de développement agricole dans la zone du projet et les mesures nécessaires pour améliorer l'efficacité et l'efficience du projet."

E. Toutes les autres clauses et dispositions de l'Accord du 4 juin 1983 restent en vigueur.

No. 689

The Embassy of the United States of America presents its compliments to the Secretariat of Foreign Relations and has the honor to refer to the Secretariat's Note Number 315068 of 5 January 1983, effecting an extension of the Agreement for six months beginning 1 February 1983.^[1]

In that regard, the Embassy has been informed that the National Oceanic and Atmospheric Administration (NOAA) is requesting an additional six-month extension beginning on 1 August 1983.

The purpose of the extension is to provide the National Oceanic and Atmospheric Administration additional time to complete work on the amendments to update the present Agreement, which has been delayed due to the particularly heavy workload associated with the preparations for several important international meteorological meetings in which the government of Mexico has also been involved.

The Embassy of the United States of America avails itself of this opportunity to renew to the Secretariat of Foreign Relations the assurances of its highest consideration.

ARTICLE I. SCOPE AND OBJECTIVES

Pursuant to the agreement for scientific cooperation of December 1, 1971 as extended and amended,^[1] between the Government of the United States of America and the Government of the Federative Republic of Brazil, the Department of the Interior (hereinafter referred to as the DOI) of the United States of America (hereinafter referred to as the USA), and the Ministry of Mines and Energy (hereinafter referred to as the MME) of the Federal Republic of Brazil (hereinafter referred to as Brazil), both considering that over a period of four decades American entities of the DOI and Brazilian entities of the MME have engaged in scientific and technical cooperation in the geological sciences and in earth resources related to minerals and energy; that this cooperation has contributed to important scientific and technical advances in both Brazil and the USA; that it is desirable for both countries to continue this tradition of cooperation, hereby express their intention to enter into a new program of scientific and technical cooperation (hereinafter referred to as the Program), and in order to provide a mechanism for it, agree to the following procedures for cooperation as defined by the conditions of this memorandum of understanding (hereinafter referred to as memorandum).

^[1]TIAS 7221, 8749, 10719; 22 UST 1799; 28 UST 8151; 35 UST 1076.

The purpose of the proposed program is to facilitate the exchange of scientific and technical knowledge and to augment the technical capabilities of both the DOI and the MME. Under the program, techniques and expertise developed by the DOI and by the MME will be exchanged between DOI and MME (hereinafter sometimes referred to as the "PARTIES") by means of specific projects and/or joint investigations of mutual interest of geological phenomena and of earth resources related to minerals and energy. Either party may request the cooperation of the other party in a specific project and/or joint investigation.

On the USA side, the program is expected to involve the U.S. geological survey (USGS), the U.S. Bureau of Mines (USBM), and other agencies of the DOI. On the Brazil side, the program is expected to involve the Departamento Nacional de Producao Mineral (DNPM), the Departamento Nacional de Aguas e Energia Eletrica (DNAEE), the Companhia de Pesquisa de Recursos Minerais (CPRM) and other entities of the MME. For cooperation requested by the DOI that extends into subjects outside the scope of the MME, the MME may, with the concurrence of the DOI and when compatible with existing Brazil laws, executive orders, regulations and policies, endeavor to enlist the participation of other Brazilian organizations. For cooperation requested by the MME that extends into subjects outside the scope of the DOI, the DOI may, with the concurrence of the MME and to the extent compatible with existing United States laws, executive orders, regulations and policies, endeavor to enlist the participation of other American organizations.

ARTICLE II. COOPERATIVE ACTIVITIES

Cooperative activities under the program may consist of exchange of scientific and technical information, joint investigations, and exchange visits by scientists and technical personnel of the two parties, on subjects of mutual interest, in the fields of research and development that are within the scope of regularly authorized and funded programs of the DOI and the MME.

Any activity agreed upon within the terms of this memorandum and the program which involves, in the view of both parties, a substantial amount of manpower or an expenditure of funds, must be described in an implementation plan and adopted as an annex to this memorandum. Such an implementation plan will set forth a work plan, staffing requirements, cost estimates, funding sources and any other special conditions not included in this memorandum. In case of any inconsistency between the terms of this memorandum and the terms of an annex, the terms of this memorandum shall be controlling. Such activities may include, but are not limited to, subjects of mutual interest such as those listed in Annex A of this memorandum.

ARTICLE III. JOINT COOPERATION WITH OTHER COUNTRIES

Where appropriate and desirable in relationship to the interests of the DOI and the MME and in conformity with the applicable policies and regulations of the USA and of Brazil, the parties may jointly undertake cooperative activities with other countries. After previous and mutual agreement between the DOI and the MME, such cooperative activities shall be defined through agreement with the other country or countries to be involved.

The specific project and/or joint investigations shall be organized in such a way as to utilize most effectively the capabilities of the DOI and of the MME in jointly carrying out projects and/or investigations for the mutual benefit of the DOI, of the MME and of the other country or countries involved, and for the expeditious achievement of projects and/or investigation goals.

ARTICLE IV. REPRESENTATION AND REVIEW OF ACTIVITIES

The DOI and the MME will each appoint as its representative a program coordinator; the two program coordinators will administer the program. The two program coordinators, at times mutually established by the parties, will prepare progress reports required by the DOI and the MME and will make plans for future activities. In addition to the two program coordinators, and on their advice, the DOI and the MME each may designate a project officer for a specific project and/or joint investigation. The project officers designed by the DOI and by the MME will plan, coordinate and participate in the designated project and/or joint investigation.

ARTICLE V. SOURCE OF FINANCIAL SUPPORT

The activities carried out under the program will be subject to and depend upon the funds and manpower available to the DOI and the MME.

Each party will cover its own costs except in cases where special financing is available for selected activities; in such cases, the terms of financing will be agreed upon by the parties before the commencement of activities.

ARTICLE VI. REPORTS, DOCUMENTS AND RELEASE OF INFORMATION

Subject to the applicable laws and regulations of the USA and of Brazil, information, data and reports of cooperative activities undertaken under the program may be released only after mutual written consent.

Commitment of the DOI to preserve the confidentiality of information is subject to the provisions of the Freedom of Information Act and other applicable United States laws and regulations.

ARTICLE VII. WARRANTY

Information transmitted by one party to the other party under this program shall be accurate to the best knowledge and belief of the transmitting party. The transmitting party does not warrant the suitability of the information transmitted for any particular use or application by the receiving party or by any third party. Information developed jointly by the parties shall be accurate to the best knowledge and belief of both parties. Neither party warrants the accuracy of the jointly developed information or its suitability for any particular use or application by either party or by any third party.

ARTICLE VIII. LIMITATION OF LIABILITY

Neither party to this memorandum will assert a claim against the other for damages arising from activities under this memorandum.

With respect to third parties, each party to this memorandum will accept liability, to the extent authorized by its national laws, for damages arising only from its own conduct, or that of its employees or agents under this memorandum.

ARTICLE IX. ENTRY INTO FORCE AND TERMINATION

This memorandum shall enter into force upon signature by both parties and remain in force for 5 (five) years, unless extended by mutual written agreement. This memorandum may be terminated by either party upon 90 (ninety) days written notice. Upon termination of this memorandum, specific projects and/or investigations initiated under the same may continue under the terms of their implementation plans.

ARTIGO I. ÂMBITO E OBJETIVOS:

Em conformidade com o acordo de Cooperação Científica datado de 1 de dezembro de 1971 e de acordo com suas prorrogações e emendas, entre o Governo dos Estados Unidos da América e o Governo da República Federativa do Brasil, o Departamento do Interior (doravante designado como U.S.A.) e o Ministério das Minas e Energia (doravante designado como MME) da República Federativa do Brasil (doravante designada como Brasil), ambos considerando que durante um período de quatro décadas entidades americanas do DOI e entidades brasileiras do MME se empenharam numa cooperação científica e técnica nas ciências geológicas e em recursos da terra ligados a minerais e energia; que esta cooperação contribuiu para progressos científicos e técnicos importantes tanto no Brasil como nos USA; que a continuação desta tradição de cooperação é desejável para ambos os países, expressam em virtude disto sua intenção de se engajar num novo programa de cooperação científica e técnica (doravante designado como o Programa) e a fim de proporcionar um mecanismo para este, concordam com os seguintes procedimentos para uma cooperação como definida pelas condições deste memorandum de acordo (doravante designado como memorando). O objetivo do programa proposto é facilitar o intercâmbio de conhecimentos científicos e técnicos e aumentar as capacidades técnicas de ambos o DOI e o MME. De acordo com o programa, técnicas e competências desenvolvidas pelo DOI e pelo MME serão trocadas entre DOI e MME (doravante algumas vezes citados como as "PARTES") por meio de projetos

específicos e/ou investigações em conjunto de fenômenos geológicos e de recursos da terra ligados a minerais ou energia. Qualquer das PARTES pode solicitar a cooperação da outra parte num projeto específico e/ou investigação conjunta.

Do lado USA, espera-se que o programa envolva o U.S. Geological Survey (USGS), o U.S. Bureau of Mines (USBM), e outras agências do DOI. Do lado Brasil, espera-se que o programa envolva o Departamento Nacional da Produção Mineral (DNPM), o Departamento Nacional de Águas e Energia Elétrica (DNAEE) a Companhia de Pesquisa de Recursos Minerais (CPRM) e outras entidades do MME. No caso de uma colaboração solicitada pelo DOI que se estenda a assuntos fora da competência do MME, o MME poderá, com a concordância do DOJ e quando compatível com as leis, decretos, regulamentos e políticas vigentes no Brasil, empenhar-se em recrutar a participação de outras organizações brasileiras. No caso de uma colaboração solicitada pelo MME que se estenda a assuntos fora da competência do DOI, o DOI poderá, com a concordância do MME e quando compatível com as leis, ordens do Executivo, regulamentos e políticas vigentes nos Estados Unidos, empenhar-se em recrutar a participação de outras organizações americanas.

ARTIGO II - ATIVIDADES DE COOPERAÇÃO

As atividades de cooperação previstas no programa poderão consistir de troca de informações científicas e técnicas, investigação conjunta, troca de visitas por cientistas e pessoal técnico das duas PARTES, sobre assuntos de interesse mútuo, nos campos de pesquisa e desenvolvimento abrangidos pelos programas regularmente autorizados e financiados do DOI e do MME.

Qualquer atividade acertada nos termos deste memorando e do programa que envolva, na opinião de ambas as PARTES, uma quantidade substancial de mão de obra ou um gasto de fundos, deverá ser descrita num plano de implementação e considerada como anexo a este memorando. Este plano de implementação apresentará um plano de trabalho, necessidades de pessoal, estimativas de custo, origem dos recursos e quaisquer outras condições especiais não incluídas neste memorando. Em caso de qualquer inconsistência entre os termos deste memorando e os termos de um anexo, os termos deste memorando prevalecerão.

Tais atividades podem incluir, porém não estão limitadas, aos assuntos de interesse mútuo como os que constam do Anexo A deste memorando.

ARTIGO III - COOPERAÇÃO EM CONJUNTO COM OUTROS PAÍSES

Quando apropriado e desejável no que tange aos interesses do DOI e do MME e em conformidade com as políticas e regulamentos pertinentes dos USA e do Brasil, as PARTES poderão juntamente empreender atividades em cooperação com outros países. Após consentimento prévio e mútuo entre o DOI e o MME, estas atividades de cooperação serão definidas por meio de um acordo com o outro país ou países a serem envolvidos.

Os projetos específicos e/ou investigações em conjunto serão organizados de tal modo que sejam utilizadas da maneira mais eficaz as capacidades do DOI e do MME para conjuntamente realizarem projetos e/ou investigações para o proveito mútuo do DOI, do MME e do outro país ou outros países envolvidos, e para a pronta realização dos objetivos dos projetos e/ou investigações.

ARTIGO IV - REPRESENTAÇÃO E EXAME DAS ATIVIDADES

O DOI e o MME nomearão cada um como seu representante um coordenador de programa. Os dois coordenadores de programa administrarão o programa e prepararão, em épocas mútuamente estabelecidas pelas PARTES, relatórios sobre o andamento da cooperação requeridos pelo DOI e pelo MME e traçarão planos para atividades futuras. Adicionalmente aos dois coordenadores do programa, e por sua recomendação, o DOI e o MME poderão cada um designar um chefe de projeto para um projeto específico e/ou investigação conjunta. Os chefes de projeto designados pelo DOI e pelo MME planejarão, coordenarão e participarão do projeto e/ou investigação indicado.

ARTIGO V - ORIGEM DO APOIO FINANCEIRO

As atividades decorrentes deste programa estarão sujeitas aos/e dependentes dos recursos financeiros e humanos disponíveis por parte do DOI e do MME.

Cada parte cobrirá seus próprios custos, exceto nos casos em que se disponha de financiamento especial para atividades selecionadas; em tais casos, as condições de financiamento serão acordadas pelas PARTES antes do início das atividades.

ARTIGO VI - RELATÓRIOS, DOCUMENTOS E LIBERAÇÃO DE INFORMAÇÃO

Sujeitos as leis e regulamentos aplicáveis dos Estados Unidos e do Brasil, as informações, dados e relatórios sobre as atividades de cooperação empreendidas por força do programa somente serão liberados mediante consentimento mútuo, por escrito.

O compromisso do DOI de preservar a confidencialidade da informação estará sujeito ao disposto no "Freedom of Information ACT" e outras leis e regulamentos dos Estados Unidos, aplicáveis.

ARTIGO VII - GARANTIA

A informação transmitida dentro deste programa de uma PARTE para a outra será precisa no melhor do conhecimento e crença da parte que a transmite. A parte transmissora não garante a adequação da informação transmitida para qualquer uso ou aplicação específica pela parte que a recebe ou por qualquer terceira parte.

As informações desenvolvidas em conjunto pelas PARTES serão precisas no melhor do conhecimento e crença de ambas as PARTES. Nenhuma das PARTES garante a precisão da informação desenvolvida em conjunto ou sua adequação para qualquer uso ou aplicação específica por qualquer das PARTES ou por qualquer terceira parte.

ARTIGO VIII - LIMITES DA RESPONSABILIDADE

Nenhuma das PARTES deste memorando apresentará contra a outra reivindicação de compensação por prejuízos decorrentes das atividades constantes deste memorando.

No que diz respeito a terceiros, cada parte constante deste memorando aceitará a responsabilidade, até ao limite autorizado por suas leis nacionais, por prejuízos decorrentes somente de sua conduta ou da conduta de seus empregados ou agentes conforme este memorando.

ARTIGO IX - ENTRADA EM VIGOR E TÉRMINO

Este memorando entrará em vigor quando da sua assinatura por ambas as PARTES e permanecerá em vigor por 5 (cinco) anos, salvo se prorrogado por acordo mútuo por

escrito. Este memorando poderá ser revogado dentro de 90(noventa) dias contados a partir da data da comunicação por escrito de qualquer das PARTES. Na revogação deste memorando os projetos e/ou investigações específicos, iniciados por efeito do mesmo, poderão prosseguir de acordo com os termos de seus planos de implementação.

*The American Ambassador to the Haitian Secretary of State

Port-au-Prince, March 25, 1982

No. 115

EXCELLENCY:

I have the honor to refer to the Arrangement Regarding International Trade in Textiles, with annexes, done at Geneva on December 20, 1973, and extended by the protocols adopted respectively on December 14, 1977 and December 22, 1981^[1] at Geneva (hereinafter referred to as The Arrangement). I have also the honor to refer to discussions between representatives of the Government of the United States of America and the Government of the Republic of Haiti held in Washington, D.C. March 4 and 5, 1982, concerning exports of cotton, wool and man-made fiber textiles and textile products from Haiti to the United States of America. As a result of those discussions and in conformity with articles 4 and 6 of The Arrangement, I have the honor to propose the following agreement relating to trade in cotton, wool and man-made fiber textiles and textile products between the Government of the United States of America and the Government of the Republic of Haiti.

1. The term of this agreement shall be the two-year period from March 1, 1982 through February 29, 1984. The first agreement period commences on March 1, 1982 and ends on February 28, 1983. The second agreement period shall commence on March 1, 1983 and end on February 29, 1984.

His Excellency

Jean-Robert Estimé

Secretary of State for Foreign Affairs

Port-au-Prince.

¹ TIAS 7840, 8939, 10323; 25 UST 1001; 29 UST 2287; 33 UST 4516.

2. (A) The coverage of this agreement shall be all textiles and textile products of cotton, wool and man-made fibers.

(B) The determination of whether a textile or textile product is of cotton, wool or man-made fiber shall be made in accordance with the terms of Paragraph 12.

3. (A) The system of categories and the rates of conversion into square yards equivalent listed in Annex A shall apply in implementing this agreement.

(B) For purposes of this agreement, and in recognition of the patterns of trade of the Republic of Haiti with the United States of America, the categories below are merged and treated as single categories as indicated, with limits as set in Annex B and Annex C:

| <u>Categories Merged</u> | <u>Designation in Agreement</u> |
|--------------------------|---------------------------------|
| 347,348 | 347/348 |
| 349,649 | 349/649 |

4. Commencing with the first agreement period and during the subsequent term of this agreement, the Republic of Haiti shall limit annual exports from Haiti to the United States of America of cotton, wool and man-made fiber textiles and textile products to the limits set out in Annex B and Annex C, as such limits may be adjusted in accordance with this paragraph and Paragraphs 5 and 6. The specific limits shall be increased in the second agreement period by seven percent annually, as shown in Annex B.

5. Any specific limit may be exceeded in any agreement year by not more than seven percent of its square yards equivalent total provided that the amount of the increase is compensated for by an equivalent decrease in one or more specific limits. When requesting use of the provisions of this paragraph, the Government of Haiti will indicate the category or categories to be increased and the category or categories to be decreased by commensurate quantities.

6. (A) In any agreement period, in addition to any adjustments pursuant to Paragraph 5 exports may exceed, by a maximum of 11 percent, any specific limit by allocating to such limit for that agreement period an unused portion of the corresponding limit for the previous agreement period ("carryover"), or a portion of the corresponding limit for the succeeding agreement period ("carryforward") subject to the following conditions:

(B) Carryover may be utilized as available up to 11 percent of the receiving agreement period's applicable limit. No carryover shall be available for application during the first agreement period.

(C) Carryover of shortfall (as defined in Sub-paragraph 6 (D)) shall not be applied to any specific limits until the Republic of Haiti and the United States of America have agreed upon the amounts involved.

(D) For purposes of this agreement, a shortfall occurs when exports of textile or textile products from Haiti to the United States of America during an agreement period are below the specific limit. In the agreement period

following the shortfall, such exports from Haiti to the United States of America may be permitted to exceed the specific limit, subject to condition of Sub-paragraph 6 (A) by carryover of shortfalls in the following manner:

—Carryover in any limit shall not exceed the amount of shortfall in the specific limit.

—In the case of shortfall in a category subject to a specific limit the shortfall shall be used in the category in which the shortfall occurred.

—The specific limit in which the shortfall occurred shall be decreased by the amount used to exceed the following period's limit.

(E) The limits referred to in Sub-paragraphs (A) and (B) of this paragraph are without any adjustments under this paragraph or Paragraphs 5 and 17.

(F) Carryforward may be utilized up to six percent of the receiving agreement period's applicable limits.

(G) Carryforward used shall be charged against the immediately following agreement period's corresponding limits. No carryforward shall be available for application in the final agreement period.

(H) The combination of carryover and carryforward may not exceed 11 percent of the receiving period's applicable limits in any agreement period.

(I) The Government of the United States may apply adjustments under this paragraph to any specific limit whenever that adjustment appears appropriate to facilitate the flow of trade and the sound administration of The Agreement. To the extent that such adjustments are actually utilized, they will be implemented by means of carryover and carryforward in that order. Any unused carryforward will be re-credited to the following period's limit. This procedure will not prejudice the outcome of any consultations that may be held between our governments concerning the amounts of available carryover and carryforward.

7. The categories listed in Annex C are subject to designated consultation levels as specified therein. In the event the Government of the Republic of Haiti wishes to permit exports in any category in excess of the applicable consultation level, the Government of the Republic of Haiti shall request the higher levels and the Government of the United States shall consider the request sympathetically and shall respond promptly. If, because of problems of market disruption as defined in Annex A of The Arrangement Regarding International Trade in Textiles in the United States of America in a category subject to such request, the United States is unable to comply fully, the United States of America will so inform the Government of the Republic of Haiti and will supply data which form the basis of the position taken by the United States of America. If requested by the Government of the Republic of Haiti, the Government of the United States of America will consult promptly. Until a mutually satisfactory change in the consultation level is established, the Government of the Republic of Haiti will not authorize exports in excess of the existing consultation level.

8. For categories not subject to a specific limit or a designated consultation level each party reserves its rights to take action in accordance with The Arrangement.

9. In accordance with Article 12, Paragraph 3, of The Arrangement and subject to the establishment of a mutually agreed upon certification system, Haitian exports of hand-loom fabrics of the cottage industry, or hand-made cottage industry products made of such hand-loom fabrics, or traditional folklore handicraft textile products will not be subject to the provisions of this agreement.

10. The Government of the Republic of Haiti shall use its best efforts to space exports from Haiti to the United States within each category evenly throughout the agreement period, taking into consideration normal seasonal factors.

11. The Government of the United States of America shall promptly supply the Government of the Republic of Haiti with data on monthly imports of cotton, wool and man-made textiles and textile products into the United States of America from Haiti. The Government of the Republic of Haiti shall promptly supply the Government of the United States of America with data on monthly exports of cotton, wool and man-made textiles and textile products from Haiti to the United States of America. Each Government agrees to supply promptly any other available statistical data necessary to the implementation of this agreement requested by the other government.

12. (A) Tops, yarns, piece goods, made-up articles, garments and other textile manufactured products, all being products which derive their chief characteristics from their textile components of cotton, wool or man-made fibers, or blends thereof, in which, any or all of those fibers represents either the chief value of the fiber, or 50 percent or more by weight of the products (or 17 percent or more by weight of wool) are subject to this agreement.

(B) For the purposes of this agreement, textile products shall be classified as cotton, wool, or man-made fiber textiles if wholly or in chief value of any of these fibers. Any products covered by Sub-paragraph 12 (A) but not in chief value of cotton fiber shall be classified as:

(I) Cotton textiles if containing 50 percent or more by weight of cotton, or if the cotton component exceeds by weight the wool and/or the man-made fiber component;

(II) Wool textiles, if not cotton, and the wool equals or exceeds 17 percent by weight of all component fibers; and

(III) Man-made fiber textiles if neither of the foregoing applies.

13. The Government of the United States of America and the Government of the Republic of Haiti agree to consult upon the request of the other on any question arising in the implementation of this agreement.

14. The Republic of Haiti shall administer its export control system under this agreement. The Government of the United States of America may assist the Republic of Haiti in implementing the provisions of this agreement by

controlling imports of textiles and textile products covered by this agreement.

15. In conformity with Article 8 of The Arrangement, the Republic of Haiti and the United States of America shall cooperate to avoid circumvention of The Agreement.

16. Mutually satisfactory administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of this agreement, including difference in points of procedure or operation.

17. (A) Exports from Haiti in excess of authorized limits in any agreement period may be denied entry into the United States. Any such shipments denied entry may be permitted entry into the United States and charged to the applicable limit in the succeeding agreement period.

(B) Exports from Haiti in excess of authorized limits in any agreement year will, if allowed entry into the United States during that agreement period be charged to the applicable limit in the succeeding agreement period.

18. The visa system, effective on March 3, 1980, between the Government of the United States of America and the Republic of Haiti will remain in force subject to Paragraph 16.

19. If the Republic of Haiti considers that as a result of limitations specified in this agreement, it is being placed in an inequitable position in relation to a third country, the Republic of Haiti may request consultations with the United States of America with a view to taking appropriate remedial actions such as reasonable modifications of this agreement.

20. The Government of the United States and the Government of the Republic of Haiti agree to consult upon the request of the other on any question arising in the implementation of this agreement.

21. The Government of the United States of America and the Government of the Republic of Haiti may, at any time, propose revisions in the terms of this agreement. Each agrees to consult promptly with the other about such proposals with a view to making such revisions to this agreement or taking such other appropriate action as may be mutually agreed upon.

22. Either government may terminate this agreement, effective at the end of any agreement period, by written notice to the other, to be given at least 90 days prior to the end of such agreement period.

If the foregoing conforms with the understanding of the Government of the Republic of Haiti, this Note and Your Excellency's Note of confirmation on behalf of the Government of the Republic of Haiti shall constitute an agreement between our two governments.

Accept, Excellency, the renewed assurances of my highest consideration.

"J'ai l'honneur de vous référer à la Convention concernant le Commerce International des Textiles, et les annexes, faites à Genève le 20 Décembre 1973 et prorogées par les Protocoles adoptés respectivement le 14 Décembre 1977 et le 22 Décembre 1981 à Genève (ci-après dénommés l'Accord). Je vous réfère également aux pourparlers entre les représentants du Gouvernement des Etats-Unis d'Amérique et le Gouvernement de la République d'Haïti, tenus à Washington, D.C. les 4 et 5 Mars 1982, relatifs à l'exportation de coton, de laine, de fibres chimiques et de produits textiles, d'Haïti aux Etats-Unis d'Amérique. Comme résultat de ces pourparlers, et conformément aux articles 4 et 6 de l'Accord, je voudrais proposer, au nom du Gouvernement des Etats-Unis d'Amérique, l'Accord suivant relatif au commerce du coton, de la laine, des fibres chimiques et des produits textiles entre le Gouvernement des Etats-Unis d'Amérique et le Gouvernement de la République d'Haïti.

1.- La durée du présent Accord sera de deux ans, s'étendant du 1er Mars 1982 au 29 Février 1984. La première période de l'Accord commence le 1er Mars 1982 et se termine le 28 Février 1983. La seconde période de l'Accord commencera le 1er Mars 1983 et se terminera le 29 Février 1984.

2.- A) Le présent Accord portera sur tous les textiles et produits textiles de coton, de laine ou de fibres chimiques.

Monsieur Ernest PREEG
Ambassadeur des Etats-Unis d'Amérique
Port-au-Prince, (HAITI)

TIAS 10749

8) La décision quant à la question de savoir si un textile ou un produit textile est du coton, de la laine ou une fibre chimique sera prise conformément aux dispositions du paragraphe 12.

3.- A) Le système de catégorie et le taux de conversion en équivalents de yards carrés figurant à l'annexe A^[1] seront intégralement appliquée dans le cadre de cet Accord.

B) Aux fins d'application du présent Accord, et en considération de la structure des échanges entre la République d'Haiti et les Etats Unis d'Amérique, les catégories ci-dessous sont combinées et traitées comme une seule catégorie tel qu'indique, conformément aux limites fixées à l'annexe B et à l'annexe C:

Catégories combinées

347, 348 349,649

Désignation dans l'accord

34/348 349/649

4.- Pendant la première période de l'Accord et pendant la durée subséquente de celui-ci, la République d'Haiti limitera ses exportations annuelles de coton, de laine, de fibres chimiques, et de produits textiles, d'Haiti aux Etats-Unis d'Amérique, aux limites figurant à l'annexe B et à l'annexe C, de telles limites pouvant être ajustées conformément aux dispositions du présent paragraphe et des paragraphes 5 et 6. Les limites figurant à l'annexe B ne renferment aucun ajustement prescrit par les paragraphes 5 et 6. Les limites spécifiques seront augmentées de sept pour cent annuellement, comme indiqué à l'annexe B, dans la seconde période de l'Accord.

5.- Toute limite spécifique peut, pour n'importe quelle année de l'Accord, être dépassée, mais sans dépasser sept pour cent de son total d'équivalents de yards carrés, pourvu que cette augmentation soit compensée par une diminution équivalente de l'une ou de plusieurs des limites spécifiques. En demandant l'application des dispositions de ce paragraphe, le Gouvernement d'Haiti indiquera la catégorie ou les catégories devant être augmentées et la catégorie ou les catégories devant être diminuées en quantité proportionnée.

¹Annexes A, B and C appended to the French text are in the English language. See pp. 1593-1597, *supra*.

6.- A) Pendant toute période de l'Accord, en plus de tout ajustement conforme au paragraphe 5, des exportations peuvent excéder, jusqu'à un maximum de 11 pour cent, n'importe quelle limite spécifique en attribuent à une telle limite pour la période en cours toute portion de ladite limite inutilisée pendant la période précédente (portion non utilisée: report) ou toute portion de la limite correspondante pour la période suivante (utilisation anticipée: à reporter).

B) Le report peut être utilisé suivant les disponibilités jusqu'à concurrence de 11 pour cent des limites applicables de la période de réception. Il ne sera pas possible de faire valoir un report durant la première période de l'Accord.

C) Le report d'un déficit (tel que défini au paragraphe 6 D) ne sera appliqué à aucune des limites spécifiques avant que la République d'Haiti et les Etats-Unis d'Amérique ne conviennent des niveaux à fixer.

D) Aux fins d'application du présent Accord, un déficit se produit lorsque les exportations de textiles ou de produits textiles d'Haiti aux Etats-Unis d'Amérique, au cours d'une période de l'Accord, sont inférieures à la limite spécifique. Pendant la période de l'Accord faisant suite à celle du déficit, les dites exportations d'Haiti aux Etats-Unis d'Amérique peuvent excéder la limite spécifique, sous réserve des dispositions du paragraphe 6 A), en reportant les déficits de la manière suivante:

Le report provenant de toute limite ne devra pas dépasser le montant du déficit dans la limite spécifique.

En cas de déficit dans une catégorie soumise à une limite spécifique, le déficit sera reporté dans la catégorie dans laquelle le déficit s'est produit.

De la limite spécifique dans laquelle le déficit s'est produit sera déduit le montant dont il est permis de dépasser la limite de la période suivante.

E) Les limites mentionnées aux alinéas A) et B) du présent paragraphe ne comprennent aucun ajustement en application du présent paragraphe ou des paragraphes 5 et 17.

F) Le report peut être utilisé jusqu'à concurrence de six pour cent des limites applicables de la période de réception de l'Accord.

G) Le report utilisé sera imputé aux limites correspondantes de la période de l'Accord faisant immédiatement suite. Il ne sera pas possible de faire valoir un report durant la période finale de l'Accord.

H) La combinaison "report et à reporter" ne peut, au cours de toute période de l'Accord, excéder 11 pour cent des limites applicables de la période de réception.

I) Le Gouvernement des Etats-Unis peut appliquer les ajustements prévus au présent paragraphe à toute limite spécifique, chaque fois que l'ajustement semble approprié, pour faciliter le flux de l'échange et la bonne gestion de l'Accord. Dans la mesure où lesdits ajustements sont effectivement utilisés, ils seront calculés par voie de "report et à reporter", dans cet ordre. Tout report non utilisé sera crédité à nouveau à la limite de la période suivante. Cette procédure ne portera pas préjudice aux résultats de toutes consultations qui pourraient avoir lieu entre nos deux Gouvernements en ce qui concerne les montants "report et à reporter" disponibles.

7.- Les catégories mentionnées à l'annexe C sont limitées aux niveaux fixés par voie de consultations et figurant à la dite annexe. Au cas où le Gouvernement de la République d'Haiti souhaiterait autoriser des exportations de toute catégorie dépassant le niveau applicable par voie de consultations, le Gouvernement de la République d'Haiti sollicitera des niveaux plus élevés et le Gouvernement des Etats-Unis devra considérer la demande avec bienveillance et y répondre sans retard. Si, en raison de bouleversement du marché, tel que défini à l'annexe A de la Convention relative au commerce international des textiles constaté aux Etats-Unis d'Amérique dans une catégorie faisant l'objet d'une telle demande, les Etats-Unis ne peuvent donner pleinement satisfaction, les Etats-Unis d'Amérique en informeront le Gouvernement de la République d'Haiti et fourniront les données sur lesquelles les Etats-Unis d'Amérique se sont basés pour adopter cette position. Si le Gouvernement de la République d'Haiti demande à tenir des consultations, le Gouvernement des Etats-Unis d'Amérique y accèdera sans retard. Tant qu'une modification mutuellement satisfaisante du niveau fixé par voie de consultations ne sera pas adoptée, le Gouvernement de la République d'Haiti n'autorisera pas les exportations dépassant le niveau fixé par voie de consultations.

8.- En ce qui concerne les catégories qui ne sont pas sujettes à une limite spécifique ou à un niveau fixé par voie de consultations, chaque partie se réserve le droit de prendre toutes mesures conformément aux dispositions de la convention.

9.- Conformément à l'Article 12, paragraphe 3, de l'Accord et sous réserve de l'établissement d'un système de certification mutuellement agréé, les exportations d'Haïti de tissus de fabrication artisanale, de produits textiles de fabrication artisanale utilisant ces tissus tissés à la main, ou de produits textiles artisanaux folkloriques traditionnels ne seront pas régies par les dispositions du présent Accord.

10.- Le Gouvernement de la République d'Haïti fera tout son possible pour que les exportations d'Haïti à destination des Etats-Unis s'effectuent pour chaque catégorie à intervalles réguliers tout au long de la période de l'Accord, compte tenu des facteurs saisonniers normaux.

11.- Le Gouvernement des Etats-Unis d'Amérique devra communiquer rapidement au Gouvernement de la République d'Haïti les données relatives aux importations mensuelles de coton, de laine, de fibres chimiques et de produits textiles aux Etats-Unis d'Amérique en provenance d'Haïti. Le Gouvernement de la République d'Haïti communiquera rapidement au Gouvernement des Etats-Unis d'Amérique les données mensuelles relatives aux exportations de coton, de laine, de fibres chimiques et de produits textiles en provenance d'Haïti à destination des Etats-Unis d'Amérique. Chaque Gouvernement convient de fournir rapidement, sur demande, à l'autre Gouvernement, toutes autres données statistiques dont il dispose et qui seraient nécessaires à la mise en application du présent Accord.

12.- A) Les peignes, fils, tissus, articles de confection simple, vêtements et autres produits textiles manufacturés, produits dont les caractéristiques principales sont de comporter des composants textiles en coton, laine ou fibres chimiques, ou des mélanges de ces fibres, et dans lesquels toutes fibres de cette nature représentent soit la valeur principale du produit ou 50 pour cent au moins de ladite valeur en raison du poids des produits (ou 17 pour cent au moins en raison du poids de la laine), sont soumis aux dispositions du présent Accord.

B) Aux fins d'application du présent Accord, les produits textiles seront classifiés en tant que textiles de coton, de laine ou de fibres chimiques, si ces fibres constituent l'élément intégral ou de valeur principale de l'un quelconque de ces produits. Tout produit couvert par l'alinéa A) Du paragraphe 12 mais dont la va-

leur principale n'est pas la fibre de coton, sera classifié en tant que:

I) Textiles de coton, s'ils se composent de 50 pour cent ou plus, en poids de coton, ou si le coton en est un élément de proportion plus élevée, en poids, que l'élément laine et/ou fibres chimiques;

II) Textiles de laine, s'ils ne tombent pas dans la catégorie des textiles de coton et que la laine y entre dans une proportion égale ou excède de 17 pour cent, en poids, toutes les autres fibres qui les composent; et

III) Textiles de fibres chimiques, s'ils ne répondent pas à l'une ou l'autre des descriptions ci-dessus.

13.- Le Gouvernement des Etats-Unis d'Amérique et le Gouvernement de la République d'Haiti conviennent de se consulter au sujet de toute question soulevée dans le cadre de l'application du présent Accord.

14.- La République d'Haiti assurera l'administration de son système de contrôle des exportations aux termes du présent Accord. Le Gouvernement des Etats-Unis d'Amérique pourra aider la République d'Haiti dans l'application des dispositions du présent Accord en matière de limitation en contrôlant les importations de textiles et de produits textiles tombant sous le coup de l'Accord.

15.- En conformité avec les dispositions de l'Article 8 de la Convention, la République d'Haiti et les Etats-Unis d'Amérique coopéreront afin d'éviter de circonvenir l'Accord.

16.- Des arrangements administratifs ou des ajustements mutuellement satisfaisants peuvent être faits pour résoudre les problèmes de moindre importance survenant dans l'application du présent Accord, y compris les divergences concernant des détails de procédure ou de fonctionnement.

17.- A) L'entrée aux Etats-Unis des exportations en provenance d'Haiti dépassant les limites autorisées dans toute période de l'Accord, peut être refusée. Toute expédition à destination des Etats-Unis dont l'entrée est refusée peut être autorisée et imputée à la limite applicable dans la période suivante de l'Accord.

B) Les exportations en provenance d'Haiti dépassant les limites autorisées dans toute année de l'Accord seront, si leur entrée

sux Etats-Unis d'Amérique est autorisée pendant la période de l'Accord, imputées à la limite applicable dans la période suivante de l'Accord.

18.- Le système de contrôle, en vigueur au 3 Mars 1980, entre le Gouvernement des Etats-Unis d'Amérique et la République d'Haïti, demeurera en vigueur conformément au paragraphe 16.

19.- Si la République d'Haïti estime que, en raison des limitations spécifiées dans le présent Accord, elle se trouve dans une position inéquitable par rapport à un pays tiers, la République d'Haïti pourra demander d'entrer en consultation avec les Etats-Unis d'Amérique en vue de prendre toutes dispositions appropriées, telle l'adoption de modifications raisonnables du présent Accord, pour y remédier.

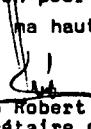

20.- Le Gouvernement des Etats-Unis et le Gouvernement de la République d'Haïti conviennent de se consulter, à la demande de l'un ou l'autre, sur toute question survenant dans l'application du présent Accord.

21.- Le Gouvernement des Etats-Unis d'Amérique et le Gouvernement de la République d'Haïti peuvent, en tout temps, proposer d'apporter des révisions aux modalités du présent Accord. Chaque partie convient d'entrer rapidement en consultation avec l'autre partie en ce qui concerne les dites propositions en vue d'apporter lesdites révisions au présent Accord ou de prendre toutes autres dispositions appropriées dont il pourrait être mutuellement convenu.

22.- L'un ou l'autre des Gouvernements pourra mettre fin au présent Accord à compter de la fin de toute période de l'Accord, en avisant par écrit l'autre Gouvernement, au moins 90 jours avant la fin de la dite période de l'Accord".

Il m'est agréable de vous faire savoir que le Gouvernement Haïtien approuve les propositions ci-dessus mentionnées. Votre lettre et la présente réponse qui exprime l'agrément du Gouvernement Haïtien constituent un Accord entre les deux Gouvernements.

Je saisis cette occasion pour vous renouveler, Monsieur l'Ambassadeur, les assurances de ma haute considération.

RADIOACTIVE WASTE MANAGEMENT

WHEREAS

The UNITED STATES DEPARTMENT OF ENERGY (DOE) and THE FRENCH COMMISSARIAT A L'ENERGIE ATOMIQUE (CEA), hereinafter referred to as the Parties, have a mutual interest in the safe, effective and economic treatment, handling, isolation, disposal and retrieval of spent radioactive fuel and separated radioactive fuel and separated radioactive waste products;

DOE and CEA believe that a cooperative program of equitable sharing of their respective research and development data, technology and experience in the management of radioactive waste would be of mutual benefit;

DOE and CEA recognize the contribution such research and development in radioactive waste management can make to protecting the environment, while furthering the safe and economic application of nuclear energy;

DOE and CEA act in certain areas related to radioactive waste management through their contractors, subsidiaries or associated industrial firms;

DOE and CEA recognize the need to establish procedures for the protection of proprietary information.

It is the understanding of each Party that certain information is provided in confidence to the other Party, and that the undue dissemination thereof would be prejudicial to the interests of each Party and to prospects for future collaboration between DOE and CEA.

IT IS AGREED AS FOLLOWS

Scientific Cooperation: Balloon Launching and Associated Services

*Memorandum of understanding signed at Washington June 8 and
15, 1983;
Entered into force June 15, 1983.*

(1653)

TIAS 10754

MEMORANDUM OF UNDERSTANDING
BETWEEN THE
UNITED STATES NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
AND THE
BELGIUM MINISTRY OF NATIONAL EDUCATION

CONCERNING THE FURNISHING OF
BALLOON LAUNCHING AND ASSOCIATED SERVICES

The National Aeronautics and Space Administration (NASA) and the Belgium Ministry for National Education (MNE) set forth in this Memorandum of Understanding their general understandings: (1) as to the conditions under which NASA will furnish balloon launching and associated services for scientific investigators from Belgium on a reimbursable basis, and (2) as to the responsibilities of NASA and MNE in connection with such launchings. At appropriate times in the future, separate launch services arrangements will be entered into by NASA and MNE, which shall express the specific terms and conditions under which NASA will furnish launching and associated services for individual launchings requested by MNE and which shall be in accord with the general understandings set forth in this Memorandum.

Article 1 - NASA Responsibilities

A. NASA will use its best efforts to carry out the following responsibilities:

1. To the maximum extent feasible, schedule the launching within the general time period requested by MNE.
2. Provide through the University Corporation for Atmospheric Research (UCAR), or a successor facilities contractor, necessary facilities and services for operations including preparation for launch, tracking, recovery, and data retrieval; administration; and engineering support as mutually agreed.

3. Conduct launch operations, including range safety, Federal Aviation Administration and International Civil Aviation Organization coordination, launch vehicles, ancillary equipment and launch crews.
4. Furnish technical consultation or additional services in support of specific or general MNE launch requirements as may be mutually agreed.

B. Where NASA deems it appropriate, these responsibilities will be carried out by UCAR or a successor facilities contractor. Reference herein to UCAR means UCAR or a successor contractor.

Article 2 - MNE Responsibilities

A. MNE will use its best efforts to carry out the following responsibilities:

1. Design, develop and test the payload(s) to be launched under this agreement.
2. Furnish information to NASA on its requirements for a particular launching or series of launchings, at least six months prior to the requested launch date. Such information will include details as to the scientific objectives, payload description, approximate launching dates, flight operations requirements and any other information requested by NASA for planning purposes.
3. Provide a flight-ready payload at the launching range, in accordance with time schedules agreed upon under the launch services arrangement.

B. MNE may designate a University or other appropriate institute in Belgium to carry out these responsibilities. Such designation shall be made by MNE in writing as an endorsement to accompany any application for balloon flights under this Memorandum of Understanding.

Article 3 - Launch Site

A. Launchings will normally be conducted from the National Scientific Balloon Facility (NSBF) in Palestine, Texas.

B. In the case of requests for launch services from a site other than NSBF, the request should demonstrate that there is a compelling scientific reason for the flight to be launched at a remote site.

Article 4 - Financial Principles

A. Based upon the information provided by MNE pursuant to Article 2, paragraph A.2., NASA will provide an estimate of the reimbursable charges for the requested balloon launching and associated services.

B. It is understood that in the case of flights originating outside of NSBF, reimbursement will be required for the cost of transporting personnel and equipment, equipment rentals, per diem, overtime, and other out-of-pocket expenses that would not be incurred for launchings from NSBF. When more than one flight is involved at a remote location these costs will be prorated among all investigators on a per-flight basis.

C. MNE agrees to deposit at least one month prior to the requested date of the balloon flight, U.S. dollar funds in the amount of the estimated reimbursable charges in an account at NASA established for that purpose. A late payment penalty of one and one-half (1 1/2) per cent per month or portion thereof will be assessed and added to the amount of any payment not received by NASA by that date.

D. In the event the final cost of the services provided in accordance with this agreement exceeds the funds provided, MNE agrees to provide additional funds as required to meet all obligations which it has incurred within sixty days of notification of the final cost. If on termination of a balloon flight project undertaken pursuant to this agreement there is an unused balance in the account, MNE will provide to NASA instruction for the disposition of such funds.

E. It is understood that the ability of NASA and MNE to carry out their obligations is subject to their respective funding procedures.

Article 5 - Liability

A. NASA and MNE agree that, with respect to injury or damage to persons or property involved in operations undertaken pursuant to this agreement, neither NASA nor MNE, shall make any claim with respect to injury or death of its own or its contractors' or its subcontractors' or other users' employees or damage to its own or its contractors' or its subcontractors' or other users' property caused by activities arising out of or connected with this project, whether such injury, death or damage arises through negligence or otherwise.

B. With regard to third party liability, the following will apply:

1. UCAR has a policy for balloon operations conducted or supervised by UCAR personnel, under which UCAR, the Government of the United States and the user-institution are insured - to the extent of the policy coverage - for legal liability arising from third-party claims. Types of coverage and limits of coverage are as follows:
 - a. For claims involving balloon operations, the amount of coverage is \$100,000,000 excluding damage due to radioactive sources (if any) carried in the balloon payload.
 - b. For claims involving UCAR-operated tracking aircraft, the amount of coverage is at least \$50,000,000.
2. UCAR and the Government of the United States are insured - to the extent of the policy coverage - for legal liability arising out of claims involving UCAR-operated vehicles and general liability hazards. The limits of coverage are \$500,000 bodily injury and \$300,000 property damage. In addition to these limits, UCAR maintains an umbrella policy which provides \$10,000,000 of additional coverage for such claims.
3. UCAR will maintain these policies with respect to all flights conducted or supervised by it pursuant to this Memorandum of Understanding, provided that if any of these policies are cancelled, terminated or otherwise expire, no flights will be undertaken under this Memorandum of Understanding until such time as said policy has been renewed or until substantially similar insurance in like amounts has been obtained.
4. Provided the procedures of paragraph 5, below, have been followed, the MNE agrees to hold UCAR and its employees and agents and the Government of the United States and its employees and agents, harmless and to indemnify them for amounts paid by them as a result of judgments rendered against them or settlements made by them with respect to third-party claims for damage to or loss of property (other than the balloon or scientific payload) or death or injury to persons arising out of activities under this Memorandum of Understanding.

However, no indemnification will be required for such amounts that are paid or payable to UCAR or the Government of the United States under the insurance cited in paragraph 1, above, or such other insurance as may be applicable.

5. In the event any claim, demand, or legal action is brought against UCAR or its employees or agents, or the Government of the United States or its employees or agents, for damages to or loss of property (other than the balloon or scientific payload) or for death or injury to persons arising out of activities under this Memorandum of Understanding, the MNE will be promptly notified. If the amount claimed exceeds or might exceed the coverage of the policies cited above, or if the claim might not be within the coverage of the policies cited above, or if the claim might not be within the coverage of any of said policies, (i) no settlements in excess of the insurance coverage or which would not be covered by any of said insurance policies will be made without the concurrence of MNE, and (ii) MNE, to the extent practical, will be allowed to participate in the defense of any legal actions.

Article 6 - Patent and Data Rights

A. NASA will not acquire, as a result of the launch and associated services provided under this Agreement, any rights to the MNE's or its scientific investigators' inventions or patents which may be used in or result from the payload, or any rights to their proprietary data. NASA considers any data derived from the payload (including data reduction and analysis) by NASA in carrying out the launch and associated services to be the property of the MNE and/or its scientific investigators, and in order to protect any intellectual property rights therein, NASA will deliver said data to the MNE or its representative, as promptly as possible following its receipt (and processing if necessary) by NASA.

B. Notwithstanding the provisions of A. above, it is to be understood that the information to be furnished to NASA under paragraph A 2. of Article 2 in order to facilitate the launching and associated services is to be provided without use and disclosure restrictions.

Article 7 - Public Information

NASA and MNE may release information covering their own portions of the project. If the participation of the other is involved, the parties shall consult prior to release of information. Disclosure or withholding of information by NASA is subject to domestic law.

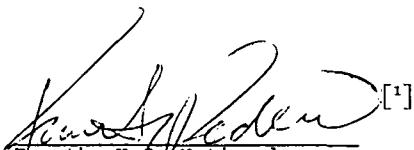

Article 8 - Amendments

Amendments to this Memorandum of Understanding shall be by written agreement.

Article 9 - Entry into Force and Termination

This agreement shall enter into force on the date of signature thereof and shall remain in force until terminated by either party. This Memorandum of Understanding may be terminated by either party upon the furnishing of thirty (30) days advance written notice to the other party.

Upon termination, MNE agrees to pay all costs incurred up to the point of termination and if termination is by MNE, the costs resulting from the termination.

TANZANIA

Agricultural Commodities

*Agreement signed at Dar es Salaam July 22, 1983;
Entered into force July 22, 1983.*

AGREEMENT BETWEEN
THE GOVERNMENT OF THE UNITED STATES OF AMERICA
AND
THE GOVERNMENT OF THE UNITED REPUBLIC OF TANZANIA
FOR SALES OF AGRICULTURAL COMMODITIES

The Government of the United States of America and the Government of the United Republic of Tanzania

Recognizing the desirability of expanding trade in agricultural commodities between the United States of America (hereinafter referred to as the exporting country) and the United Republic of Tanzania (hereinafter referred to as the importing country) and with other friendly countries in a manner that will not displace usual marketings of the exporting country in these commodities or unduly disrupt world prices of agricultural commodities or normal patterns of commercial trade with friendly countries;

Taking into account the importance to developing countries of their efforts to help themselves toward a greater degree of self-reliance, including efforts to meet their problems of food production and population growth;

Recognizing the policy of the exporting country to use its agricultural productivity to combat hunger and malnutrition in the developing countries, to encourage these countries to improve their own agricultural production, and to assist them in their economic development;

Recognizing the determination of the importing country to improve its own production, storage, and distribution of agricultural food products, including the reduction of waste in all stages of food handling;

Desiring to set forth the understandings that will govern the sales of agricultural commodities to the importing country pursuant to Title I of the Agricultural Trade Development and Assistance Act, as amended^[1] (hereinafter referred to as the Act), and the measures that the two Governments will take individually and collectively in furthering the above-mentioned policies;

Have agreed as follows:

PART I - GENERAL PROVISIONS

ARTICLE I

A. The Government of the exporting country undertakes to finance the sale of agricultural commodities to purchasers authorized by the Government of the importing country in accordance with the terms and conditions set forth in this agreement.

^[1] 68 Stat. 455; 7 U.S.C. § 1701 *et seq.*

B. The financing of the agricultural commodities listed in Part II of this agreement will be subject to:

1. the issuance by the Government of the exporting country of purchase authorizations and their acceptance by the Government of the importing country; and
2. the availability of the specified commodities at the time of exportation.

C. Application for purchase authorizations will be made within 90 days after the effective date of this agreement, and, with respect to any additional commodities or amounts of commodities provided for in any supplementary agreement, within 90 days after the effective date of such supplementary agreement. Purchase authorizations shall include provisions relating to the sale and delivery of such commodities, and other relevant matters.

D. Except as may be authorized by the Government of the exporting country, all deliveries of commodities sold under this agreement shall be made within the supply periods specified in the commodity table in Part II.

E. The value of the total quantity of each commodity covered by the purchase authorizations for a specified type of financing authorized under this agreement shall not exceed the maximum export market value specified for that commodity and type of financing in Part II. The Government of the exporting country may limit the total value of each commodity to be covered by purchase authorizations for a specified type of financing as price declines or other marketing factors may require, so that the quantities of such commodity sold under a specified type of financing will not substantially exceed the applicable approximate maximum quantity specified in Part II.

F. The Government of the exporting country shall bear the ocean freight differential for commodities the Government of the exporting country requires to be transported in United States flag vessels (approximately 50 percent by weight of the commodities sold under the agreement). The ocean freight differential is deemed to be the amount, as determined by the Government of the exporting country, by which the cost of ocean transportation is higher (than would otherwise be the case) by reason of the requirement that the commodities be transported in United States flag vessels. The Government of the importing country shall have no obligation to reimburse the Government of the exporting country for the ocean freight differential borne by the Government of the exporting country.

6. Promptly after contracting for United States flag shipping space to be used for commodities required to be transported in United States flag vessels, and in any event not later than presentation of vessel for loading, the Government of the importing country or the purchasers authorized by it shall open a letter of credit, in United States dollars, for the estimated cost of ocean transportation for such commodities.

H. The financing, sale, and delivery of commodities under this agreement may be terminated by either Government if that Government determines that because of changed conditions the continuation of such financing, sale, or delivery is unnecessary or undesirable.

ARTICLE II

A. Initial Payment

The Government of the importing country shall pay, or cause to be paid, such initial payment as may be specified in Part II of this agreement. The amount of this payment shall be that portion of the purchase price (excluding any ocean transportation costs that may be included therein) equal to the percentage specified for initial payment in Part II and payment shall be made in United States dollars in accordance with the applicable purchase authorization.

B. Currency Use Payment

The Government of the importing country shall pay, or cause to be paid, upon demand by the Government of the exporting country in amounts as it may determine, but in any event no later than one year after the final disbursement by the Commodity Credit Corporation under this agreement, or the end of the supply period, whichever is later, such payment as may be specified in Part II of this agreement pursuant to Section 103(b) of the Act (hereinafter referred to as the Currency Use Payment). The Currency Use Payment shall be that portion of the amount financed by the exporting country equal to the percentage specified for Currency Use Payment in Part II. Payment shall be made in accordance with paragraph H and for purposes specified in Subsections 104(a), (b), (e), and (h) of the Act, as set forth in Part II of this agreement. Such payment shall be credited against (a) the amount of each year's interest payment due during the period prior to the due date of the first installment payment, starting with the first year, plus (b) the combined payments of principal and interest starting with the first installment payment, until the value of the Currency Use Payment has been offset. Unless otherwise specified in Part II, no requests for payment will be made by the Government of the exporting country prior to the first disbursement

TIAS 10758

By the Commodity Credit Corporation of the exporting country under this agreement.

C. Type of Financing

Sales of the commodities specified in Part II shall be financed in accordance with the type of financing indicated therein. Special provisions relating to the sale are also set forth in Part II.

D. Credit Provisions

1. With respect to commodities delivered in each calendar year under this agreement, the principal of the credit (hereinafter referred to as principal) will consist of the dollar amount disbursed by the Government of the exporting country for the commodities (not including any ocean transportation costs) less any portion of the Initial Payment payable to the Government of the exporting country.

The principal shall be paid in accordance with the payment schedule in Part II of this agreement. The first installment payment shall be due and payable on the date specified in Part II of this agreement. Subsequent installment payments shall be due and payable at intervals of one year thereafter. Any payment of principal may be made prior to its due date.

2. Interest on the unpaid balance of the principal due the Government of the exporting country for commodities delivered in each calendar year shall be paid as follows:

a. In the case of Dollar Credit, interest shall begin to accrue on the date of last delivery of these commodities in each calendar year. Interest shall be paid not later than the due date of each installment payment of principal, except that if the date of the first installment is more than a year after such date of last delivery, the first payment of interest shall be made not later than the anniversary date of such date of last delivery and thereafter payment of interest shall be made annually and not later than the due date of each installment payment of principal.

b. In the case of Convertible Local Currency Credit, interest shall begin to accrue on the date of dollar disbursement

by the Government of the exporting country. Such interest shall be paid annually beginning one year after the date of last delivery of commodities in each calendar year, except that if the installment payments for these commodities are not due on some anniversary of such date of last delivery, any such interest accrued on the due date of the first installment payment shall be due on the same date as the first installment and thereafter such interest shall be paid on the due dates of the subsequent installment payments.

3. For the period of time from the date the interest begins to the due date for the first installment payment, the interest shall be computed at the initial interest rate specified in Part II of this agreement. Thereafter, the interest shall be computed at the continuing interest rate specified in Part II of this agreement.

E. Deposit of Payments

The Government of the importing country shall make, or cause to be made, payments to the Government of the exporting country in the currencies, amounts, and at the exchange rates provided for in this agreement as follows:

1. Dollar payments shall be remitted to the Treasurer, Commodity Credit Corporation, United States Department of Agriculture, Washington, D.C. 20250, unless another method of payment is agreed upon by the two Governments.

2. Payments in the local currency of the importing country (hereinafter referred to as local currency), shall be deposited to the account of the Government of the United States of America in interest bearing accounts in banks selected by the Government of the United States of America in the importing country.

F. Sales Proceeds

The total amount of the proceeds accruing to the importing country from the sale of commodities financed under this agreement, to be applied to the economic development purposes set forth in Part II of this agreement, shall be not less than the local currency equivalent of the dollar disbursement by the Government of the exporting country in connection with the financing of the commodities (other than the ocean freight differential), provided, however, that the sales proceeds to be so applied shall be reduced by the Currency Use Payment, if any, made by the Government of the importing country. The exchange rate to be used in calculating this local currency equivalent shall be the rate at which the

central monetary authority of the importing country, or its authorized agent, sells foreign exchange for local currency in connection with the commercial import of the same commodities. Any such accrued proceeds that are loaned by the Government of the importing country to private or non-governmental organizations shall be loaned at rates of interest approximately equivalent to those charged for comparable loans in the importing country. The Government of the importing country shall furnish, in accordance with its fiscal year budget reporting procedure, at such times as may be requested by the Government of the exporting country but not less often than annually, a report of the receipt and expenditure of the proceeds, certified by the appropriate audit authority of the Government of the importing country, and in case of expenditures the budget sector in which they were used.

G. Computations

The computation of the Initial Payment, Currency Use Payment and all payments of principal and interest under this agreement shall be made in United States dollars.

H. Payments

All payments shall be in United States dollars or, if the Government of the exporting country so elects,

1. The payments shall be made in readily convertible currencies of third countries at a mutually agreed rate of exchange and shall be used by the Government of the exporting country for payment of its obligations or, in the case of Currency Use Payments, used for the purposes set forth in Part II of this agreement; or

2. The payments shall be made in local currency at the applicable exchange rate specified in Part I, Article III, G of this agreement in effect on the date of payment and shall, at the option of the Government of the exporting country, be converted to United States dollars at the same rate, or used by the Government of the exporting country for payment of its obligations or, in the case of Currency Use Payments, used for the purposes set forth in Part II of this agreement in the importing country.

ARTICLE IIIA. World Trade

The two Governments shall take maximum precautions to assure that sales of agricultural commodities pursuant to this agreement will not displace usual marketings of the exporting country in these commodities or unduly disrupt world prices of agricultural commodities or normal patterns of commercial trade with countries the Government of the exporting country considers to be friendly to it (referred to in this agreement as friendly countries). In implementing this provision the Government of the importing country shall:

1. insure that total imports from the exporting country and other friendly countries into the importing country paid for with the resources of the importing country will equal at least the quantities of agricultural commodities as may be specified in the usual marketing table set forth in Part II during each import period specified in the table and during each subsequent comparable period in which commodities financed under this agreement are being delivered. The imports of commodities to satisfy these usual marketing requirements for each import period shall be in addition to purchases financed under this agreement.
2. take steps to assure that the exporting country obtains a fair share of any increase in commercial purchases of agricultural commodities by the importing country.
3. take all possible measures to prevent the resale, diversion in transit, or transshipment to other countries or the use for other than domestic purposes of the agricultural commodities purchased pursuant to this agreement (except where such resale, diversion in transit, transshipment or use is specifically approved by the Government of the United States of America); and
4. take all possible measures to prevent the export of any commodity of either domestic or foreign origin, which is defined in Part II of this agreement, during the export limitation period specified in the export limitation table in Part II (except as may be specified in Part II or where such export is otherwise speci-

fically approved by the Government of the United States of America).

B. Private Trade

In carrying out the provisions of this agreement, the two Governments shall seek to assure conditions of commerce permitting private traders to function effectively.

C. Self-Help

Part II describes the program the Government of the importing country is undertaking to improve its production, storage, and distribution of agricultural commodities. The Government of the importing country shall furnish in such form and at such time as may be requested by the Government of the exporting country, a statement of the progress the Government of the importing country is making in carrying out such self-help measures.

D. Reporting

In addition to any other reports agreed upon by the two Governments, the Government of the importing country shall furnish at least quarterly for the supply period specified in Part II, Item I of this agreement and any subsequent comparable period during which commodities purchased under this agreement are being imported or utilized:

1. the following information in connection with each shipment of commodities under the agreement: the name of each vessel; the date of arrival; the port of arrival; the commodity and quantity received; and the condition in which received;
2. a statement by it showing the progress made toward fulfilling the usual marketing requirements;
3. a statement of the measures it has taken to implement the provisions of Sections A 2 and 3 of this Article; and
4. statistical data on imports by country of origin and exports by country of destination, of commodities which are the same as or like those imported under the agreement.

E. Procedures for Reconciliation and Adjustment of Accounts

The two Governments shall each establish appropriate procedures to facilitate the reconciliation of their respective records on the amounts financed with respect to the commodities delivered during each calendar year. The Commodity Credit Corporation of the exporting country and the Government of the importing country may make such adjustments in the credit accounts as they mutually decide are appropriate.

F. Definitions

For the purposes of this agreement:

1. delivery shall be deemed to have occurred as of the on-board date shown in the ocean bill of lading which has been signed or initialed on behalf of the carrier,
2. import shall be deemed to have occurred when the commodity has entered the country, and passed through customs, if any, of the importing country, and
3. utilization shall be deemed to have occurred when the commodity is sold to the trade within the importing country without restriction on its use within the country or otherwise distributed to the consumer within the country.

G. Applicable Exchange Rate

For the purposes of this agreement, the applicable exchange rate for determining the amount of any local currency to be paid to the Government of the exporting country shall be a rate in effect on the date of payment by the importing country which is not less favorable to the Government of the exporting country than the highest exchange rate legally obtainable in the importing country and which is not less favorable to the Government of the exporting country than the highest exchange rate obtainable by any other nation. With respect to local currency:

1. As long as a unitary exchange rate system is maintained by the Government of the importing country, the applicable exchange rate will be the rate at which the central monetary authority of the importing country, or its authorized agent, sells foreign exchange for local currency.
2. If a unitary rate system is not maintained, the applicable rate will be the rate (as mutually agreed by the two Governments) that fulfills the requirements of the first sentence of this Section G.

H. Consultation

The two Governments shall, upon request of either of them, consult regarding any matter arising under this agreement, including the operation of arrangements carried out pursuant to this agreement.

(3) that it will permit continuous observation and review by, and furnish necessary information to, representatives of the United States Government with regard to the use of such services or training; and

(4) that it will return to the United States Government such services or training materials furnished on a grant basis as are no longer needed for the purposes for which

furnished, unless the United States Government consents to some other disposition.

I have the honor to refer to the Arrangement regarding International Trade in Textiles (hereinafter referred to as the Arrangement), done at Geneva on December 20, 1973, as extended by the protocol adopted on December 22, 1981.^[1]

I also have the honor to refer to discussions between representatives of the Royal Thai Government and the Government of the United States of America in Chiang Mai from February 21 to February 25, 1983, and in Washington from May 16 through June 2, 1983 concerning exports of cotton, wool, and man-made fiber textiles and textile products manufactured in Thailand which are exported to the United States of America. As a result of these discussions, we propose on behalf of the Government of the United States of America, under Article 4 of, and in conformity with the Arrangement, the following Agreement

relating to trade in cotton, wool, and man-made fiber textiles and textile products between Thailand and the United States.

1. (A) This Agreement shall enter into force upon exchange of diplomatic notes and the term of this Agreement shall be from January 1, 1983 through December 31, 1987. An "Agreement Year" shall be a 12-month period with the first Agreement Year commencing on January 1, 1983 and ending on December 31, 1983.

(B) This Agreement will supersede the Agreement relating to trade in cotton, wool and man-made fiber textiles which entered into force on January 1, 1978,^[1] and its extension effected by exchange of notes dated September 2 and 14, 1982.^[2]

2. (A) Textiles and textile products covered by this Agreement shall be classified in two groups as follows:

Group Definition

I Yarn, fabric, made-ups and miscellaneous textile products of cotton, wool and man-made fiber (categories 300-320, 400-429, 600-627, 360-369, 464-469 and 665-669).

II Apparel textile products of cotton, wool and man-made fiber (categories 330-359, 431-459 and 630-659).

apply in implementing this Agreement except that:

(I) The pairs of categories below are merged and treated as single categories:

| Categories Merged | Designation in Agreement |
|-------------------|--------------------------|
| 334, 335 | 334/335 |
| 338, 339 | 338/339 |
| 347, 348 | 347/348 |
| 445, 446 | 445/446 |
| 634, 635 | 634/635 |
| 645, 646 | 645/646 |
| 647, 648 | 647/648 |

(II) The following category has a sub-category:

| Category | Sub-Category |
|----------|------------------------------|
| 604 | 604-sub, TSUSA 310.5049 only |

3. Commencing with the first Agreement Year, and during each succeeding Agreement Year, the Royal Thai Government shall limit annual exports from Thailand to the United States of America of cotton, wool, and man-made fiber textiles and textile products manufactured in Thailand to the apparel group limit, category specific limits and sub-limits set out in Annex B, as such limits may be adjusted in accordance with paragraphs 5, 6 and 19.

4. (A) In the event that the Government of the United States of America believes that imports from Thailand classified in any category or categories not

covered by specific limits are, due to market disruption or the threat thereof, threatening to impede the orderly development of trade between the two countries, the Government of the United States of America may request consultations with the Royal Thai Government with a view to easing or avoiding such market disruption. The Government of the United States of America will provide the Royal Thai Government at the time of the request with the data which in the view of the Government of the United States of America shows:

- (1) The existence of market disruption, or the threat thereof, and
- (2) The role of exports from Thailand in that disruption.

(B) The Royal Thai Government agrees to consult with the Government of the United States of America within 30 days of receipt of the request for consultations. Both governments agree to make every effort to reach agreement on a mutually satisfactory resolution of the issue within 90 days of the receipt of such request, unless this period is extended by mutual agreement.

(C) During that 90-day period, the Royal Thai Government agrees to hold its exports to the United States in the category or categories concerned to a level no greater than 35 percent of the amount entered, as reported

in U.S. general import statistics, during the first 12 of the most recent 14 months preceding the month in which the request for consultations was made.

(D) If no mutually satisfactory solution is reached during these consultations, the Government of the United States of America may establish a specific limit for the duration of this agreement in accordance with paragraph 4(E) for shipments in the category or categories concerned exported on and after the date on which the request for consultations was made. This limit will not be less than the amount of imports, as reported in U.S. general import statistics, which were entered during the first 12 of the most recent 14 months preceding the month in which the request for consultations was made, plus 20 percent for cotton and man-made fiber product categories, and 6 percent for wool product categories.

(E) If a specific limit is established under paragraph 4(D) in the course of an agreement year, it will be prorated to correspond to the time period between the date of the request for consultations and the expiration date of the existing Agreement Year. Any flexibility available during this period will be calculated on this prorated limit. Carryover and carryforward will be available as set out in the relevant paragraph of the Agreement. Carryover will not be available in the first

Agreement period following the request for consultations. Swing for non-apparel specific limits established under this paragraph will be available as set out in paragraph 5(B) of this Agreement. New apparel specific limits may be exceeded by 7 percent (swing) for cotton and man-made fiber categories and 5 percent (swing) for wool categories, subject to the apparel group limit. For the second and each succeeding Agreement Year, specific limits established under paragraph 4(D) will be increased by 7 percent annual growth for cotton and man-made fiber products, and by 1 percent for wool products.

5. (A) The apparel group limit and apparel specific limits set out in Annex B, include swing, so that no additional swing is available. Apparel specific limits established under paragraph 4 of this Agreement will have swing as set out in paragraph 4(E).

(B) Any non-apparel specific limit or sub-limit set out in Annex B and any non-apparel specific limit established pursuant to paragraph 4 of this Agreement may be exceeded by no more than 7 percent (swing), except as provided in paragraph 5(C), provided that the amount of the increase is compensated for by an equal square yard equivalent decrease in another specific limit within the same group.

(C) During the first Agreement period categories 313, 314, 315 and/or 320 may be exceeded by 10 percent (swing) provided that the amount of the increase is compensated for by an equal square yard equivalent decrease in categories 313, 314, 315 and/or 320.

(D) The Royal Thai Government will notify the Government of the United States of America of its intention to use any available swing and, when applicable, of the category or categories to be decreased accordingly.

6. (A) In addition to adjustments under paragraph 5, in any Agreement Year, exports may exceed by a maximum of 11 percent, the apparel group limit and any category specific limit or sub-limit (as specified in Annex B) by allocating to such limit for that agreement year an unused portion ("shortfall") of the corresponding limit for the previous Agreement Year ("carryover") or a portion of the corresponding limit for the succeeding Agreement Year ("carryforward"), subject to the following conditions:

- (I) Carryover may be used as available up to 11 percent of the receiving Agreement Year's applicable group or specific limit;
- (II) The combination of carryover and carryforward shall not exceed 11 percent of the receiving Agreement Year's applicable group or specific limit in any Agreement Year;

(III) Carryforward may be used up to 6 percent of the receiving Agreement Year's applicable group or specific limit. The immediately following Agreement Year's corresponding limit will be adjusted downward by the amount of carryforward used. No carryforward shall be available in the last Agreement Year.

(B) For purposes of the Agreement, a shortfall occurs when exports of textiles or textile products from Thailand to the United States of America during an Agreement Year (plus charges for overshipments made in preceding years) are below any applicable non-apparel specific limit or sub-limit or below any applicable apparel specific limit and the apparel group limit set out in Annex B, as decreased pursuant to paragraph 5 or adjusted downward for overshipments or other mutually agreed upon amendments. In the Agreement Year following the shortfall, such exports from Thailand to the United States of America may be permitted to exceed the applicable group or specific limits, subject to conditions set forth above, by carryover of shortfall in the following manner:

(I) The carryover shall not exceed the amount of shortfall in either the apparel group limit or any applicable specific limit or sub-limit;

(II) In the case of shortfall in a category subject to a specific limit or sub-limit, the shortfall shall be used in the category in which the shortfall occurred.

7. (A) Tops, yarns, piece goods, made-up articles, garments and other textile manufactured products, all being products which derive their chief characteristics from their textile components, of cotton, wool, or man-made fibers, or blends thereof, in which any or all of those fibers represent either the chief value of the fibers or 50 percent or more by weight (or 17 percent or more by weight of wool) of the product, are subject to this Agreement:

(B) For the purposes of this Agreement, textile products shall be classified as cotton, wool, or man-made fiber textiles if wholly or in chief value of any of these fibers. Any products covered by sub-paragraph 7 (A) but not in chief value of cotton, wool or man-made fiber shall be classified as:

(I) Cotton textiles if containing 50 percent or more by weight of cotton, or if the cotton component exceeds by weight the wool and/or the man-made fiber component;

- (II) Wool textiles if not cotton, and wool equals or exceeds 17 percent by weight of all component fibers; and
- (III) Man-made fiber textiles if neither of the foregoing applies.

8. Mutually satisfactory administrative arrangements or adjustments may be made to resolve problems arising in the implementation of this Agreement, including differences in points of procedure or operation.

9. (A) The Government of the United States of America shall promptly supply the Royal Thai Government with data on monthly imports of cotton, wool and man-made fiber textiles and textile products into the United States of America from Thailand.

(B) The Royal Thai Government shall promptly supply the Government of the United States of America with data on monthly exports of cotton, wool and man-made fiber textiles and textile products from Thailand to the United States of America.

(C) Each Government agrees to supply promptly any other available statistical data necessary to the implementation of this Agreement requested by the other Government.

10. The Royal Thai Government shall use its best efforts to space exports from Thailand to the United

States of America within each category evenly throughout each Agreement Year, taking into consideration normal seasonal factors.

11. If the Royal Thai Government considers that as a result of limitations specified in the Agreement, Thailand is being placed in an inequitable position vis-a-vis a third country, the Royal Thai Government may request consultations with the Government of the United States of America with the view of taking appropriate remedial action such as a reasonable modification of this Agreement.

12. For the duration of this Agreement, the Government of the United States of America shall not invoke the procedures of Article 3 of the Arrangement to request restraint on the export of cotton, wool and man-made fiber textiles and textile products covered by this Agreement from Thailand to the United States of America. Each Government reserves its rights under the Arrangement with respect to textiles and textile products not subject to this Agreement.

13. The Royal Thai Government shall administer its export control system under this Agreement. The Government of the United States of America may assist the Royal Thai Government in implementing the limitation provisions of this Agreement by controlling imports of textiles and textile products covered by this Agreement.

14. (A) In conformity with Article 12, paragraph (3) of the Arrangement, this Agreement shall not apply to exports of handloom fabrics of the cottage industry of Thailand, or handmade cottage industry products made of such handloom fabrics in Thailand, or to folklore handicraft textile products traditional to Thailand, provided that such products are properly certified under arrangements established between the two Governments pursuant to paragraph 8 of this Agreement and the August 16, 1976, September 7 and September 16, 1982 exchange of letters^[1] between the two Governments regarding certification of exempt items.

(B) Exports of cotton, wool and man-made fiber textiles and textile products in shipments individually valued at less than 250 dollars shall not be charged to the limits of this Agreement, provided that such products are certified in conformity with the above mentioned arrangement.

15. The export visa arrangement established by the exchange of letters dated September 7 and September 16, 1982 will remain in effect for categories listed in Annex A to this Agreement.

16. The United States Government will notify the Royal Thai Government of any changes to the headnotes of the United States Tariff Schedules which affect

classification and, where applicable, redistribute to each limit the amount of trade affected by such change.

17. The Government of the United States of America and the Royal Thai Government agree to consult on any question arising in the implementation of this Agreement, and unless otherwise mutually agreed, such consultations shall be held within 30 days of the request.

18. The Government of the United States of America and the Royal Thai Government may at any time propose revisions in the terms of this Agreement. Each Government agrees to consult promptly with the other Government about such proposals with a view to making such revisions to this Agreement, or taking such other appropriate action as may be mutually agreed upon.

19. (A) Exports from Thailand in excess of authorized limits in any Agreement Year may be denied entry into the United States. Any such shipments denied entry, may be permitted entry into the United States and charged to the applicable group or specific limit in the succeeding Agreement Year.

(B) If, during an Agreement Year, exports from Thailand are allowed entry into the United States of America in excess of authorized limits, the applicable group or specific limits in the succeeding Agreement Year will be adjusted downward by the amount of the excess shipments.

TIAS 10760

(C) Any action taken pursuant to sub-paragraph 19 (A) and (B) above, will not prejudice the rights of either side regarding consultations.

20. In conformity with Article 8 of the Arrangement, Thailand and the United States of America shall cooperate to avoid circumvention of the Agreement.

21. Either Government may terminate this Agreement, effective at the end of an Agreement Year, by written notice to the other Government, to be given at least 90 days prior to the end of such Agreement Year.

If the foregoing conforms with the understanding of the Royal Thai Government, this note and Your Excellency's note of confirmation on behalf of the Royal Thai Government shall constitute an Agreement between our two Governments.

Accept, Excellency, the renewed assurances of my highest consideration.

2. Under Item III - Usual Marketing Table, under appropriate column headings, insert a new line item reading "Wheat/wheat flour (grain equivalent basis), 1983, 3,000,000."
3. Under Item IV - Export Limitations, delete the text of subparagraph A, and insert the following: "The Export Limitation period shall be United States Fiscal Years 1979, 1980, 1981, 1982, 1983 and any subsequent Fiscal Year during which commodities financed under this agreement are being imported or utilized."
4. Under Item V - Self-Help Measures, delete the existing Self-Help measures in their entirety and insert the following:
 - "a. The Government of Egypt agrees to undertake self-help measures to improve the production, storage, and distribution of agricultural commodities. The following self-help measures shall be implemented to contribute directly to development progress in poor rural areas and enable the poor to participate actively in increasing agricultural production through small farm agriculture.

"b. The Government of Egypt agrees to undertake the following activities and in doing so to provide adequate financial, technical and managerial resources for their implementation:

"(1) Agricultural Policy and Planning

"(a) Continue to review pricing policies for agricultural inputs. This review should serve as the basis for implementing a rational system of input allocation and use.

"(b) Continue to review the subsidies on consumer prices for food items. This review should serve as the basis for implementing a subsidy policy that protects primarily the lower income groups.

"(c) Increase incentives for domestic food crop production. The Government of Egypt will continue the trend to rationalize input and consumer prices with a view toward establishing

prices that will provide adequate incentives to producers. This process will include the continuation of procurement of wheat from farmers by the Government of Egypt on a voluntary basis. The Government of Egypt will continue its analysis during FY 1983 to determine the need to initiate a similar program for corn. The procurement prices will be set with the objective of further reducing the differences between the domestic and world prices of wheat. In assessing supply management, the Government will give procurement priority to the full utilization of domestically produced crops. Food imports will be distributed in a manner that will minimize the disincentive to domestic production.

"(2) Agricultural Research and Extension.

Continue to examine the organization and management of agricultural research as it relates to increased production through the extension process and to strengthen Egyptian agricultural research efforts as noted in the Memorandum of Understanding signed November 1979. The review will:

- "(a) Identify constraints for effectively managing the agricultural research/extension/dissemination system;
- "(b) Develop procedures which provide the necessary services, create incentives, and demonstrate research results effectively to individual farmers;
- "(c) Identify which new technologies, beneficial to Egypt, are available internationally for potential adoption by Egypt's farmers;

"(d) Evaluate results from previous Egyptian agricultural research projects and disseminate those most likely to support increased small farmer productivity; and

"(e) Develop priorities for funding of applied research project activities.

"(3) Water Conservation and On-Farm Management.

"Continue to assess the structural and institutional options for promoting the conservation and better on-farm management of water, that is pricing water so that water constitutes an input cost.

"(4) Land Investment and Operation and Maintenance.

Continue an assessment of agricultural sector investment levels with particular focus on investment level targets for

improvement of presently cultivated agricultural lands, including previously reclaimed land as well as projects for the development of new reclaimed lands.

"(5) Continue discussions to stimulate U.S. private investments in the Egyptian agribusiness sector within the context of the Bilateral Investment Treaty signed by the two Governments on September 29, 1982."

B. In Annex B, Food for Development Program, make the following changes:

1. Under Item VI, Evaluation, Benchmarks, and Audits, Paragraph A, Number 2, change "Fourth" to "Fifth." (see Amendment dated June 30, 1980)
2. Under Item VI, Paragraph A, Number 3, delete "Fourth year will be completed by February 1, 1983" and insert "Fifth year will be completed by May 1, 1984." (see Amendment dated June 30, 1980)

All other terms and conditions of the March 20, 1979 Title III Agreement as amended, remain the same.

If the foregoing is acceptable to your Government, I propose this note and together with your reply concurring therein constitute an agreement between our two Governments to be effective on date of your note in reply.

Accept, Excellencies, the assurance of my highest consideration.

To finance the foreign exchange costs of certain commodities,
commodity-related services and other services ("Eligible Items")
necessary to assist the Grantee to meet a foreign exchange need, achieve
development objectives and improve the standard of living, the United
States, pursuant to the Foreign Assistance Act of 1961, as amended,[¹]
agrees to grant to the Grantee under the terms of this Agreement, an
amount not to exceed Three Hundred Million United States dollars
(\$300,000,000) ("Grant") for a Commodity Import Program.

¹75 Stat. 424; 22 U.S.C. §2151.

Article 2: The Program

Section 2.1. Definition of Program. The Program, which is further described in Annex 1, will consist of mutually agreed upon allocations of Grant funds for intermediate goods and consumables, including food staples and industrial raw materials, commodity related and other services and capital goods contained in the Government of Egypt budget.

Within the limits of the above definition of the Program, elements of the amplified description stated in Annex 1 may be changed by written agreement of the authorized representatives of the Parties named in Section 8.2, without formal amendment of this Agreement.

Article 3: Conditions Precedent to Disbursement

Section 3.1. Conditions Precedent to Initial Disbursement. Prior to the first disbursement under the Grant, or to the issuance by A.I.D. of documentation pursuant to which disbursement will be made, the Grantee will, except as the Parties may otherwise agree in writing, furnish to A.I.D., in form and substance satisfactory to A.I.D.:

- (a) An opinion of the Minister of Justice of the Arab Republic of Egypt that this Agreement has been duly authorized and/or ratified by, and executed on behalf of the Grantee, and that it constitutes a valid

and legally binding obligation of the Grantee in accordance with all of its terms.

(b) A statement representing and warranting that the named person or persons have the authority to act as the representative or representatives of the Grantee pursuant to Section 8.2, together with a specimen signature of each person certified as to its authenticity.

Section 3.2. Notification. When it has been determined that the conditions precedent specified in Section 3.1 have been met, A.I.D. will promptly notify the Grantee.

Section 3.3. Terminal Date for Conditions Precedent. If all the conditions specified in Section 3.1 have not been met within one hundred twenty (120) days from the date of this Agreement, or such later date as Parties may agree in writing, A.I.D. may, at its option, terminate this Agreement by written notice to the Grantee.

Article 4: Procurement, Eligibility, and Utilization of Commodities.

Section 4.1. A.I.D. Regulation 1. This Grant and the procurement and utilization of commodities and commodity-related services financed under it are subject to the terms and conditions of A.I.D. Regulation 1

as from time to time amended and in effect, except with respect to other services and as A.I.D. may otherwise specify in writing. If any provision of A.I.D. Regulation 1 is inconsistent with a provision of this Agreement, the provision of this Agreement shall govern.

Section 4.2 Eligible Items.

(a) The commodities eligible for financing under this Grant shall be those mutually agreed upon by the Parties and specified in the Implementation Letters and Commodity Procurement Instructions issued to the Grantee in accordance with Section 8.1 of this Agreement. Commodity-related services as defined in A.I.D. Regulation 1 as well as other services are eligible for financing under this Grant. Eligible Items will be subject to the requirements and Special Provisions of Parts I, II, and III of the A.I.D. Commodity Eligibility Listing which will be transmitted with the first Implementation Letter. Other commodities or services shall become eligible for financing only with the written agreement of A.I.D. Any specific commodity, commodity-related service or other service may be excluded from financing under this Agreement if such financing would be inconsistent with the purposes of the Grant or of the Foreign Assistance Act of 1961, as amended.

(b) A.I.D. reserves the right in exceptional situations to delete commodity categories or items within commodity categories described in

Schedule B codes on the Commodity Eligibility Listing. Such right will be exercised at a point in time no later than commodity prevalidation by A.I.D. (Form 11 approval) or, if no commodity prevalidation is required, no later than the date on which an irrevocable Letter of Credit is confirmed by a U.S. bank in favor of the supplier.

(c) If no prevalidation is required and payment is not by Letter of Credit, this right will be exercised no later than the date on which A.I.D. expends funds made available to the Grantee under this Agreement for the financing of the commodity. In any event, however, the Grantee will be notified through the A.I.D. Mission in the Arab Republic of Egypt of any decision by A.I.D. to exercise its right pursuant to a determination that financing the commodity would adversely affect A.I.D. or foreign policy objectives of the United States or could jeopardize the safety or health of people in Egypt.

Section 4.3. Procurement Source. All Eligible Items shall have their source and origin in the United States of America (Code 000 of the A.I.D. Geographic Code Book) except as A.I.D. may specify in Implementation Letters or Commodity Procurement Instructions, or as it may otherwise agree in writing.

Section 4.4. Eligibility Date. No commodities, commodity-related or other services may be financed under this Grant if they were procured

pursuant to orders or to contracts firmly placed or entered into prior to the date of this Agreement, except as the Parties may otherwise agree in writing.

Section 4.5. Procurement for Public Sector.

(a) With respect to procurement under this Grant by or for the Grantee, its departments and instrumentalities, the provisions of Section 201.22 of A.I.D. Regulation 1 regarding formal competitive bid procedures will apply except as A.I.D. may otherwise agree in writing.

(b) Grantee will undertake to assure that public sector end-users under this Grant establish adequate logistic management facilities and that adequate funds are available to pay banking charges, customs, duties and other commodity-related charges in connection with commodities imported by public sector end-users.

Section 4.6. Special Procurement Rules

(a) None of the proceeds of this Grant may be used to finance the purchase, sale, long-term lease, exchange or guaranty of a sale of motor vehicles unless such motor vehicles are manufactured in the United States, except as A.I.D. may otherwise agree in writing.

(b) The source and origin of ocean and air shipping will be deemed to be the ocean vessel's or aircraft's country of registry at the time of shipment.

(c) All international air shipments financed under this Grant will be on carriers holding U.S. certification to perform the service, unless shipment would, in the judgment of the Grantee, be delayed an unreasonable time awaiting a U.S.-flag carrier either at point of origin or transshipment. The Grantee must certify to the facts in the vouchers or other documents retained as part of the Grant records.

Section 4.7. Financing Physical Facilities. Not more than \$1,000,000 from the proceeds of this Grant shall be used for the purchase of commodities or commodity-related services for use in the construction, expansion, equipping, or alteration of any physical facility or related physical facilities without prior A.I.D. approval, additional to the approvals required by A.I.D. Regulation 1, except as the Parties may otherwise agree in writing. "Related physical facilities" shall mean those facilities which, taking into account such factors as functional interdependence, geographic proximity, and ownership, constitute a single enterprise in the judgment of A.I.D.

Section 4.8. Utilization of Commodities.

(a) Grantee will assure that commodities financed under this Grant will be effectively used for the purposes for which the assistance is made available. To this end, the Grantee will use its best efforts to assure that the following procedures are followed:

(i) accurate arrival and clearance records are maintained by customs authorities; commodity imports are promptly processed through customs at ports of entry; such commodities are removed from customs and/or bonded warehouses within ninety (90) calendar days from the date the commodities are unloaded from the vessel at the port of entry, unless the importer is hindered by force majeure or A.I.D. otherwise agrees in writing;

(ii) proper surveillance and supervision are maintained to reduce breakage and pilferage in ports resulting from careless or deliberately improper cargo handling practices, as specified in detail in Implementation Letters; and

(iii) the commodities are consumed or used by the importer not later than one (1) year from the date the commodities are removed from customs, unless a longer period can be justified to the satisfaction of both Parties by reason of force majeure or special market conditions or other circumstances.

(b) Grantee will assure that commodities financed under this Grant will not be reexported in the same or substantially the same form, unless specifically authorized by agreement of both Parties.

(c) Grantee shall use its best efforts to prevent the use of commodities financed under this Agreement to promote or assist any project or activity associated with or financed by any country not included in Code 935 of the A.I.D. Geographic Code Book as in effect at the time of such projected use, except with the prior written agreement of both Parties.

Section 4.9. Minimum Size of Transactions. No foreign exchange allocation or letter of credit issued pursuant to this Agreement shall be in an amount less than Ten Thousand Dollars (\$10,000), except as A.I.D. may otherwise agree in writing.

Article 5: Disbursement

Section 5.1. Letters of Commitment to Banks. After satisfaction of the conditions precedent, the Grantee may obtain disbursements of funds under this Grant by submitting Financing Requests to A.I.D. for the issuance of letters of commitment for specified amounts to one or more banking institutions in the United States designated by Grantee and satisfactory to A.I.D. Such letters will commit A.I.D. to reimburse the bank or banks on behalf of the Grantee for payments made by the banks to suppliers or contractors, under letters of credit or otherwise, pursuant to such documentation requirements as A.I.D. may prescribe. Banking charges incurred in connection with letters of commitment and disbursements shall be for the account of Grantee and may be financed by this Grant.

Regulation 1 specifies in detail the documents required to substantiate disbursements under this Agreement by Letter of Commitment or other method of financing. The document number shown on the Letter of Commitment or other disbursing authorization document shall be the number reflected on all disbursement documents submitted to A.I.D. In addition to the above, the Grantee shall maintain records adequate to establish that commodities financed hereunder have been utilized in accordance with Section 4.8 of this Agreement. Additional documents may also be required by A.I.D. with respect to specific commodities, as may be set forth in detail in Implementation Letters.

(c) permit A.I.D. or any of its authorized representatives at all reasonable times during the three-year period to inspect the commodities financed under this Grant at any point, including the point of use.

Section 6.3. Completeness of Information. The Grantee confirms:

(a) that the facts and circumstances of which it has informed A.I.D., or caused A.I.D. to be informed, in the course of reaching agreement with A.I.D. on the Grant, are accurate and complete, and include all facts and circumstances that might materially affect the Grant and the discharge of responsibilities under this Agreement; and

(b) that it will inform A.I.D. in timely fashion of any subsequent facts and circumstances that might materially affect, or that it is reasonable to believe might so affect, the Grant or the discharge of responsibilities under this Agreement.

Section 6.4. Other Payments. Grantee affirms that no payments have been or will be received by any official of the Grantee in connection with the procurement of goods or services financed under the Grant, except fees, taxes, or similar payments legally established in the country of the Grantee. A.I.D. shall take appropriate action to protect against improper payments by suppliers in connection with this Grant.

Section 6.5. Periodic Discussions. Periodically, but no less than twice annually, the Grantee and A.I.D. will continue to meet to discuss the status of the economy, associated economic issues, and the relationship of the A.I.D. program to these concerns.

Section 6.6. Use of Local Currency.

(a) Grantee will establish a Special Account in the Central Bank of Egypt and deposit therein currency of the Government of the Arab Republic of Egypt in amounts equal to proceeds accruing to the Grantee or any authorized agency thereof as a result of the sale or importation of the Eligible Items, except as the Parties may otherwise agree in writing. Funds in the Special Account may be used for such purposes as are mutually agreed upon by A.I.D. and the Grantee and as otherwise specified in this Agreement, provided that such portion of the funds in the Special Account as may be designated by the Parties shall be made available to A.I.D. to meet the requirements of the United States.

(b) Deposits to the Special Account shall become due and payable quarterly upon advice from A.I.D. as to disbursements made under the Agreement, subject to deferred payment arrangements as may be agreed by both Parties. Grantee shall make such deposits at the highest rate of exchange prevailing and declared for foreign exchange currency by the competent authorities of the Arab Republic of Egypt.

(c) Any unencumbered balances of funds which remain in the Special Account upon termination of assistance hereunder shall be disbursed for such purposes as may, subject to applicable law, be agreed to between Grantee and A.I.D.

Section 6.7. Set Asides. Unless the Parties otherwise agree in writing, any set asides or extraordinary allocations of funds shall be mutually agreed to by the Parties and set forth in Implementation Letters. The Parties may also agree in such Implementation Letters as to which set asides will not result in the accrual of proceeds to the Grantee and hence not require the deposit of counterpart funds into the Special Account.

Section 6.8. Allocation of Resources for Development. Unless, otherwise agreed to in writing, the Parties agree to establish within ninety days after the signing of this Agreement mutually acceptable procedures for the allocation of Grant funds to support the objectives of the Development Budget of the Government of Egypt, as set forth in the second category described in Annex 1.

- (e) A default shall have occurred under any other agreement between Grantee or any of its agencies and the Government of the United States or any of its agencies;

Then, in addition to remedies provided in A.I.D. Regulation 1, A.I.D. may:

(2) decline to issue additional commitment documents or to make disbursements other than under existing ones; and

(3) at A.I.D.'s expense, direct that title to goods financed under the Grant be vested in A.I.D., if the goods are in a deliverable state and have not been offloaded in ports of entry of the Arab Republic of Egypt.

Section 7.3. Cancellation by A.I.D. If, within sixty (60) days from the date of any suspension of disbursements pursuant to Section 7.2, the cause or causes thereof have not been corrected, A.I.D. may cancel any part of the Grant that is not then disbursed or irrevocably committed to third parties.

Section 7.4. Refunds.

(a) In addition to any refund otherwise required by A.I.D. pursuant to A.I.D. Regulation 1, if A.I.D. determines that any disbursement is not supported by valid documentation in accordance with this Agreement, or is in violation of United States law, or is not made or used in accordance with the terms of this Agreement, A.I.D. may require the Grantee to

refund the amount of such disbursement in U.S. dollars to A.I.D. within thirty (30) days after receipt of request therefor. Refunds paid by the Grantee to A.I.D. resulting from violations of the terms of this Agreement shall be considered as a reduction in the amount of A.I.D.'s obligation under the Agreement and shall be available for reuse under the Agreement if authorized by A.I.D. in writing.

(b) The right to require such a refund of a disbursement will continue, notwithstanding any other provision of this Agreement, for three (3) years from the date of the last disbursement under this Agreement.

From time to time, for the information and guidance of both parties, A.I.D. will issue Implementation Letters and Commodity Procurement Instructions describing the procedures applicable to the implementation of the Agreement. Except as permitted by particular provisions of this Agreement, Implementation Letters will not be used to amend or modify the text of this Agreement.

The government of the importing country agrees to undertake the projects described below over the life of the Food for Development Program. The following are general descriptions of the objectives and parameters of the projects included in the Food for Development Program. Details regarding specific projects can be found in the proposal of the Bolivian Government for P.L. 480, Title III^[1] Food for Development Program,

¹ 68 Stat. 455; 7 U.S.C. §1727.

submitted February 17, 1978. Necessary refinements or changes in the specific project descriptions included in that proposal, or more detailed information on the objectives, implementation plans, and budgets of the projects described in this Annex, will be mutually agreed to by AID and the Government of Bolivia through implementation letters.

1. Wheat Collection Centers

This project will increase rural wheat storage capacity from 3,696 MT to 8,496 MT, and help increase domestic yields of wheat suitable for milling and of other grains in traditional eastern lowland growing areas. The handling capacity for wheat and other seasonally available grains at six existing and four new wheat collection centers will be improved and expanded. The management of these centers will be assumed by appropriate private or decentralized public organizations. Considering that availability of quality seed has been identified as a critical constraint affecting both wheat and substitute grain production, assistance will be provided to increase the availability of improved seeds, and to use the collection centers as distribution points for such seed if their present location and existing infrastructure show such use to be feasible. This project will provide funding for the construction of four new centers, and the improvement of six existing wheat collection centers, the equipping of all ten centers, including appropriate transport vehicles, a rotating fund for grain purchases, and improvements in the national seed production and distribution systems.

Los detalles relacionados con los proyectos específicos se encuentra en la propuesta del Gobierno de Bolivia para el Programa de Alimentos para el Desarrollo del programa PL-480, Título III, presentado el 17 de febrero de 1978. Los ajustes necesarios o cambios en las descripciones específicas de los proyectos incluídos en dicha proposición, o las informaciones más detalladas sobre los objetivos, los planes de implementación y los presupuestos de los proyectos descritos en este Anexo, serán mutuamente convenidos por AID y el Gobierno de Bolivia (GOB) a través de cartas de implementación.

1. Centros de Acopio de Trigo

Este proyecto incrementará la capacidad rural de almacenamiento de trigo de 3,696 TM a 8,496 TM, y ayudará a incrementar el rendimiento del trigo nacional

apropiado para molienda y de otros granos en las áreas tradicionales de cultivo en tierras bajas orientales. La capacidad de manipuleo de trigo y de otros granos estacionalmente disponibles en los seis centros existentes y en cuatro nuevos centros de acopio de trigo será mejorada y ampliada. La administración de estos centros será asumida por organizaciones apropiadas privadas o públicas descentralizadas. Considerando que la disponibilidad de semilla de calidad ha sido identificada como una restricción crítica que afecta a la producción de trigo y a la producción substitutiva de granos, se dará asistencia para incrementar la disponibilidad de semillas mejoradas, y para utilizar los centros de acopio como puntos de distribución para tal semilla si su ubicación actual e infraestructura existente muestran que tal uso es factible. Este proyecto proporcionará financiamiento para la construcción de cuatro nuevos centros y para el mejoramiento de los seis centros de acopio de trigo existentes, para el equipamiento de diez centros, incluyendo vehículos apropiados de transporte, un fondo rotativo para adquisiciones de grano, y mejoras en la producción nacional de semillas y en el sistema de distribución.

familias de pequeños agricultores en todo Bolivia. Se construirán sistemas utilizando contribuciones de las comunidades locales en efectivo, mano de obra o materiales locales. Un monto pequeño de los fondos será utilizado para organizar y llevar a cabo cursos prácticos sobre aspectos de diseño y administración de sistemas de irrigación para participantes técnicos y agricultores. Los subproyectos de microirrigación pueden ser implementados por el Servicio Nacional de Desarrollo de la Comunidad, las Corporaciones de Desarrollo, y OPVs seleccionadas. The purpose of this Agreement is to set out the understanding of the parties named above ("Parties"), with respect to the undertaking by the Grantee of the Project described below and with respect to the financing of the Project by the Parties.

Article 2: The Project

SECTION 2.1. Definition of Project. The project, which is further described in Annex 1,[¹] will consist of the construction of a 600 megawatt thermal power plant approximately 25 kilometers south of Ismailia on the shore of the Great Bitter Lake. Appropriate training of Egyptian nationals in the functioning of the plant also forms part of the Project. However, the construction services for the third 150 megawatt power unit are excluded from the definition of the Project for purposes of A.I.D. financing.

Annex 1, attached, amplifies the above definition of the Project. Within the limits of the above definition of the Project, elements of the amplified description stated in Annex 1 may be changed by written agreement of the authorized representatives of the Parties named in Section 8.3., without formal amendment of this Agreement.

Article 3: Financing

SECTION 3.1. The Grant. To assist the Grantee to meet the costs of carrying out the Project, A.I.D., pursuant to the Foreign Assistance Act of 1961, as amended,[²] has granted the Grantee under the Grant Agreement, dated May 30, 1976, as amended on September 30, 1977, One Hundred Forty-One Million United States ("U.S.") Dollars (\$141,000,000) and agrees to grant the Grantee under the terms of this Agreement an additional One Hundred Nine Million United States (U.S.) Dollars (109,000,000) for a total amount of not to exceed Two Hundred Fifty Million United States ("U.S.") Dollars (\$250,000,000) ("Grant").

The Grant may be used only to finance foreign exchange costs, as defined in Section 6.1, of goods and services required for the Project.

¹ Not printed.

² 75 Stat. 424; 22 U.S.C. §2151.

SECTION 3.2. Grantee Resources for the Project.

The Grantee agrees to provide or cause to be provided for the Project all funds, in addition to the Grant, and all other resources required to carry out the Project effectively and in a timely manner.

SECTION 3.3. Project Assistance Completion Date.

(a) The "Project Assistance Completion Date" (PACD), which is October 1, 1986, or such other date as the Parties may agree to in writing, is the date by which the Parties estimate that all services financed under the Grant will have been performed and all goods financed under the Grant will have been furnished for the Project as contemplated in this Agreement.

(b) Except as A.I.D. may otherwise agree in writing, A.I.D. will not issue or approve documentation which would authorize disbursement of the Grant for services performed subsequent to the PACD or for goods furnished for the Project, as contemplated in this Agreement, subsequent to the PACD.

(c) Requests for disbursement, accompanied by necessary supporting documentation prescribed in Project Implementation Letters are to be received by A.I.D. or any bank described in Section 7.1. no later than twelve (12) months following the PACD, September 30, 1987, or such other date as A.I.D. agrees to in writing. After such date, A.I.D., giving notice in writing to the Grantee, may at any time or times reduce the amount of the Grant by all or any part thereof for which requests for disbursement, accompanied by necessary supporting documentation prescribed in Project Implementation Letters, were not received before the expiration of said period.

Article 4: Conditions Precedent to Disbursement.

SECTION 4.1. Disbursement of the Grant Funds added by the Second Amendment. Prior to any disbursement under the Grant, or to the issuance by A.I.D. of documentation pursuant to which disbursement will be made, of the funds added by the Second Amendment, the Grantee shall, except as the Parties may otherwise agree in writing, furnish to A.I.D., in form and substance satisfactory to A.I.D., evidence that \$109,000,000 of the Grant will be lent by the Government of Egypt (GOE) to the Egyptian Electricity Authority (EEA) on terms and conditions consistent with the rate of interest as approved by the appropriate authorities of the GOE.

SECTION 4.2. Additional Disbursements for Engineering, Management and Construction Monitoring. Prior to any disbursement under the Grant, or to the issuance by A.I.D. of documentation pursuant to which disbursement will be made, for engineering, management and construction monitoring services related to the fourth 150 megawatt power unit, the Grantee shall furnish to A.I.D., in form and substance satisfactory to A.I.D., an executed contract for engineering, management and construction monitoring services for the fourth unit.

SECTION 4.3. Additional Disbursements for Construction Services for a Fourth 150 Megawatt Unit. Prior to any disbursement under the Grant, or to the issuance by A.I.D. of documentation pursuant to which disbursement will be made, services for construction of the fourth 150 megawatt power unit, the Grantee shall furnish to A.I.D., in form and substance satisfactory to A.I.D.:

(a) An executed contract for construction services for the fourth unit; and

(b) Evidence that the Grantee has budgeted the local currency necessary for such construction, that the amount budgeted will be available to the EEA for such construction, and that the amount budgeted is consistent with the cost estimated by the consulting engineer and approved by EEA.

SECTION 4.4. Notification. When A.I.D. has determined that the conditions precedent specified above have been met, A.I.D. will promptly notify the Grantee.

SECTION 4.5. Terminal Dates for Conditions Precedent. If all of the conditions specified in Section 4.1 have not been met within 90 days from the date of this amended Agreement, or such later date as the Parties may agree to in writing, A.I.D. may terminate this Agreement by written notice to Grantee.

Article 5: Special Covenants.

SECTION 5.1. Project Evaluation. The Parties agree to establish an evaluation program as part of the Project. Except as the Parties otherwise agree in writing, the program will include, during the implementation of the Project and at one or more points thereafter:

- (a) evaluation of progress toward attainment of the objectives of the Project;
- (b) identification and evaluation of problem areas or constraints which may inhibit such attainment;
- (c) assessment of how such information may be used to help overcome such problems; and
- (d) evaluation, to the degree feasible, of the overall development of the Project.

SECTION 5.2. Operation and Maintenance. The Parties agree to operate, maintain, and repair the Ismailia power plant in conformity with sound engineering, financial, and administrative practices, and in such manner as to insure the continuing and successful achievement of the purpose of the Project.

SECTION 5.3. Financial Planning. Until a comprehensive tariff structure satisfactory to both Parties is implemented, the Grantee will ensure, unless the Parties agree otherwise in writing, that for the Egyptian Electricity Authority an acceptable annual rate of return and a sound debt ratio will be established in consultation with A.I.D.

SECTION 5.4. Decennial Liability. The Grantee agrees that contractors, architects, consultants, and subcontractors, regardless of nationality, working on this Project shall be exempted from the application of Articles 651 through 654 of the Egyptian Civil Code and from the application of Law 106 of 1976. This exemption does not relieve such contractors, architects, consultants or subcontractors of their respective contractual obligations which relate to their duty to exercise sound judgment, in accordance with the standards of their respective professions, to ensure the safety and fitness of the works for the purpose for which they are designed and erected.

Article 6: Procurement Source

SECTION 6.1. Foreign Exchange Costs. Disbursements pursuant to section 7.1 will be used exclusively to finance the costs of goods and services required for the Project having their source and origin in the United States (Code 000 of the A.I.D. Geographic code book as in effect at the time orders are placed or contracts entered into for such goods or services) ("Foreign Exchange Costs"), except as A.I.D. may otherwise agree in writing, and except as provided in the Project Grant Standard Provisions Annex, Section C.1(b) with respect to marine insurance. Ocean transportation costs will be financed under the grant only on vessels under flag registry of the United States, except as A.I.D. may otherwise agree in writing.

Article 7: Disbursement**SECTION 7.1. Disbursement for Foreign Exchange Costs.**

(a) After satisfaction of conditions precedent, the Grantee must obtain disbursements of funds under the Grant for the Foreign Exchange Costs of goods or services required for the Project in accordance with the terms of this Agreement, by such of the following methods as may be mutually agreed upon:

(1) by submitting to A.I.D., with necessary supporting documentation as prescribed in Project Implementation Letters, (A) requests for reimbursement for such goods or services, or, (B) requests for A.I.D. to procure commodities or services on Grantee's behalf for the Project; or,

(2) by requesting A.I.D. to issue Letters of Commitment for specified amounts (A) to one or more U.S. banks, satisfactory to A.I.D., committing A.I.D. to reimburse such bank or banks for payments made by them to contractors or supplies, under Letters of Credit or otherwise, for such goods or services, or (B) directly to one or more contractors or suppliers, committing A.I.D. to pay such contractors or suppliers for such goods or services.

(b) Banking charges incurred by Grantee in connection with Letters of Commitment and Letters of Credit will be financed under the Grant unless Grantee instructs A.I.D. to the contrary. Such other charges as the Parties may agree to may also be financed under the Grant.

SECTION 7.2. Other Forms of Disbursement. Disbursements of the Grant may also be made through such other means as the Parties may agree to in writing.

Article 8: Miscellaneous.**SECTION 8.1. Investment Guaranty Project Approval.**

Construction work to be financed under this Agreement is agreed to be a project approved by the Grantee pursuant to the agreement between it and the United States of America on the subject of investment guarantees, and no further approval by the Grantee will be required to permit the United States to issue investment guarantees under that agreement covering a contractor's investment in that project.

MEMORANDUM OF UNDERSTANDING

ON

THE CROSS APPALACHIAN TRACER EXPERIMENT

The Parties to this Memorandum of Understanding are the United States Department of Energy (DOE), the United States National Oceanic and Atmospheric Administration (NOAA), the United States Environmental Protection Agency (EPA), and the Atmospheric Environment Service of Environment Canada (AES).

WHEREAS

The Parties have a mutual interest in understanding the mechanisms of long distance atmospheric transport and dispersion of pollutants, the theoretical modeling of those mechanisms, and the verification of those models.

The Parties recognize that understanding and modeling long distance atmospheric transport and dispersion requires that complex and extensive field experiments be conducted.

IT IS AGREED AS FOLLOWS:

I. Objective

The objective of this Memorandum of Understanding is to provide the framework for cooperation in the design and conduct of a series of joint United States-Canada meteorological experiments to verify theoretical computer codes developed to establish the meteorological aspects of the long-range transport of airborne pollutants. This experiment is to be called the "Cross Appalachian Tracer Experiment" (CAPTEX).

II. Concept

It is planned that the field operations of CAPTEX will take place during September and October 1983. A perfluorocarbon tracer will be released into the atmosphere from several locations within the United States and Canada, tentatively to include Dayton, Ohio, and Sudbury, Ontario. The dispersion of the tracer will be measured and recorded, and the results analyzed to validate the various theoretical estimates. It is anticipated that the CAPTEX field operations will involve cross-border aircraft flights and landings by both United States and Canadian sampler aircraft, and the transport of perfluorocarbon tracer, support equipment, sampling instruments, and scientific personnel between the United States and Canada.

III. Responsibilities

1. The Air Resources Laboratory (ARL) of NOAA will act for NOAA, DOE, and EPA in the coordination of field operations in the United States under this Memorandum of Understanding. These operations may include, but are not limited to, operational forecasting, surface sampler deployment, airborne sampler deployment, and data management.
2. AES will manage and coordinate field operations in Canada under this Memorandum of Understanding. These activities may include, but are not limited to, operational forecasting, surface sampler deployment, airborne sampler deployment, and associated activities in cooperation with ARL.
3. DOE will coordinate the analysis and interpretation of the results obtained from tracer samples in the United States by ARL and other agencies and in Canada by AES and other agencies.
4. Equipment and supplies provided by any Party for carrying out joint activities under this Memorandum of Understanding will be considered to be scientific in nature, not having a commercial character. Each Party will use its best efforts to obtain duty-free entry of such equipment and supplies into the United States or Canada, as the case may be.
5. Each Party will use its best efforts to assist the other Parties with respect to border formalities associated with international travel and aircraft flights under this Memorandum of Understanding.

IV. Management

Each Party will designate a Coordinator to serve as a point of contact for the planning and conduct of the experiments under this Memorandum of Understanding.

V. Intellectual Property1. Definitions as used in this article:

- (a) The term "information" includes scientific or technical data, results, or methods of research and development, and any other information intended to be provided or exchanged under this Memorandum of Understanding.
- (b) The term "proprietary information" means information which contains trade secrets or commercial or financial information which is privileged or confidential, and may only include such information which:
 - (i) has been held in confidence by its owner;
 - (ii) is of a type which is customarily held in confidence by its owner;
 - (iii) has not been transmitted by the transmitting Party to other entities (including the receiving Party) except on the basis that it be held in confidence; and
 - (iv) is not otherwise available to the receiving Party from another source without restriction on its further dissemination.

2. Each Party may make available to the other Parties information in the field of meteorology which they have the right to disclose, either in their possession or available to them.

3. Information arising under this Memorandum of Understanding will be exchanged promptly between the Parties after verification of data through the normal quality control procedures.

4. The Parties agree that the information provided, exchanged, or arising under this Memorandum of Understanding may be given wide distribution. Such information may be made available to the general scientific community by any Party through customary channels and in accordance with normal procedures of the Parties.

5. No proprietary information will be provided or exchanged or will arise under this Memorandum of Understanding.

6. Inventions or discoveries made or conceived in the course of or under this Memorandum of Understanding (arising inventions) will be identified and reported promptly by the inventing Party. Information regarding inventions on which patent protection is to be obtained will not be published or publicly disclosed by the Parties until a patent application has been filed in the United States or Canada, as the case may be; provided, however, that this restriction on publication or disclosure will not extend beyond six months from the date of reporting the inventions. It will be the responsibility of the Party reporting the invention to mark appropriately reports which disclose inventions that have not been appropriately protected by the filing of a patent application.

7. Arising inventions will be owned by the inventing Party in all countries. The inventing Party will grant, to the other Party and its nationals designated by it, licenses for such inventions on a non-exclusive, irrevocable, royalty-free basis in all countries. For the purposes of this paragraph, the three United States Parties shall be considered as a single Party representing the country of the United States of America.

8. Each Party will take all necessary steps to provide the cooperation from its inventors and authors required to carry out the provisions of this Article.

9. Each Party will assume the responsibility to pay awards or compensation required to be paid to its own nationals according to its own laws.

VI. General Application

1. All activities under this Memorandum of Understanding are subject to the laws and regulations under which each Party operates.

2. All questions arising during the term of this Memorandum of Understanding will be settled by mutual agreement of the Parties.

TIAS 10771

3. The provisions of this Memorandum of Understanding will not affect the rights and obligations of the Parties under other agreements or arrangements. However, activities to be conducted under other agreements or arrangements may be incorporated into the framework of this Memorandum of Understanding, upon written agreement of the Parties.

4. Each Party will bear all costs incurred by it under this Memorandum of Understanding, unless otherwise agreed by the Parties in writing.

5. The ability of the Parties to carry out their obligations under this Memorandum of Understanding is subject to the availability of appropriated funds.

VII. Associate Parties

With the approval of the Coordinators designated under Article IV, ARL and AES may enter into agreements or arrangements with non-Signatory entities for collaboration in CAPTEX, and these entities will be called "Associate Parties". The terms and conditions of such agreements or arrangements will be consistent with the provisions of this Memorandum of Understanding.

VIII. Duration and Termination

1. This Memorandum of Understanding will enter into force upon the date of signature by authorized representatives of the Parties and will remain in effect until September 30, 1984.

2. This Memorandum of Understanding may be amended or extended at any time by written agreement of the Parties.

3. Any Party may withdraw from this Memorandum of Understanding at any time, upon ninety days written notice to each of the other Parties.

4. All joint efforts and experiments not completed at the expiration of this Memorandum of Understanding may be continued until their completion under terms of this Memorandum of Understanding.

MÉMOIRE D'ENTENTE
SUR L'EXPÉRIENCE TRANSAPPALACHIENNE
PAR TRACEUR

Les parties au présent mémoire d'entente sont le Department of Energy (DOE), la National Oceanic and Atmospheric Administration (NOAA) et l'Environmental Protection Agency (EPA) des États-Unis et le Service de l'environnement atmosphérique (SEA) d'Environnement Canada.

ATTENDU QUE

Il est de l'intérêt mutuel des parties de comprendre les mécanismes du transport et de la dispersion atmosphériques à distance des polluants, de construire des modèles théoriques de ces mécanismes et de les vérifier.

Les parties reconnaissent que, pour comprendre et modéliser ces mécanismes, il leur faut mener des expériences pratiques complexes et poussées.

IL EST CONVENU CE QUI SUIT :

I. Objet

L'objet du présent mémoire d'entente est de servir de plan de coopération dans la conception et l'exécution d'une campagne d'expériences météorologiques communes entre les États-Unis et le Canada, pour vérifier les codes machine théoriques mis au point pour établir les aspects météorologiques du transport à distance des polluants atmosphériques. Cette campagne porte le nom de CAPTEX (expérience transappalachienne par traceur).

II. Description

La campagne CAPTEX est prévue pour septembre et octobre 1983. Un traceur à perfluorocarbure sera libéré dans l'atmosphère en plusieurs endroits aux États-Unis et au Canada, dont font provisoirement partie Dayton (Ohio) et Sudbury (Ontario). La dispersion du traceur sera mesurée et enregistrée, puis les résultats analysés en vue de valider les diverses estimations théoriques. Au cours de la campagne, les aéronefs d'échantillonnage américain et canadien survoleront les deux pays et y atterriront, et il y aura transport du traceur, du matériel d'appui, des échantilleurs et du personnel scientifique, entre les deux pays.

III. Attributions

1. En vertu du mémoire d'entente, l'"Air Resources Laboratory" (ARL) de la NOAA coordonnera la campagne aux États-Unis, au nom de la NOAA, du DOE et de l'EPA. Il pourra s'agir entre autres des prévisions opérationnelles, de la répartition des échantillonneurs en surface et des échantillonneurs aéroportés ainsi que de la gestion des données.
2. Le SEA gérera et coordonnera la campagne au Canada. Il pourra s'agir entre autres des prévisions opérationnelles, de la répartition des échantillonneurs en surface et des échantillonneurs aéroportés, ainsi que d'activités connexes, en coopération avec l'ARL.
3. Le DOE coordonnera l'analyse et l'interprétation des résultats obtenus à partir des échantillons du traceur aux États-Unis par l'ARL et d'autres organismes et, au Canada, par le SEA et d'autres organismes.
4. Le matériel et les fournitures provenant de l'une ou l'autre des parties en vue des activités communes assujetties au mémoire d'entente seront considérés comme étant de nature scientifique et non de nature commerciale. Ainsi, chaque partie s'efforcera d'obtenir la franchise douanière pour leur entrée aux États-Unis ou au Canada, selon le cas.
5. Chaque partie s'efforcera du mieux qu'elle peut de faciliter aux autres parties les formalités douanières liées aux déplacements et aux vols internationaux assujettis au mémoire d'entente.

IV. Gestion

Chaque partie désignera un coordonnateur qui servira de liaison pour la planification et la conduite des expériences prévues par le mémoire d'entente.

V. Propriété intellectuelle

1. Dans le présent article,

- a) "renseignement" désigne les données, les résultats et les méthodes de recherche et de développement dans le domaine scientifique et technique ainsi que tout autre renseignement destiné à être fourni ou échangé en vertu du mémoire d'entente;
- b) "renseignement exclusif" désigne tout renseignement qui contient un secret industriel ou tout renseignement commercial ou financier, réservé ou confidentiel, et ne peut comprendre que les renseignements suivants :
 - (i) un renseignement tenu pour confidentiel par son propriétaire,
 - (ii) un renseignement d'un type habituellement tenu pour confidentiel par son propriétaire,

- (iii) un renseignement qu'une partie ne communique à d'autres personnes morales (y compris à une partie) qu'à la condition de le garder confidentiel,
 - (iv) un renseignement qu'une partie ne peut obtenir d'une autre source qu'à la condition d'en restreindre la diffusion.
2. Chaque partie peut révéler aux autres les renseignements météorologiques en sa possession ou à sa disposition qu'elle a le droit de divulguer.
3. Après vérification des données dans le cadre du contrôle normal de la qualité, les renseignements découlant du mémoire d'entente seront promptement échangés entre les parties.
4. Les parties conviennent que les renseignements fournis et échangés en vertu du mémoire d'entente ou qui en découlent peuvent être largement diffusés. Ainsi toute partie pourra les divulguer dans les milieux scientifiques, par les voies habituelles et conformément aux façons normales de faire des parties.
5. Aucun renseignement exclusif ne pourra être fourni ni échangé en vertu du mémoire d'entente, ni en découler.
6. Toute partie désignera et déclarera sans délai les inventions ou découvertes de ce dernier (inventions découlant du mémoire d'entente). Dans le cas d'une invention à protéger par brevet, les parties ne divulgueront aucun renseignement tant que la demande de brevet n'aura pas été déposée aux États-Unis ou au Canada, selon le cas, et ce, pour une période maximale de 6 mois à partir de la date de déclaration de l'invention. Il reviendra à la partie qui déclare l'invention de donner la cote convenable aux rapports qui la divulguent si l'invention n'est pas convenablement protégée par le dépôt de demande de brevet.
7. Dans le présent paragraphe, les trois parties des États-Unis sont considérées comme une seule représentante les États-Unis d'Amérique. Les inventions découlant du mémoire d'entente appartiennent à la partie qui les fait, dans tous les pays. Cette partie concédera à l'autre et à ses ressortissants désignés par elle les licences non exclusives, irrévocables et exemptes de redevances d'exploitation des inventions dans tous les pays.
8. Chaque partie obtiendra de ses inventeurs et de ses auteurs qu'ils respectent les dispositions du présent article.
9. Chaque partie se chargera de payer les rétributions ou les indemnités nécessaires à ses ressortissants en vertu de ses propres lois.

VI. Applications générales

1. Toutes les activités qui découlent du mémoire d'entente sont assujetties aux lois et règlements qui régissent les activités de chaque partie.

2. Toute question qui découlera du mémoire d'entente sera réglée d'un commun accord entre les parties.
3. Les dispositions du mémoire d'entente ne modifient aucunement les droits et obligations que les parties ont contractés en vertu d'autres accords ou arrangements. Toutefois, les parties peuvent, par accord écrit, faire entrer dans le cadre du mémoire d'entente des activités qui relèveront d'autres accords ou arrangements.
4. Chaque partie paiera ses propres dépenses découlant de l'application du mémoire d'entente, à moins que les parties ne s'entendent autrement par écrit.
5. Les parties assumeront leurs obligations relatives à l'application du mémoire d'entente dans la mesure où les fonds dont elle disposent le permettent.

VII. Parties associées

Avec l'approbation des coordonnateurs nommés en vertu de l'article IV, l'ARL et le SEA peuvent conclure des ententes et des arrangements avec des entités non signataires pour qu'elles collaborent au CAPTEX, ces entités devenant alors parties associées. Les conditions de telles ententes et de tels arrangements se conformeront aux dispositions du mémoire d'entente.

VIII. Durée du mémoire d'entente

1. Le mémoire d'entente prendra effet à la date de la signature par les représentants officiels des parties et prendra fin le 30 septembre 1984.
2. Sur accord écrit de toutes les parties, le mémoire d'entente peut être modifié ou sa durée prolongée à tout moment.
3. Toute partie peut se retirer du mémoire d'entente à n'importe quel moment, à condition d'avoir donné un préavis écrit de 90 jours à chacune des autres parties.
4. Toute activité ou expérience conjointe non terminée à l'expiration du mémoire d'entente pourra se poursuivre jusqu'à ce qu'elle soit terminée, conformément aux conditions du mémoire d'entente.

By the President:

CONVENTION
BETWEEN THE UNITED STATES OF AMERICA
AND NEW ZEALAND

FOR THE

AVOIDANCE OF DOUBLE TAXATION AND THE
PREVENTION OF FISCAL EVASION
WITH RESPECT TO TAXES
ON INCOME

The United States of America and New Zealand,

Desiring to conclude a convention for the avoidance of
double taxation and the prevention of fiscal evasion with
respect to taxes on income,

Have agreed as follows:

Article 1

GENERAL SCOPE

1. This Convention shall apply to persons who are residents of one or both of the Contracting States, except as otherwise provided in the Convention.
2. The Convention shall not restrict in any manner any exclusion, exemption, deduction, credit, or other allowance which may be accorded:
 - (a) by the law of either Contracting State; or
 - (b) by any other agreement between the Contracting States.
3. Notwithstanding any provision of the Convention except paragraph 4, a Contracting State may tax its residents (as determined under Article 4 (Residence)), and the United States may tax its citizens and United States companies, as if the Convention had not come into effect. For this purpose, the term "citizen" shall include a former citizen whose loss of citizenship had as one of its principal purposes the avoidance of tax, but only for a period of 10 years following such loss.
4. The provisions of paragraph 3 shall not affect:
 - (a) the benefits conferred in a Contracting State under the Convention in accordance with paragraph 2 of Article 9 (Associated Enterprises), paragraph 1(b) of Article 18 (Pensions and Annuities), and Articles 22 (Relief From Double Taxation), 23 (Non-Discrimination), and 24 (Mutual Agreement Procedure); and

- (b) the benefits conferred in a Contracting State under the Convention in accordance with Articles 19 (Government Service), 20 (Students), and 26 (Diplomatic Agents and Consular Officers), upon individuals who are neither citizens of, nor have immigrant status in, that State.

Article 2

TAXES COVERED

1. The existing taxes to which this Convention shall apply are:
 - (a) in the United States: the Federal income taxes imposed by the Internal Revenue Code^[1] (but excluding the accumulated earnings tax, the personal holding company tax, and social security taxes), and the excise taxes imposed with respect to private foundations (hereinafter referred to as United States tax);
 - (b) in New Zealand: the income tax (but excluding the excess retention tax and the bonus issue tax) (hereinafter referred to as New Zealand tax).
2. The Convention shall apply also to any identical or substantially similar taxes which are imposed after the date of signature of the Convention in addition to, or in place of, the existing taxes. The competent authorities of the Contracting States shall notify each other of any significant changes which have been made in their respective taxation laws.

As regards the application of the Convention by a Contracting State any term not defined therein shall, unless the context otherwise requires and subject to the provisions of Article 24 (Mutual Agreement Procedure), have the meaning which it has under the law of that State concerning the taxes to which the Convention applies.

Article 4

RESIDENCE

1. For the purposes of this Convention, the term "resident of a Contracting State" means any person who, under the laws of that State, is subject to tax therein by reason of his domicile, residence, citizenship, place of management, place of incorporation, or any other criterion of a similar nature, provided, however, that:
 - (a) this term does not include any person who is subject to tax in that State in respect only of income from sources in that State, nor does it include a person who is subject to tax in that State by reason of citizenship but who is not resident in that State; and
 - (b) in the case of income derived or paid by a partnership, an estate, or trust, this term applies only to the extent that the income derived by such partnership, estate, or trust is subject to tax in that State as the income of a resident, either in its hands or in the hands of its partners or beneficiaries.

The term "resident of a Contracting State" also includes a company or trust that would be subject to tax as a resident of a Contracting State but for a determination by the competent authority of that State that such company or trust is exempt from tax in that State because it is organized and operated exclusively for charitable or other purposes exempt under the law of that State.

2. Where by reason of the provisions of paragraph 1, an individual is a resident of both Contracting States, then his status shall be determined as follows:
 - (a) he shall be deemed to be a resident of the State in which he has a permanent home available to him; if he has a permanent home available to him in both States, he shall be deemed to be a resident of the State with which his personal and economic relations are closer (hereinafter referred to as his center of vital interests);
 - (b) if the State in which he has his center of vital interests cannot be determined, or if he does not have a permanent home available to him in either State, he shall be deemed to be a resident of the State in which he has an habitual abode;
 - (c) if he has an habitual abode in both States or in neither of them, he shall be deemed to be a resident of the State of which he is a citizen;
 - (d) if he is a citizen of both States or of neither of them, the competent authorities of the Contracting States shall endeavor to settle the question by mutual agreement.

3. Where by reason of the provisions of paragraph 1 a person other than an individual or a company is a resident of both Contracting States, the competent authorities of the Contracting States shall endeavor to settle the question by mutual agreement and determine the mode of application of the Convention to such person.
4. Where by reason of the provisions of paragraph 1 a company is a resident of both the Contracting States, the competent authorities of the Contracting States shall endeavor to settle the question by mutual agreement and determine whether the company is a resident solely of one Contracting State or a resident solely of the other Contracting State for any income year or taxable year as the case may be, but if the competent authorities are unable to make such determination the company shall be treated as a resident of neither Contracting State for the purposes of the Convention.

Article 5

PERMANENT ESTABLISHMENT

1. For the purposes of this Convention, the term "permanent establishment" means a fixed place of business through which the business of an enterprise is wholly or partly carried on.

2. The term "permanent establishment" includes especially:
 - (a) a place of management;
 - (b) a branch;
 - (c) an office;
 - (d) a factory;
 - (e) a workshop; and
 - (f) a mine, an oil or gas well, a quarry, or any other place of extraction of natural resources.
3. A building site or construction or installation project constitutes a permanent establishment only if it lasts more than twelve months.
4. An enterprise shall be deemed to have a permanent establishment in a Contracting State and to carry on business through that permanent establishment if it carries on supervisory activities in that State for more than twelve months in connection with a building site, or construction or installation project which is being undertaken in that State.
5. (a) Notwithstanding the provisions of paragraphs 3 and 4 an enterprise shall be deemed to have a permanent establishment in a Contracting State and to carry on business through that permanent establishment if it carries on activities in that State in connection with the exploration or exploitation of natural resources situated in that State;

- (b) The provisions of subparagraph (a) shall not apply if such activities are carried on for a period not exceeding six months in the aggregate in any consecutive twelve month period. However for the purposes of this subparagraph activities carried on in that State by an enterprise associated with another enterprise shall be regarded as carried on by the enterprise with which it is associated if those activities are connected with activities carried on in that State by the last-mentioned enterprise. An enterprise shall be deemed to be associated with another enterprise if one is controlled directly or indirectly by the other, or if both are controlled directly or indirectly by a third person or persons.
6. Notwithstanding the preceding provisions of this Article an enterprise of a Contracting State shall not be regarded as having a permanent establishment solely as a result of one or more of the following:
- (a) the use of facilities solely for the purpose of storage, display, or delivery of goods or merchandise belonging to the enterprise;
 - (b) the maintenance of a stock of goods or merchandise belonging to the enterprise solely for the purpose of storage, display, or delivery;
 - (c) the maintenance of a stock of goods or merchandise belonging to the enterprise solely for the purpose of processing by another enterprise;

- (d) the maintenance of a fixed place of business solely for the purpose of purchasing goods or merchandise, or of collecting information, for the enterprise;
 - (e) the maintenance of a fixed place of business solely for the purpose of carrying on, for the enterprise, any other activity of a preparatory or auxiliary character.
7. Notwithstanding the provisions of paragraphs 1 and 2, where a person — other than an agent of an independent status to whom paragraph 8 applies — is acting on behalf of an enterprise and has and habitually exercises in a Contracting State an authority to conclude contracts in the name of the enterprise, that enterprise shall be deemed to have a permanent establishment in that State in respect of any activities which that person undertakes for the enterprise, unless the activities of such person are limited to those mentioned in paragraph 6 which, if exercised through a fixed place of business, would not make this fixed place of business a permanent establishment under the provisions of that paragraph.
8. An enterprise shall not be deemed to have a permanent establishment in a Contracting State merely because it carries on business in that State through a broker, general commission agent, or any other agent of an independent status, provided that such persons are acting in the ordinary course of their business.

9. The fact that a company which is a resident of a Contracting State controls or is controlled by a company which is a resident of the other Contracting State, or which carries on business in that other State (whether through a permanent establishment or otherwise), shall not of itself constitute either company a permanent establishment of the other.

Article 6

INCOME FROM REAL PROPERTY

1. Income derived by a resident of a Contracting State from real property (including income from agriculture or forestry) situated in the other Contracting State may be taxed in that other State.
2. The term "real property" shall have the meaning which it has under the law of the Contracting State in which the property in question is situated. The term shall in any case include property accessory to real property, livestock and equipment used in agriculture and forestry, rights to which the provisions of general law respecting landed property apply, usufruct of real property and rights to variable or fixed payments as consideration for the working of, or the right to work, mineral deposits, sources and other natural resources. Ships, boats and aircraft shall not be regarded as real property.

3. The provisions of paragraph 1 shall apply to income derived from the direct use, letting, subletting or use in any other form of real property.
4. The provisions of paragraphs 1 and 3 shall also apply to the income from real property of an enterprise and to income from real property used for the performance of independent personal services.

Article 7 [¹]

BUSINESS PROFITS

1. The business profits of an enterprise of a Contracting State shall be taxable only in that State unless the enterprise carries on business in the other Contracting State through a permanent establishment situated therein. If the enterprise carries on business as aforesaid, the business profits of the enterprise may be taxed in the other State but only so much of them as is attributable to that permanent establishment.
2. Subject to the provisions of paragraph 3, where an enterprise of a Contracting State carries on business in the other Contracting State through a permanent establishment situated therein, there shall in each Contracting State be attributed to that permanent establishment the business profits which it might be expected to make if it were a distinct and independent

¹See Protocol, p. 49.

enterprise engaged in the same or similar activities under
the same or similar conditions and dealing wholly
independently with the enterprise of which it is a
permanent establishment and with any other associated
enterprise.

3. In determining the business profits of a permanent establishment, there shall be allowed as deductions expenses which are incurred for the purposes of the permanent establishment, including executive and general administrative expenses, research and development expenses and interest, whether incurred in the State in which the permanent establishment is situated or elsewhere.
4. No business profits shall be attributed to a permanent establishment by reason of the mere purchase by that permanent establishment of goods or merchandise for the enterprise.
5. The business profits to be attributed to the permanent establishment shall be determined by the same method year by year unless there is good and sufficient reason to the contrary.
6. Where business profits include items of income which are dealt with separately in other Articles of the Convention, then the provisions of those Articles shall not be affected by the provisions of this Article.
7. Nothing in this Article shall prevent either Contracting State from taxing according to its law the income or profits from the business of any form of insurance.

Article 8

SHIPPING AND AIR TRANSPORT

1. Profits of an enterprise of a Contracting State from the operation of ships or aircraft in international traffic shall be taxable only in that State.
2. Profits of an enterprise of a Contracting State referred to in paragraph 1 from the rental of ships or aircraft or from the use, maintenance, or rental of containers (including trailers, barges, and related equipment for the transport of containers) shall be taxable only in that State to the extent that those ships, aircraft or containers are used in international traffic and such profits are incidental to the profits of that enterprise described in paragraph 1.
3. The provisions of paragraphs 1 and 2 shall also apply to profits from participation in a pool, a joint business, or an international operating agency.

Article 9

ASSOCIATED ENTERPRISES

1. Where
 - (a) an enterprise of a Contracting State participates directly or indirectly in the management, control or capital of an enterprise of the other Contracting State; or

(b) the same persons participate directly or indirectly in the management, control, or capital of an enterprise of a Contracting State and an enterprise of the other Contracting State,

and in either case conditions are made or imposed between the two enterprises in their commercial or financial relations which differ from those which would be made between independent enterprises, then any profits which, but for those conditions would have accrued to one of the enterprises, but by reason of those conditions have not so accrued, may be included in the profits of that enterprise and taxed accordingly.

2. Where a Contracting State includes in the profits of an enterprise of that State, and taxes accordingly, profits on which an enterprise of the other Contracting State has been charged to tax in that other State, and the profits so included are profits which would have accrued to the enterprise of the first-mentioned State if the conditions made between the two enterprises had been those which would have been made between independent enterprises, then that other State shall make an appropriate adjustment to the amount of the tax charged therein on those profits. In determining such adjustment, due regard shall be paid to the other provisions of this Convention and the competent authorities of the Contracting States shall if necessary consult each other.

3. Nothing in this Article shall affect the application of any law of a Contracting State relating to the determination of the tax liability of a person, including determinations in cases where the information available to the competent authority of that State is inadequate to determine the income to be attributed to an enterprise, provided that, on the basis of available information, the determination of that tax liability is consistent with the principles stated in this Article.

Article 10^[1]

DIVIDENDS

1. Dividends paid by a company which is a resident of a Contracting State to a resident of the other Contracting State may be taxed in that other State.
2. However, such dividends may also be taxed in the Contracting State of which the company paying the dividends is a resident, and according to the laws of that State, but if the beneficial owner of the dividends is a resident of the other Contracting State, the tax so charged shall not exceed 15 percent of the gross amount of the dividends. The competent authorities of the Contracting States shall endeavor to settle the mode of application of this limitation.

^[1]See Protocol, p. 49.

This paragraph shall not affect the taxation of the company in respect of the profits out of which the dividends are paid.

3. The provisions of paragraph 2 shall not apply if the beneficial owner of the dividends, being a resident of a Contracting State, carries on business in the other Contracting State, of which the company paying the dividends is a resident, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the dividends are attributable to such permanent establishment or fixed base. In such case the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services), as the case may be, shall apply.
4. A Contracting State may not impose any tax on dividends paid by a company which is not a resident of that State, except insofar as:
 - (a) the dividends are paid to a resident of that State, or
 - (b) the dividends are attributable to a permanent establishment or a fixed base of the beneficial owner of the dividends situated in that State, or
 - (c) the dividends are paid out of profits attributable to one or more permanent establishments of such company in that State, provided that the gross income of the company attributable to such permanent establishment constituted at least 50 percent of the company's gross income from all sources, or

(d) the dividends are paid by a United States company which is resident in New Zealand for the purposes of New Zealand tax.

Where subparagraph (c) or (d) applies and subparagraphs (a) and (b) do not apply and the beneficial owner of the dividends is a resident of the other Contracting State, tax may be imposed by the first-mentioned State according to its law but the rate of tax shall not exceed 15 percent.

Article 11^[1]

INTEREST

1. Interest derived and beneficially owned by a resident of a Contracting State may be taxed in that State.
2. However, such interest may also be taxed in the Contracting State in which it arises and according to the laws of that State, but if the beneficial owner of the interest is a resident of the other Contracting State, the tax so charged shall not exceed 10 percent of the gross amount of the interest. The competent authorities of the Contracting States shall endeavor to settle the mode of application of this limitation.
3. Notwithstanding paragraph 2, interest shall be exempt from tax by the Contracting State where it arises if the interest is:
 - (a) derived and beneficially owned by the other Contracting State or an instrumentality of that Contracting State which is not subject to tax on its income by that State; or

^[1]See Protocol, p. 49.

- (b) derived and beneficially owned by a resident of the other Contracting State with respect to debt obligations guaranteed or insured by that State or an instrumentality of that State which is not subject to tax on its income by that State.
4. The provisions of paragraph 2 shall not apply if the beneficial owner of the interest, being a resident of a Contracting State, carries on business in the other Contracting State, in which the interest arises, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the interest is attributable to such permanent establishment or fixed base. In such case the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services), as the case may be, shall apply.
5. Interest shall be deemed to arise in a Contracting State when the payer is that State itself, a political subdivision, a local authority, or resident of that State, or is a United States company which is resident in New Zealand for the purposes of New Zealand tax but is treated as a resident of neither Contracting State by reason of paragraph 4 of Article 4 (Residence). Where, however, the person paying the interest, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment or a fixed base in connection with which the indebtedness on which the interest is paid was incurred, and such interest is borne by such permanent establishment or fixed base, then such interest shall be deemed to arise in the State in which the permanent establishment or fixed base is situated.

6. Where, by reason of a special relationship between the payer and the beneficial owner or between both of them and some other person, the amount of the interest, having regard to the debt-claim for which it is paid, exceeds the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In such case the excess part of the payments shall remain taxable according to the laws of each Contracting State, due regard being had to the other provisions of the Convention.
7. Where a resident of a Contracting State pays interest to a person other than a resident of the other Contracting State, that other State may not impose any tax on such interest except insofar as it arises in that other State or insofar as the interest paid is attributable to a permanent establishment or a fixed base of the beneficial owner of the interest situated in that other State.

Article 12^[1]

ROYALTIES

1. Royalties derived and beneficially owned by a resident of a Contracting State may be taxed in that State.

^[1]See Protocol, p. 1997.

2. However, such royalties may also be taxed in the Contracting State in which they arise and according to the laws of that State, but if the beneficial owner of the royalties is a resident of the other Contracting State, the tax so charged shall not exceed 10 percent of the gross amount of the royalties. The competent authorities of the Contracting States shall endeavor to settle the mode of application of this limitation.
3. The term "royalties" as used in this Article means payments of any kind received as a consideration for the use of, or the right to use, any copyright of literary, artistic or scientific work including cinematographic films, films or video tapes for use in connection with television or tapes for use in connection with radio broadcasting, any patent, trademark, design or model, plan, secret formula or process, or for information concerning industrial, commercial or scientific experience. The term "royalties" also includes:
 - (a) payments of any kind received as consideration for the use of, or the right to use, industrial, commercial, or scientific equipment other than payments under a hire-purchase agreement; and
 - (b) income or gains from the alienation of any property or rights described in this paragraph to the extent that such income or gains are contingent on productivity, use or disposition of such property or rights.

4. The provisions of paragraph 2 shall not apply if the beneficial owner of the royalties, being a resident of a Contracting State, carries on business in the other Contracting State, in which the royalties arise, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the royalties are attributable to such permanent establishment or fixed base. In such case the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services), as the case may be, shall apply.
5. (a) Royalties shall be deemed to arise in a Contracting State when the payer is that State itself, a political subdivision, a local authority or a resident of that State, or is a United States company which is resident in New Zealand for the purposes of New Zealand tax but is treated as a resident of neither Contracting State by reason of paragraph 4 of Article 4 (Residence). Where, however, the person paying the royalties, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment or a fixed base in connection with which the liability to pay the royalties was incurred, and such royalties are borne by such permanent establishment or fixed base, then such royalties shall be deemed to arise in the State in which the permanent establishment or fixed base is situated;

TIAS 10772

- (b) Where subparagraph (a) does not operate to deem royalties as arising in either Contracting State and the royalties relate to the use of, or the right to use, in one of the Contracting States, any property or right described in paragraph 3, the royalties shall be deemed to arise in that State.
6. Where, by reason of a special relationship between the payer and the beneficial owner or between both of them and some other person, the amount of the royalties, having regard to the use, right, or information for which they are paid, exceeds the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In such case the excess part of the payments shall remain taxable according to the laws of each Contracting State, due regard being had to the other provisions of the Convention.

Article 13

ALIENATION OF PROPERTY

1. Income or gains derived by a resident of a Contracting State from the alienation or disposition of real property situated in the other Contracting State may be taxed in that other State.

2. For the purposes of this Article:

- (a) the term "real property situated in the other Contracting State", where the United States is that other Contracting State, includes a United States real property interest, and real property referred to in Article 6 which is situated in the United States; and
- (b) the term "real property", in the case of New Zealand, includes:
 - (i) real property referred to in Article 6;
 - (ii) shares or comparable interests in a company, the assets of which consist wholly or principally of real property situated in New Zealand; and
 - (iii) an interest in a partnership, trust, or estate of a deceased individual, the assets of which consist wholly or principally of real property situated in New Zealand.

3. Income or gains derived by an enterprise of a Contracting State from the alienation of ships, aircraft or containers operated or used in international traffic shall, except to the extent to which that enterprise has been allowed depreciation in the other Contracting State in respect of those ships, aircraft or containers, be taxable only in the first-mentioned State.

4. Income or gains described in paragraph 3(b) of Article 12 (Royalties) shall be taxable only in accordance with the provisions of Article 12.

5. For the purposes of this Article, real property consisting of shares in a company referred to in paragraph 2(b)(ii), and interests in a partnership, trust or estate referred to in paragraph 2(b)(iii), shall be deemed to be situated in New Zealand.
6. Income or gains from the alienation of personal property which are attributable to a permanent establishment which an enterprise of a Contracting State has or had in the other Contracting State, or which are attributable to a fixed base available or previously available to a resident of a Contracting State in the other Contracting State for the purpose of performing independent personal services, and gains from the alienation of such permanent establishment (alone or with the whole enterprise) or such a fixed base, may be taxed in that other State.
7. Income or gains from the alienation of any property other than property referred to in the preceding paragraphs of this Article shall be taxable only in the Contracting State of which the alienator is a resident.

Article 14

INDEPENDENT PERSONAL SERVICES

Income derived by an individual who is a resident of a Contracting State from the performance of personal services in an independent capacity shall be taxable only in that State, unless such services are performed in the other Contracting State and:

- (a) the individual is present in that other State for a period or periods aggregating more than 183 days in any consecutive twelve month period; or
- (b) the individual has a fixed base regularly available to him in that other State for the purpose of performing his activities, in which case so much of the income as is attributable to that fixed base may be taxed in such other State.

Article 15

DEPENDENT PERSONAL SERVICES

1. Subject to the provisions of Articles 18 (Pensions and Annuities) and 19 (Government Service), salaries, wages, and other similar remuneration derived by a resident of a Contracting State in respect of an employment shall be taxable only in that State unless the employment is exercised in the other Contracting State. If the employment is so exercised, such remuneration as is derived therefrom may be taxed in that other State.
2. Notwithstanding the provisions of paragraph 1, remuneration derived by a resident of a Contracting State in respect of an employment exercised in the other Contracting State shall be taxable only in the first-mentioned State if:
 - (a) the recipient is present in the other State for a period or periods not exceeding in the aggregate 183 days in any consecutive twelve month period; and
 - (b) the remuneration is paid by, or on behalf of, an employer who is not a resident of the other State; and

- (c) the remuneration is not borne by a permanent establishment or a fixed base which the employer has in the other State.
3. Notwithstanding the preceding provisions of this Article, remuneration derived by a resident of a Contracting State in respect of an employment as a member of the regular complement of a ship or aircraft operated in international traffic may be taxed only in that State.

Article 16

LIMITATION ON BENEFITS

1. A person (other than an individual) which is a resident of a Contracting State shall not be entitled under this Convention to relief from taxation in the other Contracting State unless:
- (a) more than 75 percent of the beneficial interest in such person (or in the case of a company, more than 75 percent of the number of shares of each class of the company's shares) is owned, directly or indirectly, by any combination of one or more of:
- (i) individuals who are residents of the United States;
- (ii) citizens of the United States;
- (iii) individuals who are residents of New Zealand;
- (iv) companies as described in subparagraph (b); and
- (v) the Contracting States; or

- (b) it is a company in whose principal class of shares there is substantial and regular trading on a recognized stock exchange; or
 - (c) the establishment, acquisition and maintenance of such person and the conduct of its operations did not have as a principal purpose the purpose of obtaining benefits under the Convention.
2. For the purposes of paragraph 1(b), the term "a recognized stock exchange" means:
- (a) the NASDAQ System owned by the National Association of Securities Dealers, Inc. and any stock exchange registered with the Securities and Exchange Commission as a national securities exchange for the purposes of the Securities Exchange Act of 1934; and
 - (b) the New Zealand Stock Exchange; and
 - (c) any other stock exchange agreed upon by the competent authorities of the Contracting States.
3. Where
- (a) income derived by a trustee is to be treated for the purposes of the Convention as income of a resident of a Contracting State; and
 - (b) the trustee derived the income in connection with a scheme a principal purpose of which was to obtain a benefit under the Convention;
- then, notwithstanding any other provision of the Convention, the Convention does not apply in relation to that income.

4. Before a resident of a Contracting State is denied relief from taxation in the other Contracting State by reason of this Article the competent authorities of the Contracting States shall consult each other.

Article 17

1. Notwithstanding the provisions of Articles 14 (Independent Personal Services) and 15 (Dependent Personal Services), income derived by a resident of a Contracting State as an entertainer, such as a theatre, motion picture, radio, or television artiste, or a musician, or as an athlete, from his personal activities as such exercised in the other Contracting State, may be taxed in that other State, except where the amount of the gross receipts derived by such entertainer or athlete, including expenses reimbursed to him or borne on his behalf, from such activities does not exceed ten thousand United States dollars (\$10,000) or its equivalent in New Zealand dollars for the income year or taxable year concerned.
2. Where income in respect of activities exercised by an entertainer or an athlete in his capacity as such accrues not to the entertainer or athlete but to another person, that income of that other person may, notwithstanding the

provisions of Articles 7 (Business Profits) and 14 (Independent Personal Services), be taxed in the Contracting State in which the activities of the entertainer or athlete are exercised, unless it is established that neither the entertainer or athlete nor persons related thereto participate directly or indirectly in any profits of that other person in any manner whatsoever including (without limitation) the receipt of deferred remuneration, bonuses, fees, dividends, partnership distributions, or other distributions.

Article 18

PENSIONS AND ANNUITIES

2. Annuities derived and beneficially owned by a resident of a Contracting State shall be taxable only in that State.

The term "annuities" as used in this paragraph means stated sums (not being alimony) paid periodically at stated times during life or during a specified or ascertainable number of years, under an obligation to make the payments in return for adequate and full consideration (other than services rendered or to be rendered).

Article 19

GOVERNMENT SERVICE

1. (a) Remuneration, other than a pension, paid by a Contracting State or a political subdivision or a local authority thereof to an individual in respect of services in the discharge of functions of a Governmental nature rendered to that State or subdivision or authority shall be taxable only in that State.
- (b) However, such remuneration shall be taxable only in the other Contracting State if the services are rendered in that State and the individual is a resident of that State who:
- (i) is a citizen of that State; or
- (ii) did not become a resident of that State solely for the purpose of rendering the services.

2. (a) Any pension paid by, or out of funds created by, a Contracting State or a political subdivision or local authority thereof to an individual in respect of services rendered to that State or subdivision or authority shall be taxable only in that State.
(b) However, such pension shall be taxable only in the other Contracting State if the individual is a resident of, and a citizen of, that State.
3. The provisions of Articles 14 (Independent Personal Services), 15 (Dependent Personal Services), 17 (Artistes and Athletes) and 18 (Pensions and Annuities) shall apply to remuneration and pensions in respect of services rendered in connection with a business carried on by a Contracting State or a political subdivision or a local authority thereof.

Article 20

STUDENTS

Payments received for the purpose of maintenance or education by a student who is or was immediately before visiting a Contracting State a resident of the other Contracting State and who is present in the first-mentioned State for the purpose of his full-time education shall not be taxed in that State, provided that such payments arise outside that State.

Article 21 [1]

OTHER INCOME

Items of income of a resident of a Contracting State not dealt with in the foregoing Articles of this Convention shall be taxable only in that State except that, if such income is derived from sources within the other Contracting State, it may also be taxed in that other State.

Article 22

RELIEF FROM DOUBLE TAXATION

1. Subject to paragraph 4, and in accordance with the provisions and subject to the limitations of the law of the United States (as it may be amended from time to time without changing the general principle hereof), in the case of the United States double taxation shall be avoided as follows:
 - (a) the United States shall allow to a resident or citizen of the United States or a United States company as a credit against United States tax the income tax paid to New Zealand by or on behalf of such resident, citizen or company; and

¹See Protocol, p. 1997.

(b) the United States shall also allow to a United States company owning at least 10 percent of the voting stock of a company (other than a United States company) which is a resident of New Zealand and from which the United States company receives dividends, as a credit against United States tax, the income tax paid to New Zealand by or on behalf of the distributing company with respect to the profits out of which the dividends are paid.

For the purposes of this paragraph, the taxes referred to in paragraphs 1(b) and 2 of Article 2 (Taxes Covered) shall be considered income taxes.

2. In the case of New Zealand, double taxation shall be avoided as follows:

In accordance with, and subject to any provisions of, the law of New Zealand which may from time to time be in force and which relate to the allowance of a credit against New Zealand tax for tax paid in a country outside New Zealand (which shall not affect the general principle hereof), United States tax paid under the law of the United States and consistently with this Convention, whether directly or by deduction, in respect of income derived by a resident of New Zealand arising in the United States (excluding in the case of a dividend, tax paid in respect of the profits out of which the dividend is paid) shall be allowed as a credit against New Zealand tax payable in respect of that income; except that such credit shall

not exceed the amount of the tax that would be paid to the United States if the resident were not a United States citizen or a United States company. However, where a company which is a resident of New Zealand beneficially owns at least 10 percent of the paid-up share capital of a United States company any dividend derived by the first-mentioned company from the United States company (being dividends which, in accordance with the taxation law of New Zealand in existence at the date of signature of the Convention would be exempt from New Zealand tax) shall be exempt from New Zealand tax.

3. For the purposes of computing United States tax, where a citizen of the United States or a United States company is a resident of New Zealand, the United States shall allow as a credit against United States tax the income tax paid to New Zealand after the credit referred to in paragraph 2. The credit so allowed against United States tax shall not reduce that portion of the United States tax that is creditable against New Zealand tax in accordance with paragraph 2.
4. For the purpose of allowing relief from double taxation pursuant to this Article, income shall be deemed to arise as follows:
 - (a) income derived by a resident of the United States which may be taxed in New Zealand in accordance with this Convention shall be deemed to arise in New Zealand;

- (b) income derived by a resident of New Zealand which may be taxed in the United States in accordance with the Convention (other than income taxed by the United States solely because the beneficial owner is a citizen of the United States or a United States company) shall be deemed to arise in the United States;
 - (c) For purposes of paragraph 3, income beneficially owned by a resident of New Zealand who is a citizen of the United States or a United States company shall be deemed to arise in New Zealand to the extent necessary to give effect to the provisions of this paragraph.
5. No provision of this Convention relating to source of income shall apply in determining credits against United States tax for foreign taxes other than those referred to in paragraphs 1(b) and 2 of Article 2 (Taxes Covered).

Article 23

NON-DISCRIMINATION

1. Citizens of a Contracting State shall not be subjected in the other Contracting State to any taxation or any requirement connected therewith which is more burdensome than the taxation and connected requirements to which citizens of that other State in the same circumstances are or may be subjected. This provision shall apply to persons who are not residents of one or both of the

Contracting States. However, for the purposes of United States tax, a United States citizen who is not a resident of the United States and a New Zealand citizen who is not a resident of the United States are not in the same circumstances.

2. The taxation on a permanent establishment which an enterprise of a Contracting State has in the other Contracting State shall not be less favourably levied in that other State than the taxation levied on enterprises of that other State carrying on the same activities. This provision shall not be construed as:
 - (a) obliging a Contracting State to grant to residents of the other Contracting State any personal allowances, exemptions, rebates, reliefs and reductions which it grants to its own residents; or
 - (b) preventing a Contracting State from imposing on the profits attributable to a permanent establishment in that State of a company which is a resident of the other Contracting State a tax not exceeding 5 percent of those profits in addition to the tax which would be chargeable on those profits if they were the profits of a company which was a resident of the first-mentioned State; or
 - (c) requiring a Contracting State to grant to a company which is a resident of the other Contracting State the same tax relief that it provides to a company which is a resident of the first-mentioned State with respect to dividends received by it from a company.

3. Except where the provisions of paragraph 1 of Article 9 (Associated Enterprises), paragraph 6 of Article 11 (Interest), or paragraph 6 of Article 12 (Royalties) apply, interest, royalties and other disbursements paid by a resident of a Contracting State to a resident of the other Contracting State shall, for the purposes of determining the taxable profits of the first-mentioned resident, be deductible under the same conditions as if they had been paid to a resident of the first-mentioned State.
4. An enterprise of a Contracting State, the capital of which is wholly or partly owned or controlled, directly or indirectly, by one or more residents of the other Contracting State, shall not be subjected in the first-mentioned State to any taxation or any requirement directly connected therewith which is more burdensome than the taxation and directly connected requirements to which an enterprise of the first-mentioned State, carrying on the same activities the capital of which is owned or controlled by residents of that State, are or may be subjected.
5. This Article shall not apply to any provision of the taxation laws of a Contracting State which:
 - (a) is reasonably designed to prevent or defeat the avoidance or evasion of taxes; or
 - (b) is in force on the date of signature of this Convention, or is substantially similar in general purpose or intent to any such provision but is enacted after that date;

provided that any such provision (except where that provision is in an international agreement) does not allow for different treatment of residents or citizens of the other Contracting State as compared with the treatment of residents or citizens of any third State.

6. Nothing in this Article shall be construed as preventing a Contracting State from distinguishing in its taxation laws between residents and non-residents solely on the basis of their residence.
7. If a Contracting State considers that future taxation measures of the other Contracting State infringe the principles set forth in this Article, the competent authorities of the Contracting States shall consult each other in an endeavor to resolve the matter.

Article 24

MUTUAL AGREEMENT PROCEDURE

1. Where a person considers that the actions of one or both of the Contracting States result or will result for him in taxation not in accordance with the provisions of this Convention, he may, irrespective of the remedies provided by the domestic law of those States, present his case to the competent authority of the Contracting State of which he is a resident or citizen. This case must be presented within 3 years from the first notification of that action.

2. The competent authority shall endeavor, if the objection appears to it to be justified and if it is not itself able to arrive at a satisfactory solution, to resolve the case by mutual agreement with the competent authority of the other Contracting State, with a view to the avoidance of taxation which is not in accordance with the Convention. Any agreement reached shall be implemented notwithstanding any time limits in the domestic law of the Contracting States.
3. The competent authorities of the Contracting States shall endeavor to resolve by mutual agreement any difficulties or doubts arising as to the interpretation or application of the Convention. They may also consult together for the elimination of double taxation in cases not provided for in the Convention.
4. The competent authorities of the Contracting States may communicate with each other directly for the purpose of reaching an agreement in the sense of the preceding paragraphs.

Article 25

EXCHANGE OF INFORMATION AND ADMINISTRATIVE
ASSISTANCE

1. The competent authorities of the Contracting States shall exchange such information as is necessary for carrying out the provisions of this Convention or of the domestic laws

of the Contracting States concerning taxes covered by the Convention insofar as the taxation thereunder is not contrary to the Convention. The exchange of information is not restricted by Article 1 (General Scope). Any information received by a Contracting State shall be treated as secret in the same manner as information obtained under the domestic laws of that State and shall be disclosed only to persons or authorities (including courts and administrative bodies) involved in the assessment, collection, or administration of, the enforcement or prosecution in respect of, or the determination of appeals in relation to, the taxes covered by the Convention. Such persons or authorities shall use the information only for such purposes. They may disclose the information in public court proceedings or in judicial decisions.

2. If information is requested by a Contracting State in accordance with this Article, the other Contracting State shall endeavor to obtain the information to which the request relates in the same manner and to the same extent as if the tax of the first-mentioned State were the tax of that other State and were being imposed by that other State. If specifically requested by the competent authority of a Contracting State, the competent authority of the other Contracting State shall endeavor to provide information under this Article in the form of depositions of witnesses and authenticated copies of unedited original documents (including books, papers, statements, records,

accounts, and writings), to the same extent such depositions and documents can be obtained under the laws and administrative practices of that other State with respect to its own taxes.

3. In no case shall the provisions of paragraphs 1 and 2 be construed so as to impose on a Contracting State the obligation:

- (a) to carry out administrative measures at variance with the laws and administrative practice of that or of the other Contracting State;
- (b) to supply information which is not obtainable under the laws or in the normal course of the administration of that or of the other Contracting State;
- (c) to supply information which would disclose any trade, business, industrial, commercial, or professional secret or trade process, or information the disclosure of which would be contrary to public policy.

Article 26

DIPLOMATIC AGENTS AND CONSULAR OFFICERS

Nothing in this Convention shall affect the fiscal privileges of diplomatic agents or consular officers under the general rules of international law or under the provisions of special agreements.

Article 27

ENTRY INTO FORCE

1. This Convention shall be subject to ratification in accordance with the applicable procedures of each Contracting State and instruments of ratification shall be exchanged at Washington as soon as possible.
2. The Convention shall enter into force upon the exchange of instruments of ratification^[1] and its provisions shall have effect:
 - (a) in the United States:
 - (i) in respect of taxes withheld at source, for amounts paid or credited on or after the first day of the second month next following the date on which the Convention enters into force;
 - (ii) in respect of other taxes, for taxable years beginning on or after the date on which the Convention enters into force.
 - (b) in New Zealand:
 - (i) in respect of withholding tax on income that is derived by a non-resident, for any income year beginning on or after the first day of April next following the date on which the Convention enters into force;
 - (ii) in respect of other New Zealand tax, for any income year beginning on or after the first day of April next following the date on which the Convention enters into force.

^[1]See Protocol, p. 1997.

3. If the Convention enters into force before 1 April 1984 then, notwithstanding the provisions of paragraph 2(b)(i), New Zealand shall for the purposes of New Zealand tax apply the provisions of Article 10 (Dividends) to dividends derived on or after 1 April 1982 and beneficially owned by a resident of the United States.
4. The Agreement between the Government of New Zealand and the Government of the United States of America for the avoidance of double taxation and the prevention of fiscal evasion with respect to taxes on income, signed at Washington on 16 March 1948^[1](in this Article referred to as "the 1948 Agreement") shall cease to have effect in relation to any tax in respect of which this Convention comes into effect in accordance with paragraph 2 or 3.
5. The 1948 Agreement shall terminate on the last date on which it has effect in accordance with the foregoing provisions of this Article.

Article 28

TERMINATION

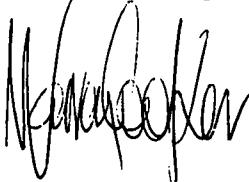

1. This Convention shall remain in force until terminated by a Contracting State. Either Contracting State may terminate the Convention at any time after 5 years from the date on which the Convention enters into force, provided that at least 6 months prior notice of termination has been given through diplomatic channels. In such event, the Convention shall cease to have effect:

^[1]See Protocol, p. 1997.

- (a) in the United States:
- (i) in respect of taxes withheld at source, for amounts paid or credited on or after the first day of January next following the expiration of the 6 month period;

1. With reference to Articles 10, 11 and 12

If in any future double taxation convention with any other country, being a member of the Organisation for Economic Co-operation and Development, New Zealand should limit its taxation at source on any dividends, interest or royalties to a rate lower than the one provided for in any of such articles, New Zealand shall without undue delay enter into negotiations with the United States to review the appropriate article with a view to providing the same treatment on a reciprocal basis.

CONVENTION BETWEEN THE GOVERNMENT OF
THE UNITED STATES OF AMERICA
AND THE GOVERNMENT OF AUSTRALIA
FOR THE AVOIDANCE OF DOUBLE TAXATION
AND THE PREVENTION OF FISCAL EVASION
WITH RESPECT TO TAXES ON INCOME

The Government of the United States of America and the
Government of Australia,

Desiring to conclude a Convention for the Avoidance of
Double Taxation and the Prevention of Fiscal Evasion with
Respect to Taxes on Income,

Have agreed as follows:

ARTICLE 1

Personal Scope

(1) Except as otherwise provided in this Convention, this
Convention shall apply to persons who are residents of one or
both of the Contracting States.

(2) This Convention shall not restrict in any manner any
exclusion, exemption, deduction, rebate, credit or other
allowance accorded from time to time:

(a) by the laws of either Contracting State; or
(b) by any other agreement between the Contracting States.

(3) Notwithstanding any provision of this Convention, except paragraph (4) of this Article, a Contracting State may tax its residents (as determined under Article 4 (Residence)) and individuals electing under its domestic law to be taxed as residents of that State, and by reason of citizenship may tax its citizens, as if this Convention had not entered into force. For this purpose, the term "citizen" shall, with respect to United States source income according to United States law relating to United States tax, include a former citizen whose loss of citizenship had as one of its principal purposes the avoidance of tax, but only for a period of 10 years following such loss.

(4) The provisions of paragraph (3) shall not affect:

(a) the benefits conferred by a Contracting State under paragraph (2) of Article 9 (Associated Enterprises), paragraph (2) or (6) of Article 18 (Pensions, Annuities, Alimony and Child Support), Article 22 (Relief from Double Taxation), 23 (Non-Discrimination), 24 (Mutual Agreement Procedure) or paragraph (1) of Article 27 (Miscellaneous); or

- (b) the benefits conferred by a Contracting State under Article 19 (Governmental Remuneration), 20 (Students) or 26 (Diplomatic and Consular Privileges) upon individuals who are neither citizens of, nor have immigrant status in, that State (in the case of benefits conferred by the United States), or who are not ordinarily resident in that State (in the case of benefits conferred by Australia).

ARTICLE 2

Taxes Covered

(1) The existing taxes to which this Convention shall apply are:

- (a) in the United States: the Federal income taxes imposed by the Internal Revenue Code,^[1] but excluding the accumulated earnings tax and the personal holding company tax; and
- (b) in Australia: the Australian income tax, including the additional tax upon the undistributed amount of the distributable income of a private company.

¹ 68A Stat. 3; 26 U.S.C. §§ 1-8023.

(2) This Convention shall also apply to any identical or substantially similar taxes which are imposed by either Contracting State after the date of signature of this Convention in addition to, or in place of, the existing taxes. At the end of each calendar year, the competent authority of each Contracting State shall notify the competent authority of the other Contracting State of any substantial changes which have been made during that year in the laws of his State relating to the taxes to which this Convention applies or in the official interpretation of those laws or of this Convention.

- (g) the use by that enterprise in the other Contracting State, of an installation, drilling rig or ship for dredging, or for or in connection with the exploration or exploitation of natural resources of the sea-bed and subsoil, provided that such use is not for an aggregate period of at least 6 months in any 24 month period.

(4) Notwithstanding paragraphs (1) and (2), an enterprise of one of the Contracting States shall be deemed to have a permanent establishment in the other Contracting State if:

- (a) it carries on business in that other State through a person, other than an agent of independent status to whom paragraph (5) applies, who has authority to conclude contracts on behalf of that enterprise and habitually exercises that authority in that other State, unless the activities of such person are limited to those mentioned in paragraph (3) which, if exercised through a fixed place of business, would not make the fixed place of business a permanent establishment under the provisions of that paragraph;

- (b) it maintains substantial equipment for rental or other purposes within that other State (excluding equipment let under a hire-purchase agreement) for a period of more than 12 months;
- (c) it engages in supervisory activities in that other State for more than 9 months in any 24 month period in connection with a building site or construction, assembly or installation project in that other State; or
- (d) it has goods or merchandise belonging to it that:
 - (i) were purchased by it in that other State, and not subjected to prior substantial processing outside that other State; or
 - (ii) were produced by it or on its behalf in that other State,

and are, after such purchase or production, subjected to substantial processing in that other State by an enterprise where either enterprise participates directly or indirectly in the management, control or capital of the other enterprise, or where the same persons participate directly or indirectly in the management, control or capital of both enterprises.

(5) An enterprise of one of the Contracting States shall not be deemed to have a permanent establishment in the other Contracting State merely because that enterprise carries on business in that other State through a broker, general commission agent, or any other agent of independent status, where such broker or agent is acting in the ordinary course of his business as a broker, general commission agent or other agent of independent status.

(6) The fact that a company which is a resident of one of the Contracting States controls or is controlled by a company which is a resident of the other Contracting State, or which carries on business in that other State (whether through a permanent establishment or otherwise), shall not of itself constitute either company a permanent establishment of the other.

(7) The principles set forth in the preceding paragraphs of this Article shall be applied in determining for purposes of this Convention whether there is a permanent establishment in a State other than one of the Contracting States and whether an enterprise other than an enterprise of one of the Contracting States has a permanent establishment in one of the Contracting States.

ARTICLE 6

Income from Real Property

(1) Income from real property may be taxed by the Contracting State in which such real property is situated.

(2) For the purposes of this Convention:

(i) a leasehold interest in land, whether or not improved, shall be regarded as real property situated where the land to which the interest relates is situated; and

(ii) rights to exploit or to explore for natural resources shall be regarded as real property situated where the natural resources are situated or sought.

ARTICLE 7

Business Profits

(1) The business profits of an enterprise of one of the Contracting States shall be taxable only in that State unless the enterprise carries on business in the other Contracting

State through a permanent establishment situated therein. If the enterprise carries on business as aforesaid, the business profits of the enterprise may be taxed in the other State but only so much of them as is attributable to that permanent establishment.

(2) Subject to the provisions of paragraph (3), where an enterprise of one of the Contracting States carries on business in the other Contracting State through a permanent establishment situated therein, there shall in each Contracting State be attributed to that permanent establishment the business profits which it might be expected to make if it were a distinct and independent enterprise engaged in the same or similar activities under the same or similar conditions and dealing wholly independently with the enterprise of which it is a permanent establishment or with other enterprises with which it deals.

(3) In the determination of the business profits of a permanent establishment, there shall be allowed as deductions expenses which are reasonably connected with the profits (including executive and general administrative expenses) and which would be deductible if the permanent establishment were an independent entity which paid those expenses, whether incurred in the Contracting State in which the permanent establishment is situated or elsewhere.

(4) No business profits shall be attributed to a permanent establishment by reason of the mere purchase by that permanent establishment of goods or merchandise for the enterprise.

(5) For the purposes of the preceding paragraphs of this Article, the business profits to be attributed to the permanent establishment shall be determined by the same method year by year unless there is good and sufficient reason to the contrary.

(6) Where business profits include items of income which are dealt with separately in other Articles of this Convention, then the provisions of those Articles shall not be affected by the provisions of this Article.

(7) Nothing in this Article shall affect the application of any law of a Contracting State relating to the determination of the tax liability of a person in cases where the information available to the competent authority of that State is inadequate to determine the profits to be attributed to a permanent establishment, provided that, on the basis of the available information, the determination of the profits of the permanent establishment is consistent with the principles stated in this Article.

(8) Nothing in this Article shall in a Contracting State prevent the operation in that State of its law relating

specifically to the taxation of any person who carries on the business of any form of insurance (as long as that law as in effect on the date of signature of this Convention is not varied otherwise than in minor respects so as not to affect its general character).

ARTICLE 8

Shipping and Air Transport

(1) Profits derived by a resident of one of the Contracting States from the operation in international traffic of ships or aircraft shall be taxable only in that State. For the purposes of this Article, profits from the operation in international traffic of ships or aircraft include:

- (a) profits from the lease on a full basis of ships or aircraft operated in international traffic by the lessee, provided that the lessor either operates ships or aircraft otherwise than solely between places in the other Contracting State or regularly leases ships or aircraft on a full basis; and
- (b) profits from the lease of ships or aircraft on a bare boat basis or of containers and related equipment, provided that such lease is merely incidental to the

operation in international traffic of ships or aircraft by the lessor and the leased ships or aircraft are operated in international traffic, or the containers and related equipment are used in international traffic, by the lessee.

(2) The provisions of paragraph (1) shall apply to the share of the profits from the operation in international traffic of ships or aircraft derived by a resident of one of the Contracting States through participation in a pool service, in a joint transport operating organization or in an international operating agency.

(3) For the purposes of this Article, profits derived from the carriage by ships or aircraft of passengers, livestock, mail, goods or merchandise shipped in a Contracting State for discharge at another place in that State shall not be treated as profits from the operation in international traffic of ships or aircraft and may be taxed in that State.

ARTICLE 9

Associated Enterprises

Where:

- (a) an enterprise of one of the Contracting States participates directly or indirectly in the management, control or capital of an enterprise of the other Contracting State; or
- (b) the same persons participate directly or indirectly in the management, control or capital of an enterprise of one of the Contracting States and an enterprise of the other Contracting State,

and in either case conditions operate between the two enterprises in their commercial or financial relations which differ from those which might be expected to operate between independent enterprises dealing wholly independently with one another, then any profits which, but for those conditions, might have been expected to accrue to one of the enterprises, but, by reason of those conditions, have not so accrued, may be included in the profits of that enterprise and taxed accordingly.

(2) Where profits on which an enterprise of one of the Contracting States has been charged to tax in that State are also included, by virtue of paragraph (1), in the profits of an enterprise of the other Contracting State and taxed accordingly, and the profits so included are profits which might have been expected to have accrued to that enterprise of the other State if the conditions operative between the enterprises had been those which might have been expected to have operated between independent enterprises dealing wholly independently with one another, then the first-mentioned State shall make an appropriate adjustment to the amount of tax charged on those profits in the first-mentioned State. In determining such an adjustment, due regard shall be had to the other provisions of this Convention and the competent authorities of the Contracting States shall if necessary consult each other.

(3) Nothing in this Article shall affect the application of any law of a Contracting State relating to the determination of the tax liability of a person, including determinations in cases where the information available to the competent authority of that State is inadequate to determine the income to be attributed to an enterprise, provided that, on the basis of the available information, the determination of that tax liability is consistent with the principles stated in this Article.

ARTICLE 10

Dividends

(1) Dividends paid by a company which is a resident of one of the Contracting States for the purposes of its tax, being dividends to which a resident of the other Contracting State is beneficially entitled, may be taxed in that other State.

(2) Such dividends may be taxed in the Contracting State of which the company paying the dividends is a resident for the purposes of its tax, and according to the law of that State, but the tax so charged shall not exceed 15 percent of the gross amount of the dividends.

(3) The term "dividends" in this Article means income from shares and other income assimilated to income from shares by the taxation law of the Contracting State of which the company making the distribution is a resident for the purposes of its tax.

(4) The provisions of paragraph (2) shall not apply if the person beneficially entitled to the dividends, being a resident of one of the Contracting States, carries on business in the other Contracting State, being the State of which the company paying the dividends is a resident, through a permanent

establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the holding in respect of which the dividends are paid is effectively connected with such permanent establishment or fixed base. In such a case, the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services), as the case may be, shall apply.

(5) Where a company is a resident of one of the Contracting States, the other Contracting State may not impose any tax on dividends paid by the company, except insofar as:

- (a) a resident of that other State is beneficially entitled to the dividends;
- (b) the holding in respect of which the dividends are paid is effectively connected with a permanent establishment or a fixed base situated in that other State; or
- (c) that other State does not impose a tax of the kind described in paragraph (6) (excluding the accumulated earnings tax and the personal holding company tax imposed by the United States) and the dividends are paid out of profits attributable to one or more permanent establishments which such company had in that other State, provided that the gross income

attributable to such permanent establishments
constituted at least 50 percent of such company's gross
income from all sources.

Where sub-paragraph (c) applies and sub-paragraphs (a) and (b)
do not apply, any such tax shall not exceed 15 percent of the
dividends.

(6) Nothing in this Convention shall be construed as preventing a Contracting State from imposing on the income of a company which is a resident of the other Contracting State, tax in addition to the taxes referred to in Article 2 in relation to the first-mentioned Contracting State which are payable by a company which is a resident of the first-mentioned State, provided that any such additional tax shall not exceed 15 percent of the amount by which the taxable income of the first-mentioned company of a year of income exceeds the tax payable on that taxable income to the first-mentioned State. Any tax payable to a Contracting State on the undistributed profits of a company which is a resident of the other Contracting State shall be calculated as if that company were not liable to the additional tax referred to in this paragraph and had paid dividends of such amount that tax equal to the amount of that additional tax would have been payable on the dividends in accordance with paragraph (2) of this Article.

ARTICLE 11

Interest

(1) Interest from sources in one of the Contracting States, being interest to which a resident of the other Contracting State is beneficially entitled, may be taxed in that other State.

(2) Such interest may be taxed in the Contracting State in which it has its source, and according to the law of that State, but the tax so charged shall not exceed 10 percent of the gross amount of the interest.

(3) Paragraph (2) shall not apply if the person beneficially entitled to the interest, being a resident of one of the Contracting States, has a permanent establishment in the other Contracting State or performs independent personal services in that other State from a fixed base situated therein and the indebtedness giving rise to the interest is effectively connected with such permanent establishment or fixed base. In such a case the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services), as the case may be, shall apply.

(4) Where, owing to a special relationship between the payer and the person beneficially entitled to the interest, or between both of them and some other person, the amount of the interest paid, having regard to the indebtedness for which it is paid, exceeds the amount which might have been expected to have been agreed upon by the payer and the person so entitled in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In that case, the excess part of the amount of the interest paid shall remain taxable according to the law of each Contracting State, but subject to the other provisions of this Convention.

(5) The term "interest" as used in this Convention includes income which, under the taxation law of the Contracting State in which the income has its source, is assimilated to income from money lent.

(6) A Contracting State may not impose any tax on interest paid by a resident of the other Contracting State, except insofar as:

- (a) such interest has its source in the first-mentioned State, or is interest to which a resident of that State is beneficially entitled; or

(b) the indebtedness in respect of which the interest is paid is effectively connected with a permanent establishment or a fixed base of the beneficial owner of the interest situated in the first-mentioned State.

(7) Interest shall be treated as income from sources in a Contracting State when the payer is that State itself or a political subdivision or local authority of that State or a person who is a resident of that State for the purposes of its tax. Where, however, the person paying the interest, whether he is a resident of one of the Contracting States or not, has in one of the Contracting States or outside both Contracting States a permanent establishment or fixed base in connection with which the indebtedness on which the interest is paid was incurred, and such interest is borne by such permanent establishment or fixed base, then such interest shall be deemed to have its source in the State in which the permanent establishment or fixed base is situated.

ARTICLE 12

Royalties

(1) Royalties from sources in one of the Contracting States, being royalties to which a resident of the other Contracting State is beneficially entitled, may be taxed in that other State.

(2) Such royalties may be taxed in the Contracting State in which they have their source, and according to the law of that State, but the tax so charged shall not exceed 10 percent of the gross amount of the royalties.

(3) Paragraph (2) shall not apply if the person beneficially entitled to the royalties, being a resident of one of the Contracting States, has a permanent establishment in the other Contracting State or performs independent personal services in that other State from a fixed base situated therein, and the property or rights giving rise to the royalties are effectively connected with such permanent establishment or fixed base. In such a case, the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services), as the case may be, shall apply.

(4) The term "royalties" in this Article means:

(a) payments or credits of any kind to the extent to which they are consideration for the use of or the right to use any:

- (i) copyright, patent, design or model, plan, secret formula or process, trademark or other like property or right;
- (ii) industrial, commercial or scientific equipment, other than equipment let under a hire purchase agreement;
- (iii) motion picture films; or
- (iv) films or video tapes for use in connection with television or tapes for use in connection with radio broadcasting;

(b) payments or credits of any kind to the extent to which they are consideration for:

- (i) the supply of scientific, technical, industrial or commercial knowledge or information owned by any person;
- (ii) the supply of any assistance of an ancillary and subsidiary nature furnished as a means of enabling the application or enjoyment of knowledge or information referred to in sub-paragraph (b)(i) or

of any other property or right to which this

Article applies; or

(iii) a total or partial forbearance in respect of the
use or supply of any property or right described
in this paragraph; or

(c) income derived from the sale, exchange or other
disposition of any property or right described in this
paragraph to the extent to which the amounts realized
on such sale, exchange or other disposition are
contingent on the productivity, use or further
disposition of such property or right.

(5) Where, owing to a special relationship between the
payer and the person beneficially entitled to the royalties or
between both of them and some other person, the amount of the
royalties paid or credited, having regard to what they are paid
or credited for, exceeds the amount which might have been
expected to have been agreed upon by the payer and the person so
entitled in the absence of such relationship, the provisions of
this Article shall apply only to the last-mentioned amount. In
that case, the excess part of the amount of the royalties paid
or credited shall remain taxable according to the law of each
Contracting State, but subject to the other provisions of this
Convention.

- (6) (a) Royalties shall be treated as income from sources in a Contracting State when the payer is that State itself or a political subdivision or local authority of that State or a person who is a resident of that State for the purposes of its tax. Where, however, the person paying the royalties, whether he is a resident of one of the Contracting States or not, has in one of the Contracting States or outside both Contracting States a permanent establishment or fixed base in connection with which the liability to pay the royalties was incurred, and the royalties are borne by the permanent establishment or fixed base, then the royalties shall be deemed to have their source in the State in which the permanent establishment or fixed base is situated.
- (b) Where sub-paragraph (a) does not operate to treat royalties as being from sources in one of the Contracting States, and the royalties relate to use or the right to use in one of the Contracting States of any property or right described in paragraph (4), the royalties shall be treated as income from sources in that State.

ARTICLE 13

Alienation of Property

(1) Income or gains derived by a resident of one of the contracting States from the alienation or disposition of real property situated in the other Contracting State may be taxed in that other State.

(2) For the purposes of this Article:

(a) the term "real property situated in the other Contracting State", where the United States is that other Contracting State, includes a United States real property interest, and real property referred to in Article 6 which is situated in the United States; and

(b) the term "real property", in the case of Australia, shall have the meaning which it has under the laws in force from time to time in Australia and, without limiting the foregoing, includes:

(i) real property referred to in Article 6;

(ii) shares or comparable interests in a company, the assets of which consist wholly or principally of real property situated in Australia; and

(iii) an interest in a partnership, trust or estate of a deceased individual, the assets of which consist wholly or principally of real property situated in Australia.

(3) Income or gains derived by an enterprise of one of the contracting States from the alienation of ships, aircraft or containers operated or used by it in international traffic shall, except to the extent to which that enterprise has been allowed depreciation in the other Contracting State in respect of those ships, aircraft or containers, be taxable only in that State, and income described in sub-paragraph (4)(c) of Article 12 (Royalties) shall be taxable only in accordance with the provisions of Article 12.

(4) For the purposes of this Article, real property consisting of shares in a company referred to in sub-paragraph (2)(b)(ii), and interests in a partnership, trust or estate referred to in sub-paragraph (2)(b)(iii), shall be deemed to be situated in Australia.

ARTICLE 14

Independent Personal Services

Income derived by an individual who is a resident of one of the Contracting States from the performance of personal services in an independent capacity shall be taxable only in that State unless such services are performed in the other Contracting State and:

- (a) the individual is present in that other State for a period or periods aggregating more than 183 days in the taxable year or year of income of that other State; or
- (b) the individual has a fixed base regularly available to him in that other State for the purpose of performing his activities, in which case so much of the income as is attributable to that fixed base may be taxed in such other State.

ARTICLE 15

Dependent Personal Services

(1) Subject to the provisions of Articles 18 (Pensions, Annuities, Alimony and Child Support) and 19 (Governmental Remuneration), salaries, wages and other similar remuneration derived by an individual who is a resident of one of the Contracting States in respect of an employment or in respect of services performed as a director of a company shall be taxable only in that State unless the employment is exercised or the services performed in the other Contracting State. If the employment is so exercised or the services so performed, such remuneration as is derived from that exercise or performance may be taxed in that other State.

(2) Notwithstanding the provisions of paragraph (1), remuneration derived by an individual who is a resident of one of the Contracting States in respect of an employment exercised in the other Contracting State or in respect of services performed in the other Contracting State as a director of a company shall be taxable only in the first-mentioned State if:

- (a) the recipient is present in that other State for a period or periods not exceeding in the aggregate 183 days in the taxable year or year of income of that other State;

TIAS 10773

- (b) the remuneration is paid by, or on behalf of, an employer or company who is not a resident of that other State; and
- (c) the remuneration is not deductible in determining taxable profits of a permanent establishment, a fixed base or a trade or business which the employer or company has in that other State.

(3) Notwithstanding the preceding provisions of this Article, remuneration in respect of an employment exercised aboard a ship or aircraft operated in international traffic by a resident of one of the Contracting States may be taxed in that State.

ARTICLE 16

Limitation on Benefits

(1) A person (other than an individual) which is a resident of one of the Contracting States shall not be entitled under this Convention to relief from taxation in the other Contracting State unless:

- (a) more than 75 percent of the beneficial interest in such person (or in the case of a company, more than 75

percent of the number of shares of each class of the company's shares) is owned, directly or indirectly, by any combination of one or more of:

- (i) individuals who are residents of the United States;
 - (ii) citizens of the United States;
 - (iii) individuals who are residents of Australia;
 - (iv) companies as described in sub-paragraph (b); and
 - (v) the Contracting States;
- (b) it is a company in whose principal class of shares there is substantial and regular trading on a recognized stock exchange in one of the Contracting States; or
- (c) the establishment, acquisition and maintenance of such person and the conduct of its operations did not have as one of its principal purposes the purpose of obtaining benefits under the Convention.
- (2) For the purposes of sub-paragraph (1)(b), the term "a recognized stock exchange" includes, in relation to the United States, the NASDAQ System owned by the National Association of Securities Dealers, Inc.

(3) Where:

- (a) income derived by a trustee is to be treated for the purposes of this Convention as income of a resident of one of the Contracting States; and
- (b) the trustee derived the income in connection with a scheme a principal purpose of which was to obtain a benefit under this Convention,

then, notwithstanding any other provision of this Convention, the Convention does not apply in relation to that income.

ARTICLE 17

Entertainers

(1) Notwithstanding the provisions of Articles 14 (Independent Personal Services) and 15 (Dependent Personal Services), income derived by entertainers (such as theatrical, motion picture, radio or television artistes, musicians and athletes) from their personal activities as such may be taxed in the Contracting State in which these activities are exercised, except where the amount of the gross receipts derived by any such entertainer, including expenses reimbursed to him or borne

on his behalf, from such activities does not exceed ten thousand United States dollars (\$10,000) or its equivalent in Australian dollars for the taxable year or year of income concerned.

(2) Where income in respect of activities exercised by an entertainer in his capacity as such accrues not to the entertainer but to another person, that income may, notwithstanding the provisions of Articles 7 (Business Profits), 14 (Independent Personal Services) and 15 (Dependent Personal Services), be taxed in the Contracting State in which the activities of the entertainer are exercised, unless it is established that neither the entertainer nor any person related to him participates directly or indirectly in any profits of such other person in any manner, including the receipt of deferred remuneration, bonuses, fees, dividends, partnership distributions or other distributions.

ARTICLE 18

Pensions, Annuities, Alimony and Child Support

(1) Subject to the provisions of Article 19 (Governmental Remuneration), pensions and other similar remuneration paid to an individual who is a resident of one of the Contracting States in consideration of past employment shall be taxable only in that State.

(2) Social security payments and other public pensions paid by one of the Contracting States to an individual who is a resident of the other Contracting State or a citizen of the United States shall be taxable only in the first-mentioned State.

(3) Annuities paid to an individual who is a resident of one of the Contracting States shall be taxable only in that State.

(4) The term "pensions and other similar remuneration", as used in this Article, means periodic payments made by reason of retirement or death, in consideration for services rendered, or by way of compensation paid after retirement for injuries received in connection with past employment.

(5) The term "annuities", as used in this Article, means stated sums paid periodically at stated times during life, or during a specified or ascertainable number of years, under an obligation to make the payments in return for adequate and full consideration (other than services rendered or to be rendered).

(6) Any alimony or other maintenance payments, including payments for the support of a minor child, arising in one of the Contracting States and paid to a resident of the other Contracting State, shall be taxable only in the first-mentioned State.

ARTICLE 19

Governmental Remuneration

Wages, salaries, and similar remuneration, including pensions, paid from funds of one of the Contracting States, of a state or other political subdivision thereof or of an agency or authority of any of the foregoing for labor or personal services performed as an employee of any of the above in the discharge of governmental functions to a citizen of that State shall be exempt from tax by the other Contracting State.

ARTICLE 20

Students

Where a student, who is a resident of one of the Contracting States or who was a resident of that State immediately before visiting the other Contracting State and who is temporarily present in that other State for the purpose of his full-time education, receives payments from sources outside that other State for the purpose of his maintenance or education, those payments shall be exempt from tax in that other State.

ARTICLE 21

Income Not Expressly Mentioned

(1) Items of income of a resident of one of the Contracting States which are not expressly mentioned in the foregoing → Articles of this Convention shall be taxable only in that State.

(2) However, if such income is derived by a resident of one of the Contracting States from sources in the other Contracting State, such income may also be taxed in the State in which it has its source.

(3) The provisions of paragraph (1) shall not apply to income derived by a resident of one of the Contracting States which is effectively connected with a permanent establishment situated in the other Contracting State. In such a case, the provisions of Article 7 (Business Profits) shall apply.

ARTICLE 22

Relief from Double Taxation

(1) Subject to paragraph (4) and in accordance with the provisions and subject to the limitations of the law of the United States (as it may be amended from time to time without changing the general principle hereof), in the case of the United States, double taxation shall be avoided as follows:

- (a) the United States shall allow to a resident or citizen of the United States as a credit against United States tax the appropriate amount of income tax paid to Australia; and
- (b) in the case of a United States corporation owning at least 10 percent of the voting stock of a company which is a resident of Australia from which it receives dividends in any taxable year, the United States shall also allow as a credit against United States tax the appropriate amount of income tax paid to Australia by that company with respect to the profits out of which such dividends are paid.

Such appropriate amount shall be based upon the amount of income tax paid to Australia. For purposes of applying the United

States credit in relation to income tax paid to Australia the taxes referred to in sub-paragraph (1)(b) and paragraph (2) of Article 2 (Taxes Covered) shall be considered to be income taxes. No provision of this Convention relating to source of income shall apply in determining credits against United States tax for foreign taxes other than those referred to in sub-paragraph (1)(b) and paragraph (2) of Article 2 (Taxes Covered).

(2) Subject to paragraph (4), United States tax paid under the law of the United States and in accordance with this Convention, other than United States tax imposed in accordance with paragraph (3) of Article 1 (Personal Scope) solely by reason of citizenship or by reason of an election by an individual under United States domestic law to be taxed as a resident of the United States, in respect of income derived from sources in the United States by a person who, under Australian law relating to Australian tax, is a resident of Australia shall be allowed as a credit against Australian tax payable in respect of the income. The credit shall not exceed the amount of Australian tax payable on the income or any class thereof or on income from sources outside Australia. Subject to these general principles, the credit shall be in accordance with the provisions and subject to the limitations of the law of Australia as that law may be in force from time to time.

(3) An Australian corporation that owns at least 10 percent of the voting power in a United States corporation is, in accordance with the law of Australia as in force at the date of signature of this Convention, entitled to a rebate in its assessment, at the average rate of tax payable by it, in respect of dividends paid by the United States corporation that are included in the taxable income of the Australian corporation. However, should the law as so in force be amended so that the rebate in relation to the dividends ceases to be allowable under that law, Australia shall allow credit under paragraph (2) for the United States tax paid on the profits out of which the dividends are paid as well as for the United States tax paid on the dividends.

(4) For the purposes of computing United States tax, where a United States citizen is a resident of Australia, the United States shall allow as a credit against United States tax the income tax paid to Australia after the credit referred to in paragraph (2). The credit so allowed against United States tax shall not reduce that portion of the United States tax that is creditable against Australian tax in accordance with paragraph (2).

ARTICLE 23

Non-Discrimination

(1) Each Contracting State in enacting tax measures shall ensure that:

- (a) citizens of a Contracting State who are residents of the other Contracting State shall not be subjected in that other State to any taxation or any requirement connected therewith which is more burdensome than the taxation or connected requirements to which citizens of that other State who are residents of that other State in the same circumstances are or may be subjected;
- (b) except where the provisions of paragraph (1) of Article 9 (Associated Enterprises), paragraph (4) of Article 11 (Interest) or paragraph (5) of Article 12 (Royalties) apply, interest, royalties and other disbursements paid by a resident of a Contracting State to a resident of the other Contracting State shall, for the purpose of determining the taxable profits of the resident of the first-mentioned State, be deductible under the same conditions as if they had been paid to a resident of the first-mentioned State;

- (c) a corporation of a Contracting State, the capital of which is wholly or partly owned or controlled, directly or indirectly, by one or more residents of the other Contracting State, shall not be subjected in the first-mentioned State to any taxation or any requirement connected therewith which is more burdensome than the taxation or connected requirements to which other similar corporations of the first-mentioned State in the same circumstances are or may be subjected; and
- (d) the taxation on a permanent establishment which a resident of a Contracting State has in the other Contracting State shall not be less favorably levied in that other State than the taxation levied on residents of that other State that carry on the same activities in the same circumstances.

(2) Nothing in this Article relates to any provision of the taxation laws of a Contracting State:

- (a) in force on the date of signature of this Convention;
- (b) adopted after the date of signature of this Convention but which is substantially similar in general purpose or intent to a provision covered by sub-paragraph (a);
or

(c) reasonably designed to prevent the avoidance or evasion of taxes;

provided that, with respect to provisions covered by sub-paragraphs (b) or (c), such provisions (other than provisions in international agreements) do not discriminate between citizens or residents of the other Contracting State and those of any third State.

(3) Without limiting by implication the interpretation of this Article, it is hereby declared that, except to the extent expressly so provided, nothing in the Article prevents a Contracting State from distinguishing in its taxation laws between residents and non-residents solely on the ground of their residence.

(4) Where one of the Contracting States considers that the taxation measures of the other Contracting State infringe the principles set forth in this Article the Contracting States shall consult together in an endeavor to resolve the matter.

ARTICLE 24

Mutual Agreement Procedure

- (1) (a) Where a resident of one of the Contracting States considers that the action of one or both of the Contracting States results or will result for him in taxation not in accordance with this Convention, he may, notwithstanding the remedies provided by the domestic laws of those States, present his case to the competent authority of the Contracting State of which he is a resident or citizen. The case must be presented within three years from the first notification of that action.
- (b) Should the claim be considered to have merit by the competent authority of the Contracting State to which the claim is made, that competent authority shall seek to come to an agreement with the competent authority of the other Contracting State with a view to the avoidance of taxation contrary to the provisions of this Convention. Any agreement reached shall be implemented notwithstanding any time limits or other procedural limitations in the domestic law of the Contracting States.

Oceanography: Ocean Drilling

*Memorandum of understanding signed at Swindon August 30,
1983;
Entered into force August 30, 1983.*

(2165)

TIAS 10781

MEMORANDUM OF UNDERSTANDING

Between the National Science Foundation
in Washington, D.C.,
for the United States of America

and

The Natural Environment Research Council
in Swindon

on the participation of The United Kingdom

in the Ocean Drilling Program

as a Candidate Member

The Ocean Drilling Program (ODP) is a program of scientific ocean drilling designed to improve fundamental understanding of the physical, chemical and biological processes that determine the geological history, structure and evolution of the oceanic lithosphere (sediments and crust). The Ocean Drilling Program is a successor to the Deep Sea Drilling Project, which began in 1968, and the International Phase of Ocean Drilling, which began in 1975.^[1] The program will involve a change of the drilling platform from the Glomar Challenger to a larger drillship with at least a limited riser capability.

During the period October 1983 - October 1984, the National Science Foundation intends to award contracts necessary to refit an existing drillship for scientific ocean drilling and for subsequent program operations. During this same period, all regular and candidate member countries will participate in science planning activities to establish the areas of priority for drilling operations. In October 1984, a nine-year program of Ocean Drilling is scheduled to begin.

The Ocean Drilling Program will be conducted by one or more contractors, responsible to the National Science Foundation, who will carry out the functions of science planning, science operations, and vessel operations. The Joint Oceanographic Institutions for Deep Earth Sampling (JOIDES) is the international body responsible for developing scientific plans and providing general scientific direction for the Ocean Drilling Program. The Science Planning Contractor will organize and provide administrative support to JOIDES.

Accordingly, the National Science Foundation and the Natural Environment Research Council agree to cooperate in the Ocean Drilling Program, as outlined above, in accordance with the following articles:

Article 1 - MEMBERSHIP STATUS

The Natural Environment Research Council of The United Kingdom elects to be a candidate member with rights, privileges, and financial commitments as defined.

¹Memorandum of understanding signed Sept. 29, 1975. TIAS 8591, 9410, 10551; 28 UST 3646; 30 UST 3551; 34 UST 3212.

Article 2 - OCEAN DRILLING PROGRAM EXTENSION OPTION

The Natural Environment Research Council endorses, in principle, a ten-year program of Ocean Drilling including the first-year planning period followed by a nine-year drilling and coring program. This Memorandum of Understanding ensures United Kingdom involvement in all scientific planning activities that take place between October 1, 1983, and September 30, 1984. In the event drilling begins later than October 1, 1984, the planning period is understood to be extended to cover the resultant interval without any increase in The United Kingdom's contributions. At the end of the planning period, The United Kingdom will elect either to become a regular member participant in the Ocean Drilling Program either singly or as a member of a consortium, or to resign from the Program.

Article 3 - SCIENTIFIC PLANNING

Scientific planning and direction of the Ocean Drilling Program shall be the responsibility of JOIDES. The Natural Environment Research Council will be a member of JOIDES, and will be represented on each committee, panel, or working group thereof. International membership and representation in JOIDES is restricted to regular and candidate members, including consortia, but excluding the individual members of consortia. Candidate members will be members of JOIDES during the planning period only. JOIDES shall have the right to comment and advise on the annual program plans and budgets prepared by the contractors, prior to their adoption by the National Science Foundation.

Article 4 - OCEAN DRILLING COUNCIL

The United Kingdom will be a member of the Ocean Drilling Council. The members of the Council will be representatives of each country contributing to the support of the Ocean Drilling Program, regardless of whether it is participating as an individual member or as a member of a consortium. Members of the Council and their alternates will be designated by the participating countries. There will be one representative of each participating country, except that additional representation from the United States may be appropriate.

The Council shall serve as a consultative body reviewing financial, managerial, and other matters involving the overall support of the Ocean Drilling Program. The Council shall provide a forum for exchange of views among the contributing countries. No formal voting procedures will be established.

The National Science Foundation representative will serve as permanent Chairman of the Council. A formal agenda will be prepared for each meeting and written records of each meeting will be kept. The National Science Foundation will provide secretariat services to the Council.

The Council will normally meet once each year. The annual meeting shall include a financial report and discussion, an audit report, a review of scientific and technical achievements for the past

year, draft program plans and budgets for the coming year, and other topics of mutual interest. Normally, all regular meetings of the Council will take place in Washington, D.C.

Liaison representatives of prime contractors and important scientific planning entities will be available to the Council.

Article 5 - RIGHT TO MAKE PROPOSALS; DATA PRIVILEGES

The Natural Environment Research Council will have the right:

- a) to make proposals to JOIDES of scientific projects or objectives of special interest to The United Kingdom.
- b) to participate in the analysis, and have access to the data, of geophysical and other site surveys performed in support of the program.

Additional site surveys may be contributed by The United Kingdom as its scientific interests and available resources allow. Site surveying will be coordinated by JOIDES.

Article 6 - VISA AND CUSTOMS FACILITATION

The National Science Foundation will facilitate, to the extent feasible, through collaboration with the appropriate authorities, the granting of visas and other forms of official permission for entry to and exit from the United States of personnel, equipment, and supplies when required for participation or utilization in the Ocean Drilling Program.

Article 7 - FINANCIAL CONTRIBUTION

The Natural Environment Research Council will support the Ocean Drilling Program with a total contribution of United States two hundred thousand dollars (U.S. \$200,000) in cash payable to the National Science Foundation for the planning period. Should the Ocean Drilling Program be terminated before September 30, 1984, The United Kingdom will be reimbursed on the basis of one-twelfth of its total contribution for each month of curtailment. Should The United Kingdom withdraw from the Program, under the provisions of Article 10 below, no refund of contributions will be made.

The financial contributions of all participants will be commingled to support the total program costs. "Program costs" are determined by the National Science Foundation, and are those costs incurred in support of contractors performing functions for joint planning and operations of the Ocean Drilling Program, and program direction and management costs incurred by the National Science Foundation which relate to international participation. Activities which may be carried out by the National Science Foundation's contractors in direct support of United States scientific undertakings are not program costs and will not be funded from commingled accounts.

Salaries, travel and expenses for participants representing The United Kingdom will be borne by The United Kingdom.

Article 9 - CONSULTATION

Meetings of the National Science Foundation and the Natural Environment Research Council representatives may be held at any time upon the request of either party to discuss the terms and conditions of this Memorandum and other matters of mutual interest.

The Embassy of the United States of America presents its compliments to the Ministry of Foreign Affairs of the Republic of Cyprus and has the honor to refer to the discussions which have taken place between representatives of our two governments in connection with the establishment of deepwater ports off the coast of the United States and the jurisdictional requirements of the United States Deepwater Port Act of 1974,^[1] and to confirm that the two governments are in agreement that vessels registered in or flying the flag of Cyprus and the personnel on board such vessels utilizing the Louisiana Offshore Oil Port (LOOP, Inc.), a deepwater port facility established under the Deepwater Port Act of 1974 for the purposes stated therein shall, whenever they may be present within the safety zone of such deepwater port, be subject to the jurisdiction of the United States and Cyprus on the same basis as when in coastal ports of the United States.

It is the understanding of the Government of the United States and of the Government of Cyprus that this agreement shall not apply to vessels registered in or flying the flag of Cyprus merely passing through the safety zone of the Louisiana Offshore Oil Port without calling at or otherwise utilizing the port.

The American Embassy to the Liberian Ministry of Foreign Affairs

No. 86

The Embassy of the United States of America presents its compliments to the Ministry of Foreign Affairs of the Republic of Liberia and has the honor to refer to the provisions of United States law affecting eligibility for United States military assistance and training.

The provisions of the International Security Assistance and Arms Export Control Act of 1976¹] establish new statutory authority for military education and training which heretofore has been furnished by the United States Government as a defense service under its military assistance program. In addition, they prohibit the furnishing of such training unless the recipient country agrees that it will observe certain conditions regarding such training. These conditions are that, without the consent of the United States Government, the recipient country will not permit the use of such services or training by anyone not an officer, employee, or agent of that country; that it will not transfer or permit their transfer by gift, sale, or otherwise; that it will not use them or permit their use for purposes other than those for which furnished; that it will maintain their security; that it will permit continuous observation and review by United States Government representatives regarding their use; and that, unless the United States Government consents to other disposition, it will return them to the United States Government when no longer needed.

In order to implement this law, and to preserve the eligibility of the Government of Liberia for military training thereunder, it is proposed that the Government of Liberia provide the following assurances:

1. That it will not, without the consent of the United States Government
 - (A) Permit any use of services or training, furnished by the United States Government by anyone not an officer, employee, or agent of the Government of Liberia;
 - (B) Transfer or permit any officer, employee, or agent of the Government of Liberia to transfer such services or training by gift, sale, or otherwise; or
 - (C) Use or permit the use of such services or training for purposes other than those for which furnished by the United States Government.
2. That it will maintain the security of such services or training as are furnished by the United States Government; and will provide substantially the same degree of security protection afforded to such services or training by the United States Government.

¹90 Stat. 734; 22 U.S.C. § 2751.

3. That it will permit continuous observation and review by, and furnish necessary information to, representatives of the United States Government with regard to the use of such services or training; and

4. That it will return to the United States Government such services or training materials furnished on a grant basis as are no longer needed for the purposes for which furnished, unless the United States Government consents to other disposition.

It is further proposed that the Ministry's reply stating that the foregoing is acceptable to the Government of Liberia shall, together with this note, constitute an agreement between the Governments on this subject, to be effective from the date of the Ministry's note in reply.

The Embassy of the United States of America takes this opportunity to renew to the Ministry of Foreign Affairs of the Republic of Liberia its assurances of its highest consideration.

Remote Sensing: Landsat System

*Memorandum of understanding signed at Washington and Tokyo
July 5 and August 11, 1983;
Entered into force August 11, 1983.*

MEMORANDUM OF UNDERSTANDING
BETWEEN THE
NATIONAL SPACE DEVELOPMENT AGENCY OF JAPAN
AND THE
UNITED STATES DEPARTMENT OF COMMERCE
NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Section I: Purpose

This agreement, consisting of a main text and one annex, establishes the terms and conditions under which the National Oceanic and Atmospheric Administration (NOAA) of the U.S. Department of Commerce will provide and the National Space Development Agency of Japan (NASDA), established by Law No. 50 of 1969, will receive, process, archive, and distribute data from the U.S. civil land remote sensing satellite program (hereafter referred to as the Landsat system), which is managed by NOAA.

Section II: Undertakings of the Parties

A. NOAA, as manager of the Landsat system, through its National Environmental Satellite, Data, and Information Service (NESDIS), will use its best efforts to provide operational Landsat service for the duration of this agreement and will:

1. Program, as requested by NASDA, the Landsat system Multi-Spectral Scanner to cover areas within the acquisition radius of the NASDA ground station and transmit the data acquired directly to this station. Programming details will be arranged by mutual agreement of the technical representatives responsible for the implementation of this agreement;
2. Program, as requested by NASDA, the Landsat system Thematic Mapper to cover areas within the acquisition radius of the NASDA ground station and transmit the data acquired directly to this station to the extent that such requests can be accommodated by the U.S. National Aeronautics and Space Administration's (NASA)

experimental Thematic Mapper program. Programming details to meet such requests will be arranged by mutual agreement of the technical representatives responsible for implementation of this agreement, based on arrangements between NOAA and NASA;

3. Provide the NASDA ground station with orbital elements for calculating the antenna pointing angles necessary to acquire the Landsat system spacecraft transmitted signal and for processing the data acquired; and
4. Reserve the right to curtail or terminate transmission of data to the NASDA ground station in the event of spacecraft or NOAA ground equipment limitations requiring such actions. In this case, NOAA will notify NASDA and discuss the planned action in the most expeditious manner possible.

B. NASDA, as manager of the ground station, will:

1. Operate a ground station at Hatoyama, Saitama for the reception, processing, archiving and distribution of Landsat data at its own cost, including the cost of establishing and operating the necessary communication links with NOAA's Landsat Operations Control Center located at the NASA Goddard Space Flight Center, Greenbelt, Maryland;
2. Produce Landsat computer compatible tapes and image products in accordance with such formats as may be agreed;
3. Ensure that all Landsat data acquired and archived by the NASDA ground station are available for sale or distribution on a public, non-discriminatory basis. This applies to all Landsat data acquired under this agreement, as well as Landsat data acquired

- under previous Memoranda of Understanding with NASA. Copies of any agreements signed by NASDA concerning the distribution of Landsat data from the NASDA ground station shall be made available to NOAA upon request and shall be consistent with the above provisions;
4. Pay to NOAA the fees contained in Annex I to this Memorandum of Understanding for the direct reception and distribution of all Landsat data acquired and archived after October 1, 1982. However, the distribution fees are payable to NOAA by the agency designated by NASDA;
 5. Provide to NOAA quarterly listings, in an agreed format, of all Landsat data acquired by the NASDA ground station. These catalog listings will be made available publicly through NOAA data facilities;
 6. Use its best efforts, with the cooperation of other Japanese agencies, to ensure that any radio frequency problem occurring in relation to data reception by the NASDA ground station is resolved to the satisfaction of the parties to this Memorandum of Understanding. Questions concerning radio frequency interference by the Landsat system spacecraft raised by parties in third countries will be referred to the U.S. Government and NOAA for reply. NOAA will use the following frequencies for sensor data transmission from the Landsat system spacecraft:

Multi-Spectral Scanner - S-Band (2200 - 2300 MHz) and X-Band
(8025 - 8400 MHz)

Thematic Mapper - X-Band (8025 - 8400 MHz); and

7. Acquire, on a limited basis as/if requested by NOAA and in support of U.S. Government Landsat system program objectives, reasonable quantities of Landsat data in the form of station tapes or high density digital tapes in accordance with such formats as may be agreed. Such requests will be made and the data provided in the framework of mutual cooperative arrangements defined through exchanges of letters between the NOAA Assistant Administrator for Environmental Satellite, Data, and Information Services and the President of NASDA.
- C. It is further understood and agreed that:
 1. NOAA and NASDA will each designate technical representatives to be responsible for implementation of this Memorandum of Understanding. The technical representatives, or their deputies, will participate in the Landsat Ground Station Operations Working Group. This group, chaired by NOAA, will serve as a forum for the exchange of technical and management information among station operators and NOAA. For example, through this group, stations and NOAA may exchange, as mutually agreed, limited numbers of Landsat data tapes and related documentation for the purpose of intercomparison of equipment performance. Supplemental meetings between NASDA and NOAA will be held by mutual agreement;
 2. The ability of NASDA and NOAA to carry out their obligations under this Memorandum of Understanding is subject to relevant laws and regulations of the respective countries and the availability of appropriated funds;

3. NOAA does not warrant the suitability for any purpose of Landsat data, and shall not be liable for any damage or injury brought about by the use of the Landsat system;
4. The NOAA Assistant Administrator for Environmental Satellite, Data, and Information Services and the President of NASDA are authorized to enter into and modify as necessary technical, financial, and management implementing agreements within the guidance specified in this agreement; and
5. NOAA will include with all responses to requests for Landsat data acquired in the NASDA ground station's coverage zone a statement noting that the NASDA ground station should have available more complete data. In the event that NOAA receives requests for specific Landsat scenes, products, or specific information on its holdings, NOAA will supply the data and/or information requested. When the expected coverage of a prospective Landsat ground station overlaps with that of the NASDA Landsat station, NOAA will inform NASDA before finalizing any agreement with the prospective station operator. NOAA will encourage NASDA and the prospective station operator to consult with a view toward reaching a mutually satisfactory understanding on responding to requests for data of the overlapping coverage area.

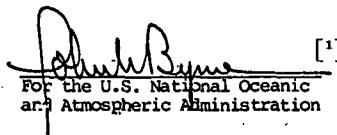

Section III: Entry into Force

- A. This Memorandum of Understanding shall enter into force after signature by both parties and remain in force for a period of three years or until NOAA no longer retains management responsibility for the Landsat system should that occur first. It is understood that this Memorandum

may be extended by mutual agreement of the parties should NOAA's management responsibility for the Landsat system extend beyond the three year period.

- B. In the event that either NOAA or NASDA is unable to comply with the agreed terms and conditions of this Memorandum of Understanding, either party, after consultation with the other, shall have the option of terminating or suspending the activities under this Memorandum, providing that reasonable notification of such action is forwarded in writing by one party to the other.

In addition, no discrimination against any carrier shall be permitted on the basis of its participation or non-participation in such multilateral tariff co-ordination. No Party shall require, as a result of this Understanding, any carrier to refile any fare presently in effect.

- 2) The Parties shall encourage their airlines to make their best efforts to establish a simple, transparent and cost-related tariff structure covering user demands. The Parties shall facilitate these efforts by giving them any support within their legal possibilities.
- 3) Any carrier designated by a Party to this Understanding to operate scheduled transatlantic passenger services may file any fare in respect of such services between its territory and the territory of another Party. The approval of such fares shall be subject to the relevant principles and procedures provided for in the bilateral agreements or arrangements in force between the two Parties (e.g., double approval, country of origin or double disapproval pricing articles) applied as indicated in this Understanding.
- 4) Nothing in this Understanding shall be deemed to affect in any way the treatment by Parties, under existing bilateral agreements or arrangements, of fares intended to match fares in effect between the territories of the Parties.

ARTICLE 3
PRICING ZONES AND PROCEDURES

- 1) In applying the provisions of the relevant bilateral air service agreements or arrangements, the Parties shall, during the period this Understanding is in force, approve or, as the case may be, refrain from notifying dissatisfaction with, specified fares filed by the carrier of another Party in accordance with Article 2,3) within specified pricing zones constructed as set out in Annex II.

- 2) Any fare filed above or below the zone referred to in paragraph 1) above for the fare-type in question, or not corresponding to one of the definitions set out in Article 1,d),i), ii), iii) and iv), shall continue to be subject to tariff arrangements under the applicable bilateral air service agreements or arrangements. In this connection, each Party shall consider the views of the Tariff Working Group in any report transmitted pursuant to Article 7.2),c) and, with due regard to those views, exercise its best efforts, consistent with its rights and obligations under applicable bilateral agreements or arrangements, to ensure that fares offered for travel to and from its territory are consistent with sound commercial considerations and the need for a functioning, coherent, and stabilized air transport system.

ARTICLE 4
TARIFF FILINGS

- 1) All fares outside the agreed pricing zones shall continue to be filed with the relevant aeronautical authorities with the period of notice specified in the applicable bilateral air service agreements or arrangements. Where no notice is specified in the applicable bilateral air service agreements or arrangements, and for all filings within the agreed pricing zones, fares shall be so filed not less than 30 days prior to their proposed effective date, except in the case of matching filings, where filings on shorter notice shall be accepted, and in other special circumstances, where filings on shorter notice may be accepted.
- 2) If a Party intends to disapprove a fare it shall give notification not later than 15 days before its effective date.

ARTICLE 5CENTRAL AGENCY FOR FARE INFORMATION

- 1) The Parties shall give common consideration to the value and feasibility of a central agency dealing with information on the fares approved by the Parties to this Understanding.
- 2) The above shall involve consideration of the following and of any other relevant factors:
 - a) the possibility of collecting and recording together, for all carriers performing services between the United States and other Parties to this Understanding, all such fares and the conditions for their application as are approved by the Parties concerned;
 - b) the possibility of rapid access by any airline or government concerned to the data so collected; and
 - c) evaluation of the cost of setting up, operating and using the central agency.

ARTICLE 6WORKING GROUP

During the time this Understanding is in force, the Parties shall appoint a working group composed of representatives of the Parties, of ECAC States not parties to this Understanding if they so wish, and of other governments as the Parties may agree. The working group shall review the functioning of this Understanding and shall draft a permanent agreement for consideration by the Parties, considering also the question of including cargo and non-scheduled passenger services.

ARTICLE 7TARIFF WORKING GROUP

- 1) A Tariff Working Group shall be composed of representatives from the United States and not more than 2 from each other Party and shall meet at the initiative of any Party and in any case not less than once in each period of six months.
- 2) The Tariff Working Group shall:
 - a) if any Party registers a preliminary view that the fare in question may be below costs and/or disruptive, examine any fare approved, under Article 3,2) above, outside the zone in Article 3,1) for the fare-type in question;
 - b) consider any other questions relating to fares which have arisen under the Understanding; and
 - c) report to the Parties on a) and b) above.

FINAL CLAUSESARTICLE 8

This Understanding shall terminate six months after the date of its entry into force (unless renewed) or upon the coming into force of a permanent agreement on North Atlantic scheduled service pricing, whichever occurs earlier.

ARTICLE 9

- 1) The undersigned delegates, by affixing their signatures to this Understanding, if confirmed by subsequent notification to the ECAC Secretariat not later than 15 June 1982,^[1] commit their aeronautical authorities to administer their responsibilities in conformity with the provisions of this Understanding.
- 2) This Understanding shall enter into force on 1 July 1982.^[1]
- 3) This Understanding shall be open for signature at the ECAC Secretariat by the aeronautical authorities of other ECAC Member States subject to acceptance, by all Parties to this Understanding, of the reference fare levels and pricing zones applicable to the routes covered by such new signatures and of any exceptions to the definitions in Annex I.

TIAS 10785

REPLY FROM ECAC TO UNITED STATES EMBASSY NOTE OF 15 JUNE 1982

EC 9/8.4/12 - 201

The Secretariat of the European Civil Aviation Conference presents its compliments to the Embassy of the United States of America and has the honour to refer to the Embassy's Note No.126 dated 15 June 1982 requesting amendment of Article 9 of the Memorandum of Understanding concerning Scheduled Transatlantic Passenger Air Services tentatively agreed at Washington, D.C. on 2 May 1982.

The ECAC Secretariat has communicated this request to ECAC Member States. Those Member States whose aeronautical authorities have confirmed their signatures to the referenced Memorandum have indicated that, although the delay involved is viewed with regret and reluctance, the United States request is acceptable to them. It is accordingly agreed that Article 9 of the Memorandum be amended to extend to 15 July 1982 the period for confirmation of signatures and to change the date for entry into force of the Memorandum to 1 August 1982.

In accepting the United States request, the ECAC Member States concerned have asked the ECAC Secretariat to convey to the United States that, as the situation has not changed significantly since the Memorandum was signed on a provisional basis on behalf of the United States on 2 May 1982, those ECAC Member States which have confirmed their signatures would find it very difficult to understand if the United States, at such a late stage, were not to confirm its signature.

The Secretariat of the European Civil Aviation Conference takes this opportunity to renew to the Embassy of the United States of America the assurance of its highest consideration.

ANNEX IICONSTRUCTION OF PRICING ZONES

For the purposes of Article 3,1) of this Understanding, pricing zones shall be constructed by applying to the appropriate reference fare level (extracted from Table 1 in this Annex) the percentage ranges of the appropriate zone structure drawn from Table 2 in this Annex .

Such construction shall take into account the following:

- i) the route for which a pricing zone is to be constructed;
- ii) whether travel is US-originating or Europe-originating;
- iii) the applicable period (i.e. basic, shoulder, peak, peak of peak or all-year);
- iv) the fare class (i.e. first (A1), business (A2), economy (B), discount (C1) or deep discount (C2));
- v) the fare type (i.e. one-way or roundtrip); and

ANNEXE IICONSTRUCTION DES ZONES TARIFAIRES

Aux fins de l'Article 3,1) de la présente Entente, des zones tarifaires seront construites en appliquant aux tarifs de référence appropriés (tirés du Tableau 1 de la présente Annexe) les pourcentages limites de la structure de zone appropriée, tirées du Tableau 2 de la présente Annexe.

Cette construction prendra en considération les facteurs ci-après:

- i) la route pour laquelle une zone tarifaire doit être construite;
- ii) la question de savoir si le voyage est au départ des Etats-Unis ou au départ de l'Europe ("origine Etats-Unis" ou "origine Europe");
- iii) la période d'application (à savoir, période de base, intermédiaire, de pointe, de super-pointe ou toute l'année);
- iv) la classe de tarif (à savoir: première (A1), affaires (A2), économie (B), réduit (C1) ou très réduit (C2));
- v) le type de tarif (à savoir: aller simple ou aller-retour); et

vi) the relevant notes to Tables 1 and 2 in this Annex.

vi)les notes pertinentes aux Tableaux 1 et 2 dans la présente Annexe.

GENERAL NOTES

A number of ECAC delegations asked about the treatment of discount fares whose levels fall above the boundary between two zones but whose conditions qualify them for inclusion in the lower of the two zones. The United States stated that if, as a consequence of the establishment of reference fares and zones, an existing fare previously in the lower zone now falls in the higher zone, that fare will still be approved. This is consistent with United States policy on discount fare flexibility as applied in the past. For example, with B and C1 zones of 80-120% and 70-80% respectively, a discount fare qualifying, in terms of conditions, for inclusion in zone C1 will be automatically approved at any level above 70% of the reference fare.

NOTES GENERALES

Un certain nombre de délégations de la CEAC ont demandé des renseignements sur le traitement des tarifs réduits dont le niveau tombe au-dessus de la limite entre deux zones mais dont les conditions les qualifient pour l'inclusion dans la plus basse des deux zones. Les Etats-Unis ont déclaré que si, à la suite de l'adoption de tarifs de référence et de zones, un tarif existant, situé antérieurement dans la zone la plus basse, tombe maintenant dans la zone la plus haute, ce tarif sera encore approuvé. Cette attitude est conforme à la politique des Etats-Unis en matière de flexibilité des tarifs réduits, telle qu'elle a été appliquée dans le passé. Par exemple, avec des zones B et C1 de 80-120% et 70-80% respectivement, un tarif réduit ayant droit, en termes de conditions, à être inclus dans la zone C1 sera automatiquement approuvé à tous niveaux supérieurs à 70% du tarif de référence.

The Parties did not foresee the need for adjustment to the agreed reference fare levels during the 9-month effectiveness of the Understanding. It was understood that the question of periodic adjustment to such levels would be discussed in the context of the possible renewal of the Understanding under Article 8 and/or in the context of the drafting of a permanent agreement as contemplated in Articles 6 and 8.

Les Parties n'ont pas jugé nécessaire de prévoir des ajustements des niveaux de référence approuvés pendant les 9 mois de la période de validité de l'Entente. Il a été entendu que la question d'un ajustement périodique de ces niveaux serait examinée dans le contexte de la reconduction possible de l'Entente au titre de l'Article 8 et/ou dans le contexte d'un projet d'accord permanent ainsi que prévu aux Articles 6 et 8.

- 1) Reference fare levels in basic, shoulder and peak columns relate to roundtrip travel. One-way reference fare levels are established, where required, by halving the corresponding roundtrip level.
- "United States-originating" relates to travel whose starting point, on the ticket, is in the United States. Eastbound zone structures shall apply to such United States-originating travel. "Europe-originating" relates to travel whose starting point, on the ticket, is in Europe. Westbound zone structures shall apply to such Europe-originating travel.
- 2) See Table 2 and Notes thereto for zone structure to be applied for the route in question.
- 1) To be established on the basis of US-originating reference fare levels by means of current airline conversion system through currency factors.
- 1) To be established on the basis of US-originating reference fare levels and banker's buying rates.
- 1) Les tarifs de référence dans les colonnes période de base, intermédiaire et de pointe concernent le voyage aller-retour. Les tarifs de référence dans un sens sont établis, en cas de nécessité, en prenant la moitié du tarif aller-retour correspondant.

Attachment 1

Amendments to the U.S./E.C.A.C. Memorandum of Understanding signed on December 17, 1982 (entered into force February 1, 1983)

be construed as meaning that, under the Protocol, the United States undertakes under Article 2, 1) to permit multilateral carrier tariff coordination without the application of the current practices and procedures of the United States' aeronautical authorities. If the United States ceases to be bound to the Protocol after April 30, 1984 pursuant to the operation of Article 7, the United States nevertheless undertakes to permit the continuation, through October 31, 1984, of multilateral carrier tariff coordination authorized by the United States' aeronautical authorities prior to May 1, 1984.

déoulant du paragraphe 1 de l'Article 2, la signature du présent Protocole par les Etats-Unis ne devrait pas être comprise comme signifiant que, aux termes du présent Protocole, les Etats-Unis s'engagent, aux termes du paragraphe 1 de l'Article 2, à autoriser la coordination tarifaire multilatérale sans que soient suivies les pratiques et procédures actuelles des autorités aéronautiques des Etats-Unis. Si les Etats-Unis cessent d'être liés après le 30 avril 1984 par le Protocole, suivant l'application de l'Article 7, les Etats-Unis s'engagent néanmoins à autoriser la continuation jusqu' au 31 octobre 1984 inclusivement de la coordination tarifaire multilatérale autorisée antérieurement au 1er mai 1984 par les autorités aéronautiques des Etats-Unis.

ANNEX IICONSTRUCTION OF PRICING ZONES

For the purposes of Article 3,1) of this Understanding, pricing zones shall be constructed by applying to the appropriate reference fare level (extracted from Table 1 in this Annex) the percentage ranges of the appropriate zone structure drawn from Table 2 in this Annex .

Such construction shall take into account the following:

- i) the route for which a pricing zone is to be constructed;
- ii) whether travel is US-originating or Europe-originating;
- iii) the applicable period (i.e. basic, shoulder, peak, peak of peak or all-year);
- iv) the fare class (i.e. first (A1), business (A2), economy (B), discount (C1) or deep discount (C2));
- v) the fare type (i.e. one-way or roundtrip); and

ANNEXE IICONSTRUCTION DES ZONES TARIFAIRES

Aux fins de l'Article 3,1) de la présente Entente, des zones tarifaires seront construites en appliquant aux tarifs de référence appropriés (tirés du Tableau 1 de la présente Annexe) les pourcentages limites de la structure de zone appropriée, tirées du Tableau 2 de la présente Annexe.

Cette construction prendra en considération les facteurs ci-après:

- i) la route pour laquelle une zone tarifaire doit être construite;
- ii) la question de savoir si le voyage est au départ des Etats-Unis ou au départ de l'Europe ("origine Etats-Unis" ou "origine Europe");
- iii) la période d'application (à savoir, période de base, intermédiaire, de pointe, de super-pointe ou toute l'année);
- iv) la classe de tarif (à savoir: première (A1), affaires (A2), économie (B), réduit (C1) ou très réduit (C2));
- v) le type de tarif (à savoir: aller simple ou aller-retour); et

1 and 2 in this Annex.

Tableaux 1 et 2 dans la présente
Annexe.

GENERAL NOTES

A number of ECAC delegations asked about the treatment of discount fares whose levels fall above the boundary between two zones but whose conditions qualify them for inclusion in the lower of the two zones. The United States stated that if, as a consequence of the establishment of reference fares and zones, an existing fare previously in the lower zone now falls in the higher zone, that fare will still be approved. This is consistent with United States policy on discount fare flexibility as applied in the past. For example, with B and C1 zones of 80-120% and 70-80% respectively, a discount fare qualifying, in terms of conditions, for inclusion in zone C1 will be automatically approved at any level above 70% of the reference fare.

NOTES GENERALES

Un certain nombre de délégations de la CEAC ont demandé des renseignements sur le traitement des tarifs réduits dont le niveau tombe au-dessus de la limite entre deux zones mais dont les conditions les qualifient pour l'inclusion dans la plus basse des deux zones. Les Etats-Unis ont déclaré que si, à la suite de l'adoption de tarifs de référence et de zones, un tarif existant, situé antérieurement dans la zone la plus basse, tombe maintenant dans la zone la plus haute, ce tarif sera encore approuvé. Cette attitude est conforme à la politique des Etats-Unis en matière de flexibilité des tarifs réduits, telle qu'elle a été appliquée dans le passé. Par exemple, avec des zones B et C1 de 80-120% et 70-80% respectivement, un tarif réduit ayant droit, en termes de conditions, à être inclus dans la zone C1 sera automatiquement approuvé à tous niveaux supérieurs à 70% du tarif de référence.

- 1) Reference fare levels in basic, shoulder and peak columns relate to roundtrip travel. One-way reference fare levels are established, where required, by halving the corresponding roundtrip level.

***United States-originating** "relates to travel whose starting point, on the ticket, is in the United States. Eastbound zone structures shall apply to such United States-originating travel. **"Europe-originating"** relates to travel whose starting point, on the ticket, is in Europe. Westbound zone structures shall apply to such Europe-originating travel.
- 2) See Table 2 and Notes thereto for zone structure to be applied for the route in question.
- 3) To be established on the basis of US-originating reference fare levels by means of current airline conversion system through currency factors.
- 4) To be established on the basis of US-originating reference fare levels and banker's buying rates.

NOTES DU TABLEAU 1

- 1) Les tarifs de référence dans les colonnes période de base, intermédiaire et de pointe concernent le voyage aller-retour. Les tarifs de référence dans un sens sont établis, en cas de nécessité, en prenant la moitié du tarif aller-retour correspondant.

"Origine Etats-Unis" correspond à un voyage dont le point de départ mentionné sur le billet, est aux Etats-Unis. Les structures des zones "vers l'Est" s'appliquent à ces voyages "origine Etats-Unis". **"Origine Europe"** correspond à un voyage dont le point de départ mentionné sur le billet est en Europe. Les structures de zones "vers l'ouest" s'appliquent à ces voyages "origine Europe".
- 2) Voir le Tableau 2 et les notes qui s'y rapportent pour la structure de zone à appliquer pour la route en question.
- 3) A établir sur la base des tarifs de référence "Origine - Etats-Unis" au moyen du système actuel de conversion des compagnies aériennes en utilisant des facteurs de change.

*Agreement effected by exchange of notes
Dated at Harare June 2 and September 17, 1981;
Entered into force September 17, 1981.*

The American Embassy to the Zimbabwean Ministry of Foreign Affairs

Salisbury, June 2 1981

No. 36

The Embassy of the United States of America presents its compliments to the Ministry of Foreign Affairs of the Government of Zimbabwe and has the honor to refer to certain requirements of United States law concerning the provision of training related to defense articles under the United States International Military Education and Training (IMET) Program.

The provisions of United States law in question prohibit the furnishing of IMET training related to defense articles unless the recipient country shall have first agreed to observe certain conditions with respect to such training. These conditions are:

1. That the recipient government will not, without the consent of the United States Government--
 - A. Permit any use of such training (including training materials) by anyone not an officer, employee, or agent of the recipient government;
 - B. Transfer or permit any officer, employee, or agent of the recipient government to transfer such training (including training materials) by gift, sale, or otherwise to anyone not an officer, employee, or agent of the recipient government; or
 - C. Use or permit the use of such training (including training materials) for purposes other than those for which furnished by the United States Government;

2. That the recipient country will maintain the security of such training (including training materials) and will provide substantially the same degree of security protection afforded to such training and materials by the United States Government;

3. That the recipient country will permit continuous observation and review by, and furnish necessary information to, representatives of the United States Government with regard to the use of such training (including training materials); and

4. That the recipient country will return to the United States Government such training materials as are no longer needed for the purposes for which furnished, unless the United States Government consents to some other disposition.

Inasmuch as the IMET Program with the Armed Forces of the Government of Zimbabwe may include training related to defense articles with respect to which the agreement of the Government of Zimbabwe to observe the foregoing conditions is required, the Embassy of the United States of America has the honor to propose that this note, together with the note in reply of the Ministry of Foreign Affairs stating that such conditions are acceptable to the Government of Zimbabwe shall constitute an agreement between the two governments on this subject, to be effective from the date of the Ministry's note in reply.

**Scientific Cooperation: Balloon Launching and
Associated Services**

*Memorandum of understanding signed at Washington and Rome
September 2 and 30, 1983;
Entered into force September 30, 1983.*

MEMORANDUM OF UNDERSTANDING
BETWEEN THE
UNITED STATES NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
AND THE
NATIONAL RESEARCH COUNCIL OF ITALY

CONCERNING THE FURNISHING OF
BALLOON LAUNCHING AND ASSOCIATED SERVICES

The National Aeronautics and Space Administration (NASA) and the National Research Council of Italy (CNR) set forth in this Memorandum of Understanding their general understandings: (1) as to the conditions under which NASA will furnish balloon launching and associated services for scientific investigators from Italy on a reimbursable basis, and (2) as to the responsibilities of NASA and CNR in connection with such launchings. At appropriate times in the future, separate launch services arrangements will be entered into by NASA and CNR, which shall express the specific terms and conditions under which NASA will furnish launching and associated services for individual launchings requested by CNR and which shall be in accord with the general understandings set forth in this Memorandum.

Article 1 - NASA Responsibilities

A. NASA will use its best efforts to carry out the following responsibilities:

1. To the maximum extent feasible, schedule the launching within the general time period requested by CNR etc.
2. Provide through the University Corporation for Atmospheric Research (UCAR), or a successor facilities contractor, necessary facilities and services for operations including preparation for launch, tracking, recovery, and data retrieval; administration; and engineering support as mutually agreed.

3. Conduct launch operations, including range safety, Federal Aviation Administration and International Civil Aviation Organization coordination, launch vehicles, ancillary equipment and launch crews.
 4. Furnish technical consultation or additional services in support of specific or general CNR launch requirements as may be mutually agreed.
- B. Where NASA deems it appropriate, these responsibilities will be carried out by UCAR or a successor facilities contractor. Reference herein to UCAR means UCAR or a successor contractor.

Article 2 - CNR Responsibilities

A. CNR will use its best efforts to carry out the following responsibilities:

1. Design, develop and test the payload(s) to be launched under this agreement.
2. Furnish information to NASA on its requirements for a particular launching or series of launchings, at least six months prior to the requested launch date. Such information will include details as to the scientific objectives, payload description, approximate launching dates, flight operations requirements and any other information requested by NASA for planning purposes.
3. Provide a flight-ready payload at the launching range, in accordance with time schedules agreed upon under the launch services arrangement.

B. CNR may designate a University or other appropriate institute in Italy to carry out these responsibilities. Such designation shall be made by CNR in writing as an endorsement to accompany any application for balloon flights under this Memorandum of Understanding.

Article 3 - Launch Site

A. Launchings will normally be conducted from the National Scientific Balloon Facility (NSBF) in Palestine, Texas.

B. In the case of requests for launch services from a site other than NSBF, the request should demonstrate that there is a compelling scientific reason for the flight to be launched at a remote site.

Article 4 - Financial Principles

A. Based upon the information provided by CNR pursuant to Article 2, paragraph A.2., NASA will provide an estimate of the reimbursable charges for the requested balloon launching and associated services.

B. It is understood that in the case of flights originating outside of NSBF, reimbursement will be required for the cost of transporting personnel and equipment, equipment rentals, per diem, overtime, and other out-of-pocket expenses that would not be incurred for launchings from NSBF. When more than one flight is involved at a remote location these costs will be prorated among all investigators on a per-flight basis.

C. CNR agrees to deposit at least one month prior to the requested date of the balloon flight, U.S. dollar funds in the amount of the estimated reimbursable charges in an account at NASA established for that purpose. A late payment penalty of one and one-half (1 1/2) per cent per month or portion thereof will be assessed and added to the amount of any payment not received by NASA by that date.

D. In the event the final cost of the services provided in accordance with this agreement exceeds the funds provided, CNR agrees to provide additional funds as required to meet all obligations which it has incurred within sixty days of notification of the final cost. If on termination of a balloon flight project undertaken pursuant to this agreement there is an unused balance in the account, CNR will provide to NASA instruction for the disposition of such funds.

E. It is understood that the ability of NASA and CNR to carry out their obligations is subject to their respective funding procedures.

Article 5 - Liability

A. NASA and CNR agree that, with respect to injury or damage to persons or property involved in operations undertaken pursuant to this agreement, neither NASA nor CNR, shall make any claim with respect to injury or death of its own or its contractors' or its subcontractors' or other users' employees or damage to its own or its contractors' or its subcontractors' or other users' property caused by activities arising out of or connected with this project, whether such injury, death or damage arises through negligence or otherwise.

B. With regard to third party liability, the following will apply:

1. UCAR has a policy for balloon operations conducted or supervised by UCAR personnel, under which UCAR, the Government of the United States and the user-institution are insured - to the extent of the policy coverage - for legal liability arising from third-party claims. Types of coverage and limits of coverage are as follows:
 - a. For claims involving balloon operations, the amount of coverage is \$100,000,000 excluding damage due to radioactive sources (if any) carried in the balloon payload.
 - b. For claims involving UCAR-operated tracking aircraft, the amount of coverage is at least \$50,000,000.
2. UCAR and the Government of the United States are insured - to the extent of the policy coverage - for legal liability arising out of claims involving UCAR-operated vehicles and general liability hazards. The limits of coverage are \$500,000 bodily injury and \$300,000 property damage. In addition to these limits, UCAR maintains an umbrella policy which provides \$10,000,000 of additional coverage for such claims.
3. UCAR will maintain these policies with respect to all flights conducted or supervised by it pursuant to this Memorandum of Understanding, provided that if any of these policies are cancelled, terminated or otherwise expire, no flights will be undertaken under this Memorandum of Understanding until such time as said policy has been renewed or until substantially similar insurance in like amounts has been obtained.
4. Provided the procedures of paragraph 5, below, have been followed, the CNR agrees to hold UCAR and its employees and agents and the Government of the United States and its employees and agents, harmless and to indemnify them for amounts paid by them as a result of judgments rendered against them or settlements made by them with respect to third-party claims for damage to or loss of property (other than the balloon or scientific payload) or death or injury to persons arising out of activities under this Memorandum of Understanding.

However, no indemnification will be required for such amounts that are paid or payable to UCAR or the Government of the United States under the insurance cited in paragraph 1, above, or such other insurance as may be applicable.

5. In the event any claim, demand, or legal action is brought against UCAR or its employees or agents, or the Government of the United States or its employees or agents, for damages to or loss of property (other than the balloon or scientific payload) or for death or injury to persons arising out of activities under this Memorandum of Understanding, the CNR will be promptly notified. If the amount claimed exceeds or might exceed the coverage of the policies cited above, or if the claim might not be within the coverage of the policies cited above, or if the claim might not be within the coverage of any of said policies, (i) no settlements in excess of the insurance coverage or which would not be covered by any of said insurance policies will be made without the concurrence of CNR, and (ii) CNR, to the extent practical, will be allowed to participate in the defense of any legal actions.

Article 6 - Patent and Data Rights

A. NASA will not acquire, as a result of the launch and associated services provided under this Agreement, any rights to the CNR's or its scientific investigators' inventions or patents which may be used in or result from the payload, or any rights to their proprietary data. NASA considers any data derived from the payload (including data reduction and analysis) by NASA in carrying out the launch and associated services to be the property of the CNR and/or its scientific investigators, and in order to protect any intellectual property rights therein, NASA will deliver said data to the CNR or its representative, as promptly as possible following its receipt (and processing if necessary) by NASA.

B. Notwithstanding the provisions of A. above, it is to be understood that the information to be furnished to NASA under paragraph A 2. of Article 2 in order to facilitate the launching and associated services is to be provided without use and disclosure restrictions.

Article 7 - Public Information

NASA and CNR may release information covering their own portions of the project. If the participation of the other is involved, the parties shall consult prior to release of information. Disclosure or withholding of information by NASA is subject to domestic law.

Article 8 - Amendments

Amendments to this Memorandum of Understanding shall be by written agreement.

Article 9 - Entry into Force and Termination

This agreement shall enter into force on the date of signature thereof and shall remain in force until terminated by either party. This Memorandum of Understanding may be terminated by either party upon the furnishing of thirty (30) days advance written notice to the other party.

Upon termination, CNR agrees to pay all costs incurred up to the point of termination and if termination is by CNR, the costs resulting from the termination.

- b) If made or conceived by a Party or its contractors as a direct result of employing information which has been communicated to it under this MOA by the other Party or its contractors communicated during seminars or other joint meetings, the Party making the invention shall acquire all right, title and interest in and to such invention or discovery in all countries, subject to a grant to the other Party of a royalty-free, nonexclusive, irrevocable license with the right to grant sublicenses in and to any such invention or discovery and any patent application, patent or other protection relating thereto, in all countries for use in fast breeder reactor programs and facilities.
- c) With regard to other specific forms of cooperation, including loans or exchanges of samples, materials or equipment, the Parties shall provide in a written agreement for appropriate distribution of rights to inventions or discoveries resulting from such cooperation. In general, however, each Party should normally own the rights to such inventions or discoveries in its own country with a nonexclusive, irrevocable, royalty-free license to the other Party with the right to grant sublicenses in and to such invention or discovery for use in fast breeder reactor programs and facilities, and their rights to such inventions or discoveries in other countries should be agreed by the Parties on an equitable basis.

7.2 The preceding paragraph 1 of this Article shall apply mutatis mutandis to design protection.

7.3 Neither Party shall discriminate against citizens of the country of the other Party with respect to granting any licenses or sublicenses under any invention or discovery pursuant to paragraph 1 above. It is understood that the licensing policies and practices of each Party may be affected because of the rights of both Parties to grant licenses within a single country. Accordingly, either Party may request, in regard to a single invention or discovery or class of inventions or discoveries, that the Parties consult in an effort to lessen or eliminate any detrimental effect that the parallel licensing authorities may have on the policies and practices of the Parties.

7.4 Each Party shall assume the responsibility to pay awards or compensation required to be paid to its own nationals according to its own laws. In view of the provisions of Article 35 of the Japanese Patents Act of April 13, 1959, PNC shall, prior to the assignment of any Japanese personnel to a United States facility, secure from the Japanese employer of such personnel, a commitment that the employer agrees to hold the Government of the United States of America and its contractors harmless with respect to any claim of the employee for compensation under Article 35 of the Japanese Patent Act with respect to any inventions within the scope of paragraph 1 hereof, and PNC will pay any remuneration to the inventor under said Article 35.

ARTICLE 8 - ASSOCIATE PARTICIPATION

The Parties recognize the role of Government, utilities and industry in the evaluation of the CRBR and MONJU projects. If the Parties determine that it

TIAS 10796

is useful for such other entities to participate in the activities under this MOA, such participation shall be subject to a specific agreement in writing covering all terms and conditions including patents and information, and shall be subject to the laws and regulations of the countries of the Parties.

ARTICLE 9 - DURATION AND AMENDMENT

9.1 This MOA shall enter into force upon signature by both Parties and shall expire January 31, 1989.

9.2 This MOA may be amended or extended at any time by mutual written agreement of the Parties.

9.3 This MOA may be terminated at any time at the discretion of either Party upon six months' advance notification in writing by the Party seeking to terminate the MOA. Such termination shall be without prejudice to the rights which may have accrued under this MOA to either Party up to the date of such termination.

Remote Sensing: Landsat System

*Memorandum of understanding signed at Washington and Pretoria September 19 and October 19, 1983;
Entered into force October 19, 1983.*

MEMORANDUM OF UNDERSTANDING

BETWEEN THE

SOUTH AFRICAN COUNCIL FOR SCIENTIFIC

AND INDUSTRIAL RESEARCH

AND THE

UNITED STATES DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Section I: Purpose

This agreement, consisting of a main text and one annex, establishes the terms and conditions under which the National Oceanic and Atmospheric Administration (NOAA) of the U.S. Department of Commerce will provide and the South African Council for Scientific and Industrial Research (CSIR) will receive, process, archive, and distribute data from the U.S. civil land remote sensing satellite program (hereafter referred to as the Landsat system), which is managed by NOAA.

Section II: Undertakings of the Parties

- A. NOAA, as manager of the Landsat system, through its National Environmental Satellite, Data, and Information Service (NESDIS), will use its best efforts to provide operational Landsat service for the duration of this agreement and will:
 1. Program, as requested by CSIR, the Landsat system Multi-Spectral Scanner to cover areas within the acquisition radius of the CSIR ground station and transmit the data acquired directly to this station. Programming details will be arranged by mutual agreement of the technical representatives responsible for the implementation of this agreement;
 2. Program, as requested by CSIR, the Landsat system Thematic Mapper to cover areas within the acquisition radius of the CSIR ground station to the extent that such requests can be accommodated by the

U.S. National Aeronautics and Space Administration's (NASA) experimental Thematic Mapper program. Programming details to meet such requests will be arranged by mutual agreement of the technical representatives responsible for implementation of this agreement, based on arrangements between NOAA and NASA;

3. Provide the CSIR ground station with orbital elements for calculating the antenna pointing angles necessary to acquire the Landsat system spacecraft transmitted signal and for processing the data acquired; and
4. Reserve the right to curtail or terminate transmission of data to the CSIR ground station in the event of spacecraft or NOAA ground equipment limitations requiring such actions. In this case, NOAA will notify CSIR and discuss the planned action in the most expeditious manner possible.

B. CSIR, as manager of the ground station, will:

1. Operate a ground station at Hartebeesthoek for the reception, processing, archiving and distribution of Landsat data at its own cost, including the cost of establishing and operating the necessary communication links with NOAA's Landsat Operations Control Center located at the NASA Goddard Space Flight Center, Greenbelt, Maryland;
2. Produce Landsat computer compatible tapes and image products in accordance with such formats as may be agreed;
3. Ensure that all Landsat data acquired by the CSIR ground station are available for sale or distribution on a public, non-discriminatory basis. This applies to all Landsat data acquired under this agreement, as well as Landsat data acquired under previous Memoranda of

Understanding with NASA. Copies of any agreements signed by CSIR concerning the distribution of Landsat data from the CSIR ground station shall be made available to NOAA upon request and shall be consistent with the above provisions;

4. Pay to NOAA the fees contained in Annex I to this Memorandum of Understanding for the direct reception and distribution of all Landsat data acquired and archived after October 1, 1982;
5. Provide to NOAA quarterly listings, in an agreed format, of all Landsat data acquired by the CSIR ground station. These catalog listings will be made available publicly through NOAA data facilities;
6. Use its best efforts to ensure that any radio frequency problem occurring in relation to data reception by the CSIR ground station is resolved to the satisfaction of the parties to this Memorandum of Understanding. Questions concerning radio frequency interference by the Landsat system spacecraft raised by parties in third countries will be referred to the U.S. Government and NOAA for reply. NOAA will use the following frequencies for sensor data transmission from the Landsat system spacecraft:

Multi-Spectral Scanner - S-Band (2200 - 2300 MHz) and
X-Band (8025 - 8400 MHz)

Thematic Mapper - X-Band (8025 - 8400 MHz); and

7. Acquire, by mutual agreement, as/if requested by NOAA and in support of key U.S. Government programs, reasonable quantities of

Landsat data in the form of station tapes or high density digital tapes. Such requests will be made and the data provided in the framework of mutual cooperative support arrangements defined through exchanges of letters between the NOAA Assistant Administrator for Environmental Satellite, Data, and Information Services and the Director of the National Institute for Telecommunications Research of CSIR.

C. It is further understood and agreed that:

1. NOAA and CSIR will each designate technical representatives to be responsible for implementation of this Memorandum of Understanding. The technical representatives, or their deputies, will participate in the Landsat Ground Station Operations Working Group. This group, chaired by NOAA, will serve as a forum for the exchange of technical and management information among station operators and NOAA. For example, through this group, NOAA and CSIR may work together to develop a market strategy for the promotion of Landsat data which will take the interests of both parties into account. Also, stations and NOAA may exchange, as mutually agreed, limited numbers of Landsat data tapes and related documentation for the purpose of intercomparison of equipment performance. Supplemental meetings between CSIR and NOAA will be held by mutual agreement;
2. The obligations of CSIR and NOAA under this Memorandum of Understanding are subject to the national laws and regulations of each party and the availability of appropriated funds;

3. NOAA does not warrant the suitability for any purpose of Landsat data, and shall not be liable for any damage or injury brought about by the use of the Landsat system;
4. The NOAA Assistant Administrator for Environmental Satellite, Data, and Information Services and the Director of the National Institute for Telecommunications Research of CSIR are authorized to enter into and modify as necessary technical, financial, and management implementing agreements within the guidance specified in this agreement; and
5. NOAA will include with all responses to requests for Landsat data acquired in the CSIR ground station's coverage zone a statement noting that the CSIR ground station should have available more complete data. In the event that NOAA receives requests for specific Landsat scenes, products, or specific information on its holdings, NOAA will supply the data and/or information requested. When the expected coverage of a prospective Landsat ground station overlaps with that of the CSIR Landsat station, NOAA will inform CSIR before finalizing any agreement with the prospective station operator. NOAA will encourage CSIR and the prospective station operator to consult with a view toward reaching a mutually satisfactory understanding on responding to requests for data of the overlapping coverage area.

Section III: Entry into Force

- A. This Memorandum of Understanding shall enter into force after signature by both parties and remain in force for a period of three years or

until NOAA no longer retains management responsibility for the Landsat system should that occur first. It is understood that this Memorandum may be extended by mutual agreement of the parties should NOAA's management responsibility for the Landsat system extend beyond the three-year period.

- B. In the event that either NOAA or CSIR is unable to comply with the agreed terms and conditions of this Memorandum of Understanding, either party, after consultation with the other, shall have the option of terminating or suspending the activities under this Memorandum, providing that reasonable notification of such action is forwarded in writing by one party to the other.

**PHOSPHORUS LOAD REDUCTION
SUPPLEMENT TO ANNEX 3 OF THE 1978 AGREEMENT
BETWEEN THE UNITED STATES OF AMERICA
AND CANADA ON GREAT LAKES WATER QUALITY**

1. The purpose of this Supplement is to outline measures to fulfill the commitments undertaken pursuant to paragraph 3 of Annex 3 of the 1978 Great Lakes Water Quality Agreement which requires that:

"...The Parties, in cooperation with the State and Provincial Governments, shall within eighteen months after the date of entry into force of this Agreement confirm the future phosphorus loads, and based on these establish load allocations and compliance schedules, taking into account the recommendations of the International Joint Commission arising from the Pollution from Land Use Activities Reference..."

Phosphorus Target Loads

2. Table 1 establishes the recommended phosphorus target loads which represent planning guides for the Parties. Table 1 replaces the table contained in paragraph 3 of Annex 3 of the 1978 Great Lakes Water Quality Agreement (GLWQA).

Table 1

| Basin | Phosphorus Target Loads (metric tonnes per year) |
|-----------------|---|
| Lake Superior | (see Section 3 (b) below) |
| Lake Michigan | " |
| Main Lake Huron | " |
| Georgian Bay | " |
| North Channel | " |
| Saginaw Bay | 440 (Note 1) |
| Lake Erie | 11000 (Note 2) |
| Lake Ontario | 7000 (Note 2) |

Note 1 Target load designed to alleviate drinking water taste and odour problems.

Note 2 Target loads proposed to meet ecosystem objectives in Annex 3. The allocation of the phosphorus target loads between the two countries shall be consistent with the equal rights of both Parties in the use of their boundary waters.

3. Phosphorus Load Reductions

(a) Lower Lakes:

Table 2 summarizes the estimated phosphorus loadings that will be discharged to the Lower Lakes basins when all municipal waste treatment facilities over one million gallons per day achieve compliance with the 1 milligram per litre (1 mg/l) effluent concentration (on a monthly average basis) as required by Article VI, 1(a) of the 1978 GLWQA. The table also shows the further reductions required to meet the Phosphorus Target Loads.

Table 2

Phosphorus Load Reduction Targets - metric tonnes per year

| Basin | Estimated Loadings at 1 mg/l (Note 1) | Phosphorus Target Load | Estimates of Further Reductions Required |
|--------------|---|------------------------|--|
| Lake Erie | 13,000 | 11,000 | 2,000 |
| Lake Ontario | 8,210 | 7,000 | 1,210 |

(b) Upper Lakes:

Load reductions for the Upper Lakes will be accomplished by achieving the 1 mg/l phosphorus effluent concentration (on a monthly average) at municipal waste treatment facilities discharging more than one million gallons per day. The Parties further agree to maintain the present oligotrophic state of the open waters and relative algal biomass of Lakes Superior and Huron. In addition, the United States agrees to undertake efforts to achieve the substantial elimination of algal nuisance growths in Lake Michigan. Further measures will be implemented as required for Saginaw Bay, various localized nearshore problem areas and Green Bay.

(c) Table 3 presents the distribution of further reductions in phosphorus loading required for Lake Erie (in metric tonnes/year) in order to achieve the estimated target loads. These figures will be used by the Parties in the development of detailed plans for achieving further phosphorus reductions as described in 4(a) and (b) below.

Note 1 Estimated loading when all municipal waste treatment facilities over one million gallons/day achieve 1 mg/l phosphorus effluent target levels.

Allocation of reductions to meet target loads
for Lake Erie as shown in Table 1

| Canada | U.S. | Total |
|--------|------|-------|
| 300 | 1700 | 2000 |

- (d) For Lake Ontario, the Parties, in cooperation and full consultation with State and Provincial governments, agree to review the measures to achieve further phosphorus reductions in this Basin and will, within one year, meet to allocate the further phosphorus reductions between the Parties. Plans to achieve the required reductions set out in Table 2 will be developed using these figures in accordance with the procedures described in 4(a) and (b) below.

4. Phosphorus Load Reduction Plans

- (a) Phosphorus load reduction plans will be developed and implemented by the Parties in cooperation and full consultation with State and Provincial governments to achieve the phosphorus reductions for Lakes Erie and Ontario described in Table 2. The plans will include phosphorus control programs and other measures as outlined in Section 5 and will describe any additional measures which will be undertaken to evaluate and review progress in achieving the phosphorus load reductions. A staged approach, incorporating target dates for achieving further reductions, will be included in the plans to provide the Parties and State and Provincial governments with a framework for implementing and evaluating the effectiveness of controls.
- (b) These detailed plans shall be tabled by the Parties with the International Joint Commission 18 months after agreement on this Supplement to Annex 3. The Parties will provide the Commission with progress reports and annual updates of these plans.

5. Programs and Other Measures

The following phosphorus control programs and measures will be developed and implemented by the Parties in cooperation and full consultation with State and Provincial governments to achieve the required reductions in accordance with the plans developed pursuant to Section 4. The Parties recognize that the responsibility for the control of nonpoint sources is shared between the Parties and the State and Provincial governments.

(a) Municipal Waste Treatment Facilities

- (i) Priority will be given to the continuation and intensification of efforts to ensure that municipal waste treatment facilities discharging more than one million gallons per day achieve an effluent concentration of 1 mg/l total phosphorus on a monthly average.

- (ii) Where necessary, consideration will be given to operating facilities capable of greater phosphorus reduction at higher levels of phosphorus removal than that required in 5(a)(i).
- (iii) Where necessary, municipal waste treatment facilities designed, built, expanded or modified after October 1, 1983 should allow for later modification to provide for greater removal of phosphorus than that required under 5(a)(i).

(b) Detergent Phosphorus Limitation

Priority will be given to continuing efforts to limit phosphorus in household detergents.

(c) Industrial Discharges

Reasonable and practical measures will be undertaken to control industrial sources of phosphorus.

(d) Nonpoint Source Programs and Measures

Priority management areas will be identified and designated for application of urban and agricultural programs and measures which include:

- (i) Urban drainage management control programs where feasible consisting of level 1 measures throughout the Great Lakes Basin; and level 2 measures where necessary to achieve reductions or where local environmental conditions dictate (Note 1); and
- (ii) Agricultural nonpoint source management programs where feasible consisting of level 1 measures throughout the Basin and level 2 measures where necessary to achieve reductions or where local environmental conditions dictate (Note 1).

Note 1 Level 1 nonpoint source control options include:

Agricultural: adoption of management practices such as: animal husbandry control measures, crop residue management, conservation tillage, no-till, winter cover-crops, crop rotation, strip cropping, vegetated buffer strips along stream and ditch banks, and improved fertilizer management practices.

Urban: adoption of management practices such as: erosion controls, use of natural storage capacities and street cleaning.

Level 2 nonpoint source controls include Level 1 plus:

Agricultural: adoption of intensive practices such as: contour plowing, contour strip cropping, contour diversions, tile outlet-terraces, flow control structures, grassed waterways, sedimentation basins and livestock manure storage facilities.

Urban: adoption of practices such as: artificial detention and sedimentation of stormwater and runoff, and reduction of phosphorus in combined sewer overflows.

(e) Research

Pursuant to the provisions of paragraph 2(e) of Annex 3, the Parties will make special efforts to assure that their research activities will be responsive to the Programs and Other Measures described herein.

(f) Monitoring and Surveillance

The Parties will develop and implement surveillance and monitoring measures to determine the progress of the Phosphorus Load Reduction Plans for the Lower Lakes as called for under Section 4 above, and to evaluate efforts taken by the Parties to reduce phosphorus in the Great Lakes Basin. These measures will include an inventory of areas treated, watershed modelling and improved measurement of tributary loadings to the Lower Lakes for the purpose of providing improved nonpoint source loading estimates and the monitoring of mass loadings to the Upper Lakes to maintain or improve the environmental conditions described in Section 3(b).

6. Review

The Parties shall meet no later than December 31, 1988, to review the effectiveness of the programs and measures described herein, and any remaining load reduction measures required to achieve the target loads.

**RÉDUCTION DES APPORTS DE PHOSPHORE
SUPPLÉMENT À L'ANNEXE 3 DE L'ACCORD DE 1978
ENTRE LES ÉTATS-UNIS D'AMÉRIQUE ET LE CANADA
RELATIF À LA QUALITÉ DE L'EAU DANS LES GRANDS LACS**

1. L'objet de ce supplément est d'exposer les mesures destinées à remplir les engagements pris conformément au paragraphe 3 de l'annexe 3 de l'Accord de 1978 relativ à la qualité de l'eau dans les Grands Lacs (l'Accord de 1978), selon lequel,

"Les Parties, en collaboration avec le gouvernement des États et de la Province doivent, dans les dix-huit mois suivant la date d'entrée en vigueur du présent Accord, confirmer quels seront les apports futurs de phosphore, et, d'après ces derniers, établir des limites d'apport et des calendriers d'application, en tenant compte des recommandations de la Commission mixte internationale découlant de son étude de la pollution due à l'utilisation des terres..."

Apports visés de phosphore

2. Le tableau 1 énumère les apports visés de phosphore, recommandés pour que les Parties orientent leur planification. Le tableau 1 remplace celui du paragraphe 3 de l'annexe 3 de l'Accord de 1978 relatif à la qualité de l'eau dans les Grands lacs (l'Accord de 1978).

Note 2 Pour atteindre les objectifs concernant l'écosystème, énumérés à l'annexe 3. La répartition des apports entre les deux pays doit être compatible avec les droits égaux des deux Parties à utiliser leurs eaux limitrophes.

3. Réduction des apports de phosphore

- (a) Pour les lacs de la partie inférieure du bassin des Grands Lacs:

Le Tableau 2 donne les rejets estimatifs de phosphore quand les effluents de toutes les installations municipales de traitement des eaux usées produisent plus d'un million de gallons par jour respecteront la limite de 1 milligramme le litre (1 mg/l), moyenne mensuelle, prescrite à l'article VI, 1a) de l'Accord de 1978. Le tableau donne également les réductions supplémentaires nécessaires pour atteindre les objectifs.

| Lac Érié | 13,000 | 11,000 | 2,000 |
| Lac Ontario | 8,210 | 7,000 | 1,210 |

- (b) Pour les lacs de la partie supérieure du bassin:

Les apports seront réduits quand la concentration en phosphore des effluents des installations municipales de traitement des eaux usées qui en produisent plus d'un million de gallons par jour sera de 1 mg/l, moyenne mensuelle. De plus, les Parties conviennent de maintenir l'oligotrophie actuelle des eaux libres et la biomasse relative des algues dans les lacs Supérieur et Huron. Les Etats-Unis conviennent également d'entreprendre des efforts pour réduire considérablement la prolifération des algues dans le lac Michigan. D'autres mesures seront mises en vigueur, au besoin, dans la baie Saginaw, en divers endroits problèmes localisés près des rives et dans la baie Green.

- (c) Le tableau 3 répartit les réductions supplémentaires (en tonnes métriques/an) afin d'atteindre les apports visés de phosphore dans le lac Érié. Les Parties s'inspireront des chiffres dudit tableau pour élaborer les plans détaillés décrits aux alinéas 4 a) et b) ci-dessous.

Note 1 Apport estimatif quand les effluents de toutes les installations municipales de traitement des eaux usées qui en produisent plus d'un million de gallons par jour atteindront le niveau cible de 1 mg/l de phosphore.

| (d) De concert et d'accord avec les gouvernements des États et de la Province, les Parties conviennent de revoir les mesures destinées à réduire davantage les apports de phosphore dans le lac Ontario et se rencontreront, dans moins d'un an, pour se répartir la tâche entre elles. Les plans pour réaliser les réductions supplémentaires exposées au tableau 2 seront élaborés à partir de ces chiffres, conformément aux modalités des alinéas 4 a) et b) ci-dessous. | | |

Ils incluront des programmes et d'autres mesures, décrits à l'article 5, et décriront toutes les mesures supplémentaires qui seront mises en oeuvre pour contrôler et évaluer les progrès réalisés. Un calendrier de réalisation des réductions supplémentaires sera joint aux plans pour guider les Parties et les gouvernements des États et de la Province dans l'exécution des mesures et l'évaluation de leur efficacité.
- (b) Les Parties doivent déposer ces plans détaillés devant la Commission mixte internationale, 18 mois après qu'elles se seront entendues sur le présent supplément. Elles feront périodiquement rapport à la Commission sur la réalisation et la mise à jour annuelle de ces plans.

5. Programmes et autres mesures

Les Parties élaboreront et mettront en oeuvre les programmes et les mesures de déphosphatation qui suivent, de concert et d'accord avec les gouvernements des États et de la Province pour aboutir aux réductions conformes aux plans établis en vertu de l'article 4. Elles reconnaissent que la responsabilité de la déphosphatation aux sources non ponctuelles est partagée entre les Parties et les gouvernements des États et de la Province.

(a) Installations municipales de traitement de déchets

- (i) La priorité sera accordée à la poursuite et à l'intensification des efforts pour s'assurer que les installations qui rejettent plus d'un million de gallons par jour d'effluents, en abaissent la concentration de phosphore total à 1 mg/l, moyenne mensuelle.

(ii) S'il y a lieu, l'attention portera sur les installations capables d'éliminer davantage de phosphore à des taux de déphosphatation supérieurs à celui qui est exigé au sous-alinéa 5 a)(i).

(iii) S'il y a lieu, les installations conçues, construites, agrandies ou modifiées après le 1er octobre 1983, devraient pouvoir être ultérieurement modifiées de façon à éliminer plus de phosphore que ce qui est exigé au sous-alinéa 5 a)(i).

(b) Limitation du phosphore dans les détergents

La priorité sera accordée aux efforts soutenus pour limiter la quantité de phosphore dans les détergents ménagers.

(c) Rejets industriels

Des mesures raisonnables et pratiques seront prises pour neutraliser les sources industrielles de phosphore.

(d) Programmes et mesures pour les sources non ponctuelles

Les secteurs prioritaires de gestion seront déterminés et désignés pour l'application de programmes et de mesures urbains et ruraux qui comprennent:

- (i) En milieu urbain, des programmes de correction de l'évacuation des eaux comportant des mesures de niveau 1, pour l'ensemble du bassin des Grands Lacs, et des mesures de niveau 2, là où il faut réduire les apports ou là où les conditions d'environnement local l'exigent (Note 1);
- (ii) En milieu rural, des programmes de neutralisation des sources agricoles non ponctuelles, là où c'est faisable, comportant des mesures de niveau 1 pour l'ensemble du bassin et des mesures de niveau 2, là où il faut réduire les apports et là où les conditions d'environnement local l'exigent (Note 1).

(e) Recherche

Conformément aux clauses de l'alinéa 2 e) de l'annexe 3, les Parties feront des efforts particuliers pour s'assurer que leur recherche correspondra aux programmes et aux autres mesures décrits dans le présent supplément.

Note 1 Les mesures de niveau 1 comprennent:

En milieu rural: adoption de techniques de gestion telles que: réglementation des élevages, gestion des résidus de récolte, labours de conservation, travail nul du sol, cultures de couverture d'hiver, assolement, culture en bande, lisières tampons de végétation le long des cours d'eau et des fossés, et emploi à meilleur escient des amendements, par exemple.

En milieu urbain: adoption de techniques de gestion telles que: défense contre l'érosion, utilisation de moyens naturels de stockage et nettoyage des rues.

Les mesures de niveau 2 comprennent celles du niveau 1 plus:

En milieu rural: adoption de techniques intensives telles que: le labour suivant les courbes de niveau et la dérivation des eaux, la culture en bandes suivant les courbes de niveau, le stockage de l'eau sur les terraces dotées de conduits de trop-plein, des ouvrages pour régulariser l'écoulement, le gazonnement des chenaux, des bassins de sémination et des installations pour emmagasiner le fumier, par exemple.

En milieu urbain: adoption de techniques telles que: retenue et décantation des eaux de pluie dans des ouvrages à cette fin et de ruissellement, déphostation du trop-plein des égouts unitaires.

(f) Contrôle et surveillance

Les Parties mettront au point et appliqueront des mesures de surveillance et de contrôle pour mesurer les progrès des plans de réduction des apports de phosphore dans les lacs de la partie inférieure du bassin des Grands Lacs, prévus à l'article 4 ci-dessus et pour évaluer leurs efforts en vue de réduire le phosphore dans tout le bassin. Ces mesures comprendront un inventaire des régions affectées, la modélisation de la ligne de partage des eaux et des déterminations plus exactes des apports des affluents des lacs de la partie inférieure du bassin pour mieux estimer les apports des sources non ponctuelles et la surveillance des apports massiques dans les lacs de la partie supérieure afin de maintenir ou d'améliorer les conditions environnementales décrites à l'article 3 b).

6. Examen

Les Parties doivent se rencontrer pas plus tard que le 31 décembre 1988 pour examiner l'efficacité des programmes et des mesures décrits ci-dessus et toute réduction qui restera à réaliser pour atteindre les apports visés.

Oceanography: Ocean Drilling

*Memorandum of understanding signed at Washington and Ottawa
October 18 and 19, 1983;
Entered into force October 19, 1983.*

MEMORANDUM OF UNDERSTANDING

Between the National Science Foundation
in Washington, D.C.
for the United States of America

and

The Department of Energy, Mines and Resources
in Ottawa, Ontario
for Canada

on the participation of Canada
in the Ocean Drilling Program
as a Candidate Member

The Ocean Drilling Program (ODP) is a program of scientific ocean drilling designed to improve fundamental understanding of the physical, chemical and biological processes that determine the geological history, structure and evolution of the oceanic lithosphere (sediments and crust). The Ocean Drilling Program is a successor to the Deep Sea Drilling Project, which began in 1968, and the International Phase of Ocean Drilling, which began in 1975. The program will involve a change of the drilling platform from the Glomar Challenger to a larger drillship with at least a limited riser capability.

During the period October 1983 - October 1984, the National Science Foundation intends to award contracts necessary to refit an existing drillship for scientific ocean drilling and for subsequent program operations. During this same period, all regular and candidate member countries will participate in science planning activities to establish the areas of priority for drilling operations. In October 1984, a nine-year program of Ocean Drilling is scheduled to begin.

The Ocean Drilling Program will be conducted by one or more contractors, responsible to the National Science Foundation, who will carry out the functions of science planning, science operations, and vessel operations. The Joint Oceanographic Institutions for Deep Earth Sampling (JOIDES) is the international body responsible for developing scientific plans and providing general scientific direction for the Ocean Drilling Program. The Science Planning Contractor will organize and provide administrative support to JOIDES.

Accordingly, the National Science Foundation and the Department of Energy, Mines and Resources agree to cooperate in the Ocean Drilling Program, as outlined above, in accordance with the following articles:

Article 1 - MEMBERSHIP STATUS

The Department of Energy, Mines and Resources of Canada elects to be a candidate member with rights, privileges, and financial commitments as defined.

Article 2 - OCEAN DRILLING PROGRAM EXTENSION OPTION

The Department of Energy, Mines and Resources endorses, in principle, a ten-year program of Ocean Drilling including the first-year "planning period" followed by a nine-year drilling and coring program. This Memorandum of Understanding ensures Canada's involvement in all scientific planning activities that take place between October 1, 1983, and September 30, 1984. In the event drilling begins later than October 1, 1984, the "planning period" is understood to be extended to cover the resultant interval without any increase in Canadian contributions. At the end of the "planning period", Canada will elect either to become a regular member participant in the Ocean Drilling Program either singly or as a member of a consortium, or to resign from the program.

Article 3 - SCIENTIFIC PLANNING

Scientific planning and direction of the Ocean Drilling Program shall be the responsibility of JOIDES. The Department of Energy, Mines and Resources will be a member of JOIDES, and will be represented on each committee, panel, or working group thereof. International membership and representation in JOIDES is restricted to regular and candidate members, including consortia, but excluding the individual members of consortia. Candidate members will be members of JOIDES during the "planning period". JOIDES shall have the right to comment and advise on the annual program plans and budgets prepared by the contractors, prior to their adoption by the National Science Foundation.

Article 4 - OCEAN DRILLING COUNCIL

Canada will be a member of the Ocean Drilling Council. The members of the Council will be representatives of each country contributing to the support of the Ocean Drilling Program, regardless of whether it is participating as an individual member or as a member of a consortium. Members of the Council and their alternates will be designated by the participating countries. There will be one representative of each participating country, except that additional representation from the United States may be appropriate.

The Council shall serve as a consultative body reviewing financial, managerial, and other matters involving the overall support of the Ocean Drilling Program. The Council shall provide a forum for exchange of views among the contributing countries. No formal voting procedures will be established.

The National Science Foundation representative will serve as permanent Chairman of the Council. A formal agenda will be prepared for each meeting and written records of each meeting will be kept. The National Science Foundation will provide secretariat services to the Council.

The Council will normally meet once each year. The annual meeting shall include a financial report and discussion, an audit report, a review of scientific and technical achievements for the past year, draft program plans and budgets for the coming year, and

other topics of mutual interest. Normally, all regular meetings of the Council will take place in Washington, D.C.

Liaison representatives of prime contractors and important scientific planning entities will be available to the Council.

Article 5 - RIGHT TO MAKE PROPOSALS; DATA PRIVILEGES

The Department of Energy, Mines and Resources will have the right:

- a) to make proposals to JOIDES of scientific projects or objectives of special interest to Canada.
- b) to participate in the analysis, and have access to the data, of geophysical and other site surveys performed in support of the program.

Additional site surveys may be contributed by Canada as its scientific interests and available resources allow. Site surveying will be coordinated by JOIDES.

Article 6 - VISA AND CUSTOMS FACILITATION

The National Science Foundation will facilitate, to the extent feasible, through collaboration with the appropriate authorities, the granting of visas and other forms of official permission for entry to and exit from the United States of personnel, equipment, and supplies when required for participation or utilization in the Ocean Drilling Program.

Article 7 - FINANCIAL CONTRIBUTION

The Department of Energy, Mines and Resources will support the Ocean Drilling Program with a total contribution of United States two hundred thousand dollars (U.S. \$200,000) in cash payable to the National Science Foundation for the "planning period". Should the Ocean Drilling Program be terminated before September 30, 1984, Canada will be reimbursed on the basis of one-twelfth of its total contribution for each month of curtailment. Should Canada withdraw from the Program, under the provisions of Article 11 below, no refund of contributions will be made.

The financial contributions of all participants will be commingled to support the total program costs. "Program costs" are determined by the National Science Foundation, and are those costs incurred in support of contractors performing functions for joint planning and operations of the Ocean Drilling Program, and program direction and management costs incurred by the National Science Foundation which relate to international participation. Activities which may be carried out by the National Science Foundation's contractors in direct support of United States scientific undertakings are not program costs and will not be funded from commingled accounts.

Article 8 - SALARIES, TRAVEL AND EXPENSES

Salaries, travel and expenses for participants representing Canada will be borne by Canada.

Article 9 - CONSULTATION

Meetings of the National Science Foundation and representatives of the Department of Energy, Mines and Resources may be held at any time upon the request of either party to discuss the terms and conditions of this Memorandum of Understanding and other matters of mutual interest.

Article 10 - AMENDMENTS

Amendments or modifications to this Memorandum of Understanding may be made by written consent of the participating agencies in the form of an Annex.

Article 11 - TERMINATION NOTICE

Obligations arising from this Memorandum of Understanding may be terminated by either party giving the other party written notice at least six months in advance.

Scientific Cooperation: Furnishing of Balloon Launching and Associated Services

*Memorandum of understanding signed at Washington and Ottawa
August 26 and September 9, 1983;
Entered into force September 9, 1983.*

MEMORANDUM OF UNDERSTANDING
BETWEEN THE
UNITED STATES NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
AND THE
NATIONAL RESEARCH COUNCIL OF CANADA

CONCERNING THE FURNISHING OF
BALLOON LAUNCHING AND ASSOCIATED SERVICES

The National Aeronautics and Space Administration (NASA) and the National Research Council of Canada (NRCC) set forth in this Memorandum of Understanding their general understandings: (1) as to the conditions under which NASA will furnish balloon launching and associated services for scientific investigators from Canada on a reimbursable basis, and (2) as to the responsibilities of NASA and NRCC in connection with such launchings. At appropriate times in the future, separate launch services arrangements will be entered into by NASA and NRCC, which shall express the specific terms and conditions under which NASA will furnish launching and associated services for individual launchings requested by NRCC and which shall be in accord with the general understandings set forth in this Memorandum.

Article 1 - NASA Responsibilities

A. NASA will use its best efforts to carry out the following responsibilities:

1. To the maximum extent feasible, schedule the launching within the general time period requested by NRCC.
2. Provide through the University Corporation for Atmospheric Research (UCAR), or a successor facilities contractor, necessary facilities and services for operations including preparation for launch, tracking, recovery, and data retrieval; administration; and engineering support as mutually agreed.

3. Conduct launch operations, including range safety, Federal Aviation Administration and International Civil Aviation Organization coordination, launch vehicles, ancillary equipment and launch crews.
4. Furnish technical consultation or additional services in support of specific or general NRCC launch requirements as may be mutually agreed.

B. Where NASA deems it appropriate, these responsibilities will be carried out by UCAR or a successor facilities contractor. Reference herein to UCAR means UCAR or a successor contractor.

Article 2 - NRCC Responsibilities

A. NRCC will use its best efforts to carry out the following responsibilities:

1. Design, develop and test the payload(s) to be launched under this agreement.
2. Furnish information to NASA on its requirements for a particular launching or series of launchings, at least six months prior to the requested launch date. Such information will include details as to the scientific objectives, payload description, approximate launching dates, flight operations requirements and any other information requested by NASA for planning purposes.
3. Provide a flight-ready payload at the launching range, in accordance with time schedules agreed upon under the launch services arrangement.

B. NRCC may designate a University or other appropriate institute in Canada to carry out these responsibilities. Such designation shall be made by NRCC in writing as an endorsement to accompany any application for balloon flights under this Memorandum of Understanding.

Article 3 - Launch Site

A. Launchings will normally be conducted from the National Scientific Balloon Facility (NSBF) in Palestine, Texas.

B. In the case of requests for launch services from a site other than NSBF, the request should demonstrate that there is a compelling scientific reason for the flight to be launched at a remote site.

Article 4 - Financial Principles

A. Based upon the information provided by NRCC pursuant to Article 2, paragraph A.2., NASA will provide an estimate of the reimbursable charges for the requested balloon launching and associated services.

B. It is understood that in the case of flights originating outside of NSBF, reimbursement will be required for the cost of transporting personnel and equipment, equipment rentals, per diem, overtime, and other out-of-pocket expenses that would not be incurred for launchings from NSBF. When more than one flight is involved at a remote location these costs will be prorated among all investigators on a per-flight basis.

C. NRCC agrees to deposit at least one month prior to the requested date of the balloon flight, U.S. dollar funds in the amount of the estimated reimbursable charges in an account at NASA established for that purpose. A late payment penalty of one and one-half (1 1/2) per cent per month or portion thereof will be assessed and added to the amount of any payment not received by NASA by that date.

D. In the event the final cost of the services provided in accordance with this agreement exceeds the funds provided, NRCC agrees to provide additional funds as required to meet all obligations which it has incurred within sixty days of notification of the final cost. If on termination of a balloon flight project undertaken pursuant to this agreement there is an unused balance in the account, NRCC will provide to NASA instruction for the disposition of such funds.

E. It is understood that the ability of NASA and NRCC to carry out their obligations is subject to their respective funding procedures.

Article 5 - Liability

A. NASA and NRCC agree that, with respect to injury or damage to persons or property involved in operations undertaken pursuant to this agreement, neither NASA nor NRCC, shall make any claim with respect to injury or death of its own or its contractors' or its subcontractors' or other users' employees or damage to its own or its contractors' or its subcontractors' or other users' property caused by activities arising out of or connected with this project, whether such injury, death or damage arises through negligence or otherwise.

B. With regard to third party liability, the following will apply:

1. UCAR has a policy for balloon operations conducted or supervised by UCAR personnel, under which UCAR, the Government of the United States and the user-institution are insured - to the extent of the policy coverage - for legal liability arising from third-party claims. Types of coverage and limits of coverage are as follows:
 - a. For claims involving balloon operations, the amount of coverage is 100,000,000 U.S. dollars excluding damage due to radioactive sources (if any) carried in the balloon payload.
 - b. For claims involving UCAR-operated tracking aircraft, the amount of coverage is at least 50,000,000 U.S. dollars.
2. UCAR and the Government of the United States are insured - to the extent of the policy coverage - for legal liability arising out of claims involving UCAR-operated vehicles and general liability hazards. The limits of coverage are 500,000 U.S. dollars bodily injury and 300,000 U.S. dollars property damage. In addition to these limits, UCAR maintains an umbrella policy which provides 10,000,000 U.S. dollars of additional coverage for such claims.
3. UCAR will maintain these policies with respect to all flights conducted or supervised by it pursuant to this Memorandum of Understanding, provided that if any of these policies are cancelled, terminated or otherwise expire, no flights will be undertaken under this Memorandum of Understanding until such time as said policy has been renewed or until substantially similar insurance in like amounts has been obtained.
4. Provided the procedures of paragraph 5, below, have been followed, the NRCC agrees to hold UCAR and its employees and agents and the Government of the United States and its employees and agents, harmless and to indemnify them for amounts paid by them as a result of judgments rendered against them or settlements made by them with respect to third-party claims for damage to or loss of property (other than the balloon or scientific payload) or death or injury to persons arising out of activities under this Memorandum of Understanding.

However, no indemnification will be required for such amounts that are paid or payable to UCAR or the Government of the United States under the insurance cited in paragraph 1, above, or such other insurance as may be applicable.

5. In the event any claim, demand, or legal action is brought against UCAR or its employees or agents, or the Government of the United States or its employees or agents, for damages to or loss of property (other than the balloon or scientific payload) or for death or injury to persons arising out of activities under this Memorandum of Understanding, the NRCC will be promptly notified. If the amount claimed exceeds or might exceed the coverage of the policies cited above, or if the claim might not be within the coverage of the policies cited above, or if the claim might not be within the coverage of any of said policies, (i) no settlements in excess of the insurance coverage or which would not be covered by any of said insurance policies will be made without the concurrence of NRCC, and (ii) NRCC, to the extent practical, will be allowed to participate in the defense of any legal actions.

Article 6 – Patent and Data Rights

A. NASA will not acquire, as a result of the launch and associated services provided under this Agreement, any rights to the NRCC's or its scientific investigators' inventions or patents which may be used in or result from the payload, or any rights to their proprietary data. NASA considers any data derived from the payload (including data reduction and analysis) by NASA in carrying out the launch and associated services to be the property of the NRCC and/or its scientific investigators, and in order to protect any intellectual property rights therein, NASA will deliver said data to the NRCC or its representative, as promptly as possible following its receipt (and processing if necessary) by NASA.

B. Notwithstanding the provisions of A. above, it is to be understood that the information to be furnished to NASA under paragraph A 2. of Article 2 in order to facilitate the launching and associated services is to be provided without use and disclosure restrictions.

Article 7 - Public Information

NASA and NRCC may release information covering their own portions of the project. If the participation of the other is involved, the parties shall consult prior to release of information. Disclosure or withholding of information by NASA is subject to domestic law.

Article 8 - Amendments

Amendments to this Memorandum of Understanding shall be by written agreement.

Article 9 - Entry into Force and Termination

This agreement shall enter into force on the date of signature thereof and shall remain in force until terminated by either party. This Memorandum of Understanding may be terminated by either party upon the furnishing of thirty (30) days advance written notice to the other party.

Upon termination, NRCC agrees to pay all costs incurred up to the point of termination and if termination is by NRCC, the costs resulting from the termination.

MEMORANDUM OF UNDERSTANDING
BETWEEN THE
UNITED STATES NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
AND THE
DANISH RESEARCH ADMINISTRATION

CONCERNING THE FURNISHING OF
BALLOON LAUNCHING AND ASSOCIATED SERVICES

The National Aeronautics and Space Administration (NASA) and the Danish Research Administration (DF) set forth in this Memorandum of Understanding their general understandings: (1) as to the conditions under which NASA will furnish balloon launching and associated services for scientific investigators from Denmark on a reimbursable basis, and (2) as to the responsibilities of NASA and DF in connection with such launchings. At appropriate times in the future, separate launch services arrangements will be entered into by NASA and DF, which shall express the specific terms and conditions under which NASA will furnish launching and associated services for individual launchings requested by DF and which shall be in accord with the general understandings set forth in this Memorandum.

Article 1 - NASA Responsibilities

A. NASA will use its best efforts to carry out the following responsibilities:

1. To the maximum extent feasible, schedule the launching within the general time period requested by DF.
2. Provide through the University Corporation for Atmospheric Research (UCAR), or a successor facilities contractor, necessary facilities and services for operations including preparation for launch, tracking, recovery, and data retrieval; administration; and engineering support as mutually agreed.

3. Conduct launch operations, including range safety, Federal Aviation Administration and International Civil Aviation Organization coordination, launch vehicles, ancillary equipment and launch crews.
4. Furnish technical consultation or additional services in support of specific or general DF launch requirements as may be mutually agreed.

B. Where NASA deems it appropriate, these responsibilities will be carried out by UCAR or a successor facilities contractor. Reference herein to UCAR means UCAR or a successor contractor.

Article 2 - DF Responsibilities

A. DF will use its best efforts to carry out the following responsibilities:

1. Design, develop and test the payload(s) to be launched under this agreement.
2. Furnish information to NASA on its requirements for a particular launching or series of launchings, at least six months prior to the requested launch date. Such information will include details as to the scientific objectives, payload description, approximate launching dates, flight operations requirements and any other information requested by NASA for planning purposes.
3. Provide a flight-ready payload at the launching range, in accordance with time schedules agreed upon under the launch services arrangement.

B. DF may designate a University or other appropriate institute in Denmark to carry out these responsibilities. Such designation shall be made by DF in writing as an endorsement to accompany any application for balloon flights under this Memorandum of Understanding.

Article 3 - Launch Site

A. Launchings will normally be conducted from the National Scientific Balloon Facility (NSBF) in Palestine, Texas.

B. In the case of requests for launch services from a site other than NSBF, the request should demonstrate that there is a compelling scientific reason for the flight to be launched at a remote site.

Article 4 - Financial Principles

A. Based upon the information provided by DF pursuant to Article 2, paragraph A.2., NASA will provide an estimate of the reimbursable charges for the requested balloon launching and associated services.

B. It is understood that in the case of flights originating outside of NSBF, reimbursement will be required for the cost of transporting personnel and equipment, equipment rentals, per diem, overtime, and other out-of-pocket expenses that would not be incurred for launchings from NSBF. When more than one flight is involved at a remote location these costs will be prorated among all investigators on a per-flight basis.

C. DF agrees to deposit at least one month prior to the requested date of the balloon flight, U.S. dollar funds in the amount of the estimated reimbursable charges in an account at NASA established for that purpose. A late payment penalty of one and one-half (1 1/2) per cent per month or portion thereof will be assessed and added to the amount of any payment not received by NASA by that date.

D. In the event the final cost of the services provided in accordance with this agreement exceeds the funds provided, DF agrees to provide additional funds as required to meet all obligations which it has incurred within sixty days of notification of the final cost. If on termination of a balloon flight project undertaken pursuant to this agreement there is an unused balance in the account, DF will provide to NASA instruction for the disposition of such funds.

E. It is understood that the ability of NASA and DF to carry out their obligations is subject to their respective funding procedures.

Article 5 - Liability

A. NASA and DF agree that, with respect to injury or damage to persons or property involved in operations undertaken pursuant to this agreement, neither NASA nor DF, shall make any claim with respect to injury or death of its own or its contractors' or its subcontractors' or other users' employees or damage to its own or its contractors' or its subcontractors' or other users' property caused by activities arising out of or connected with this project, whether such injury, death or damage arises through negligence or otherwise.

B. With regard to third party liability, the following will apply:

1. UCAR has a policy for balloon operations conducted or supervised by UCAR personnel, under which UCAR, the Government of the United States and the user-institution are insured - to the extent of the policy coverage - for legal liability arising from third-party claims. Types of coverage and limits of coverage are as follows:
 - a. For claims involving balloon operations, the amount of coverage is \$100,000,000 excluding damage due to radioactive sources (if any) carried in the balloon payload.
 - b. For claims involving UCAR-operated tracking aircraft, the amount of coverage is at least \$50,000,000.
2. UCAR and the Government of the United States are insured - to the extent of the policy coverage - for legal liability arising out of claims involving UCAR-operated vehicles and general liability hazards. The limits of coverage are \$500,000 bodily injury and \$300,000 property damage. In addition to these limits, UCAR maintains an umbrella policy which provides \$10,000,000 of additional coverage for such claims.
3. UCAR will maintain these policies with respect to all flights conducted or supervised by it pursuant to this Memorandum of Understanding, provided that if any of these policies are cancelled, terminated or otherwise expire, no flights will be undertaken under this Memorandum of Understanding until such time as said policy has been renewed or until substantially similar insurance in like amounts has been obtained.
4. Provided the procedures of paragraph 5, below, have been followed, the DF agrees to hold UCAR and its employees and agents and the Government of the United States and its employees and agents, harmless and to indemnify them for amounts paid by them as a result of judgments rendered against them or settlements made by them with respect to third-party claims for damage to or loss of property (other than the balloon or scientific payload) or death or injury to persons arising out of activities under this Memorandum of Understanding.

However, no indemnification will be required for such amounts that are paid or payable to UCAR or the Government of the United States under the insurance cited in paragraph 1, above, or such other insurance as may be applicable.

5. In the event any claim, demand, or legal action is brought against UCAR or its employees or agents, or the Government of the United States or its employees or agents, for damages to or loss of property (other than the balloon or scientific payload) or for death or injury to persons arising out of activities under this Memorandum of Understanding, the DF will be promptly notified. If the amount claimed exceeds or might exceed the coverage of the policies cited above, or if the claim might not be within the coverage of the policies cited above, or if the claim might not be within the coverage of any of said policies, (i) no settlements in excess of the insurance coverage or which would not be covered by any of said insurance policies will be made without the concurrence of DF, and (ii) DF, to the extent practical, will be allowed to participate in the defense of any legal actions.

Article 6 - Patent and Data Rights

A. NASA will not acquire, as a result of the launch and associated services provided under this Agreement, any rights to the DF's or its scientific investigators' inventions or patents which may be used in or result from the payload, or any rights to their proprietary data. NASA considers any data derived from the payload (including data reduction and analysis) by NASA in carrying out the launch and associated services to be the property of the DF and/or its scientific investigators, and in order to protect any intellectual property rights therein, NASA will deliver said data to the DF or its representative, as promptly as possible following its receipt (and processing if necessary) by NASA.

Admiral Jonas Corrêa da Costa Sobrinho
Superintendente Nacional da Marinha Mercante
Avenida Rio Branco 115 - 149 andar
Rio de Janeiro, Brazil

Dear Admiral Jonas:

I refer to the agreement between the Government of the United States of America and the Government of the Federative Republic of Brazil contained in the Memorandum of Consultation of March 7, 1970,^[1] and subsequent exchanges of letters between both sides which set forth the arrangements for equal access to the carriage of government-controlled cargoes in the oceanborne U.S./Brazil trade.^[2]

The Government of the United States of America proposes that this agreement be renewed until December 31, 1985. In addition, we propose the following undertakings to accompany the agreement:

- 1 - During the period that this agreement is in force the parties agree to use their best efforts to avoid alterations in their respective laws and regulations concerning controlled cargoes, to ensure that the ratio of these cargoes moving in the bilateral liner trade shall not be increased and exceed the same ratio historically realized during the base period. For purposes of this agreement, the base period shall be calendar years 1981 through 1983 inclusive.
- 2 - The parties agree that all cargo not accounted for under pools duly established in the bilateral trade, with the exception of controlled cargo, shall be open to competition for carriage by all flag vessels of the parties.
- 3 - The parties acknowledge the importance of the active presence of third flag carriers in the bilateral trade as favorable to the efficient flow of commerce. The presence of third flags in the bilateral trade shall be undertaken strictly in accordance with the laws and regulations of both parties.

The flag vessels of third countries shall have access to non-pooled cargo, equivalent to that established in paragraph 2 above, provided the same rights are granted by such third countries to the parties to this agreement.

- 4 - Concerning "crosstrades," each party acknowledges the interest of the other party in securing for its flag vessels a fair opportunity to compete for the carriage of cargo in the liner trades of the other party with third countries.

¹Not printed.

²Exchanges of letters Nov. 17, 1977 and Oct. 30, 1980. TIAS 8981, 9923; 29 UST 2860; 32 UST 4003.

Each party will make its best efforts to avoid taking any action which excludes the vessels of the other party from cargoes which may be available to other crosstraders in its trades with third countries.

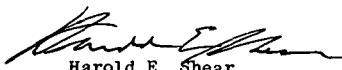

This participation will be undertaken wherever feasible and acceptable, in accordance with the laws, regulations and international agreements of each party.

- 5 - Both parties recognize that rates, services, practices and agreements are essentially matters to be dealt with by the carriers or their conferences. Whenever necessary government actions taken by either party with respect to such rates, services, practices and agreements of common carriers by water or conference of such carriers will be restricted to approval or disapproval in accordance with its laws and regulations for the purpose of maintaining just and reasonable general level of freight rates in the bilateral liner trade, and to avoid unreasonable high or low rates as to be detrimental to bilateral commerce.
- 6 - Each party shall use its best efforts to ensure that firms, enterprises and companies of the other party which engage in shipping services are afforded access to port and harbor facilities and services, particularly with respect to vessels, containers and support equipment, which is at least equivalent to that enjoyed by its own firms, enterprises and companies which are engaged in shipping services.

Furthermore, each party shall use its best efforts to ensure that firms, enterprises and companies of the other party that engage in shipping services are allowed the opportunity to maintain facilities in its territory, including the right to advertise, solicit cargo and exercise other functions, in accordance with the laws and regulations of the host party.

If this proposal is acceptable to the Government of the Federative Republic of Brazil, I wish further to propose that this letter, together with your letter of acceptance, constitute an agreement between our two Governments extending until December 31, 1985, the agreement relating to equal access to ocean carriage of government-controlled cargoes.

Scientific Cooperation: Balloon Launching and Associated Services

*Memorandum of understanding signed at Washington and Paris
August 26 and November 11, 1983;
Entered into force November 11, 1983.*

MEMORANDUM OF UNDERSTANDING
BETWEEN THE
UNITED STATES NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
AND THE
CENTRE NATIONAL D'ETUDES SPATIALES OF FRANCE

CONCERNING THE FURNISHING OF
BALLOON LAUNCHING AND ASSOCIATED SERVICES

The National Aeronautics and Space Administration (NASA) and the Centre National d'Etudes Spatiales (CNES) set forth in this Memorandum of Understanding their general understandings: (1) as to the conditions under which NASA will furnish balloon launching and associated services for scientific investigators from France on a reimbursable basis, and (2) as to the responsibilities of NASA and CNES in connection with such launchings. At appropriate times in the future, separate launch services arrangements will be entered into by NASA and CNES, which shall express the specific terms and conditions under which NASA will furnish launching and associated services for individual launchings requested by CNES and which shall be in accord with the general understandings set forth in this Memorandum.

Article 1 - NASA Responsibilities

A. NASA will use its best efforts to carry out the following responsibilities:

1. To the maximum extent feasible, schedule the launching within the general time period requested by CNES.
2. Provide through the University Corporation for Atmospheric Research (UCAR), or a successor facilities contractor, necessary facilities and services for operations including preparation for launch, tracking, recovery, and data retrieval; administration; and engineering support as mutually agreed.

3. Conduct launch operations, including range safety, Federal Aviation Administration and International Civil Aviation Organization coordination, launch vehicles, ancillary equipment and launch crews.
 4. Furnish technical consultation or additional services in support of specific or general CNES launch requirements as may be mutually agreed.
- B. Where NASA deems it appropriate, these responsibilities will be carried out by UCAR or a successor facilities contractor. Reference herein to UCAR means UCAR or a successor contractor.

Article 2 - CNES Responsibilities

A. CNES will use its best efforts to carry out the following responsibilities:

1. Design, develop and test the payload(s) to be launched under this agreement.
2. Furnish information to NASA on its requirements for a particular launching or series of launchings, at least six months prior to the requested launch date. Such information will include details as to the scientific objectives, payload description, approximate launching dates, flight operations requirements and any other information requested by NASA for planning purposes.
3. Provide a flight-ready payload at the launching range, in accordance with time schedules agreed upon under the launch services arrangement.

B. CNES may designate a University or other appropriate institute in France to carry out these responsibilities. Such designation shall be made by CNES in writing as an endorsement to accompany any application for balloon flights under this Memorandum of Understanding.

Article 3 - Launch Site

A. Launchings will normally be conducted from the National Scientific Balloon Facility (NSBF) in Palestine, Texas.

B. In the case of requests for launch services from a site other than NSBF, the request should demonstrate that there is a compelling scientific reason for the flight to be launched at a remote site.

Article 4 - Financial Principles

A. Based upon the information provided by CNES pursuant to Article 2, paragraph A.2., NASA will provide an estimate of the reimbursable charges for the requested balloon launching and associated services.

B. It is understood that in the case of flights originating outside of NSBF, reimbursement will be required for the cost of transporting personnel and equipment, equipment rentals, per diem, overtime, and other out-of-pocket expenses that would not be incurred for launchings from NSBF. When more than one flight is involved at a remote location these costs will be prorated among all investigators on a per-flight basis.

C. CNES agrees to deposit at least one month prior to the requested date of the balloon flight, U.S. dollar funds in the amount of the estimated reimbursable charges in an account at NASA established for that purpose. A late payment penalty of one and one-half (1 1/2) per cent per month or portion thereof will be assessed and added to the amount of any payment not received by NASA by that date.

D. In the event the final cost of the services provided in accordance with this agreement exceeds the funds provided, CNES agrees to provide additional funds as required to meet all obligations which it has incurred within sixty days of notification of the final cost. If on termination of a balloon flight project undertaken pursuant to this agreement there is an unused balance in the account, CNES will provide to NASA instruction for the disposition of such funds.

E. It is understood that the ability of NASA and CNES to carry out their obligations is subject to their respective funding procedures.

Article 5 - Liability

A. NASA and CNES agree that, with respect to injury or damage to persons or property involved in operations undertaken pursuant to this agreement, neither NASA nor CNES, shall make any claim with respect to injury or death of its own or its contractors' or its subcontractors' or other users' employees or damage to its own or its contractors' or its subcontractors' or other users' property caused by activities arising out of or connected with this project, whether such injury, death or damage arises through negligence or otherwise.

TIAS 10803

B. With regard to third party liability, the following will apply:

1. UCAR has a policy for balloon operations conducted or supervised by UCAR personnel, under which UCAR, the Government of the United States and the user-institution are insured - to the extent of the policy coverage - for legal liability arising from third-party claims. Types of coverage and limits of coverage are as follows:
 - a. For claims involving balloon operations, the amount of coverage is \$100,000,000 excluding damage due to radioactive sources (if any) carried in the balloon payload.
 - b. For claims involving UCAR-operated tracking aircraft, the amount of coverage is at least \$50,000,000.
2. UCAR and the Government of the United States are insured - to the extent of the policy coverage - for legal liability arising out of claims involving UCAR-operated vehicles and general liability hazards. The limits of coverage are \$500,000 bodily injury and \$300,000 property damage. In addition to these limits, UCAR maintains an umbrella policy which provides \$10,000,000 of additional coverage for such claims.
3. UCAR will maintain these policies with respect to all flights conducted or supervised by it pursuant to this Memorandum of Understanding, provided that if any of these policies are cancelled, terminated or otherwise expire, no flights will be undertaken under this Memorandum of Understanding until such time as said policy has been renewed or until substantially similar insurance in like amounts has been obtained.
4. Provided the procedures of paragraph 5, below, have been followed, the CNES agrees to hold UCAR and its employees and agents and the Government of the United States and its employees and agents, harmless and to indemnify them for amounts paid by them as a result of judgments rendered against them or settlements made by them with respect to third-party claims for damage to or loss of property (other than the balloon or scientific payload) or death or injury to persons arising out of activities under this Memorandum of Understanding.

However, no indemnification will be required for such amounts that are paid or payable to UCAR or the Government of the United States under the insurance cited in paragraph 1, above, or such other insurance as may be applicable.

5. In the event any claim, demand, or legal action is brought against UCAR or its employees or agents, or the Government of the United States or its employees or agents, for damages to or loss of property (other than the balloon or scientific payload) or for death or injury to persons arising out of activities under this Memorandum of Understanding, the CNES will be promptly notified. If the amount claimed exceeds or might exceed the coverage of the policies cited above, or if the claim might not be within the coverage of the policies cited above, or if the claim might not be within the coverage of any of said policies, (i) no settlements in excess of the insurance coverage or which would not be covered by any of said insurance policies will be made without the concurrence of CNES, and (ii) CNES, to the extent practical, will be allowed to participate in the defense of any legal actions.

Article 6 - Patent and Data Rights

A. NASA will not acquire, as a result of the launch and associated services provided under this Agreement, any rights to the CNES' or its scientific investigators' inventions or patents which may be used in or result from the payload, or any rights to their proprietary data. NASA considers any data derived from the payload (including data reduction and analysis) by NASA in carrying out the launch and associated services to be the property of the CNES and/or its scientific investigators, and in order to protect any intellectual property rights therein, NASA will deliver said data to the CNES or its representative, as promptly as possible following its receipt (and processing if necessary) by NASA.

B. Notwithstanding the provisions of A. above, it is to be understood that the information to be furnished to NASA under paragraph A 2. of Article 2 in order to facilitate the launching and associated services is to be provided without use and disclosure restrictions.

Article 7 - Public Information

NASA and CNES may release information covering their own portions of the project. If the participation of the other is involved, the parties shall consult prior to release of information. Disclosure or withholding of information by NASA is subject to domestic law.

Article 8 - Amendments

Amendments to this Memorandum of Understanding shall be by written agreement.

Article 9 - Entry into Force and Termination

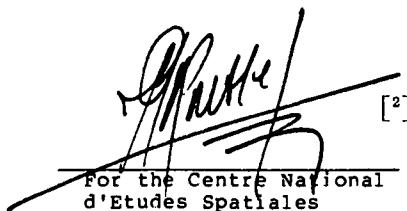

This agreement shall enter into force on the date of signature hereof and shall remain in force until terminated by either party. This Memorandum of Understanding may be terminated by either party upon the furnishing of thirty (30) days advance written notice to the other party.

Upon termination, CNES agrees to pay all costs incurred up to the point of termination and if termination is by CNES, the costs resulting from the termination.

Dans son Accord d'exécution le Ministère de la Défense fera figurer les montants qu'il paiera à la Federal Financing Bank conformément aux contrats de garantie couvrant les contrats entre la Federal Financing Bank et le Sénégal.

 - a) La Dette consolidée afférente à la Dette, s'élevant à environ 2,5 millions de dollars, sera remboursée en dix tranches semestrielles égales et consécutives d'environ 250 000 dollars le 30 septembre et le 31 mars de chaque année, à partir du 30 septembre 1987, la dernière tranche étant exigible le 31 mars 1992.
 - b) Le taux d'intérêt sur la Dette consolidée et sur tous les Intérêts de ladite Dette consolidée arrivés à échéance mais non réglés sera de 7,25 pour cent par année civile sur le solde non réglé desdits paiements dus à l'Agence pour le Développement international en vertu du prêt no 685-HG-001, de 0,75 pour cent par année civile sur le solde non réglé dû à l'Agence pour le Développement international en vertu du prêt no 685-G-001 et de 8,3 pour cent par année civile sur le solde non réglé desdits paiements dus au Ministère de la Défense ou garantis par lui. En ce qui concerne l'Export-Import Bank of the United States le taux d'intérêt sur la Dette consolidée et sur tous les intérêts dus mais non réglés de ladite Dette

tous les intérêts de ladite Dette non consolidée arrivés
à échéance mais non réglés, sera déterminé conformément
au paragraphe 1b), Article III, du présent Accord.
- c) Tous les intérêts payables en ce qui concerne la

3. Il est entendu que des ajustements peuvent être apportés, le
cas échéant, aux montants de la Dette consolidée et de la
Dette non consolidée, par les Accords d'exécution. Ceci
peut, en partie, tenir compte des prêts relatifs à la Dette
pendant la Période de consolidation. Les ajustements devront
être apportés aux remboursements prévus à partir de l'entrée

2. Sauf dans la mesure où elles peuvent être modifiées par le présent Accord ou par les Accords d'exécution ultérieurs, toutes les conditions des Contrats demeurent inchangées.

ARTICLE V
